ASSESSOR'S REPORT.

ASSESSOR'S OFFICE, }
San Francisco, July 14th, 1882. }

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—In compliance with your Resolution No. 15,758 (New Series), I herewith submit my annual report as City and County Assessor for the fiscal year ending June 30th, 1882.

In pursuance of the requirements of law, I had the honor on the first Monday of June last, to deliver to your Honorable Body the Assessment Roll of Personal Property contained in sixteen volumes, amounting to fifty millions three hundred and ninety-six thousand seven hundred and twelve (\$50,396,712) dollars.

On the first Monday of July, I also delivered to you the Real Estate Roll contained in forty-seven volumes, and including improvements amounting to one hundred and fifty-one millions nine hundred and thirty thousand seven hundred and two (\$151,930,702) dollars.

I also had the honor to deliver to your Honorable Body two volumes for opening Montgomery Avenue, one volume containing assessments for the payment of principal and interest on Dupont Street Bonds, four volumes of alphabetical index, and forty-eight volumes of Block Books, containing maps of all the Real Estate of the City and County of San Francisco.

I am happy to inform your Honorable Board, that a great saving has been effected in this department for the past fiscal year, for the items of which I beg to refer you to the report of the

Auditor and Treasurer, also for the amount of poll taxes collected.

I also herewith submit for your inspection a copy of my annual report to the Surveyor-General of the State, with the statistics of the mechanical and manufacturing industries of this City and County.

All of which is most respectfully submitted.

ALEXANDER BADLAM,
Assessor City and County of San Francisco.

SUMMARY OF STATISTICS.

ASSESSOR'S OFFICE, }
SAN FRANCISCO, July 14th, 1882. }

To the Hon. John W. Shanklin,

Surveyor-General of the State of California :

SIR—In obedience to the requirements of law, I herewith submit to you my Annual Report of the mechanical and manufacturing industries of this City and County during the year 1881.

All of which is respectfully submitted.

ALEXANDER BADLAM,
City and County Assessor.

Flannels, yards.....	1,000,000
Aggregate value of manufactures.....	\$1,875,000

REPORT

OF THE

KEEPER OF THE CITY CEMETERY.

SAN FRANCISCO, July 15, 1882.

*To the Honorable Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—In compliance with Resolution No. 15,758 (New Series) of your Honorable Body, I hereby beg leave to present my Annual Report for the fiscal year terminating June 30, 1882.

Of the several societies having burial plots in the City Cemetery, there have been interred as follows:

From the six Chinese Companies	569
From Italian M. B. Society... ..	28
From French M. B. Society.....	19
From Red Men Society.....	1
From Christian Chinese Society.....	1
From all sources, indigent dead.....	516
Total interments for the year.....	1,134

Of the indigent dead, six (6) were of African extraction, and sixteen (16) Mongolians.

Disinterments—White, 13; Chinese, 28.

The several societies to whom your Honorable Body has granted burial plots have inclosed their lands with neat fencing. The six Chinese companies have also constructed a good macadam road (the only one in the cemetery) from the entrance of the cemetery to and about their entire grants.

I would respectfully beg leave to suggest that your Honorable Body pass a resolution requiring all other associations having lots in the cemetery to construct roads in like manner. This

suggestion is at the instance of some of the officers of societies, your grantees, who are desirous to have the work done and are willing to join other associations interested in pro rata payment of expense thereof.

The fence surrounding the cemetery is in a state of dilapidation, and needs immediate repair. The fencing (built fifteen years ago) about the graves of the unrecognized dead, removed from the old Yerba Buena Cemetery, is almost entirely rotted away; while the graves of the recognized were never fenced. The entire plot should be fenced.

Section No. 2, now being used for the burial of the indigent dead, is fast filling up, and interments approaching too near the water well and keeper's house. I would, therefore, respectfully recommend that Section No. 11 (one of those set apart for the purpose), as the most available for immediate use, be properly fenced and a roadway constructed thereto—the road to be commenced at the northerly line of the "Chinese road;" thence to the nearest point of Section No. 11, a distance of about 900 feet.

Very respectfully,

A. P. STANYAN,
Keeper City Cemetery.

PUBLIC ADMINISTRATOR'S REPORT.

OFFICE OF THE PUBLIC ADMINISTRATOR, }
 San Francisco, June 30, 1882. }

To the Honorable, the Board of Supervisors
 of the City and County of San Francisco:

GENTLEMEN—In accordance with Resolution No. 15,758 (New Series), I herewith submit to your Honorable Body a report of the estates which have come to my hands as Public Administrator, from the commencement of my term of office, on the 5th day of December, 1881, up to and including the 30th day of June, 1882.

Estate of Louisa Bannister, deceased.

Letters of Administration issued March 24, 1882.	
Money received.....	\$33 00
Total value of estate.....	\$33 00
Debts, claims and expenses paid by Administrator..	33 00
Estate closed.	

Letters of Administration have been granted in the following estates, but no property has been received by the Public Administrator:

Charles F. Kuhl.....	Letters issued	January 17, 1882
Arnott Nash.....	Letters issued	March 22, 1882
Michael Molan.....	Letters issued	April 17, 1882
Antonio Mauletti.....	Letters issued	April 17, 1882
Patrick Daly.....	Letters issued	April 28, 1882
Charles Labrunier.....	Letters issued	May 2, 1882
Julius Leiter.....	Letters issued	May 26, 1882
Christian Kaemenade, etc.....	Letters issued	June 13, 1882

The following is a list of the estates distributed, closed and Administrator discharged:

Estate of John Smyth.
Estate of Casimir S. Reboul, etc.
Estate of Louisa Bannister.
Estate of Richard Borthwick.
Estate of John Massey.

The following estates have been distributed but not closed:

Estate of Luigi Davi.
Estate of Michael McDonald.
Estate of Clarendon L. Phillips.

WALTER M. LEMAN,
Public Administrator.

CORONER'S REPORT.

CORONER'S OFFICE, }
SAN FRANCISCO, July 15, 1882. }

*To the Honorable the Board of Supervisors
of the City and County of San Francisco.*

GENTLEMEN—In compliance with Resolution No. 15,758 (New Series), passed by your Honorable Body, June 5, 1882, requesting a report of the condition of this department of the City Government during the fiscal year ending June 30, 1882, I have the honor to submit the following tables and remarks thereon:

Table No. 1 shows the number of deaths reported for investigation, autopsies performed and inquests held during each month of the year. A comparison of this table with that of last year, will show a large increase in the work performed by this office.

The total number of deaths reported was 406, an average of 33.83 per month, and in number 60 more than the preceding year. Autopsies were held in 201 cases, an average of 16.75 per month, an increase of 26 from last year. The subject of post mortem examinations I have considered of so great importance, as to pay particular attention to that branch of this department, and I will submit a few remarks thereon in the course of my report. There have been 196 inquests held, an increase of 32 from last year, an average of 16.33 per month in contrast with about 13.5 the year previous.

No. 2, Mortuary Table (the key to the table of details). This table shows the cause of death in each case and the nature of the crime charged, if any. Comparing this table with that of the preceding year, we find that the increased number of cases is largely due to accidental deaths, and by referring to table No. 4, the mode of death will be accounted for. Homicides come next on the list to account for the increase; the other causes of death being in about the same proportion as last year.

In Table No. 3 will be found an analysis of the sudden and unexpected deaths from natural causes, classified as to the disease

producing the same, as shown by post mortem examination. One of the causes of death which claimed the largest number of cases was affections of the brain, there being 27, an increase of 11 as compared with the same disease last year. Deaths from aneurism and alcoholism have slightly increased. Heart disease, which claimed the largest number of cases last year, has slightly decreased, there being 27, two less than last year. The large number of deaths from pneumonia, which has been especially mentioned in the two preceding reports, has this year decreased largely, there being less than half the number of cases; the remaining causes of death being about proportionate with last year. As regards the nativity of these cases, Ireland furnished the largest number (40), the United States following with 36, and Germany next with 21. In ages, the largest number are upwards of 50 years. The occupation of these cases covers a great variety of callings, laborers being the most numerous. It has been ascertained that in a large percentage of cases of sudden death, the deceased had been an inmate of one of the various hospitals in this city, and had been discharged apparently cured, only to be found dead or to die suddenly within a short time after leaving the hospital.

Table No. 4—On comparing the number of accidental deaths with that of last year, we find an increase of 41, and note that the increase is due to the excessive number of falls, as compared with last year, there being 18 more than recorded in the preceding report. There is no explanation to be given for this increase in the number of deaths from falls, as there has been no instance where more than one death occurred at one and the same time, and as this is the only year in which such an extraordinary number is noted, there is reason to believe that this will prove to be an exceptional record. There were 33 accidental deaths from drowning, an increase of 10 as compared with last year. Adding to this number, six cases of drowning wherein the manner of death was not determined by the jury (but in all probability was accidental), it may seem large, in fact, is a large percentage of the accidental deaths. When we consider that San Francisco, with its three hundred thousand inhabitants, is so situated that it is more than three-fourths surrounded by water, and that thousands

of men are daily employed upon the bay and along the city front where numerous "man holes" are found in some of the wharves or in the planked streets beneath which the tide ebbs and flows, it is not surprising that there should be a large number of deaths from drowning. There have been 17 deaths caused by being run over by vehicles, horse-cars, cable roads and cars propelled by steam, the same number as last year. In most of these cases, the drivers or engineers were arrested at the time and charged with manslaughter, but in no instance has it been proved upon inquest, that they were any manner to blame for the death. Public justice would be as well subserved if there were more careful inquiry made in such cases to ascertain if there were any culpability before making the arrest. The accidental deaths from gun-shot wounds have been 5, from poison 7, from burning and suffocation in fire 9, an increase in each cause over last year (of gun-shot wounds 3, poison 4, fire 2). As to the birth place of these victims of accident, Ireland as usual takes the lead with 29 cases, this State coming next. As regards age, the larger number of cases were upwards of 50 years; six-sevenths of those born in California were under 20 years. In occupation, laborers are the most numerous, teamsters, seamen and housewives coming next, being respectively in about the same proportion.

Table No. 5—There were thirty cases of homicide during the fiscal year, an increase of seven over last year. There were seventeen murders, four more than in 1880-81. Of the total number of murders, seven were those of Chinese—five males and two females—the murderer in each case being of the same race. During last year there were but three cases of Chinese murders, the victims all being males; the nativity of the remaining cases being: California, 2; Massachusetts, 2; South Carolina, 1; Ireland, 2; Italy, 2; and Germany, 1. Of these 10 victims, 6 were males and 4 were females. Of the 9 cases of manslaughter—all of whom were males—Ireland was the birthplace of 4, while New York, Illinois, Mexico, Germany and Norway claimed 1 each. There were five cases of manslaughter last year. There were four cases of justifiable homicide, one less than last year. The nativity of those cases were one each for Massachusetts, New York, Germany and Ireland. Out of the total of thirty

cases of homicide, the weapon used in seventeen cases was the pistol, the knife being used in seven cases.

Table No. 6 shows that the total number of homicides in this city for the last twenty years has been 393. The means used in 177 cases was the pi-tol. To the last number, if we add 304, which is the number of suicides in which the means used was the same, we have a grand total of 481 deaths from pistol-shot wounds during that length of time—a terrible truth connected with the history of San Francisco. This is not all, for there has been quite a number accidentally killed by carelessly handling firearms. If we again refer to the table mentioned, we shall see that the highest per cent. (according to the population) of homicides in any one year since 1862 was in the year 1875, when there was one for every 5,994 inhabitants. In the year 1877 there was one for every 9,917 inhabitants from the pistol alone. Again, the same table will show that the lowest per cent. in any one year since 1862, was in the year 1864, when there was only one for every 20,166 inhabitants, from all means; while in the same year there was only one for every 60,500 inhabitants from pistol-shot wounds. The question would naturally arise in our minds: "Why is it that the highest per cent. of homicides are in the years 1875 and 1877, and the lowest per cent. in 1864?—when at the present time we are surrounded by all of the social, moral and religious influences that are characteristic of a well-governed and Christian community. There are a great number of social and benevolent societies, churches, schools and free libraries, together with many other advantages tending to enlighten and improve the mind, all of which should not only make us happier but also better." The answer is quite plain. There are so many in our midst, and, to a great extent (I am sorry to say) among the youth, who do not consider that their toilet is complete for an evening's walk or a call upon a friend unless they have a revolver hung to their side. Please pardon me if I suggest to your Honorable Body the propriety—yea, even the urgent necessity—of passing an ordinance against the carrying of firearms that will be more stringent than the one in force at the present time. The ordinance should be of such a nature that its violation could be severely punished. It would occa-

sionally be the means of saving a valuable life. In this State for the year 1881 (as far as I have been able to ascertain) there has been one homicide, wherein the weapon used was the pistol, for every 8,558 inhabitants, and one suicide for every 13,694 inhabitants by the same weapon.

Table No. 7—Suicides.—There have been 72 cases, proven to be suicides, during the year, the same number as the foregoing year. Of the total number of cases, 16 were natives of Germany, which country, as usual, has a large proportion; Ireland following with eight; the United States furnishing 18, the remaining cases being about equally divided among the different countries of Europe. The greatest number of these victims were between the ages of 40 and 50 years, the youngest suicide being 15 years of age and the oldest 68. About one-ninth of the whole number were females and nearly half of the number were single persons. Among the great variety of means adopted by the suicide, that of firearms appears to be the favorite, there being 23 during the past year who ended their lives by that means. This would not be the case in many instances were it not the universal habit of men in San Francisco to carry a pistol. There are some good and honorable men who are by nature extremely sensitive and who occasionally meet with a slight disappointment in business; the pistol is at hand in most cases, and in a moment of despondency they send a bullet through their head or heart. The worst feature of this common practice of men carrying firearms is not in the suicide alone, but also in cases of homicide. Under that head I have referred to and given statistics in connection with this abominable practice. The total number of suicides from poison was 28. Among the different drugs more commonly used is strychnia, also opium and its different varieties. You will see by the table on suicides that there have been 13 deaths in this city during the past twelve months from strychnia and eight from opium and its compounds, three from arsenic, two from carbolic acid and one from cyanide potassium. There is a pharmaceutical law in force at the present time which requires all persons that deal out, sell or convey certain drugs (the names of which are given) that are considered poisonous, shall keep a book to use as a register, which shall contain the name of the

person or persons receiving the drug, their residence, the name of the drug, the date when given, etc. As far as learned from investigation in this office, the law has been universally complied with by the druggists of this city. Notwithstanding this, I do not think that it has prevented one single person, while in a fit of delirium or mental despondency from obtaining any of the most deadly compounds known to *Materia Medica*; for any one whose mind is in that condition, being determined to end life, will not hesitate to tell an untruth, if by so doing the desired drug can be obtained. The large amount of gum-opium, laudanum, morphia, strychnia, and other poisons that is left and often found beside the dead body is surprising, which shows that they not only can obtain the amount necessary but any quantity they might ask for. That section in the "Act of Pharmacy regulating the sale of poisonous drugs," should be either altered, amended or annulled, and an Act framed in such a manner that it would be impossible for any person to obtain any drug known in pharmacy as poisonous, unless it be prescribed by a legal practitioner of medicine. A clause could be added, excepting drug merchants and a certain class of manufacturers. It is not merely the loss of the poor suicide's life that should be taken into account, for often a helpless wife and children, or an aged father or mother, are left by him upon whom they depended for support. Of the remaining causes of death, eight chose drowning as a means, two less than last year; six adopted hanging, an increase of two over the preceding year; the knife was resorted to in but four cases, a large decrease from the year previous, when there were 13; each of the following causes claiming one case respectively: asphyxia by charcoal gas, run over by train, strangulation.

In the predisposing causes of suicide, 30 were from pecuniary troubles, an increase of about one-third, as compared with last year. Of this number, 17 were for want of means and eight for the loss of means; of the latter number were three Chinese, the loss being occasioned by gambling, which was also the case of one white. In one case the loss of means was caused by gambling in stocks. The excessive use of alcohol was assigned in 13 cases. Love claimed eight victims, about the same number

as the preceding year. Supposed incurable disease was the cause of six. The above are the most noticeable causes.

Immediate causes.—During the year, the want of means was the immediate cause of 12 suicides, and the loss of means, four. Alcohol victimized 24, a terrible increase as compared with last year, when there were but nine. Temporary insanity and unsound mind was ascribed in nine cases, and positive insanity in three. Supposed incurable disease was assigned in five cases, and physical suffering in two. Love is given as a cause in five cases. Remorse and scolding from a parent each claimed one case, as did financial embarrassment. Fear of punishment and disappointment in business was the immediate cause of two suicides respectively. In one instance the cause was unknown. One of the most common of the immediate and predisposing causes of committing suicide is from the want of means. In many instances, before ending life, the suicide has told a friend, or left a note to the effect that they were penniless and could not obtain employment; that life to them was a continual struggle between hunger and want. This may seem strange in a land where the climate is almost continual spring, where the soil is of the most productive. It shows some of the terrible results of the ordeal through which we are at present passing from the heathen invasion. Supposed incurable disease was the cause of committing suicide in five cases and physical suffering in two. Domestic trouble and disappointment in love furnished two and three cases respectively. Disappointment in business and fear of punishment was the assigned cause in two cases each; the fear in the two latter cases being caused by a crime committed—the one, an assault with a deadly weapon; the other, a breach of trust. Remorse and scolding from parent was the cause in two cases, one respectively. In one case, the immediate cause of committing suicide was unknown. There have been 49 published attempts at suicide during the fiscal year; of these, 29 were males and 20 females, in one case (a female) it being the second attempt within a few days. Two males committed suicide by drowning in the bay whose bodies were not known to have been recovered and are not recorded in any place.

There have been five deaths from unknown causes during the

year, one more than last year. Three of these bodies were recovered from the bay or ocean, and were in such an advanced stage of decomposition that it was impossible to determine the cause of death. Autopsies and a chemical analysis were made in two of the land cases without revealing the cause of death. In the remaining case, the body was so decomposed as to render an autopsy impossible.

Table No. 8—Number of suicides during each month for 20 years.

Table No. 9—Report of unknown dead and description thereof. During the past year the bodies of twelve white male adults, one Chinese adult, and one Chinese and five white infants, were unidentified.

Table No. 10—Schedule showing property found with or upon deceased persons, and the disposition made of the same. It shows the receipt of \$10,297.50 in money, besides mining stocks, jewelry, papers and articles of value, all of which were disposed of as the law directs.

Table No. 11—Expenses incurred in the prosecution of the duties of the office.

In suits against the Sheriff, fees have been collected and paid over to the City and County Treasurer, amounting to \$67.40.

In relation to the subject of autopsies, which are held by the Police Surgeon and the City Physician for the Coroner, I feel it incumbent on me to offer a few suggestions. I am well aware, as the law now stands, no remedy is available. Before entering upon this subject I take great pleasure in saying that the present incumbents (Drs. Stambaugh and Blach) have ever performed their duty at this office with perfect satisfaction. A moment's reflection will suffice to show the impropriety of a surgeon who holds post-mortem examinations almost daily at the Morgue (some of the bodies being in an advanced stage of decomposition), of leaving his work and hastening to the City Receiving Hospital and there proceed to dress fresh wounds. To the medical man any remarks on this subject are unnecessary, but outside of physicians there are but few who have the remotest

idea of the terrible, deadly poison that is in the human body after death. It has been estimated by some medical writers that one-fifth of a drop of virus taken from the body, post mortem, and inoculated into any part of the living body, would be very liable to cause serious results. We will suppose a case, the truth of which (as far as the work is concerned) is verified almost daily. One of our citizens meets with an accident upon the streets and is conveyed to the City Receiving Hospital as quickly as possible. The Police Surgeon is not in, but is at the Morgue holding an autopsy. His hands are completely covered with a deadly poison; he is obliged to leave everything and go in haste to the Receiving Hospital. In washing his hand hurriedly (which he will be obliged to do) is it not likely that a minute particle of that virulent poison will be left on them? He arrives at the hospital and proceeds to dress his patient's wound; his hands come in contact with an abraded surface, or perhaps a deep and incised wound. The wound becomes inoculated. What next? Inflammation sets in, and soon blood poisoning, followed by gangrene, and death. The paltry sum saved by fixing the duties of performing autopsies for the Cononer, on the Police Surgeon, are not worth considering when such terrible results might follow. I will not insult your intelligence by making any comparison between a few dollars that this City and County might save on the one hand, and the loss of a valuable life on the other. Anything that would jeopardize the life of the humblest in our midst, would not only be wicked but inhuman. It might not be improper in connection with this to suggest that when the time comes for the city to draft a new charter, that some provision be made so that a person other than the Police Surgeon should perform autopsies for the Coroner. The separation of duties seems imperative, and it is to be hoped that such a clause will be inserted for the reason heretofore mentioned. Another very good reason why the Police Surgeon should not hold autopsies for the Coroner: In the cases of homicides in many instances the victim does not die at the time the wound is received, but is removed to the City Receiving Hospital. The Police Surgeon must examine and dress his wounds, and as a matter of course he forms an opinion of the case and its probable result, and in many instances it is

impossible to satisfy himself as to the extent of the injury received, should it be a gun-shot or knife wound. However, the result is fatal. Now the law requires that he shall make a post mortem examination on the body that he has treated professionally, and shall pronounce the cause of death. This should not be. There are occasions when the Police Surgeon would undoubtedly be very glad to be excused from the responsibility of passing judgment upon his own work. He must give evidence at the inquest, before the Police Court, and likewise at the final trial in the Superior Court. Then every little thing that might possibly have any bearing upon the case, outside of the victim's wounds, would be dwelt upon. Would it not be far better for a man placed in such a responsible position, to know nothing about the case until called upon to hold an examination after death.

In making this brief report to you, gentlemen, I have tried to avoid anything that would have reference to any one particular case. Not but that there has been during the past twelve months quite a number of cases brought to this office for investigation, that at the time of their occurrence seemed to shock the whole community. All such cases have been well ventilated by the daily journals. To point out any particular case could not be the means of doing any good, but would be instrumental in adding fresh pangs of sorrow to some innocent persons who had unfortunately been connected therewith.

In conclusion, I beg leave to tender my thanks to Deputy Coroners Smith and Groom and to Messenger McCarthy, for the faithful performance of their several duties. I am under obligations to Chief of Police Crowley, the detective and police force, and to Sheriff Sedgwick and deputies, for timely assistance in the discharge of my official duties, and to the public press for the advertisement of the description of unknown dead and those of doubtful identity, besides many other courteous acts. I am also under obligations to your Honorable Body for furnishing all means and facilities for properly conducting this office.

Very respectfully,

F. L. WEEKS, M. D.,
Coroner.

F. L. WEEKS, M. D., Coroner.

REPORT

OF THE

SUPERINTENDENT OF THE HOUSE OF CORRECTION.

HOUSE OF CORRECTION, }
San Francisco, July 1, 1882. }

*To the Honorable the Mayor and Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—I have the honor to herewith submit my annual report of the management of the House of Correction for the fiscal year ending June 30, 1882, in compliance with Resolution No. 15,214 (New Series), as per the following Exhibits:

- "A."--Number of prisoners committed, discharged, etc.
- "B."--Name of offense for which they were committed.
- "C."--By whom committed.
- "D."--Terms of sentence of prisoners committed.
- "E."--Ages of prisoners committed.
- "F."--Nationality of prisoners committed.
- "G."--Occupations of prisoners committed.
- "H."--Religion professed by prisoners committed.
- "I."--Number of prisoners committed more than once.
- "J."--Number of prisoners committed who can read and write.
- "K."--Number of days work done by prisoners, and where.
- "L."--Number of prisoners punished and offenses committed.
- "M."--Expenses of the Institution for the fiscal year 1881-82.
- "N."--Prisoners' Diet Table.
- "O."--General remarks and recommendations.

Very respectfully,

M. W. DAVIS,
Superintendent.

Prisoners confined in cells are allowed two meals per day.

Prisoners who are at work receive three meals per day.

EXHIBIT "O."

The history of this institution during the past year does not differ in a very large degree from that of the previous years. The number of prisoners received and discharged during the year is not greatly at variance with that of last year; with this marked difference, however, that while a larger appropriation enabled the preceding administration to successfully undertake and carry out improvements, I have been constrained to make such changes and repairs as the necessities of the prison demanded, upon a considerably reduced sum.

The excess of the amount expended over the appropriation for the support of the institution, appearing in the financial exhibit, is explained by the facts that the management immediately preceding mine exceeded its appropriation by several hundred dollars, and left this expenditure to be accounted for by me, and also that when I assumed the direction of the institution, I found it in absolute want of the most necessary and indispensable articles of the prison use.

The improvements that have been made were deemed necessary alike to enlarge the conveniences and better the sanitary condition of the prison, and to profitably occupy the time of the prisoners.

The interior of the prison building has been renovated and repainted; the corridors, cells, kitchen and belongings, have, from time to time, received fresh coating of paint and whitewash, and a large number of cells have been refloored.

The flower and kitchen gardens have been kept under constant cultivation, and frequent additions made to the former in the way of rare shrubs and plants. The kitchen garden has regularly supplied a considerable quantity of desirable vegetables.

The roadways and walks have been covered with an excellent quality of beach gravel, which has made the surroundings of the building much more pleasant than heretofore. The stable and surroundings have been greatly improved by macadamizing the roadway thereabout.

The sanitary condition as regards health has been all that could be desired. Its advantageous location, perfect ventilation, and the strictly maintained cleanliness of the building and the inmates afford it a more than ordinary security from contagious and malarial diseases. There has been but one death during the year, and that was caused by a disease which had progressed too far at the time of the prisoner's entrance to permit of any lasting cure.

The conduct of the prisoners has been as good as could be expected; there have been but few flagrant violations of the prison rules, and such as occurred

were promptly punished by close confinement or loss of credits. A strict discipline has been constantly and firmly maintained, and its impartial application to the inmates has produced excellent results. The number of prisoners punished is much smaller, compared with that of former years.

The gangs of prisoners at work on the public highways have been steadily employed in grading the County and Mission roads, and in opening Courtland and Silver avenues. The work on Courtland Avenue has been finished, and the County Road is far advanced towards completion. Each of these thoroughfares has been macadamized with rock taken from the quarries. The repairs in and about the building have been made solely by prisoners, and with skill and thoroughness.

My grateful acknowledgments are due to the Mayor and the Board of Supervisors, and especially to Supervisor Merrill, chairman of the committee on House of Correction, for the great interest he has manifested in the well-being of this institution. I am much indebted to him for many valuable and timely suggestions; also to Dr. Charles Blach, City and County Physician, who has visited the institution regularly and has been at all times ready to answer the calls made upon him.

The officers of the institution have diligently seconded the efforts of the Superintendent to extend its usefulness, and to their laudable spirit I am indebted for the faithful carrying out of the rules for the government of this institution.

Very respectfully,

M. W. DAVIS,
Superintendent House of Correction.

N. B.—Over deposited on Street Department Fund, month of December, 1881, 25 cents.

Inasmuch as the License Office is a very good indicator of the condition of business in the city, it might be well to say here that the slight decrease in the receipts for this fiscal year, as compared with the fiscal year 1880-81, occurred during the first six months of this fiscal year.

The receipts of this office for the six months ending June 30, 1882, are in excess of the receipts for the corresponding six months in 1881.

D. R. McNEILL,
Collector of Licenses.

REPORT

OF THE

CLERK OF THE JUSTICES' COURT.

CLERK'S OFFICE, JUSTICES' COURT,
CITY AND COUNTY OF SAN FRANCISCO, }
July 1, 1882. }

To the Honorable the Board of Supervisors
of the City and County of San Francisco:

GENTLEMEN—In compliance with your Resolution No. 15,758 (New Series), I herewith submit my report of the business transacted in this Court for the fiscal year ending June 30, 1882:

Number of suits instituted for the fiscal year.....	5,844
Number of suits instituted in <i>forma pauperis</i> and included in the above total.....	167
Number of suits instituted for State and City and County taxes, for which no fees have been paid and included in the above total....	1,315
Amount of fees collected and paid into the City and County Treasury..	\$15,924
Amount collected and paid to the County Clerk on appeals, and not included in the above total.....	1,527
Number of appeals taken to the Superior Court.....	509

For expenditures, etc., of this Court, I refer your Honorable Body to the Auditor's books.

Respectfully submitted.

W. E. LAMB,
Clerk Justices' Court.

REPORT OF THE REGISTRAR OF VOTERS.

R. C. AMES,
Gas Inspector.

REPORT
OF THE
ATTORNEY AND COUNSELOR,
FOR THE FISCAL YEAR ENDING JUNE 30, 1882.

OFFICE OF THE CITY AND COUNTY ATTORNEY,)
San Francisco, July 1, 1882. }

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—In compliance with Resolution No. 15,758 (New Series) of your Honorable Body, I hereby respectfully report the condition of the litigation of the City and County of San Francisco during the fiscal year ending June 30, 1882.

SCHEDULE

OF CASES AND MATTERS PENDING IN THE SUPERIOR COURT OF THE CITY AND COUNTY OF SAN FRANCISCO.

DEPARTMENT NO. 1.

William Shiels vs. The City and County of San Francisco—No. 22,485. Late 12th District Court.

Suit to quiet title to premises on the northwest corner of Ninth and Brannan streets.

Ready for trial.

Eugene Lies vs. The City and County of San Francisco—No. 23,849. Late 12th District Court.

Suit for \$8,080.62 on Montgomery Avenue warrants.

Ready for trial.

The City and County of San Francisco vs. William Doolan, Administrator, etc., of Alexander Austin, deceased, Lewis Levison et al—No. 3,177.

Suit for \$50,000 on official bond dated November 25, 1872, for moneys received by said Austin as Tax Collector, as taxes under protest, which were not paid over by him to the City and County.

Liens have been secured on all the property of each defendant.

Pending on demurrer as to some defendants, sustained as to others, and others to be served.

William Alvord vs. Charles Tillson, Tax Collector—No. 3,841.

Suit to prohibit defendant from collecting any taxes founded upon the supplemental assessment roll or tax list for 1880-81.

November 28, 1881, tried and submitted for decision; December 23, 1881, decision rendered, granting judgment for plaintiff; January 13, 1882, filed notice of intention to move for new trial.

It was stipulated that defendant have until 20 days after final determination of action of Hobart vs. Tillson, Tax Collector, etc. (which is a case similar to this, and is now pending in the Supreme Court), in which to serve and file statement on motion for new trial, the object being to have this case abide the result in that case, and thereby save the expense of an appeal.

Same.

The City and County of San Francisco vs. Henry R. Reed et al—No. 12,736.

Late 12th District Court.

Ejectment for city slip lot No. 92.

This case was tried by a jury on February 10, 11, 12 and 13, 1879, and the jury, disagreeing, was discharged.

Ready for trial.

Wm. Schad and Henry Schwerin vs. The City and County of San Francisco—
No. 19,520. Late 12th District Court.

Suit to declare certain water-closets nuisances, and that the same be abated, and for \$5,000 damages.

Ready for trial.

Eliza Cameron vs. The City and County of San Francisco—No. 4,897.

Action for \$5,000 damages sustained by plaintiff through unskillful and careless manner in which sewer was constructed, causing water, filth, etc., to flow upon plaintiff's premises, corner of Fourteenth and Folsom streets, and for costs.

Action commenced August 11, 1881. February 15, 1881, case tried before a jury, and verdict rendered in favor of plaintiff for \$1,800, April 26, 1882, defendant's motion for a new trial granted.

Isaac Fish vs. H. Brickwedel, Auditor, etc.—No. 5,821.

Mandamus to compel H. Brickwedel to audit, etc., claim of plaintiff for \$500 allowed by New City Hall Commissioners, September 27, 1881, for extra time as watchman at the New City Hall.

Alternative writ issued December 13, 1881; January 30, 1882, case heard, and judgment rendered for defendant, dismissing writ. February 18, 1882, notice of intention to move for a new trial served and filed.

The City and County of San Francisco vs. Maria Augusta Rosekrans—No. 6,249.

Action to recover from defendant \$69 and \$42.44, taxes due for 1881-82, on improvements on lot in south line of Market street, commencing 50 feet northeast from Fifth street, being 25 feet front by 100 feet in depth.

Action commenced February 9, 1882.

Ready for trial.

Jean M. Coquengnoit vs. The City and County of San Francisco—No. 6,609.

Action to quiet title to a lot on the south line of Fifteenth street, commencing 52 feet $4\frac{1}{4}$ inches west from the southwest corner of Fifteenth and Dolores street; west 278 feet $7\frac{3}{4}$ inches; north $8\frac{1}{4}$ degrees, west 44 feet 4 inches; north $8\frac{1}{4}$ degrees, east 275 feet; south $8\frac{1}{4}$ degrees, east 62 feet 1 inch, to point of commencement. Being portion of Guerrero 400 Vara Tract.

Action commenced March 22, 1882. April 3, 1882, answer filed.

Ready for trial.

The People, etc., ex rel John Moran, vs. Catherine McKee et al—No. 6,809.

Action to declare Ivy avenue a public street, and to require defendant to remove all obstructions, etc.

Action commenced April 22, 1882. May 10, 1882, demurrer filed.

The City and County of San Francisco vs. I. S. Kalloch and Board of Supervisors—No. 5,697.

Action to obtain decree adjudging that defendants have no power to pass ordinance granting the Bay Shore Railroad Company right to way over certain streets.

This action will be dismissed, there being no further necessity therefor.

SCHEDULE

OF CASES AND MATTERS PENDING IN THE SUPERIOR COURT OF THE CITY AND COUNTY OF SAN FRANCISCO.

DEPARTMENT No. 2.

The City and County of San Francisco vs. Thomas Mooney et al.—No. 16,646.
Late 12th District Court.

Action brought to recover possession of all lands belonging to said City and County lying within the pueblo limits.

April, 1868, complaint filed; February 24, 1872, amended complaint filed; September 13, 1881, judgment dismissing as to defendants G. F. and W. H. Sharp; January 12, 1882, dismissed by order of Board of Supervisors as to defendants John Center, S. M. Wilson, R. F. Morrow and John Flynn; January 25, 1882, tried as to defendants E. J. Delaney, R. P. Clement and E. B. Mastick, and judgment rendered in favor of plaintiff for part of Lafayette Square; February 23, 1882, dismissed by order of Board of Supervisors as to defendants J. Bensley, F. Mason and J. E. Mason. Cause set for trial as to the remaining defendants for July 20, 1882.

Benj. Shloss vs. John Curran—No. 23,510. Late 12th District Court.

Suit for \$384.50 damages to plaintiff's horse, buggy and harness, defendant having allowed fire-alarm and police telegraph wires to remain in and across Octavia street, which caused horse to run away, and injure himself, buggy, etc.

Ready for trial.

The City and County of San Francisco vs. R. H. Sinton, License Collector, etc—No. 306.

Suit for \$840, collected by defendant between January 1, 1878, and January 1, 1880, and not paid into City and County Treasury, as required by law.

Ready for trial.

The City and County of San Francisco vs. Wm. Doolan, Administrator of the estate of Alexander Austin, deceased, Maurice Dore, et al—No. 3,178.

Suit for \$50,000 on official bond, dated September 17, 1873, for moneys received by said Austin, as Tax Collector, as taxes under protest, which were not paid over by him to the City and County.

Liens have been secured on all the property of each defendant. Pending on demurrer as to some defendants, sustained as to others, and others to be served.

George C. Arnold vs. The City and County of San Francisco—No. 22,086. Late 12th District Court.

Suit for \$2,000 damages, alleged to have been sustained by destruction of property by a mob at riot in July, 1877.

Ready for trial.

Henry Schwerin et al., executors of J. M. W. Schadd, deceased, et al., vs. The City and County of San Francisco and A. J. Bryant—No. 21,704. Late 12th District Court.

Suit to enjoin defendants from closing up and obstructing a doorway leading from the rear of plaintiffs' building upon the court in the rear of the Old City Hall.

August 22, 1881, injunction dissolved and judgment rendered for defendants. Motion for new trial now pending.

The City and County of San Francisco vs. The Spring Valley Water Works. No. 6,238. Late 3d District Court.

Suit to obtain a decree setting aside Outside Land grant to the Lobos Creek property, and that the property be declared to be dedicated to the use of plaintiff forever, for the purposes of a public water works.

Ready for trial.

G. Raisch vs. The City and County of San Francisco. No. 20,262. Late 12th District Court.

Suit for \$3,728.50, alleged to be due for street work upon sidewalk on an accepted street.

Ready for trial.

R. F. Morrow et al. vs. John Bensley, City and County of San Francisco et al.—No. 19,724. Late 12th District Court.

Suit to quiet title to premises known as Felt Tract, in the Potrero Nuevo, including blocks 128 and 140, and parts of Blocks 104, 105, 126, 139, 141 and 162.

Ready for trial.

James Gafney vs. The City and County of San Francisco—No. 1,562.

Suit for \$8,915.21 by plaintiff, as assignee of one Byrne, with interest from March 22, 1872, for macadamizing Railroad avenue, from Sixth to Eighteenth avenues.

Ready for trial.

Lydia A. Baldwin et al. vs. J. M. Geowey et al.—No. 22,606. Late 12th District Court.

Action in ejectment to recover land commencing on east line of Van Ness avenue 120 feet north from northeast corner Van Ness avenue and Fell street;

thence north 17 feet 6 inches, east 100 feet, south 17 feet 6 inches, west 100 feet (property known as Linden street).

September 14, 1881, City and County filed complaint of intervention to enjoin plaintiff from asserting any title, etc., to same, and to have same adjudged to be a public street.

Complaint of intervention to be answered.

George F. Sharp vs. Henry Brickwedel, Auditor, etc.—No. 5,906.

Mandamus to compel defendant to audit claim of plaintiff for \$2,000 for legal services rendered in certain suits against the City and County in the litigation between Elizabeth Douglass and D. Calderwood and the City and County of San Francisco, in regard to City Slip Lot No. 43.

December 23, 1881, alternative writ issued; January 13, 1882, answer filed. Ready for hearing.

United Land Association et al. vs. Willows Land Association et al—No. 2,622.

Action in ejectment to recover lands adjacent to Mission Creek, and for rents, etc.

To be answered on ten days' notice.

SCHEDULE

OF CASES AND MATTERS PENDING IN THE SUPERIOR COURT OF THE CITY AND COUNTY OF SAN FRANCISCO.

DEPARTMENT NO. 3.

E. P. Lawrence vs. Wm. Doolan, Administrator of Alexander Austin, deceased—No. 83.

Suit for \$669, taxes paid by plaintiff on March 3, 1870.

Pending on demurrer.

J. F. COWDERY,
City and County Attorney.

REPORT OF SPECIAL COUNSEL W. C. BURNETT.

*To the Honorable the Board of Supervisors
of the City and County of San Francisco.*

GENTLEMEN—Pursuant to Resolution No. 15,758 (New Series) of your Honorable Board, adopted June 5, 1882, and the communication of John A. Russell Esq., of June 15, 1882, having enclosed therewith a copy of said Resolution, I respectfully report upon the causes wherein I was employed on behalf of the City and County, previous to the commencement of the term of the present City and County Attorney.

In the matter of the estate of Henry E. Robinson, deceased—Superior Court, Department 9, (Probate) No. 65, Charles J. Swift, Attorney for Executor; D. P. Belknap, Attorney for Minors and Absentees; W. C. Burnett, Attorney for the Mayor and Board of Supervisors of San Francisco.

The last will and testament of Mr. Robinson contains this language, viz:

“I give and bequeath to the Mayor, Common Council, and commonality of the City of San Francisco, Cal., the sum of forty thousand dollars (\$40,000) in trust, to be by them and their successors invested to the best advantage; the interest accruing thereon to be paid out from time to time to the destitute women and children of the City of San Francisco, Cal., in such a manner as such Mayor and Common Council may deem most proper and beneficial.”

The executor, and others interested in said estate, having made opposition to the distribution to the Mayor and Board of Supervisors of San Francisco of said sum of \$40,000, and voluminous pleadings having been filed, the contest upon that matter was heard and determined in favor of that Board, and thereby in favor of said City and County. The executor, and the minors and

absentees represented by Mr. Belknap, have appealed from the decision to the Supreme Court of this State.

February 3rd, 1882—Transcript filed in Supreme Court.

Number in Supreme Court, 8260.

Newton Morgan vs. Stewart Menzies, and John A. Russell and E. E. Haft, Executors of the Last Will and Testament of Monroe Ashbury, deceased. Superior Court, No. 153; Supreme Court, No. 8,059. G. F. & W. H. Sharp, Plaintiff's Attorneys.

1880—Complaint filed claiming \$15,000 damages, alleged to have accrued to plaintiff from defendants, who were sureties upon an attachment undertaking, filed in the suit entitled The City and County of San Francisco vs. Newton Morgan, in the 19th District Court, by reason of a levy by attachment upon the property of Morgan.

January 22—Summons issued. The suit being originally against Mr. Menzies and Mr. Ashbury. Mr. Ashbury died after the commencement of the action.

February 19—Demurrer to complaint filed by the Hon. "John Luttrell Murphy, Attorney and Counselor for the City and County of San Francisco, attorney for defendants" on their behalf.

March 5—Said demurrer overruled.

April 7—Answer filed by "John Luttrell Murphy, Attorney and Counselor for the City and County of San Francisco, attorney for defendants" on their behalf.

March 22, 1881—Ordered that the death of Monroe Ashbury suggested, and that John A. Russell and E. E. Haft, the executors, be substituted, and that plaintiff have leave to file an amended complaint.

March 24, 1881—Amended complaint filed, and appearance of John Luttrell Murphy, Esq., as attorney for said executors, filed, and stipulation by plaintiff's attorneys that the answer to the complaint may stand as an answer to the amended complaint, unless defendants should desire to amend said answer, filed.

May 27, 1881—Findings filed, the cause having been tried on the 4th, 24th, and 26th of that month, and May 27, 1881, Judgment recorded, vol. 1, p. 551, in Department one (1). The judgment was for plaintiff for the amount claimed. The undersigned prepared the papers on motion for a new trial.

June 4, 1881—W. C. Burnett substituted as defendant's attorney.

September 5, 1881—Defendant's motion for a new trial refused.

September 10 and 21, 1881—Notices of defendants' appeals filed.

October 6, 1881—Transcript on appeal filed; number in Supreme Court, 8,059.

October 14, 1881—Appellants' points and authorities filed.

February 2, 1882—Respondent's points and authorities filed.

February 7, 1882—Appellant's brief in reply filed.

February 8, 1882—Argued and submitted upon further briefs to be filed.

February 16, 1882—Brief of appellants, directed by the Court at the hearing filed.

About March 8, 1882—Respondent's brief, directed by the Court at the hearing, filed.

March 11, 1882—Brief of appellants, in reply to the respondent's brief, directed at the hearing, filed.

March 30, 1882—Judgment and order reversed; see vol. IX, Pacific Coast Law Journal, page 294.

April 14, 1882—Petition to have cause heard in banc filed.

April 21, 1882—Petition for hearing in banc denied.

May 17, 1882—Remittitur filed.

The cause is again upon the calendar of the Superior Court, Department one (1).

Spring Valley Water Works vs. Antone Schottler et al, composing the Board of Equalization of the City and County of San Francisco. Superior Court, Department 4. Number in Supreme Court, 8,052. Fox & Kellogg, Attorneys for Plaintiff and Appellant; Frank G. Newlands of Counsel for Plaintiff and Appellant; John Lord Love and W. C. Burnett, Attorneys for Defendants and Respondents.

Application for Writ of Review to review and set aside the action of defendants in raising the assessments of plaintiff's franchise from \$5,000 to \$5,000,000 for the fiscal year 1881-2.

Application denied and judgment for defendants in the Superior Court.

Plaintiff having appealed, transcript was filed October 3, 1881.

March 13, 1882—Appellant's points and authorities, by Fox & Kellogg, filed.

Respondents' points and authorities being filed, on March 20th, 1882, cause argued in banc, together with the cause next hereinafter mentioned of "The San Francisco Gas Light Company vs. Antone Schottler et al., composing said Board of Equalization." Messrs. Fox & Kellogg, H. N. Clement, Thomas M. Osment and Frank G. Newlands, for appellants, and Messrs. Love and Burnett for respondents, and cause submitted on further briefs in five and ten days respectively.

April 1, 1882—Argument of F. G. Newlands for appellants filed.

May 5, 1882—Brief of John Lord Love for respondents filed.

May 16, 1882—Brief of W. C. Burnett for respondents filed.

The San Francisco Gaslight Company vs. Antone Schottler et al., composing the Board of Equalization of the City and County of San Francisco. Superior Court, Department 4. Number in Supreme Court, 8,223. Clement, Osment and Clement, Plaintiff's Attorneys; John Lord Love and W. C. Burnett, Defendants' Attorneys.

Proceedings same as in case last above, but to review action in raising an assessment upon franchise, from \$5,000 to \$6,075,000.

Steps in cause same as those in the case last above.

Benjamin Richardson vs. The City and County of San Francisco. U. S. Circuit Court, No. 1681. John B. Felton was Plaintiff's Attorney, and there has been no substitution of another in his stead.

Action to determine the title to a portion of the premises known and laid down on the Van Ness map as Alamo Square.

At issue upon plea in abatement. The cause will be disposed of very soon.

Louis Joseph Hamm vs. The City and County of San Francisco. Circuit Court of the United States, No. 1,626. Lloyd and Wood, Plaintiff's Attorneys.

Ejectment for the easterly one-third part of the Union Square property.

Trial on the 7th, 10th, and 11th days of April, 1882, before the Court, Hon. Lorenzo Sawyer, Circuit Judge, sitting. Cause submitted on argument had, and upon memoranda of authorities, etc., to be delivered.

April 17, 1882—Defendant's Counsel delivered memorandum of authorities cited at the hearing.

Plaintiff's memorandum has been delivered.

Respectfully submitted.

W. C. BURNETT.

Special Counsel.

July 15, 1882.

REPORT OF DAVID McCLURE, SPECIAL COUNSEL.

SAN FRANCISCO, Cal., July 10, 1882.

To the Honorable the Board of Supervisors of the

City and County of San Francisco:

GENTLEMEN—In compliance with your Resolution, No. 15,758 (N. S.), I herewith submit to you my report as special counsel for the collecting of delinquent personal property taxes for the fiscal year 1880-81. Respectfully,

DAVID McCLURE,

Attorney and Special Counsel for the Collection
of Delinquent Personal Property Taxes
for the fiscal year 1880-81.

REPORT OF SPECIAL COUNSEL RHODES & BARSTOW.

OFFICE OF RHODES & BARSTOW, }
San Francisco, July 7, 1882. }

*To the Honorable the Board of Supervisors of the
City and County of San Francisco:*

GENTLEMEN—In accordance with Resolution No. 15,758, new series, requesting special counsel to report the disposition of all matters entrusted to them during the fiscal year ending June 30, 1882, we transmit the following report. Respectfully,

RHODES & BARSTOW, Special Counsel.

Spring Valley Water Works, plaintiff in error vs. Antone Schottler et al., constituting the Board of Supervisors of the City and County of San Francisco, defendants in error. In the U. S. Supreme Court, October term, 1881—No. 893.

February 18, 1881, mandamus to compel the Board of Supervisors to fill vacancy in Board of Commissioners to fix water rates, caused by the death of Isaac Friedlander.

Matter heard by Supreme Court of California in bank, and petition denied and writ dismissed.

Case taken to United States Supreme Court by writ of error, and submitted on briefs at the October term, 1881.

March, 1882, submission set aside, and case ordered argued orally on the 6th day of November, 1882.

REPORT OF FISHER AMES, SPECIAL COUNSEL.

To the Honorable, the Board of Supervisors
of the City and County of San Francisco:

GENTLEMEN—In compliance with your Resolution No. 15,788 (New Series), I herewith submit my report of all taxes, for City and County purposes, for the fiscal years 1872-73 and 1873-74 collected by me, as special counsel, and all legal proceedings instituted by me, pursuant to the provisions of Orders Nos. 1,185 and 1,197 adopted by your Honorable Board.

Monthly statements, in detail, of all collections since the date of my appointment, November 11th, 1874, down to and including June 30th, 1882, may be seen in the offices of the Auditor and Tax Collector.

FISHER AMES,
Special Counsel.

TAX LITIGATION.

Number of suits commenced.....	729
Number settled and dismissed.....	<u>444</u>
Number of suits unfinished.....	285

The taxes sought to be recovered in some of the unfinished suits may in time be collected, since they will be discovered directly or indirectly to affect the title to real estate.

The majority of them, however, cannot be collected, for the reason that the defendants have never been found, or, when found, they have been wholly unable to pay.

FISHER AMES,
Special Counsel.

REPORT OF SPECIAL COUNSEL McALLISTER & BERGIN.

OFFICE OF McALLISTER & BERGIN, }
 San Francisco, August 23, 1882. }

*To the Honorable the Board of Supervisors of the
 City and County of San Francisco:*

SIRS—In obedience to Resolution No. 15,758 of your Honorable Body, we beg to state, that in the cases commonly known as the Dupont street cases, in which we are acting as Special Counsel for the city, the Superior Court rendered judgment in favor of the plaintiffs, perpetually enjoining the Tax Collector, Mr. Tillson, and his successors, from selling the property for non payment of the assessment for widening Dupont street, upon the ground that the Statute under which the proceedings were had for that purpose was unconstitutional. Motion for new trial was made and denied in the cases on May 26th, 1882, and from the judgment and order of the Court an appeal was taken on the 14th day of June, 1882, to the Supreme Court, where they now remain pending.

To avoid needless expense, the motion for new trial and appeal were only taken in two cases, that would fairly present all the questions of law involved in the litigation, it being stipulated that the remaining cases shall abide the result of these two cases.

The transcript on appeal in these two cases was filed July 15, 1882.

Respectfully,

McALLISTER & BERGIN.

REPORT OF SPECIAL COUNSEL E. S. SALOMON.

*To the Honorable the Board of Supervisors
 of the City and County of San Francisco:*

GENTLEMEN—In compliance with Resolution No. 15,758 (New Series) of your Honorable Board, I beg leave to submit a statement of my collections as Special Counsel for the collection of delinquent personal property taxes of 1879-80. The total amount collected up to June 30th, 1882, is \$7,636.87, of which I have paid to the Tax Collector \$7,471.48, less 10 per cent. commissions, amounting to \$747.15, and leaving in my hands a balance of \$165.39, to be accounted for in my next return.

I have commenced 1,067 suits in Justices' Court for the recovery of taxes, of which, however, only 600 summonses have been served, as the other parties cannot be found, and out of all these suits about 100 have paid, the others not having any property out of which an execution could be satisfied. There

are a number of cases of large amounts now pending in the Superior Court, which I am making every effort to bring to a speedy trial. My costs and expenses of collecting the above amount have so far considerably exceeded the commission received by me. The small amount collected is due to the fact that the list of 1879-80 was collected up much closer by the Tax Collector than any other for many years, and of the delinquents in the list turned over to me, amounting to 3,600 names, over 2,300 were marked by the collector, "can't find," "dead," "removed," "left city," etc.

The list also contains assessments against ships, which are not assessable here, and of many vessels which have been lost at sea many years ago. These assessments swell the amount of delinquent taxes up to a large sum, but are assessments which ought not to appear in the books, as they cannot be collected.

EDW. S. SALOMON,
Special Counsel for Collection of Delinquent Taxes, 1879-80.

REPORT OF J. P. BELL, SPECIAL COUNSEL.

To the Honorable the Board of Supervisors

of the City and County of San Francisco.

GENTLEMEN—In compliance with Resolution No. 15,758 (New Series), I have the honor to submit the following report:

I was appointed to collect delinquent taxes upon personal property in this City and County for the fiscal years 1874-5, 1875-6, 1876-7, 1877-8, and 1878-9.

For and during those years there has been collected by me a	
total of.....	\$187,302 36
And after deducting the commission allowed.....	33,706 43
	\$152,595 93

I have paid over to the Tax Collector the sum of.....

While the amount of the compensation allowed, is apparently very large, still it must be remembered that the entire expense of making these collections, which has been very heavy, has been borne by me.

At the time of my first appointment, the collection of these taxes, after they became delinquent, by suit was a new and untried experiment, and it was the general impression at that time that any suits which might be brought to compel their payment, could be successfully resisted.

It was found impossible at the outset to do anything towards their collection, until the complaint in actions for the recovery of delinquent taxes had been very much simplified and shortened. Accordingly, a bill for that purpose was prepared, introduced in and passed by, the Legislature.

This bill, in addition to prescribing the form of the complaint in actions of that character, also authorized the City and County to bring suits for the recovery of City and County and State taxes, either or both, in its own name. Under this Act, hundreds of suits have been brought and prosecuted to judgment, the larger part of which are still unsatisfied and unpaid.

Many of these, were stubbornly contested, and every conceivable defense that it was possible to raise, was made. The result has been that the law of taxation in this State has been pretty well settled.

With the exception of some cases which are now pending in the Supreme Court and not yet argued, wherein the validity of taxes assessed upon "Mining Stock" and upon the "Capital" (*eo nomine*) of Corporations, involved under the old Constitution, my labors are about ended.

Respectfully submitted.

J. P. BELL.

REPORT
OF THE
SUPERINTENDENT OF PUBLIC STREETS,
HIGHWAYS AND SQUARES.

OFFICE OF SUPERINTENDENT OF
PUBLIC STREETS, HIGHWAYS AND SQUARES, }
New City Hall, San Francisco, July 13, 1882. }

To the Honorable Board of Supervisors

of the City and County of San Francisco:

GENTLEMEN—I have the honor herewith to submit my report for the fiscal year ending June 30th, 1882, in accordance with Resolution No. 15,758 (New Series) of your Honorable Body.

No work has been done on unaccepted streets, except that done by property owners under private contract, for which see annexed tables.

I would most respectfully call your attention to the condition of the redwood sewers in various sections of the city, and especially the southern portion thereof, and also to the last annual report of my predecessor pertaining thereto, and which I hereby indorse. I would also call your special attention to the wooden sewer in Fifth street, from Folsom street to its outlet into the bay, which has no bottom most of the distance above named, and that the quicksand raises to such height in the sewer as to seriously obstruct the flow from sewers connecting with and emptying into it and thereby rendering it impossible to maintain a proper drainage in the section of the city south of Folsom street, between Fourth and Sixth streets; and I avail myself of this opportunity to say to you, and through you to the citizens and property-owners in the above named section, that early and

efficient means are essential to avoid the sanitary evils that are inevitable under the present condition of the sewerage in that section.

In conclusion, I herewith return my thanks to the Honorable Board of Supervisors for the courtesies they have extended to me in all matters connected with this department.

Respectfully, your obedient servant,

R. J. GRAHAM,

Superintendent of Public Streets, Highways and Squares,
City and County of San Francisco.

The column in the Statistical Table marked "remaining," refers to patients who are retained over the first day of each month, and who are subsequently discharged from day to day when convalescent, the date of discharge being entered on the Register in the office of the Superintendent.

The average expense of maintaining the Home during the year just closed, has been about ten ($\$10.12\frac{1}{2}$) dollars for each patient received.

Your Honorable Body is cordially invited to visit and inspect the Home at your pleasure.

Very respectfully,

H. J. BURNS, President.

R. H. McDONALD, Treasurer.

WM. MARTIN, Secretary.

SAN FRANCISCO, July 1, 1882.

REPORT

OF THE

BOARD OF NEW CITY HALL COMMISSIONERS.

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—In complinace with Resolution No. 15,758 (New Series), adopted by your Honorable Board, I beg herewith to transmit a tabulated statement, made by the Board of New City Hall Commissioners, showing the receipts into, and disbursements on the "New City Hall Fund," commencing with fiscal year 1875-76, and ending fiscal year 1881-82; also a statement of contracts completed, and in course of completion.

H. BARTLING,
Secretary Board New City Hall Commissioners.

H. BARTLING,
Secretary Board of New City Hall Commissioners.

SAN FRANCISCO LAW LIBRARY.

SAN FRANCISCO, July 7, 1882.

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—Herewith I have the honor to submit my annual report for the year ending June 30th, 1882, concerning the condition and operations of the San Francisco Law Library.

There are at present in the library 20,353 volumes, of these 19,339 are registered and 1,014 unregistered duplicates and deposited.

During the year 1,203 volumes were added, of which 875 were purchased, 75 donated, and 253 are pamphlets and periodicals, and legal records bound. Of the number of bound volumes 41 consist of periodicals, and 212 comprise the records of the Supreme Court of this State. Of the books purchased 99 are legal text books, and 627 reports of judicial decisions, statutes of the respective states, governmental documents, etc. The donors of works are the secretaries of the following states, California, Alabama, Arkansas, Connecticut, Illinois, Indiana, Maine, Michigan, Mississippi, Missouri, New Hampshire and Pennsylvania, and also your Honorable Body, the Mechanics' Institute, the Smithsonian Institute, the U. S. Signal Office, and the following named gentlemen: A. L. Bancroft, J. G. Carson, J. V. Coffee, J. T. Doyle, J. H. Dickinson, G. W. Granniss, Geo. E. Whitney and Sumner Whitney & Co.

During the year seven books have been lost, of which three have been replaced, leaving four lost and unaccounted for.

The periodical literature to which the Library subscribes comprises fifty publications, of which forty are legal and ten are miscellaneous.

The governing body of the Library consists of twelve gentlemen, seven of whom are elected by the shareholders, and five are ex-officio, being the Mayor of this City and County, and the four Judges of the Superior Court who have the shortest term to serve. At the last annual meeting of the shareholders of the Association held on the 25th March, 1882, in the library rooms, the following gentlemen were elected trustees for the ensuing year: J. P. Hoge, John T. Doyle, Delos Lake, Lorenzo Sawyer,

S. M. Wilson, Jos. W. Winans and L. D. Latimer. The gentlemen, on the afternoon of the same day, met, and elected the following officers to serve for the ensuing year: J. P. Hoge, President; J. W. Winans, Treasurer; and John T. Doyle and Delos Lake to act with the President as an Executive Committee. The four judges who by virtue of their office are members of the Board of Trustees, are Judges Allen, Freelon, Halsey and Waymire.

The shareholding membership is now 234, and the subscribers 53, making a total of 287, in addition to the public officers of this City and County entitled to the privileges of the Association. Twenty-one shareholders have been elected during the year; and within the same period seven of the members have died.

The routine work progresses with little variation, and in all general respects similar to that which has been explained in previous reports.

During this fiscal year there has been received:

From the County Clerk of this City and County.....	\$4,515 00
From members of the Association.. ..	1,050 00
Total.....	<u>\$5,565</u>

And there has been paid out within the same period:

For books, periodicals and maps.....	\$3,150 16
For binding.....	913 35
For printing.....	35 15
For insurance.....	765 00
Total.....	<u>\$4,863 66</u>

Other disbursements made in connection with the institution pursuant to allowances by your Honorable Body, as for room rent, gas, janitor's wages, librarian's salary, and for other incidental expenses, are set forth in the report of the Auditor of this City and County.

The Library is used by lawyers and judges from the interior of the State, when in the city, and is regarded with admiration by visitors from all quarters who have occasion to examine its complete and valuable collection.

Respectfully submitted,

F. P. DEERING,
Librarian and Secretary.

REPORT OF THE BOARD OF TRUSTEES

OF THE

San Francisco Free Public Library.

SAN FRANCISCO FREE PUBLIC LIBRARY, }
July 10, 1882. }

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—The Board of Trustees of the San Francisco Free Public Library respectfully present their fourth annual report upon the condition and operations of the library for the year ending June 30, 1882.

At the date of the second annual report (to wit, on the 30th of June, 1880) the number of volumes in the library was 20,548; at date of the last report (to wit, June 30, 1881) the number, as per accession catalogue, was 28,758; and at this time, including books on hand, but not yet catalogued, the number is about 38,800, showing an increase of over 10,000 volumes since last year.

DONATIONS.

Many donations of valuable publications have been made during the year. They aggregate 2,477 volumes and pamphlets. The following is a list of the donors:

STATEMENT

Showing the total expenditures of the library, and for what purposes, for the year ending June 30, 1882:

For Books	\$ 7,273 99
For Electric Light	1,120 00
For Gas	30 51
For Salaries	11,727 36
For Binding	1,579 27
For Printing and Stationery	1,000 70
For Rent of Hall	2,400 00
For Insurance	673 13
For Furniture and Repairs	1,022 41
For Incidentals	211 16
Total	\$27,038 53

The report of the Librarian, showing the operations of the library, in detail, during the past year, is herewith submitted.

By order of the Board of Trustees,

ANDREW J. MOULDER,

Secretary.

ANNUAL REPORT OF LIBRARIAN

FOR YEAR ENDING JUNE 30, 1882 (THIRD LIBRARY YEAR).

SAN FRANCISCO FREE PUBLIC LIBRARY, }
June 15, 1882. }

To the Board of Trustees:

GENTLEMEN—In obedience to the order of your Board, I respectfully submit the first annual report by any librarian of this library, being for the year ending with June 30, 1882, said report being according to the tenor of your resolution, "upon the condition and progress of the library during the year, together with any suggestions that may be advisable as to the future of the library."

I. WORK OF THE LIBRARY DURING THE PAST LIBRARY YEAR.

A summary of the principal items is as follows:

1. PERSONS ENTITLED TO USE BOOKS AT HOME.

Borrowers' cards issued to July 1, 1881.....	10,400
Borrowers' cards issued during past year.....	5,214
Total number of cards issued to July 1, 1882.....	15,614

2. NUMBER OF BOOKS IN THE LIBRARY.

Books July 1, 1881.....	28,353
Books added during past year.....	9,754
Books June 30, 1882.....	38,107

3. CIRCULATION DURING THE YEAR.

Books used inside the library.....	124,984
Books used outside the library.....	194,112
Total year's circulation.....	319,096

The following table, in continuation of that at page 6 of the last annual report of your Board, shows the work of the past year by months, with two additional items, namely, volumes added and cards issued:

LIBRARY STATISTICS YEAR ENDING JUNE 30, 1882.

ACTIVITY OF CIRCULATION.—This Library is surpassed in size by 50 or more public libraries of the United States, but in extent of use by only four or five. Its total circulation during its three years of existence has risen to about a third of a million annually, as follows:

First year (volumes).....	216,129
Second year (volumes).....	354,881
Third year (volumes).....	319,096

This circulation is from a total of less than 38,000 volumes; and it is believed that no other library can be found in this or any other country which is so actively used.

CHANGES IN THE SERVICE.—These have been only three (not including the boys who carry books to and from the delivery desk), as follows: Miss Louise Manning, Assistant librarian, left the Library service September 30, 1881,

and was succeeded by Mrs. Eugenie Melville; Mr. J. P. Sawyer, janitor, left October 30, 1881, and was succeeded by Mr. J. Gomez; Mr. J. G. Adler left April 30, 1882, and was succeeded by Mr. F. J. Stone.

II. NOTEWORTHY DEPARTMENTS OF THE LIBRARY.

Although this Library is only at its beginning, it already possesses some collections and sets of books worthy of special attention.

1. SAN FRANCISCO AND CALIFORNIA.—The Trustees have from the first endeavored to collect all works relating to this city and State, and the Library already has many works of history and travel relating to them; a valuable series of San Francisco newspapers, including the *Examiner* file liberally given by Messrs. Roach and Johnston, the San Francisco *Herald*, etc.; a full file of San Francisco municipal reports and directories, and of the city great registers and poll lists; a file of the old Sacramento *Union*; the county great registers; a good series of the State public documents; and one collection, probably unique, of all bills and resolutions (some 1,200 in all, of which only 30 were enacted) introduced in the last State Legislature. This was secured to the Library by the efficient kindness of a former Librarian, Albert Hart, Esq., Governor Perkins' private secretary, who has also presented other valuable documents.

2. AMERICAN HISTORY.—Here a fair beginning has been made in general works; and through the careful kindness of General Rosecrans, our Representative in Congress, and the liberality of the Interior and other Departments and Bureaus at Washington, about a thousand volumes of U. S. Congressional and other public documents have been received, as the basis for a fuller set in the future. Important contributions to this department have also been made by Hon. Horace Davis, Hon. C. Cole, Hon. Wm. A. Piper, and others. Directories have also been procured of a number of the largest cities in the United States, and these have been much used.

3. OTHER COLLECTIONS, ETC.—In English history, besides many standard works, we have a series of Parliamentary debates from the Conquest to 1803, in 115 volumes; the well-known series of Chronicles and Memorials issued by the British Government, in 163 volumes, being an ably edited re-publication of the oldest English historical writers and of important state papers, and the Annual Register from its beginning, in 1757. The collection of standard English periodicals is now respectable. A number of additions have been made to those furnished in current numbers at the desk. Several leading Eastern dailies have been placed in the newspaper gallery, and it was intended, had the state of the city funds permitted, to add others, as well as other directories of important cities. To the series of dramatic collections, already important, has just been added Lacy's acting plays, in 115 volumes—an extensive collection. The collection of German books is increasing, and now occupies 25 pages of the catalogue. The French, Spanish and Swedish

collections are only beginnings. Some not unimportant private collections of books have been acquired in whole or in part, as, for instance, the library of Rev. W. H. Platt, D. D., strong in theology, ethics and mental philosophy; a collection of about a hundred volumes on alchemy, magic, and other related topics, formed by Mr Jennings, author of a well-known book on the Rosicrucians; a selection from the library of Mr. W. P. Medicott, of Longmeadow, Massachusetts, including some works of great rarity and antiquity, as, *e. g.*, Paulus Florentius on canon law, printed in 1486, Auer's celebrated and rare collection of versions of the Lord's Prayer in over 600 languages, etc. Valuable works on manufacturing chemistry, distilling, mining and mineralogy, and on engineering, have been bought, among which may be named the Proceedings of the London Institution of Civil Engineers, in 64 volumes. These few disconnected memoranda may serve to show the varied directions, in which it has been sought to increase the usefulness of the Library.

III. CATALOGUING WORK IN THE LIBRARY.

1. THE NEW CATALOGUE.—At the date of this report (July 15th) this catalogue is just being delivered by the binder. It has been made out in eight different lists, to wit: 1, general list; 2, fiction; 3, juveniles; 4, books in German; 5, in French; 6, in Spanish; 7, in Swedish; 8, in other languages. All these, except the first, include not only books added since the issue of the previous catalogue in November, 1880, but all the books of their respective classes in the library. It is believed that this arrangement will be a convenient one for readers.

2. THE CATALOGUING SYSTEM.—A fuller system of cataloguing should now be commenced. The stringent economy which has been exercised in the management of the Library has, by limiting the amount of work done, compelled the use of very short titles in the cataloguing, and has prevented the introduction of such explanations, directions and notes as are employed in first-class cataloguing work. Such additions are guides to readers, and very greatly increase the accessibility, and thus the usefulness, of the books. The remarkable catalogues prepared by Mr. Winsor, the present Librarian of Harvard University, while Superintendent of the Boston Public Library, are the originals of this sort of work, and no library—least of all one intended for popular use—can be considered properly accessible until catalogued in Mr. Winsor's manner.

The work which remains to be done in this department before the interior mechanism of the Library is complete, is as follows:

1. PAINTING THE SHELF MARKS ON THE BACKS OF THE BOOKS.—This should promptly be completed throughout the library, as, besides its use as a striking and indelible identification of the books as property, experience shows its clear, large numbers to be a great help towards quick and accurate delivery and replacement of books.

2. **THE SHELF LIST.**—This important list, which is practically a business inventory, is, in various ways, indispensable for the proper management of the Library, and its completion is much needed.

IV. RELATIONS OF THE PUBLIC TO THE LIBRARY.

1. **BULLETIN.**—The monthly bulletin will be discontinued after its twelfth number, as the year's appropriation will not allow of its being published. Such means as can be devised will be used to inform the public of any new books added to the library.

2. **LOSSES OF BOOKS.**—Until a shelf list is perfected, and one complete revision made of the shelves by it, there will be no way of stating the losses of books to this Library through delinquencies and otherwise. A number of such losses are, however, known to have happened. It is believed that the present arrangements, with constant watchfulness, are keeping the property of the city in the Library reasonably safe.

3. **SUPPLY OF BOOKS SPECIALLY ASKED FOR.**—A considerable number of books have been procured in response to particular requests for them. The greater part of these were one lot of Swedish books, amounting to about one hundred volumes, imported in compliance with a representation that our Scandinavian citizens would find pleasure and profit in reading them. They have just been shelved, ready for use.

4. **THE SUTRO AND DUNN GIFTS.**—Most of the books provided for by the wise liberality of Messrs. John P. Dunn and Adolph Sutro have been placed on the shelves, and are marked in the catalogue of 1882 by S. or D., the initials of the givers' names.

5. **THE FICTION QUESTION.**—The proportion of fiction read continues to be unusually small for a public library, being for the whole year almost exactly 60 per cent. of the whole reading, against a usual average of from 75 to 80 per cent. This proportion is measurably within the control of the library authorities; for, if a fuller supply should be furnished of the sensational books which are most popular with young people, it would instantly be absorbed into use, and the total of circulation and the proportion of fiction within it would enlarge together. The question of fiction supply is at present one of the most debatable and debated of library questions. The arguments both for and against furnishing it have weight, and accordingly a medium policy appears wisest, and has, under the advice and with the approbation of the Book Committee of your Board, been followed in selecting and purchasing. It has been considered that, on one hand, public money should be very cautiously employed for mere amusement, particularly when that amusement (as is the case with sensational novels) is to indulge the sillier portion of the community, and when the books thus desired are (as is, in fact, the case) peculiarly flimsy in material and manufacture, while they are

used with exceptional roughness, so that they disappear from the shelves, and have to be replaced in a very short time. On the other hand, it is expedient to make the library popular within proper limits, with both young and old. The line actually taken has probably been as successful as any other could have been. Novel readers have sometimes complained of the small supply of novels, but to satiate them would require more than all the money available for books; and readers of solid works have occasionally intimated that too many novels were bought, but not very often; and in the selection of additions to the stock of fiction, it has been attempted, as far as practicable, to gradually rise towards a higher level of excellence in the new purchases.

One rule has been followed whenever found applicable, about which no hesitation nor difficulty has been felt. No vicious novel has knowingly been allowed to circulate. This rule, indeed, has been applied outside of the domain of fiction. No doubt adults have a right to choose their own reading, but in a library like this, open freely to youth of both sexes, it is safest not to furnish for adults books that young girls and boys ought not to read. Adults who want vicious books should buy them themselves. If this rule be relaxed at all, it should certainly not be until the separation of the Library into a purely popular department and a reference or students' department.

V. LIBRARY FACILITIES AND ACCOMMODATIONS.

During the year a second range of book-cases has been erected, doubling the extent of room for books. This space has, however, already been mostly filled, and when more shelves are needed they will have to be arranged either as a third range of cases above the present ones, or else by taking floor space from the reading-room. Neither of these alternatives is at all desirable. Except some unimportant alterations, no other change or improvement has been made during the year in the fittings of the Library.

While the work accomplished by the institution thus far is remarkably great, and has been executed with a satisfactory degree of smoothness, little or no further progress of any kind can be made in the present location.

As the Library itself and the use of the books increase, larger accommodations and more subdivisions are naturally required. The arrangements in the present hall were sufficient for a collection of say 10,000 volumes, and for their delivery by the indicator system. That system was, however, quickly outgrown, and would now be an inadmissible obstruction; while the arrangement of the book-cases and rail are such as to prevent the best economy of labor according to the slip system.

Under present circumstances books cannot be delivered during the daily hours of greatest pressure nearly as fast as they are wanted. There is reason to believe that delay and disappointment from this cause has occasioned part of the decrease in the total annual circulation of the Library in its third year as compared with its second. If the demands of the public could be averaged over the whole twelve hours of the daily service, 2,000 books a day could be circulated just as easily as the present average of 930 books. As, however,

the two daily periods from 3 to 5 P. M. and from 7:30 to 9 P. M. suit the largest number of readers, they crowd in then. It is recommended to those who can conveniently call in the forenoon, or before 3 P. M., to do so, as they will thus escape the serious vexation of long waiting, and often of missing the book they want.

A second matter in which the Library as at present situated cannot improve is the classification of readers. Separate deliveries and returns for separate classes of readers cannot now be maintained, and boys, men, girls, women, students and loungers are served indiscriminately, often to the special inconvenience of those most entitled to consideration. There is great need—

1st. Of separate accommodation for special students.

2d. Of better separate accommodation for lady readers and students, with better access to a part, at least, of the newspaper files.

3d. Of separate accommodation for the fiction, juveniles, and popular reading generally, and for those who use that portion of the Library.

Another department, not less important, and for which thus far no provision at all has been made, is the work of cataloguing, labeling, stamping, and otherwise identifying the books of the Library and preparing them for the shelves. A working room is as indispensable in a library as a repair shop for a railroad. Before this library was opened, this work was conveniently done upon the reading-room tables, but since, no place whatever has been provided for the purpose, and the work has been done under great disadvantages, by means of stacking books on the floor, in chairs, or other unsuitable places. Work done under such conditions is necessarily wasteful, slow and inaccurate. There is urgent need of a room for these purposes, fitted with tables, and having shelf room for about 3,000 volumes—that is, about 300 feet (running measure) of shelving.

All these considerations, arising from the fact that the library is so rapidly outgrowing its present accommodations, are so many arguments in favor of its early transfer to a more commodious place. They are greatly reinforced by the fact, not now urged for the first time, that this considerable and increasing collection of books is now constantly exposed to an extra-hazardous fire risk, and that its actual destruction by fire is, in all human probability, only a question of time. On an average, as the history of such buildings shows, a theater is burned within about seven years from its first opening; and whenever the California Theater shall burn, this Library will necessarily be burned also.

With the exception of this risk, the above named defects in the present condition of this Library could be remedied—at least in part—in its present quarters, were the money to be had. It is to be regretted that it has been thought necessary to so diminish the usual appropriation that it will not only not allow of these necessary improvements, but that it will not even provide (out of that appropriation) for the purchase of any books during the coming year.

FRED. B. PERKINS, Librarian.

COUNTY RECORDER'S REPORT.

HALL OF RECORDS,
San Francisco, July 1, 1882. }

To the Hon. the Board of Supervisors
of the City and County of San Francisco:

GENTLEMEN—In compliance with Resolution No. 15,758 (New Series), I have the honor herewith to submit the annual report of the transactions of this office for the fiscal year ending June 30, 1882.

Very respectfully,
JOHN W. CHERRY,
County Recorder.

RECEIPTS AND DISBURSEMENTS.

On taking possession of this office on the 5th of December, 1881, I found many of the Books of Record in such a condition as to require immediate attention to preserve them from destruction; with the consent of your Honorable Body I have had 38 volumes entirely rebound, and more or less extensive repairs made to the binding of many others; so that I can now report the Books of Record to be in good and serviceable condition.

I desire to call the attention of your Honorable Board to the urgent necessity of providing additional accommodations for the placing of Record Books in this office; the space originally set apart for that purpose being now fully occupied, great inconvenience as well as injury to the Records must result from a failure to provide the needed storage room.

Respectfully submitted,

JOHN W. CHERRY,

County Recorder.

REPORT

OF THE .

BOARD OF PARK COMMISSIONERS.

OFFICE OF PARK COMMISSIONERS, }
SAN FRANCISCO, July 1st, 1882. }

*To the Honorable the Board of Supervisors
of the City and County of San Francisco.*

GENTLEMEN—This, the twelfth annual report of the Board of Park Commissioners, comprising a statement in detail of the receipts and disbursements for the year ending June 30, 1882, and a short resumé of the work done on the Park, is respectfully submitted for the consideration and information of your Honorable Body.

With the balance on hand July 1, 1881, and the levy for the year, including the special transfer of sixty-two hundred dollars from the General Fund to the Park Improvement Fund, for special improvements, the receipts for the year aggregate \$72,-718.49.

The sum of \$51,352.22 was realized from the tax provided for the improvement and maintenance of the parks and avenues, said tax being at the rate of 2½ cents on each one hundred dollars' valuation of taxable property within the City and County.

A transfer of \$6,200 was made from the General Fund to the Park Improvement Fund by resolution of your Honorable Board.

The remainder, \$2,484.50, was derived from various other sources, as will more fully appear by reference to Exhibit "A," hereto annexed.

The balance cash on hand July 1, 1881, was \$12,681.77, which, added to the receipts above enumerated, makes a total of \$72,718.49.

The disbursements, together with the outstanding demands, amount to the sum of \$68,034.97.

This leaves a balance July 1, 1882, of cash in the Treasury \$4,683.52, out of which bills for labor and material in June, amounting to \$4,392.15, must be paid.

The following is a correct account of the work performed on Golden Gate Park during the fiscal year ending June 30, 1882:

The new building known as the Casino was erected on the Park under the supervision of the Commissioners, who instructed the Superintendent to see that the building was constructed according to the contract entered into with Mr. R. Daemon, who donated the same to the Park Commissioners as a free gift. In consideration of which the Commissioners leased the Casino to Mr. Daemon for a term of three years.

The building cost \$13,000. For the accommodation of visitors driving, the Commissioners afterward built a shed of five stalls at the rear of the Casino.

Two rooms (one a bath-room) were added to the Park Lodge for the convenience of the Superintendent, and the house was newly painted.

The old engine-house was moved to the rear of the Lodge, on Stanyan street, and some changes made, which affords a very comfortable office, and is used for Superintendent and Police headquarters, the smallest of the three rooms being used as a sleeping room by the gate-keeper.

There was erected on the promenade in front of the Conservatory, a music stand, which is an ornament to the Park grounds.

When the Conservatory was built, there were two objectionable features in the reception room, which have been removed and replaced by two majolica fountains, the surroundings decorated with mosses and ferns, which lends to the place a very agreeable appearance. The fountain in the middle of the room was removed, and a new cement floor laid.

A Ladies' Cottage was built near the croquet grounds and adjoining Wild Wood Walk. The site is well selected and the

building plain but neatly furnished with stationary wash-stands, mirrors and chairs.

Three new earth closets were built by contract, in style the same as those formerly built.

The new green house at the Nursery was designed by the Superintendent, for a cheap plant house, without artificial heat. The dimensions are 30 feet by 100 feet.

The old toll house was removed from near the Cliff House, repaired and painted and a terra-cotta chimney put in. The waterman at the tank on the beach road now occupies the same.

The house occupied by the man at the water-trough near the Conservatory, has been moved, raised, repaired and painted.

The terrace, which is now a feature of the Park (built by special transfer of funds by your Honorable Body), was built for the purpose of making a proper approach to the Conservatory, for visitors by the Geary St. P. & O. R. R. Co. It commands a fine view of Conservatory Valley and of the Park towards Strawberry Hill, west. To the north can be seen the Pacific Ocean and the entrance to the Golden Gate. The different landings at the terrace steps are paved with the Schillinger Pavement.

During the year the wooden floors in the Conservatory required much attention. The boilers in the furnace room needed repairing. Patent ventilators were also put up in the intermediate house.

There were some small changes made in the stables to prevent drafts, and the buildings were whitewashed inside and outside.

The repairs of harness were done at the stable, the material bought and the work done by day labor.

The old green houses at the Nursery were all repaired and painted during the year. A seed room was built and all the sheds and out buildings were painted.

All the rustic shelters have been repaired, the old bark taken off and two coats of boiled oil put on.

The foreman teamster's house was somewhat improved. A new tin roof on the kitchen, sheathing on the stairway, and plastering the upper part of the house.

The Guard House at the entrance to the Park avenue and Baker street, was painted and an ornamental fence placed around

the plot of ground in front of avenue on Baker street, and the same planted with pines.

The Engine used at one time for pumping water where the croquet grounds now are, was removed to the windmill near the beach and is used when the wind is not strong enough to work the mill.

There was built a lattice arbor 25x25x15 feet, on the foundation of the old tank, east of the Conservatory, around which was placed a comfortable seat and a good floor laid. The arbor is covered with creepers and surrounded by a border of flowers. The situation is a good one, well sheltered from the trade winds, and withal an attractive spot.

A lattice shelter was built at the Nursery, for use to harden off plants and protect others, not quite hardy, through the winter months.

The chain fence removed from in front of the Lodge, was put up on Stanyan street, between the Lodge and the Park office. There was, at this point, a fill of 75 cubic yards made to conform to the Park grade.

The area of the old Nursery was so small ($\frac{1}{4}$ of an acre) it was found upon close calculation that it would take 25 years to raise plants enough to complete the Park. Within the past year it has been enlarged one and one-tenth acres. To bring this area of ground to the proper condition to receive young pines, it took 1020 cubic yards of good soil and 100 cartloads of manure. Also 900 lineal feet of one inch galvanized water pipe and fittings were used. All this ground is filled with thrifty young plants doing well.

Seven acres of new lawn have been added to that already in existence, on which was placed 4,501 cubic yards of prepared soil. The old lawn was ploughed and seeded with orchard and rye grasses; 200 wagon loads of well rotted cow manure were hauled from a neighboring cow ranch and used for a top dressing on the same.

One thousand nine hundred feet of new walks, 12 feet in width, were constructed around the above lawn, on which 422 cubic yards of macadamized rock were placed.

Ninety-five lineal feet of vitrified stone pipe were used and

placed at an average depth of seven feet from the surface, at the quarry, to drain the same.

A rosary was made in front of the Lodge on the grounds known as the old nursery, and 210 cubic yards of prepared soil used, in which all the roses collected from the different beds in the Park, were planted. The preparation and situation seems to suit them, for in no case is there a sign of mildew.

In shaping these grounds a site was left for a Rose Arbor, which may be built at some future day. The area of the walks made here is 3,400 square feet, on which was placed 62 cubic yards of fine rock.

Two hundred Park settees have been added to those already on the Park. The new ones are 8 feet long and made of sugar pine, finished with one coat of boiled oil. They are handsome in design and very comfortable as seats.

A croquet ground, $1\frac{1}{2}$ acres in extent, was made of what used to be a dump ground, between the north ridge road and Conservatory Valley. There is a walk 12 feet in width all around it, and a thick plantation of pines to windward for shelter. All these pines were moved in the months of July and August, 1881, and the growth which they have made this summer demonstrates that pines may be planted with safety at any season of the year.

Five and three-fourths acres of picnic grounds, lying between the lattice arbor and the croquet grounds, were cleaned of undergrowth and seeded with orchard grass. The only soil put on was a thin coat of poor clay. The rock here is very near the surface, yet the grass did very well. Before it was browned by the dry season, it was quite a feature, and some very attractive vistas could be observed from the line of the new walks made in the vicinity. The total length of new walks made in this locality during the year is 1275 lineal feet—282 cubic yards of macadamizing.

The quarry in Bell Tower hill was intended from the beginning of the Park improvements to form a very attractive feature of the Park. It is marked on the official map "Grotto." Efforts were made during the year to carry out this design, and excavations were made to the amount of 3,500 cubic yards, which were dumped at the junction of North Ridge road and the main drive,

for the purpose of widening the driveway and filling what was always a dangerous and unsightly hole.

At this point there was also built a rockery, where hardy ferns are grown and many hundreds are planted there, as well as 60 varieties of Rhododendrons, donated by Sir Joseph Dalton Hooker, of the Kew Gardens, London.

In lowering the walk from the Casino, on the North Ridge road, 341 cubic yards of sand were removed, 350 feet of 8-foot walks made; 500 feet of turf for verges; 50 cubic yards of fine rock; 60 cubic yards of prepared soil; 20 loads of old stumps to keep the bank from slipping, and planted with 5 year old pines and a large variety of shrubbery.

The cut at the Casino was 1325 cubic yards—no fill—1001 cubic yards of macadamized rock were used in the vicinity of the building.

The grounds around the rustic pavilion were somewhat changed. Two steps, 50 feet long, and one drinking fountain have been placed in front of the building. In reshaping the grounds, 225 cubic yards of "cut" and 226 cubic yards of "fill," were made; 102 cubic yards of macadamized rock used and the grounds planted.

In the reconstruction of the walk from the Casino to 6th avenue, 428 cubic yards of "cut" and 503 cubic yards of "fill" were made, and 321 cubic yards of macadamized rock used.

During the year 9923 cubic yards of macadamized rock were used on the Park drives, all for repairs. No drives were constructed during the year.

The drinking fountains used on the Park were designed by the Superintendent, and they seem to meet the requirements of visitors. There are several on hand to put up when needed.

Commissioner Alvord donated \$200 for a lily pond to grow hardy lilies; which was made opposite Haight street, and in which were placed several varieties of Nymphæas as an experiment.

During the year the picnic grounds received their share of attention, many alterations and improvements being made to them.

It was also the intention to make a California garden, and to that end about 400 varieties of seeds, native to this State, were

added to the collection already on hand. Nearly all the seeds germinated and may be seen now at the Nursery.

Baron von Mueller sent to the Park a complete collection of Eucalyptus from Australia, as well as many other rare plants of great value to the Park.

Four hundred varieties of Chrysanthemums were collected from various sources, with the intention of having an exhibition of these beautiful and interesting flowers next November.

A handsome collection of Japanese Maples was received from Yokohama (through Commissioner Alvord) every one now flourishing in the Nursery.

In the Conservatory there are over 9,000 plants of various kinds, some of which are very valuable.

During the year the variety of plants, trees and shrubs has been increased ten times that of any previous year since the Park was begun.

Watering on the Park for the past year has been done very sparingly; not half the amount used as during previous years.

One and one-half acres of lawn were made in Conservatory Valley and 728 cubic yards of made soil placed thereon; native plants, trees and shrubs, which were known to grow on the sands in the Park received special attention during the past year,

A portion of the meadow near the flag poles was used for a temporary nursery during the summer, instead of carrying the stock in pots, which would require much more attention.

There were many other improvements of a minor character made during the year, but the above mentioned are the only ones deserving special notice.

Respectfully submitted.

WILLIAM ALVORD,
FRANK M. PIXLEY,
JOHN ROSENFELD,
Commissioners.

DONATIONS TO THE PARK FOR THE YEAR ENDING JUNE 30, 1882.

NAME.	DESCRIPTION.
Mrs. G. Edwards, Mission Dolores.....	12 papers Australian and Mexican seeds.
M. Ant. Forest, French Consul at Panama.....	1 case rare and valuable Orchids.
Messrs. Williams, Dimond & Co.....	Freight on 1 case Orchids from Panama. Freight on 2 cases Japanese maples from Yokohama.
Dr. A. M. Saxe, Santa Clara.....	1 Phaseolus Caracalla. 1 Caladium Nigrum. 1 Alocasia Spec. 1 climbing plant. Seeds of Pritchandia Guadichandii. 2 packages rare seeds.
Mr. John Smith, San Francisco.....	1 Chile cocoanut palm.
N.r. Balthazar Holler, 317 East street.....	2 cubs, 1 black and 1 grizzly.
Capt. Oliver Eldridge, San Francisco.....	A collection of plants in varieties.
Mrs. Alfred Singer, San Francisco.....	1 canary bird and cage.
Hon. O. N. Denny, Consul-General at Shanghai, through Mr. B. B. Redding.....	1 package seeds, Stillingia sebifera. 1 package seeds, Nephelium lichi.
Mr. L. L. Robinson, San Francisco.....	1 package seeds, Stillingia sebifera.
Capt. W. G. Saunders, ship "Rutlandshire".....	1 cannon, 5 feet long.
Dr. Depieris, San Francisco.....	Seeds of Pinus Alpeis. 1 package Algier's fennel seed.
Mr. Francois Pequillan, San Francisco.....	8 Arizona quail.
Hon. Wm. Alvord, San Francisco.....	100 varieties Japanese Chrysanthemums. \$200 (for making a lily pond).
Hon. O. M. Spencer, U. S. Consul at Melbourne, through Baron von Mueller, Government Botanist at Melbourne.....	215 packages Australian seeds
Mr. A. K. P. Harmon, Oakland.....	2 packages white Mignonette. 2 packages Hybrid Spiral Mignonette. 12 Golden Ferns. 1 Cyrtopodium. 1 Lapageriana alba.
Prof. Sargent, Harvard College.....	3 seeds Cedrus Deodor. 1 paper seeds Telopea Truncata.
Miss Kate M. McLane, San Francisco.....	10 plants Carracinia Californica.
Mr. John H. Redington, San Mateo.....	1 box Lotus of the Nile.
Messrs. Whittier, Fuller & Co., San Francisco..	Paints, oils and brushes for painting flag poles.
Messrs. W. W. Montague & Co., San Francisco..	Gilt stars for top of flag poles.
Mess. Huntington, Hopkins & Co., San Francisco	Steel rods used on flag poles.
Mr. John Hanna, San Francisco.....	1 78-foot flag pole. 1 198-foot flag pole. 1 flag, 52 x 36.

SHERIFF'S REPORT.

OFFICE OF THE SHERIFF,
City and County of San Francisco. }

To the Honorable the Board of Supervisors
of the City and County of San Francisco:

GENTLEMEN—In accordance with Resolution No. 15,758, (New Series), of your Honorable Body, I herewith respectfully submit the following report:

The amount of fees received in this office and paid into the Treasury from December 5th, 1881, to June 30th, 1882, inclusive, as per monthly statements made to the Auditor, are as follows:

SUPERIOR COURT DEPARTMENT.

1881—December.....	\$372 02	
1882—January.....	1,194 37	
February.....	2,843 11	
March.....	1,326 13	
April.....	898 17	
May.....	1,096 17	
June.....	1,496 67	
		<u>\$9,226 64</u>

JUSTICES' COURT DEPARTMENT.

1881—December.....	\$438 91	
1882—January.....	490 58	
February.....	462 64	
March.....	479 32	
April.....	458 92	
May.....	520 24	
June.....	426 30	
		<u>\$3,276 91</u>

SHERIFF'S REPORT.

RECEIVED FOR BOARD OF U S. PRISONERS

1881—November	\$224 80	
December	173 60	
1882—January	155 30	
February	248 40	
March.....	247 60	
April.....	134 80	
		\$1,184 50

I am unable to report the receipts of this office for the balance of the fiscal year, commencing July 1, 1881, owing to the fact that my predecessor has failed to turn over to me the books of his term of office.

JOHN SEDGWICK,
Sheriff.

REPORT

OF THE

BOARD OF FIRE COMMISSIONERS.

FIRE COMMISSIONERS' OFFICE,
San Francisco, July 1, 1882. }

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—In conformity with Resolution No. 15,758 (New Series), the Board of Fire Commissioners have the honor to submit their sixteenth annual report of the condition and workings of the department under their charge for the fiscal year ending June 30, 1882.

Since our last report, there has been two changes in the Board, caused by the retirement of Gordon E. Sloss and Gus Reis, whose terms of office expired. F. C. Siebe and John Mason were appointed by your predecessors as their successors in the Board of Fire Commissioners.

By reference to the statements accompanying this report, the total valuation of the property held in trust by this Commission amounts to \$456,350.

* We respectfully call the attention of your Honorable Board to the report of the Chief Engineer of the department, and urge the adoption of the recommendations contained therein; also, the statements of the condition and workings of the department under his charge.

Respectfully submitted.

REPORT
OF THE
CHIEF ENGINEER
OF THE
San Francisco Fire Department.

*To the Honorable the Board of Fire Commissioners
of the City and County of San Francisco.*

GENTLEMEN—I have the honor to submit to you my annual report of the workings of the San Francisco Fire Department for the fiscal year ending June 30, 1882.

This department has responded to 301 hall-bell alarms and 105 “still alarms,” making 406 actual fires, causing a loss of \$701,626.35.

PROPORTION OF BUILDINGS BURNED.

Totally destroyed.....	70
Considerably damaged (loss above \$500)	91
Slightly damaged (loss below \$300).....	322
Fires confined to one building.....	239
Fire and no damage to building.....	40

There were three fires during the year at each of which the loss exceeded \$50,000, viz:

1881—September 25, Overland Warehouse.....	\$ 61,908 83
“ October 13, California Mill	119,423 68
1882—June 10, Silk Factory	65,653 61
Aggregating a loss of	<u>\$216,986 12</u>

Or very nearly 34 per cent. of the entire loss for the year.

The first occurred on September 25, 1881, alarm from Box 186, being for a fire discovered at the Overland Warehouse, located on the east side of Third

street and extending from King to Townsend ; one story brick building containing valuable goods on storage.

The second and most disastrous fire during the year was that at the California Lumber Mill located corner of Howard and Spear streets. Alarm from Box 39. A general alarm was sent in and responded to by the whole department. The fire burned with such rapidity that three workmen, engaged in the upper part of the building were unable to escape and were burned to death.

The cause of the fire, as ascertained by Fire Marshal Durkee after a careful investigation, was carelessness of children with matches in an unoccupied building adjoining the mill. The combustible nature of the building, contents, and surroundings (lumber), caused the fire to spread with such fierceness that the whole force of the department was required to extinguish it.

The third was a silk factory and four dwellings situated on the corner 11th avenue and P street—alarm from Box 281. Building of wood, two stories. There being no water available in the vicinity, the efforts of the department were powerless.

APPARATUS.

The apparatus of the department is kept in the best possible condition for service, and comprises twelve steam fire engines and hose tenders in service with companies. Six engines (relief)—four, four-wheeled hose reels, and four two-wheeled reels in company service—five two-wheeled reels (relief). Four hook and ladder trucks in company service, and two relief. Also, through the courtesy of the Honorable Board of Harbor Commissioners, the steam tug "Governor Irwin, to be used as a fire boat when occasion requires.

HOSE.

The department will require an additional supply of hose before the expiration of the present year. We have on hand extra hose, 2,100 feet, at the corporation yard, in addition to what is on the reels of the different companies, a large conflagration would seriously cripple the department. I would, therefore, recommend the purchase of hose sufficient for any emergency.

HOUSES.

I call the attention of your Honorable Board to the fact that a number of valuable lots which were set apart for fire department purposes are now occupied by squatters who pay no rent or taxes to the city.

They have taken forcible possession, built houses, and are now occupying them without leave or authority. They should be evicted, as the time is not remote when the department will require them for building purposes.

The necessity for a new location and building for Engine Company No. 11, located at South San Francisco, has been called to your notice in my

previous reports. The location now occupied by that company is in a low and swampy place, the building old and very much out of repair. I am constantly the recipient of complaints by the members, of its dangerous and unhealthy condition. An exchange of the property can be made, I am informed, and would respectfully urge upon your Honorable Body that a change be made at your earliest convenience.

I recommend the formation and location of an additional engine company in the vicinity of Valencia and Twenty-sixth streets—"Commorfordville." The property owners and residents have made very urgent requests, and petitions have been presented for the location of a fire company in that part of the city. Property owners in a measure are almost unprotected, and a fire occurring would likely be serious before an engine could arrive. Water facilities are good, and a company located as suggested would be ample protection against fire in that rapidly growing portion of the city.

HYDRANTS.

The Department, in the discharge of their duty of extinguishing fires, has been materially aided by the prompt response of the Spring Valley Water Company made to it for setting and resetting hydrants. During the year 20 additional hydrants have been set, aggregating 1,348, the property of the city, and 43 owned by private parties, making a total of 1,391 available for fire purposes. In addition, there are 55 cisterns, with an aggregate capacity of 2,000,000 gallons.

HORSES.

This Department has lost seven horses during the year—two by accident, one by disease, and four condemned as unserviceable and sold by order of his Honor the Mayor. I would urge the immediate purchase of four horses of the kind and character suitable for our service, and all horses hereafter required, to be selected and purchased subject to a trial of one month. In the month of December, the disease called "pink-eye" attacked the horses of the Department in a mild form, and in every case yielded to proper treatment. We have on hand 71 horses, distributed as follows:

With engine companies.....	36
With hose companies.....	13
With truck companies.....	8
With Chief Engineer.....	1
With Assistant Engineer.....	1
With Corporation Yard.....	12
With Corporation Yard, (mule).....	1
Total.....	<u>72</u>

FIRE ORDINANCES.

The Engineer Corps of the department are by law constituted a Board of Fire Wardens, whose duty consists of examining all buildings erected or in course of erection. Many cases have come under their observation wherein large and costly brick buildings have (through ignorance or incompetency of the architects) been constructed in such a manner as would seriously endanger the lives of the occupants.

Notices have been served, and the attention of the owners called to the danger, who have in all cases acceded to the demands of the Fire Wardens, and the mistakes or errors rectified. Some, wherein party walls were in question, refused to comply with the ordinance, and a criminal prosecution was the result, and many cases were dismissed through defects in the law. My experience, and also that of the Board of Fire Wardens and of the expert of the Board, P. J. O'Connor, is that the fire ordinances should be materially amended. I have accordingly called attention to the sections I would have amended:

SECTION 3.—The floors of buildings constructed for the following uses shall be capable of sustaining with safety the following weights:

Tenement houses.....	100 pounds to the superficial foot.
Dry goods.....	310 pounds to the superficial foot.
Flour store or mill.....	350 pounds to the superficial foot.
Public assembly hall.....	180 pounds to the superficial foot.
Warehouse store.....	350 to 600 pounds to the superficial foot.
Sugar houses.....	350 to 500 pounds to the superficial foot.
Roof.....	60 pounds to the superficial foot.

When floors are supported on wooden columns the weight imposed upon them shall not exceed one-quarter of the breaking weight.

SECTION 8.—Party walls for buildings exceeding four stories in height, the basement walls shall be not less than twenty-four (24) inches in thickness; the first story shall be not less than twenty (20) inches in thickness; the second and third story shall be not less than sixteen (16) inches in thickness.

Division walls shall be considered as walls dividing a building whose outer walls have been constructed in accordance with Section 8.

SECTION 12.—*Cast iron lintels* shall, in all cases where they are required to carry brick work or other material, be constructed as follows:

The top flange shall contain not less than one-quarter of the metal contained in the bottom flange, and the thickness of metal in the rib or blade and top and bottom flange shall be as 5, 6, 8, and they shall have skin backs cast on them to receive the brick arch.

Wrought-iron girders of the box pattern, made of plate iron, shall have

diaphragms placed not more than five feet apart, properly riveted in place. All riveting shall be done with hot rivets, to be hammered to a conical head.

In the calculation of the strength of cast-iron lintels, the load shall not exceed one-quarter of the breaking weight, and for wrought-iron girders the load shall not exceed one-third of the breaking weight.

SECTION 15.—The brackets to sustain the cornices of buildings shall be of wrought-iron bars of not less than $2 \times \frac{1}{4}$ inches, to pass through the walls. Wooden brackets may be secured to them.

UNIFORMS.

The uniforming of the engineers, and permanent men of the Department on duty at the different houses, in compliance with the orders of your Honorable Body, has been so generally commended by the public, and has proven to be so promotive of discipline and *esprit du corps*, that it gives rise to the hope that the time is not far distant when the whole, if not the greater portion, of the Department may become permanent men, and uniformed, thus placing it on an equality with other metropolitan cities.

Your attention is respectfully called to the statements hereto annexed, showing the workings of the Department for the year.

I take this occasion to return my thanks to Capt. Russell White of the Fire Patrol; Capt. John L. Durkee, Fire Marshal; and to P. Crowley, Chief of Police, for the valuable aid and assistance rendered the Department on occasions requiring such service; also to Superintendent John Curran, for the admirable system and management of his branch of the service.

To the officers and members of the Department I am under obligations for the intelligence and efficiency displayed by them on all occasions, and to your Honorable Board for the unceasing diligence displayed by you to keep the Department in a manner alike creditable to all concerned.

Respectfully submitted.

DAVID SCANNELL,

Chief Engineer, San Francisco Fire Department.

Electropon	105
Leclanche.....	3
Total	295

We are now operating one hundred and twenty-nine miles of wire, one hundred and twenty-one miles being on poles and the balance on houses, divided into twelve signal circuits, seven alarm circuits, and one tapper circuit.

During the past year the following extensions and improvements have been made:

One of the Mission signal circuits was extended, connection being made at Twenty-fourth and Mission, running on Twenty-fourth to Church, to Twenty-eighth, to Dolores, to Twenty-ninth, to Mission, to Twenty-sixth, where it was again connected.

This extension covers the section south of Twenty-fourth and west of the Mission Road, including Comerfordville, hitherto entirely unprotected, and on which three boxes were placed.

The lines were rebuilt between the following points: On Sixteenth, from Guerrero to Folsom; on Twenty-second, from Folsom to Howard, to Nineteenth, to Folsom; on Valencia, from Eighteenth to Twenty-second, to Mission; on Valencia from Market to Ridley, such poles as were fit being reset.

The lines on Valencia, from Ridley to Sixteenth, were transferred to Ridley, to Guerrero and Sixteenth. By this change several loops were taken out.

All lines were pulled up, slack taken out and corner poles guyed.

Box 157 was transferred from Folsom east of Fourth (on house) to forty-foot pole at Folsom and Fourth. One hundred twenty-five-foot poles and ten thirty-foot poles were used in repairs and extensions.

A line was run from the South Harbor Police Station to Engine No. 9, a push button and battery being placed at the Police Station and a vibrating gong at Engine No. 9, for the purpose of summoning Engine No. 9 to extinguish incipient fires on the hay dock, and thereby avoid calling out the entire Fire Department.

The roof of the office and the entire tower was repaired and painted, girders tightened and wedges driven where necessary.

Self-feeding reels were placed over the registers, being an improvement on the old reels, which were under the table and required the attention of the operator while receiving an alarm to reel off the paper by hand.

Several changes in the old repeater as reconstructed were necessary, and it is now ready for use in case of emergency.

Six automatic boxes were placed in circuit, two replacing crank boxes removed, the balance being new boxes, as follows: 275, 283, 284, and Box 7 at South San Francisco, located as per official list.

The local line at South San Francisco was extended from Railroad avenue on Seventh avenue to M street, to Fifth avenue, Box 7 being located at this point.

The employees of this Department are :

Superintendent.....	JOHN CURRAN
Operator.....	ALFRED CLARKE, JR.
Operator.....	EDWIN H. REESE
Operator.....	WILLIAM MORTON
Repairer.....	WILLIAM E. ACKERSON
Assistant Repairer.....	DANIEL SHAY
Assistant Repairer.....	ANTON CHRISTIANSEN

EXPENDITURES.

Salaries of employeess.....	\$8,100 00
Extensions and repairs.....	7,497 83
	<u>\$15,597 83</u>

During the year three hundred and one alarms were given through the Fire Alarm Telegraph, as follows:

Fires.....	262
General alarm.....	1
Second alarms.....	3
Duplicate alarms.....	2
False alarms.....	15
Chimneys.....	17
Bonfire.....	1
Total.....	<u>301</u>

This is the greatest number of alarms struck any year since the organization of the Department.

REMARKS.

The beneficial effects of the transfer of the wires from houses to poles last summer was very apparent during the winter, interruptions from crosses and grounds being the exception instead of the rule as heretofore, and when trouble from the above causes has occurred during the night, I have in a majority of cases been able to locate and remove it immediately, which was never the case while the lines were on houses, having invariably to wait until daylight. No extra labor was employed during the past year, in order to keep the running expenses within the reduced appropriation.

As I have repeatedly stated in my reports, the Department is deficient in automatic boxes, a defect that in my opinion should be remedied either by a special appropriation or a sufficient yearly allowance to admit of the change from the crank to the automatic being made at an early date.

The Fire Alarm Telegraph is acknowledged to be the right arm of the Fire

Department in all cities. This being the case, it should be so liberally provided for as to admit of all the latest improvements now in vogue in Eastern cities being introduced into the Department. As I have stated time and again, the crank box is not a reliable method of transmitting alarms.

In conclusion, I wish to tender my thanks to his Honor the Mayor, the Board of Supervisors' Fire Department Committee, the Board of Fire Commissioners, Chief Engineer Scannell and his Assistants, Chief of Police Crowley, the Board of Underwriters, and Captain Russell White of the Fire Patrol, for their kindness and courtesy to this Department, and I also take pleasure in returning my thanks to the employees of this Department for their cheerful co-operation and valuable assistance in promoting the efficiency and reliability of the service.

All of which is respectfully submitted.

JOHN CURRAN,
Superintendent Fire Alarm and Police Telegraph.

COUNTY CLERK'S REPORT.

OFFICE OF THE COUNTY CLERK,
OF THE CITY AND COUNTY OF SAN FRANCISCO, }
SAN FRANCISCO, July 15, 1882. }

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—In compliance with a Resolution of your Honorable Body, I herewith submit my Annual Report, showing the transactions of the several departments of the County Clerk's office during the fiscal year ending June 30, 1882.

Very respectfully,

DAVID WILDER,
County Clerk.

ORGANIZATION OF THE SUPERIOR COURT.

By the Judges of the Superior Court.....	\$3,639 40	\$649 95	\$37 03	\$39 25	\$122 22	\$511 77	\$13 05	\$5,612 67
By the County Clerk	22 00	784 50	1,038 50	545 07	542 33	123 10	3,055 50
	\$3,639 40	\$671 95	\$821 53	\$1,077 75	\$667 29	\$1,054 10	\$136 15	\$8,068 17

The supplies during the fiscal year 1881-82, were charged to the different Departments of the Superior Court as follows:

Office	1.	2.	3.	4.	5.	6.	7.	8.	9.	10.	11.	12.	Total.	
	\$2,322 76	\$579 17	\$572 70	\$453 35	\$490 33	\$383 25	\$625 94	\$830 63	\$466 77	\$659 20	\$329 57	\$148 00	\$136 50	\$8,068 17

There were audited, during the fiscal year 1881-82, bills for stationery supplied to the Courts and to the County Clerk's Office during the two preceding fiscal years, amounting to \$471.33, thus making the apparent expenditure for the fiscal year 1881-82, \$8,542.50. No stationery bills incurred prior to June 30, 1882, for this office, remain unpaid.

Conveying books, papers, money, etc., to and from old City Hall...	93 10
Cost of stationery, etc., as shown in detail on page 347:	
Ordered by Judges.....	\$5,012 67
Ordered by County Clerk.....	3,055 50
	8,068 17
Total	\$99,037 31

NOTE.—The above statement shows the actual expenditure for the fiscal year 1881-82. To make the total conform to that shown in the Auditor's report, it is necessary to add amounts audited during 1881-82, but belonging to previous years, viz:

Salaries.....	\$775 00
Stationery.....	474 33
	\$1,249 33
And to deduct certain salaries for July, 1881, not yet audited	1,213 98
	35 35
Total apparent expenditure.....	\$99,092 66

RECEIPTS.

Total receipts of office fees paid into City and County Treasury.....	\$50,113 50
Amount of fines imposed by Court, and paid into treasury by the Clerk.....	1,536 00
Amount received for Law Library Fund taxes and paid to Treasurer of San Francisco Law Library.....	4,495 00
Total.....	\$56,144 50

REMARKS.

The last annual report of the County Clerk was presented in August, 1881, by General John McComb, appointed by the Board of Supervisors, on the first day of that month, to fill the vacancy caused by the resignation of County Clerk William A. Stuart. The statistics then presented, for the fiscal year ending June 30, 1881, showed an expenditure of \$165,257.82, and receipts of \$60,739.50, leaving a deficit of \$104,518.32. For this large expenditure General McComb pointed out that he was not responsible; and he explained clearly the methods which he

had adopted in the effort (then apparently successful) to keep his salary list within the limit of \$5,000 per month which had been set by the Board of Supervisors in making the appropriations for the fiscal year 1881-1882. The present report, for the fiscal year ending June 30, 1882, covers three administrations, viz: that of William A. Stuart, for the month of July, 1881; that of John McComb, for one month and twenty-three days, from August 1, 1881, to September 23, 1881, inclusive; and that of David Wilder, for nine months and seven days, from September 24, 1881, to June 30, 1882, inclusive. I have therefore classified the expenditures so as to charge each administration with its exact share of the salary list, and with its approximate share of the cost of stationery, etc., this latter branch of expenditure being divided into seven different classes, and also carefully analyzed, so as to show not only the proportion properly chargeable to this office, but the approximate amount chargeable to each of the twelve Departments of the Superior Court. These details will be found in a table which I have added to those usually found in the reports from this office, and to which I invite your special attention. Economy in the purchase and use of stationery has been carefully studied during my administration, the chief clerk in each room being charged with all articles issued to him; but over the expenditure of the Judges of the Superior Court (which was to mine as 5 to 3 during the year) I have of course no control, although it is all charged to this office on the Auditor's books.

REMOVAL OF THE OFFICE AND COURTS.

In February, 1882, after conferring with the New City Hall Commissioners, the City and County Surveyor, and the County Clerk, and with the consent of those officers, Supervisor Kennedy, Chairman of the Building Committee, arranged that the main office of the County Clerk, including all the records of the old District Courts and of the eight General Departments of the Superior Court, should be removed from the Old City Hall to the suite of rooms originally designed for it in the New City Hall, being those on the North or McAllister street front, west of the main entrance, first floor. The Surveyor, vacating the

first three rooms, moved to a suite on the third floor; the Secretary and Architect of the New City Hall Commissioners, vacating the fourth and fifth rooms, continued to occupy the sixth; and the five rooms were fitted up to receive the books and papers of the County Clerk, which, as the old pigeon-holes and racks were utilized, had to remain packed in boxes during the removal of the fittings. The packing of the papers began on Monday, February 6th; the unpacking at the New City Hall began on the 14th; and the new office was opened for business on Monday, the 20th, this result being reached only by zealous activity on the part of every clerk, and the hearty co-operation of Mr. Hughes, employed by Supervisor Kennedy to superintend the removal. At the same time, and with the approval of the Judges, the court-rooms of Departments 6 and 7 were removed to the second floor, and that of Department 8 to the third floor, of the New City Hall: and the space thus made available in the Old City Hall has since been assigned (June, 1882) to the two Criminal Departments (11 and 12), previously occupying rented rooms in Metropolitan Block.

BRANCH OFFICE, OLD CITY HALL.

Besides the Criminal Departments, there remain in the Old City Hall the Court-rooms of Departments 1, 2, 3, 4, and 5; and the whole time of one clerk, and the occasional services of others, are needed to carry to and fro the papers required for use in those departments. For the proper distribution and return of these papers, and the frequent (almost constant) telephonic communication which is necessary between the main office and those departments, a branch office was established, in charge of a deputy, with a copyist as assistant, on the second floor of the Old City Hall. The business of naturalization is done here; and, for the convenience of members of the bar, papers are received here, in sealed envelopes, for transmittal to the main office, where, if correct, they are filed, and, if requested, are acknowledged by postal card, thus saving the attorney or his clerk a journey to the New City Hall. This accommodation has been made use of to the extent, sometimes, of a hundred papers in a day; and the thanks of the Bar Association were voted for it at the last annual meeting of that body.

EXTENT AND DISTRIBUTION OF THE CLERICAL FORCE.

There has been so much discussion as to the amount required for the pay-roll of this office, that I feel justified in calling special attention to the subject here. The law of April 2, 1880, gives the County Clerk power to appoint 48 deputies and 36 copyists, whose monthly salaries (allowing the copyists 26 days) would aggregate \$10,608. It is well known that my predecessor, Mr. Stuart, availed himself of all the clerks allowed by law. His absence, at the time when the report for 1880-1881 was completed, left the facts without the explanation which might have accompanied them; but that even the 84 clerks were insufficient to do the work of the office may be inferred from the action of the contemporaneous Board of Supervisors, by whose vote, month after month, to and including June, 1881, an additional force of 15 or more clerks was employed, and paid from the Urgent Necessity Fund and the Special Fee Fund, the amount of salaries so voted having reached \$23,171.50 (besides \$775 since allowed, making \$23,946.50—say \$2,000 per month) during the fiscal year 1880-1881. In the month of June, 1881, Mr. Stuart's pay-roll was \$10,608, to which the Board of Supervisors added \$1,150, making \$11,758. It will hardly be credited that the same Board, at the same time, fixed the limit for July, 1881, and for each of the succeeding months, at \$5,000. Such, however, is the fact.

Mr. Stuart did not reduce his force, but, at the end of July, tendered his resignation and left the city without signing the warrants for his clerks, who, however, afterwards obtained relief from the Courts, the amount thus allowed being \$10,793.68. His successor, General McComb, endeavored to keep within the \$5,000 limit; but his deputies, although consenting to receive four-fifths of the salaries fixed by law, afterwards recovered the difference by a suit, the Court deciding that the agreements they had signed were not binding; and his pay-roll finally amounted to \$6,167.65 per month for the month and twenty-three days during which he held office, thus exceeding by nearly \$600 the estimate which he quotes in his report as having been made by Mr. Solon Pattee, then City expert, that "\$5,575 per month would be required to pay the salaries distinctly provided by law." As

even General McComb's force was certainly inadequate for the permanent working of the office, the fallacy of Mr. Pattee's estimate is obvious.

In assuming the office, September 24, 1881, (having been elected for the unexpired term as well as for the regular term, beginning December 5, 1881,) I had to learn by some experience that neither the Supervisors' limit of \$5,000, nor Mr. Pattee's estimate of \$5,575, nor yet General McComb's actual expenditure of \$6,167.65, was a safe standard of economy for me to follow. To the force of 32 deputies and 14 copyists which I inherited from General McComb, I therefore added, from time to time, 4 deputies and 8 copyists, making my present force 58 clerks, with a monthly pay-roll of \$7,541, as against 84 clerks, costing \$10,608, allowed me by law. In a table on page 348, I have shown how the force is distributed. As to its composition, I may say that twenty-four of the clerks whom I found in the office, were retained for varying periods, fifteen of them being still employed; and that of the remaining forty-three now employed, there are eleven who had served under one or more of my predecessors. No ladies were employed as copyists during the year, except in July, 1881.

HOW TO REDUCE THE EXPENSES OF THE OFFICE.

I take the liberty of suggesting two ways in which the salary list may be reduced:

First—By legislation, amending the law of April 2, 1880, so as to permit the County Clerk to appoint a certain number of deputies at \$100 per month, a certain number at \$125, a certain number at \$150, and a certain number at \$175. He would thus be able to promote copyists to be deputies, without at once doubling their salaries—a rate of increase not business-like; and afterwards to promote them according to their experience and ability. With such a schedule, each clerk would feel encouraged to do his best work, and the office could be conducted on the same principles as any private business. The law should also recognize (as in other municipal departments) a chief deputy, at a higher salary than is now paid to any deputy. I consider

myself fortunate in having been able to retain, at the present inadequate rate of compensation, the acting chief deputy, Major J. D. Ruggles, whose long experience, accurate legal knowledge, indefatigable attention, and unflinching courtesy, give his services a value which is appreciated both in the office and among members of the bar.

Second—By concentrating the force in a few large rooms, under the eye of a single chief, so that work may be transferred from the desk of a clerk temporarily busy to that of another temporarily idle. By reference to the table on page 348, it will be seen that besides the twelve court-room clerks, the other forty-six clerks are distributed in twelve different rooms. Many of these clerks have their special duties, which they must be at all times ready to perform; and their remoteness from the main office makes it impossible to utilize their intervals of leisure. Upon the completion of the New City Hall, some new arrangement of the force may admit of a reduction in its extent and cost.

A saving in the cost of the Probate Department may be effected (as General McComb pointed out last year) by legislation, amending Section 1704, Code of Civil Procedure, which now requires that "all orders and decrees of the Court or Judge must be entered *at length* in the Minute Book of the Court."

HOW TO INCREASE THE RECEIPTS OF THE OFFICE.

My predecessors, for several years past, have annually called attention to the imperfections of the Fee Bill, which, especially in the Probate Department, allows but inadequate compensation for many of the services performed. I heartily concur in these remarks, and in recommending legislative action. This office has not been self-sustaining since the fiscal year 1869-1870; and without a proper Fee Bill, not even the closest economy can make it so. The rapid annual increase in the number of papers on file, and record books in the racks, and the necessity of keeping every one in good order, in its place, and always accessible to attorneys and searchers, involves constantly increasing labor, for which there is no compensation.

The work of naturalization, for which a fee was formerly (and in my opinion, should still be) allowed, is done for nothing.

Since the adoption of the New Constitution, the number of new incorporations has largely decreased. The New Constitution (Sec. 11, Art. VI,) gives Justices' Courts concurrent jurisdiction with the Superior Court in cases of forcible entry and detainer, where the rental value does not exceed \$25 per month, and where the whole amounts of damages claimed does not exceed \$200. This provision decreases the income of Department 10 more than \$100 per month.

Our fee bill provides that "for the trial of a cause and entry of judgment," there shall be paid a fee of \$4.00. In a large percentage of cases, the payment of this fee is evaded, judgment never being entered. If the Judges would enforce payment of the fee immediately upon rendering a decision, or upon receiving the verdict of a jury, the income of this office would be considerably increased. Respectfully submitted,

DAVID WILDER,
County Clerk.

POUND KEEPER'S REPORT.

SAN FRANCISCO, July 1, 1882.

To the Honorable the Board of Supervisors
of the City and County of San Francisco:

GENTLEMEN—In compliance with Resolution No. 15,758 (New Series), I hereby submit to you the following statement of the Public Pound since January 5th to June 30th, 1882.

RECEIPTS.

1882—January, Cash received and paid into the City Treasury....	\$192 15
February, “ “ “ “	182 45
March, “ “ “ “	196 90
April, “ “ “ “	267 70
May, “ “ “ “	231 00
June, “ “ “ “	209 45
Total	\$1,279 65

I herewith submit the following report of the Dog Pound for the six months ending June 30, 1882:

RUDOLPH LOSSIUS,
Pound Keeper.

HEALTH OFFICER'S REPORT.

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—I have the honor to submit my report of the affairs of this office, including mortuary and other statistics, for the fiscal year terminating June 30th, 1882.

During the year there were 5,008 deaths against 4,287 of the year preceding, an increase of 721. Of these, 527 were Mongolians, 4,481 were of other nationalities.

Estimating our population at 234,520 (United States Census), the annual ratio of deaths per 1,000 population was 21.34 against 18.27 of the preceding year.

Estimating the Chinese population at 22,000 (United States Census), the annual death rate per 1,000 was 23.9 against 21.7 of the preceding year.

Estimating the population of other nationalities at 212,520, the annual ratio of deaths was 21.08.

Among the more prominent causes of death were, from zymotic causes: measles, 66; scarlatina, 53; diphtheria, 102; typhoid fever, 98; cholera infantum, 50. From constitutional diseases: cancer, 149; phthisis pulmonalis, 725. From local diseases: encephalitis, 135; apoplexy and paralysis, 153, other diseases of the nervous system, 259; heart disease, 234; pneumonia, 527; enteritis, 88; Bright's disease, 56. From developmental diseases the principal causes of death were: atrophy, inanition, and old age, 365. Of violent deaths there were 238. There were 125 deaths from unascertained causes; of these 95 were Mongolians.

With the exception of measles, no disease has assumed an epidemic character during the year. Measles prevailed for several months as an epidemic.

Although only 66 deaths are reported as attributable to this disease, I have reason to know that many of the deaths ascribed to pneumonia were complications of the two diseases. During the preceding fiscal year, when there was no epidemic of measles, 97 deaths from pneumonia, of children under 5 years of age, were reported; while, during the fiscal year just terminated, *with* an epidemic of measles prevailing, 180 deaths were reported of children under 5 years of age from the same cause. This statement is necessary because of the large increase in deaths from pneumonia during the fiscal year just terminated.

There were 725 deaths from phthisis pulmonalis, an increase of 45, as compared with the preceding year. The large number of deaths from phthisis pulmonalis is attributable to the fact that many strangers die here from this cause, arriving from other sections of the country in the last stages of the disease with the vain hope of improvement.

Besides the increase in the death-rate from pneumonia and phthisis, there has been a sufficient increase of deaths from other diseases to raise our mortality from 4,287 of the preceding year to 5,008 of the fiscal year just terminated, and this, too, without any epidemic of scarlatina, diphtheria or small-pox, or any other disease, with the exception of measles, as stated above. The ratio of deaths per 1,000 population (21.34) is the highest that has been reached in ten years; notwithstanding that during the fiscal year terminating June 30th, 1867, there was from small-pox, diphtheria and scarlatina 1,427 deaths against 196 from the same diseases during the present fiscal year. By reference to table (XXXVI.), it will be seen that there are only two cities of over 200,000 inhabitants the death-rates of which are less than that of San Francisco. While this favorable comparison with the death-rate of other large cities is a source of congratulation, my experience, observation and knowledge of the sources of disease of the city teach me that this death-rate can and ought to be

reduced more than 25 per cent. The large increase in our death-rate, especially during the last six months, is principally due to the defective and disgraceful condition of our sewers. I have over and over again called attention to these defects, and stated how, in my opinion, they were to be removed; and if I reiterate some of the views heretofore expressed, it is because the welfare, prosperity and even the greatness of our State depend so much upon the proper enforcement of sanitary conditions.

In my report of 1877, I called attention to the condition of our sewers; that many of them were defective as to size, material, grade and outlet, and all of them defective as to ventilation; that many of them were constructed of wood, some of inferior brick, and that most of them, not having proper fall or outlet, were simply prolonged cesspools, distilling poisonous gasses, which penetrate houses, bringing sickness, distress and death to our families; that these sewers and the equally defective house-drains form an irrigating system which had already made a disease-breeding swamp of a considerable portion of the city, which was extending itself and becoming more and more polluted every year by the leakage from these pent-up sewers and wooden drains. I then recommended that the construction and reconstruction of the sewers should be placed under the charge of a practical and scientific sanitary engineer.

Bad as was the condition of these wooden sewers five years ago, it is much worse to day. They are becoming more and more decayed, the ground adjacent is becoming more and more saturated with putrescent sewage, and but for our trade-winds of eight months' duration, and our uniform low temperature and long dry seasons, no doubt epidemics of the most virulent types would prevail. The mephitic air of these sewers is not only productive of zymotic diseases, but by means of its depressing influence upon the vital forces, patients are less able to resist the ravages of other diseases. For instance, every physician of experience appreciates the difference between a case of simple pneumonia and a pneumonia complicated by malarial poisoning. While the tendency of one is to recovery, the other frequently terminates fatally.

Without additional legislation, I know that your Honorable Body can do nothing towards the reconstruction of the sewers; but much can be done in averting distress and saving life by using all the means in your power—in constantly cleaning and flushing the sewers, especially those south of Market and east of Montgomery streets.

More than one-third of the deaths during the year were of children under five years of age. If the State is to depend for its future prosperity and greatness upon the children born upon its soil, and reared under the influence of its liberal institutions; if, as one of our greatest statesmen has said, "Public health is public wealth," then let the people insist upon such legislation as will protect them not only from present evils, but from those that we know not of. Let us not depend too much upon our present immunity from epidemics, or we may be overtaken by some terrible scourge, and our population decimated, as was that of Memphis in 1878.

Asiatic cholera is now an epidemic among the natives of Yokohama. With that city, by means of swift steamers, we are having frequent communication. Should the germs of that terrible scourge be introduced into this city in its present unsanitary condition, who can conceive of the consequences that might ensue?

With the possibility of the introduction of this fearful disease, and the probability of other epidemics arising from our present unsanitary condition, it becomes my duty to urge upon you the adoption of energetic measures to prevent calamities which otherwise may befall us.

The Chinese quarter is in better condition than it has been for years; its streets are daily swept, and large amounts of filth and garbage are removed every 24 hours. While the death-rate is larger than in any other portion of the city, there is a remarkable freedom from zymotic diseases, except during the prevalence of smallpox. While only 24 deaths are reported as attributable to zymotic causes, six of these being from smallpox, 135 of the Chinese fell victims to phthisis pulmonalis and 129 to pneumonia

and bronchitis. It is probable also that of the 95 cases reported as having died from unascertained causes, most of them were the victims of pneumonia or phthisis.

The overcrowded condition in which these people live in their unventilated underground habitations, the atmosphere of their rooms reeking with odors arising from the smoking of opium and tobacco, and other disgusting effluvia, is the principal factor in producing constitutional and local diseases, while the ever present fumes of opium and tobacco seem to act as disinfectants upon the germs of zymotic diseases. Every time I visit these underground habitations, I am struck with astonishment, not that a large number of these people die, but that any of them should live, breathing an atmosphere so stifling and disgusting.

The sanitary laws of the city, especially those in regard to drainage, are more rigidly enforced against the property owners of this district than any other portion of the city, not because the Chinese occupy their houses, but because their overcrowded condition requires constant surveillance and faithful enforcement of sanitary laws. If our cubic air law could be enforced against the owners and lessees of this property, as well as against the occupants, not only would the Mongolians be much benefited, but a most intolerable nuisance eradicated.

Two hundred and sixteen cases of smallpox were verified in the city during the fiscal year. Of these, 201 were removed to the Twenty-sixth Street Hospital, five were quarantined at their homes, and ten were reported after death. Six of these were Mongolians, who had been concealed, and died of confluent smallpox. The four Caucasians were cases of malignant variola, and were not reported before death because the disease was not recognized by attending physicians.

Eighty-five cases of variola and varioloid were sent from quarantined ships to the Twenty-sixth Street Hospital, in addition to those reported in the city proper. By reference to table (XXIX), it will be seen that the cases were pretty equally distributed

through the year. There was scarcely a month during the year that there was not a sufficient number of cases to have caused an epidemic in a city less protected by vaccination than San Francisco. Our city is more exposed to epidemics of smallpox than any other in the United States. We have a Chinese population of more than 22,000 domiciled in the very heart of the city, who habitually conceal their cases, making each tenement house in which smallpox occurs a pest-house for the dissemination of the disease. Besides, we are in constant communication with foreign countries where the disease may almost be called a national one. Fortunately our people are not prejudiced against proper vaccination, and until long immunity from the disease, producing carelessness and neglect of vaccination, has occurred, I have no fear of an epidemic of smallpox in this city.

The law which will soon go into effect, preventing the indiscriminate immigration of the Chinese, will remove the most frequent source of its introduction. The large number of the Chinese that have been vaccinated on the incoming steamers during the last two years will also be a great protection against any future danger from this source. For any further information, in relation to the smallpox of the last year, I refer you to the accompanying report of Dr. J. W. Foye.

The reports of the Market, Sanitary and Disinterment Inspectors furnish you with detailed information in regard to the number and character of nuisances abated, and other work performed.

The Secretaries of the Department have performed a most faithful and arduous task in preparing the valuable and extensive tables accompanying this report. We are much indebted to Dr. Henry Gibbons for the very valuable meteorological table kindly furnished by him. It contains information interesting to all, and of great value to many.

The report of Dr. Lawlor, Quarantine Officer, will give you all necessary information in regard to the affairs of that branch of the Department.

The expenses of the office were less by \$6,886.60 (see Secretary's financial report) than those of the preceding year, due to the absence of any malignant epidemic.

Very respectfully,

J. L. MEARES, M. D.,

Health Officer.

 Resident Physician.

REPORT OF QUARANTINE OFFICER.

SAN FRANCISCO, JUNE 30, 1882.

TO J. L. MEARES, M. D.,

Health Officer City and County of San Francisco:

SIR—I have the honor to submit the following statement of the affairs of Quarantine Office for the fiscal year ending June 30, 1882:

YEAR.	MONTH.	NO. OF VESSEL.	DUES.	RECEIPTS.
1881	July.....	94	\$587 50	\$150 00
1881	August.....	72	472 50	587 50
1881	September.....	101	607 50	560 00
1881	October.....	163	935 00	670 00
1881	November.....	90	475 00	635 00
1881	December.....	92	527 50	802 50
1882	January.....	75	475 00	350 00
1882	February.....	98	577 50	625 00
1882	March.....	66	450 00	277 50
1882	April.....	86	502 50	600 00
1882	May.....	77	485 00	352 50
1882	June.....	79	507 50	992 50
	Total.....	1093	\$6,602 50	\$6,602 50

EXPENSES.

SALARIES.		SUNDRIES.	
1881—July.....	\$450 00	Rent.....	\$360 00
August.....	450 00	Horse keeping.....	308 00
September.....	470 00	Sundries for boats.....	562 06
October.....	445 00	Repairs to boat and coal.....	749 70
November.....	535 00	Printing books and telephoning...	73 17
December.....	520 00	Merchants' Exchange.....	120 00
1882—January.....	520 00	Total.....	\$2,172 93
February.....	520 00		
March.....	520 00		
April.....	520 00		
May.....	520 00		
June.....	720 00		
Total.....	\$6,190 00		

Owing to the purchase of the steam launch unfurnished, many articles had to be purchased before it could go into commission. During the year a number of vessels were quarantined, which necessitated the consumption of an extra amount of coal. Watchmen were appointed, all of which caused the expenses of the department to be greatly increased.

Most respectfully submitted,

WM. M. LAWLOR, M. D.,
Quarantine Officer.

MARKET INSPECTOR'S REPORT.

SAN FRANCISCO, July 1, 1882.

Very respectfully,

JACOB WRAY,

Market Inspector.

REPORT OF HEALTH INSPECTORS.

SAN FRANCISCO, July 1st, 1882.

DR. J. L. MEARES,

Health Officer City and County of San Francisco:

SIR—I herewith submit the following report of District No. 1, for the year ending June 30, 1882:

Nuisances reported.....	539
Nuisances abated.....	483
Complaints without cause.....	37
Referred to Street Department.....	16
In course of abatement.....	3
	— 539
Patent water closets constructed.....	66
Stone pipe sewers constructed, feet.....	3413

Respectfully Submitted,

LOUIS R. LULL,
Inspector, District No. 1.

SAN FRANCISCO, July 1st, 1882.

DR. J. L. MEARES,

Health Officer City and County of San Francisco:

SIR—I herewith respectfully present my annual report as Health Inspector, for the fiscal year ending June 30th, 1882:

Number of complaints investigated.....	561
Number of nuisances abated.....	530
Number of complaints without cause.....	20
Number of nuisances unabated.....	11
	— 561
Number of feet of stone and cement sewer used.....	11,767
Number of patent closets constructed.....	99

Very respectfully,

DAN S. CULP,
Health Inspector, Dist. No. 2.

SAN FRANCISCO, July 15th, 1882.

To DR. J. L. MEARES,

Health Officer City and County of San Francisco:

DEAR SIR—I herewith submit my report for District No. 3, for the fiscal year ending June 30th, 1882:

Number of premises complained of.....	439	
Number of premises examined without complaints.....	246	
		685
Number of nuisances abated.....	410	
Number referred to other departments.....	18	
Number of complaints without cause.....	29	
Number premises examined and found in good condition.....	228	
		685
Cement, iron-stone and iron pipe sewers constructed, feet.....	15,122	
Galvanized iron, tin and water pipe.....	3,513	
Wooden sewers.....	610	
		19,245
Private sewers cleaned and reconstructed, feet.....	2,328	
Patent water closets constructed.....	154	
Stench traps and slop hoppers put in.....	213	
Privy vaults cleaned and filled.....	91	
Old wells and cesspools filled up.....	21	
Privy vaults properly connected.....	10	
Privy vaults cleaned not connected.....	16	

About 118 tons of manure, garbage and rubbish has been removed from my district.

I have caused several brick and asphaltum floors to be laid and connected with sewers in China wash houses and basements, which are found to be much better than wood.

Thirteen persons were arrested for not abating nuisances when notified.

Very respectfully,

R. E. CHAPMAN,

Health Inspector Dist. No. 3.

SAN FRANCISCO, June 30th, 1882.

DR. J. L. MEARES,

Health Officer City and County of San Francisco:

SIR—I submit herewith my report as Health Inspector from January 1st, 1882, to June 30th, 1882, together with that of my predecessor, W. H. Cowper, from June 30th, 1881, to January 1st, 1882:

Number of complaints recorded.....	638
Number of complaints abated	614
Number of complaints referred.....	4
Number of complaints without cause.....	14
Number of complaints unabated.....	6
	<hr/> 638
Number of feet pipe drainage constructed.....	13,200
Number of patent water closets placed.....	212
Number of vaults cleaned and placed in good condition.....	252

Respectfully,

SCOTT ELDER,

Health Inspector Dist. No. 4.

SAN FRANCISCO, July 1st, 1882.

To DR. J. L. MEARES,

Health Officer of the City and County of San Francisco:

SIR—I herewith present my annual report for the fiscal year ending June 30th, 1882:

Number of nuisances investigated.....	556
Number of nuisances complained of without cause	44
Number of nuisances abated.....	499
Number of nuisances being abated.....	13
Number of patent closets constructed.....	164
	<hr/> 556
Number of feet of iron-stone pipe used	8,444

Respectfully submitted,

H. J. BURNS,

Health Inspector of Dist. No. 5.

SAN FRANCISCO, July 1st, 1882.

J. L. MEARES, M. D.,

Health Officer of the City and County of San Francisco:

SIR—Herewith I submit my report as Health Inspector for the fiscal year ending June 30th, 1882:

Number of premises complained of.....	851
Number of complaints without cause.....	19
Number of nuisances unabated.....	7
Number of nuisances abated.....	825
	851
Number of feet iron stone sewer constructed.....	9,576
Number of patent water closets constructed.....	144
Number of brick vaults constructed.....	4
Number of ponds filled.....	2

Respectfully,

GEORGE DECKER,
Health Inspector Dist. No. 6.

REPORT OF SUPT. DISINTERMENTS AND VAULTS.

SAN FRANCISCO, June 30th, 1882.

J. L. MEARES, M. D.,

Health Officer City and County of San Francisco:

DEAR SIR—I herewith transmit my report as Superintendent of Interments, Disinterments and Vaults for the fiscal year ending June 30th, 1882:

Bodies of Chinese examined at Cemetery.....	520
Disinterments examined at Cemetery.....	71

The twelve (12) private vaults in bad condition at the date of my last annual report, have been closed according to law.

No bodies have remained exposed in either public or private vaults in the various cemeteries for a longer period than five days.

Very Respectfully,

DANIEL HANLON,
Supt. Interments, Disinterments and Vaults.

METEOROLOGICAL OBSERVATIONS

TAKEN BY

DR. HENRY GIBBONS, SEN.

TABLE No. I.

SHOWING THE AMOUNT OF RAIN IN EACH MONTH SINCE 1850, AND THE TOTAL AMOUNT IN EACH RAINY SEASON.

NOTE.—Each line represents one rainy season.

YEAR.	July.....	August....	September.	October....	November.	December..	January....	February..	March.....	April.....	May.....	June.....	Total.....

CITY PHYSICIAN'S REPORT.

SAN FRANCISCO, June 30, 1882.

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—In compliance with Resolution 15,758 (New Series), I herewith submit my sixth annual report.

During the past year all of the institutions (viz.: County Jail, House of Correction and City Receiving Hospital) under my charge have been in a good sanitary condition. The cases in the County Jail and House of Correction have been somewhat less than last year, this fact being due to the attention paid by the officers of said institutions to a proper condition of ventilation and cleanliness. During the year three (3) cases of small pox were developed in the County Jail. At the time the jail was much crowded (owing to the enforcement of the Cubic Air Ordinance), and I had a great anxiety lest an epidemic should break out. But under the careful and prompt direction of the Sheriff John Sedgwick, and his efficient officers, the cells were thoroughly cleaned, the walls being scraped and whitewashed to remove all the germs of the disease, the patients removed to the Twenty-Sixth Street Hospital, the cells fumigated, and all the prisoners and officers (432) vaccinated, 85 per cent. of which took. Thus was the disease at once stamped out.

At the House of Correction all has been in good order, and my thanks are due to the Superintendent, M. W. Davis, and

officers, for their ready co-operation with me in maintaining the health of the institution.

The City Receiving Hospital has had its usual number of surgical cases, for a detailed account of which I will refer you to the report of the Assistant City Physician, S. S. Stambaugh, M. D., accompanying this.

Once again I wish to call your attention to the necessity of establishing public dispensaries in different parts of the City, by means of which the indigent sick can be at once relieved. In all other cities there are such dispensaries, supported partly by the City, partly by private contributions. I have no doubt that if a proper step was to be taken by your Honorable Board in this matter, they might be established on the same plan.

I wish also to call your attention to what I consider a great fault in the health and quarantine laws, as they now stand, namely, Sections 3009 and 3025, which require the Police Surgeons to make all autopsies for the Coroner. After five years working of this law, I am convinced that it is an improper one and should be repealed. There are many reasons for this: First, the danger of the Surgeon's carrying the poison of Septisæmia from the Morgue to the Hospital, consequent upon being compelled to operate upon a dead body, and almost directly after to render service at the Hospital. The next reason is, the physician who makes the autopsies should be in all cases independent, knowing nothing of his case until called upon to make the inspection. At present the Police Surgeon often passes upon his previous action in the case, and stands in the light of a judge over his own treatment. Another reason is, that the work is too much, and where one is overworked he is liable to overlook and slight that which, under other circumstances, he would not do. I would therefore suggest that your Honorable Board take the necessary steps to have (if it can be done) the next Legislature amend Sections 3009 and 3025 of the Health and Quarantine Laws, in such a manner as to allow the Coroner to ap-

point a physician, the same to be confirmed by the Board of Supervisors.

Credit is due to your Honorable Board (especially to the Chairman of Health and Police, Mr. Oliver Merrill) for the prompt compliance with my requests and needs. Also to Dr. S. S. Stambaugh, Assistant City Physician and Police Surgeon, for the faithful performance of his duties.

A tabulated statement of autopsies made during the year is annexed.

The following is a summary of the work performed in this department:

Cases attended in the County Jail.....	777
Cases attended in the House of Correction	1,478
Cases attended in the City Receiving Hospital.....	1,890
Cases attended in office and outdoors (indigent sick)	627
Total.....	<u>4,772</u>
Autopsies made	201

Very respectfully,

CHAS. BLACH, M. D.,

City Physician and Police Surgeon.

HOSPITAL REPORT.

CITY AND COUNTY HOSPITAL,
San Francisco, July 1, 1882. }

*To the Hon. the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—I have the honor to make the accompanying annual report—the twenty-ninth—of the City and County Hospital, for the fiscal year ending June 30, 1882.

I am again constrained to remind your Honorable Body, of the unprotected condition of the Hospital, from fire. I have appealed the last three years to every one in authority, who had cognizance of our situation, to furnish us with proper fire hose, without avail; we have not a single section of serviceable hose to attach to the hydrants in case of fire. Our entire attention, should a fire occur, must be devoted to the saving of the patients, to the exclusion of this valuable property. With suitable and sufficient hose, combined with our water facilities, many of the pavilions would undoubtedly be saved.

Owing to the amount of repairs made in the fiscal year 1879–80, but a small expenditure was required in 1880–81. The present fiscal year has increased our expenses in that line, as the entire series of wards, halls, dining-rooms, pantries, kitchens, water-closets, and bath-rooms, have been re-kalsomined, and all the two latter classes of rooms, with many other portions of the building repainted. All this labor has been necessary to keep the Hospital in a serviceable sanitary condition. It has also been requisite to renew much of the furniture, blankets and material for bedding, during the same period; most of the work incident to its preparation, has been performed by our regular employees on the premises, thereby materially reducing the expense.

The comparative annual cost of the number of our patients, relative to those of the hospitals in the Eastern and Western

cities, as to amount expended per capita per diem, is very favorable. We are not in receipt of, nor have we ever had correspondence with, nor have we ever heard of any hospital in the United States, where all the patients admitted were solely the indigent sick of their respective city or community.

All the hospitals known to us, or of which I can secure reports, are pay and charitable combined, or on the infirmary plan of receiving the purely indigent, and indigent sick; similar to combining the Almshouse of this city, to this Hospital. It is therefore impossible from their financial statement, to segregate the daily cost of the pay and charitable classes of patients, and it is only with the latter, that a fair comparison could be made. In this State the only institution therein of sufficient magnitude to institute a comparison, are the two Insane Asylums, with which, in amount expended for average number, cost per capita for provisions, salaries, and entire annual expenditures for their maintenance, your Honorable Board will find by referring to their last reports that the Hospital expenses will compare most favorably.

On the 19th January last, Mr. Adolph Sutro donated six hundred dollars (\$600.00) to the City and County Hospital, for the purpose of opening an Obstetric Ward, in one of two wards, which have remained unfurnished since their erection; said ward to be devoted in the future solely to that class of cases.

In behalf of the Honorable Boards of Health and Supervisors, I returned him grateful thanks for his timely generous gift, and applied the funds for the purpose designated, in opening a ward for the Obstetric cases, which is not surpassed for comfort and home surroundings, by any other hospital.

We have remaining unfurnished one vacant ward which should be opened for the reception of sick and injured children; to introduce them into the wards crowded with adults, who become irritated and abusive often, when deprived of their quiet and rest, by the cries and complaints of children, simply retards the cure of both classes of patients, and was the cause of the rule of the Board of Health prohibiting the admission of children under ten years of age. A ward isolated like this one, to be devo-

ted to the reception of none but children, would prove a great blessing to the afflicted little ones of this city. If your Honorable Body would inspect the premises, I am certain the small outlay of funds to furnish the same, would be granted, or if the sympathies of some of our generous capitalists could be enlisted to open and furnish the ward for sick children, the donors would be the recipient of many heartfelt prayers from the afflicted who receive the benefits conferred by such a gift.

The Fruit and Flower Mission with the Ladies' Auxiliary Society, continue their regular ministrations to the afflicted inmates of the Hospital. Under the direction of Mr. H. C. Beals, who attends with the Mission, a large quantity of miscellaneous books, magazines, and papers, are weekly distributed in addition to the flowers, fruits, etc., contributed under the personal supervision of the Mission, whose presence have brought comfort and consolation to the weary hours of the sick.

In conclusion I wish to express my very grateful appreciation of the Visiting Physicians, Surgeons and Oculists, of their ability, faithfulness and efficiency in the discharge of their respective duties as members of the Hospital Staff. I also express my thanks for the unvarying personal support of my assistant, Dr. Page Brown, and the Steward, Mr. Rob't Bell. In the discharge of the many arduous duties pertaining to the Hospital management, I would also publicly acknowledge the valuable services rendered by the Internes Apothecary, and the entire corps of officers and employees of the Hospital.

ISAAC S. TITUS, M. D.,
Superintendent Physician City and County Hospital.

PATIENTS.

451

Patients in Hospital July 1, 1881.....	365
Patients admitted.....	3,151
Total to be accounted for.....	3,516
Patients discharged cured.....	2,431
Patients discharged improved.	330

The total cost for light for the year was.....	979 40
Daily cost for gas being.....	2 68

There are 54 burners lit in the institution every night, 32 of which burn until 8 o'clock, and 22 burn all night.

According to the Auditor's report, the total amount paid out for 1881 and 1882 was \$61,299.52; deducting therefrom the amount paid into the City and County Treasury, derived from the sale of live stock, etc., viz.: \$1,000 and \$2,745.39 received from the State under the "Act to appropriate money for the support of orphan, half-orphan and abandoned children," approved March 25, 1880, leaves the actual disbursement \$57,554.13.

The daily average number of inmates was.....	540
Daily cost for the institution	\$157 68
Daily cost per inmate.....	29 1-5
Yearly cost per inmate.....	106 58

The following is a resumé of the work done in the different departments during the year:

TAILORING DEPARTMENT.

Men's Cassimere coats made	82
Men's cassimere pants made.....	147
Men's blue jean overalls made.....	154
Boys' blue jean overalls made	98
Boys' blue jean blouses made.....	81
Boys' cassimere suits made.....	13
Mens' flannel overshirts made.....	492
Mens' flannel undershirts made	344
Mens' flannel drawers made	518
Boys' flannel overshirts made	40
Number of coats repaired.....	423
Number of pants repaired.....	527
Number of vests, overalls, etc., repaired.....	546

SHOE DEPARTMENT.

The following enumerated articles have been made and given to inmates:

Mens' shoes, pairs.....	350
Boys' shoes, pairs.....	70
Slippers (bought), pairs.....	96
Women's shoes, pairs.....	108
Girls' shoes, pairs.....	36
Children's shoes, pairs.....	36
Men's and Boys' shoes repaired.....	482

WOMEN'S DEPARTMENT.

The female inmates make all the clothing required by them, and have made and delivered during the year 200 dresses and about 600 other garments, besides all the sheets, slips, ticks and spreads required by the institution. They have also repaired about 10,500 pieces belonging to themselves and the male inmates.

The appropriation for the City and County Alms House and Hospital for the past year having been cut down considerably by the Board of Supervisors, I have found it necessary to exercise the closest economy in every department of this institution, and on examination of the foregoing figures, I think it will be admitted that I have done so successfully.

With this object in view I have managed to get along without a farmer, carpenter and gardener, utilizing the labor of the inmates in these departments to the best advantage; so that while no interest of the place has suffered, the salary account has been reduced \$1,500 in consequence.

I may here remark that without reflection persons have frequently expressed the opinion that labor of all kinds must be abundant at the City and County Alms House, with its large number of inmates. As a matter of fact, this idea, while perhaps being a natural one, is entirely erroneous. It requires the most vigilant supervision to have the necessary work of the place performed without resort to harsh measures; such as sending into town to earn their own living, those who are able but who are too lazy to work. In this connection it must be borne in mind that one half the people who find their way to the Alms House are sick, crippled or infirm, and consequently incapable of physical exertion; while one-half the balance are mentally deficient, or constitutionally lazy, and have lost all ambition. So that these various causes combined and taking into account the number of children, actually reduces the working force to less than one-fifth the number of inmates; and, of course, many of these are poor workers at best.

The crops on the farm this season, I am happy to say, are a fair average and of good quality.

All the live stock on the place has done well the past year, except the horses. Four of the latter have died; three of them from old age and having become worn out, and one from lock-jaw, caused by picking up a nail in the city.

Our supply of milk has been abundant, from which a large portion of the butter used in the institution has been made.

All repairs of buildings, fences, floors, etc., have received prompt attention, so that the entire premises are now in excellent order, and the comfort and well being of the inmates amply provided for.

The stables and outhouses, as well as the roof of the main building, have been painted during the year, without cost to the city except for the necessary material.

All the roads in the immediate neighborhood of the institution have been kept in thorough repair, and are at present in first class condition.

Three hundred young trees have been recently planted along the roads and fences, which, when grown, will materially add to the beauty of the place and grounds.

After the lapse of another year, I again feel it my duty to thankfully acknowledge the kindness of clergymen and others who have regularly visited the Alms House for the purpose of holding religious services. Especially are my thanks due to Mr. Garratt, Mr. Coley, and the priesthood of the Old Mission Church, the latter having always cheerfully and promptly responded when called upon to administer religious consolation to the sick and dying, whether by day or night.

I also beg once more to return my warmest thanks to the ladies of the San Francisco Fruit and Flower Mission, whose kind words and genial pres-

ence during their monthly visits have imparted hope and comfort to many a drooping spirit.

To Adolph Sutro, Esq., are due not only my own thanks, but those of every inmate in the institution and of hundreds yet to come, for his munificent donation of \$600 in cash, to be expended in the purchase of books, papers and magazines for the use of all. With a portion of this amount about four hundred volumes of standard works have been purchased and placed in a separate case in the library, labeled "Sutro Donation." The balance is being expended for the daily papers of the city, periodicals, pictorials, etc.

Many other benevolent and thoughtful ladies and gentlemen have from time to time during the past year made donations of reading matter for use of the inmates; to all of whom I tender my sincere thanks, assuring them that their kindness has served to while away many a weary hour, by those who from sickness, paralysis and like unfortunate circumstances, are debarred from almost every other kind of enjoyment.

From the opening of the Alms House to the present date, 7,161 inmates have been admitted and have been provided with a comfortable home, through the generous charity of the people of the City and County of San Francisco.

In conclusion, I would call the attention of your Honorable Board to the fact that since you assumed control of this institution in 1870 and 1871, it is the only department of the city government where the responsibilities and number of inmates have more than doubled, while the expenses have steadily decreased, as the following comparison will show.

Upon reference to the Auditor's report for the fiscal year 1869 and 1870, the year prior to that which your Honorable Body took charge of the Alms House, it will be seen that with an average of 229 inmates per day, the total expenses were \$61,023.19; this makes the daily cost for the institution \$167.19; the yearly cost for each inmate being \$266.47, or seventy-three cents per day.

According to the Auditor's figures for the past year, the total disbursement has been \$61,299.52, with a daily average of 540 inmates. From this amount must be deducted the sum of \$3,745.39, realized from sources previously explained and paid into the City and County Treasury, which leaves the actual disbursement \$57,554.13. This makes the daily cost of the institution for 1881 and 1882, with an average of 540 inmates, \$157.18, or nearly ten dollars per day less than in 1869 and 1870 with only 229 inmates

The yearly cost per inmate is now \$106.58 against \$266.47 in 1869 and 1870, or 29½ cents per day, against 73 cents in said year.

The total disbursement for the past year is \$3,469.06 less than in 1869 and 1870, and you have had a daily average of 540 inmates, or 311 more per day, to feed, clothe and care for.

Respectfully submitted,

M. J. KEATING,
Supt. City and County Alms House.

July 1st, 1882.

REPORT
OF THE
CHIEF OF POLICE.

OFFICE OF THE CHIEF OF POLICE, }
San Francisco, July 1, 1882. }

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—In compliance with Resolution No. 15,758 (New Series) of your Honorable Board, I submit herewith the annual report of the Police Department for the year ending June 30, 1882.

Schedule "A" exhibits the number and tabulated statements of the arrests made by the police during the year.

Schedule "B" shows the number of arrests by, and strength of the police force for twenty years preceding June 30, 1882.

Schedule "C"—Cash received during the year from Sheriffs of other counties, masters of vessels and others for keeping of prisoners in the city prison.

Schedule "D" exhibits the value of property reported as lost or stolen during the year, and amount recovered by the police.

Schedule "E" exhibits the number of witnesses subpoenaed for the several Courts of Criminal jurisdiction for the year ending June 30, 1882.

Schedule "F"—Unclaimed money and other property in the hands of the Chief of Police to June 30, 1882.

Schedule "G" exhibits the number of police stations and their location.

Schedule "H"—Comparative statement of population, police force, number of arrests, average number of arrests to each officer, and ratio of population to police force.

Schedule "I"—Summary of action taken by the Board of Police Commissioners in the supervision of retail liquor dealers' licenses from June 30, 1881, to June 30, 1882.

The labors of the Police Department have been augmented by the presence of a large number of foreigners, ignorant of our language, unacquainted with our laws, unaccustomed to our habits, and whose situation has been such as to excite the prejudices of our people against them.

The undesirability of their presence is declared by our State Constitution and by our National Legislature.

The burden of their presence has not been felt in any part of our country as severely as in this city, where the causes of discontent have been numerous and active.

To keep the public peace under such circumstances has taxed the patience of the unemployed, and required constant vigilance of the police, while to enforce the laws which bear particularly on the class referred to has required vigorous and unremitting effort.

The tabulated statement of arrests shows the energy of the department in the enforcing the sanitary and anti-gambling laws, without neglecting the other important duties with which it is charged.

The exigency demanded effort, the department answers by achievement.

It could not be expected that the administration of the police of the metropolis of the West could be conducted in the interest of the commonwealth without giving offense to some; nor has it been thus inoffensive.

Those who thought themselves injured found the Courts open to hear their complaints, but the satisfaction of being justified has in each instance remained with us.

The suit brought to recover lottery ticket paper seized by the police, three suits for damages for interfering with bagnios, one suit to recover stolen goods seized by the police, and some other matters in which the department was interested, resulted adversely to the plaintiffs. Two suits are now pending against police officers for entering premises for the purpose of giving effect to the law forbidding the overcrowding of lodging-houses.

The department rests not from its activity, but advances to perform the duties which devolve upon it.

Respectfully submitted,

P. CROWLEY,

Chief of Police.

INDUSTRIAL SCHOOL REPORT.

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—In compliance with resolution No. 15,758 (New Series), I herewith submit my annual report as Superintendent of the City and County Industrial School for the fiscal year ending June 30, 1882.

You will find tabulated statements of the expenditures and work done in its various departments.

The outlay for the year, as absorbed for material and labor, has amounted to \$2,683; and there are yet some bills outstanding that were not presented for auditing until after the end of the fiscal year.

During the year a new cap has been added to the fence, almost the entire distance around, thereby rendering escapes from the interior of the enclosure almost an impossibility.

I have made a much needed improvement in the rear of the building, by removing the old shed on the back stoop, and substituting in its place a substantial new building, in which I have located a pantry for waiter boys, bath-room for officers, store-room for provisions, and excellent, cool milk closets and store-rooms in the basement for use of kitchen.

I have had an eight-inch brick wall, sixty-five by twenty-eight feet, between the boys' play-room, wash-room and laundry, substituted for the former one of lath and plaster, which had become useless.

The brick work surrounding large and small boilers in laundry have been torn down and rebuilt in a substantial manner.

The building being old, constant repair is absolutely necessary. The advent of gas fitter and plumber is almost of monthly recurrence, and the resident carpenter is in constant request.

A very large amount of necessary repairs and improvements will have to be commenced without delay. New floors are badly needed in boys' dining room, large and small dormitories, and play-room.

As a sanitary measure, and for the better purpose of segregation, the line of officers' rooms fronting on the northeast should be removed, and thereby afford light and proper ventilation for small boys occupying dormitory.

The exterior of the building not having received a coat of paint for some four years, I propose having it done this fall.

The contractor for feed, potatoes, etc., having thrown up his contract at the end of last February, made it necessary for me to purchase such supplies in the open market, at an advance of from 75 to 150 per cent. on contract prices. The bills on file in my office will show that I always purchased at the lowest market rates for good articles.

There is a discrepancy existing between the Auditor's report and my general summary of bills contracted during the fiscal year, the result of some bills not having been audited by the Committee until after the end of the year.

The health of the inmates has been excellent, there not having been a case of severe sickness during the entire year.

In this connection it is meet that I should bear witness to the efficiency and attention of visiting physician Dr. B. D. Dean, whose constant attendance and attention to the inmates has prevented minor ailments developing into material sickness.

In hospital care he has been ably seconded by the resident Matron.

The general conduct of the boys has been very fair; the amount of punishment inflicted in order to preserve proper and necessary discipline is not, in my opinion, in excess of that used in the public schools of this City and County.

A daily record of punishments, showing cause, are a part of the archives of this office, to which the attention of the Board is respectfully called.

I have received good account from quite a number of boys discharged during the past year, and, as may readily be supposed, some have drifted back to their old haunts and associates, and go to swell the number who sojourn in County Jail, House of Correction and State Prison.

But in opposition to, and in denial of a general accepted belief in the community, that boys are not improved by a commitment here, I make the assertion, and my commitment book is the proof, that a very large proportion of all discharged from the School become good and industrious members of the community.

I believe that the system of *commitment* (in the case of boys) until they shall have attained legal age, does not work well, and that when boys are sent here they should be *sentenced* for a definite period, irrespective of age or character of crime.

The improvements I contemplate making this year will, with the aid of your honorable body, enable me to segregate the boys at meals in shops, dormitory and playground.

The Farm has produced about fifty tons of hay from thirty acres seeded. The potato crop is an improvement on that of last year.

The land around the School is naturally poor, and its fertility has become almost exhausted. I have now made arrangements whereby the soil can have a thorough manuring this fall and winter without any, or only a trifling, expense to the institution.

At my regular weekly visits to the Magdalen Asylum I always find the girls of this school well cared for. The attention that is paid to their cleanliness and comfort reflects great credit upon those having them in charge.

My thanks are due to Mr. James Moscrop and the Rev. Father Gallian, S. J., for their constant attention to the spiritual welfare of the boys, as also to the Sisters of Mercy, who every Sunday afternoon, at all seasons of the year, come and take charge of the Catholic boys in the Sunday School.

Since filing my last annual report, the principal teachership has passed into the hands of Mr. Samuel P. Carusi, a thorough scholar and excellent disciplinarian. During the short time that he has had control of the boys I observe a very marked improve-

ment in the school room, and a general deportment among them that reflects credit upon his management.

The junior class of smaller boys are making excellent progress in their studies under Assistant Teacher Mr. B. T. Catlin.

The Band, numbering eighteen boys, under the charge and tuition of Mr. J. C. Kemp, who is indefatigable in his efforts to improve them, show by their ability that his labor has not been without its reward.

I desire to return thanks to the officers of the institution for their general attention to duties that are necessarily irritating and harassing, and to a great extent apparently unsatisfactory in its results.

Trusting that my labors will meet with your endorsement, and soliciting your continued co-operation, I am, with great respect,

Your obedient servant,

J. F. McLAUGHLIN,
Superintendent.

REPORT OF THE PRINCIPAL TEACHER.

INDUSTRIAL SCHOOL,
San Francisco, July 1, 1882. }

To John F. McLaughlin, Esq.,

Superintendent of the Industrial School:

SIR—I have the honor to submit the following annual report of the Educational Department of the Industrial School of the City and County of San Francisco for the year ending June 30, 1882.

The School is divided into three divisions, viz.:

First Division—B. F. Catlin, teacher.

Second Division—S. P. Carusi, teacher.

Third Division (Band)—Jas. C. Kemp, instructor.

It affords me great pleasure to recognize the first and last named gentlemen as efficient and capable to an eminent degree.

With these premises I submit my report.

Respectfully,

SAMUEL P. CARUSI,
Principal Teacher.

MUSIC.

Under the efficient instruction of Mr. J. C. Kemp, the Band has made wonderful progress, some of the members thereof being almost proficient in their peculiar study.

The incompleteness of my report is owing to the want of data from which to form it. My installment as Principal Teacher having been of such recent date, I have been unable to determine the real merits of my surroundings.

Respectfully,

SAMUEL P. CARUSI,
Principal Teacher.

AUDITOR'S REPORT.

CITY AND COUNTY AUDITOR'S OFFICE,
San Francisco, August 27, 1882. }

AN HISTORICAL SKETCH
OF THE
PUBLIC SCHOOLS OF SAN FRANCISCO.

[Reprinted from the Report of ex-Superintendent James Denman for 1875, with only such corrections and additions as are called for by the progress of events.]

BOYS' HIGH SCHOOL.

This school is now in a large twelve-class building, pleasantly located on Sutter street, between Gough and Octavia streets. It was formally dedicated on the 15th of November, 1875.

The school now numbers 230 pupils. It was first instituted on the 16th of August, 1856, in Dr. Boring's church, on Powell street, between Clay and Sacramento streets. At first the school was opened as a Union Grammar School, and consisted of 80 pupils, 35 boys and 45 girls, selected from the most advanced pupils of the first classes of the Grammar Schools. On the 8th of January, 1858, it was reorganized as the San Francisco High School, with a more extended course of study.

The Board of Education purchased the old church and lot referred to above, and in 1860 remodeled and enlarged the building. It was formally dedicated on the 19th of September, 1860, with interesting ceremonies, by Rev. T. Starr King and others. In June, 1864, the sexes were separated, and the young ladies were transferred to the old brick building, corner of Stockton and Bush streets, with Mr. Holmes, the Principal.

The school was reorganized as a Boys' High School in 1864. It remained in the building on Powell street till the 9th of November, 1875, when it was transferred to its present building.

The following teachers have been Principals of this School:

Mr. E. H. Holmes, elected August 16, 1856.

Mr. Geo. W. Minns, elected June, 1864.

Mr. Theodore Bradley, elected June 15, 1865.

Mr. W. T. Reid, elected March 20, 1875.

Mr. F. A. Blackburn, elected August 8, 1881.

GIRLS' HIGH SCHOOL.

This school is located on Bush street, near Hyde street, in a large, commodious, fourteen-class building.* It now numbers 765 pupils in attendance. It was first organized in June, 1864, in the old brick building previously occupied by the Denman School, on the corner of Bush and Stockton streets. It was composed of the young ladies transferred from the Boys' and Girls' High School.

In July, 1867, a Normal Training Class for teachers was organized. This class graduated in 1872. For want of appreciation on the part of the Board of Education and interest on the part of the teachers of the school, the Normal instruction proved a failure, and the class was broken up. On August 7, 1876, a regular Normal class was opened by the Board of Education, and Mrs. Mary W. Kincaid was placed in charge as teacher. This class is now well attended, and in a very flourishing condition. In May, 1877, thirty-one pupils were graduated; in May, 1878, twenty-five; in May, 1879, thirty-seven; in May, 1880, seventy; in May, 1881, eighty-six; and in May, 1882, one hundred and twenty-five.

A new twelve-class building was erected for this school in 1870, on the fifty-vara lot on which the old brick building is located. It was transferred to this building in 1870. In 1871, the present High School building was erected, and the school was transferred to its present location July 5, 1871.

Mr. E. H. Holmes was elected Principal of the school on its organization in June, 1864, and remained until June 13, 1876, when he resigned. Mr. John Swett the present Principal, was elected June 13, 1876.

LATIN SCHOOL.

This school was instituted upon the plan of the Boston Latin School, June 7, 1864, under the instruction of Mr. Geo. W. Bunnell, the Principal. It was first taught in two class-rooms of the Lincoln Grammar School, then in a rented building on Post street, near Stockton street, and was afterwards transferred to the corner of Second and Bryant streets. This school met with considerable opposition from many of the citizens, who opposed the expenditure for a Latin School, so long as the city was unable to furnish accommodation for a large number of primary pupils.

Prof. Bunnell resigned at the close of the year 1867, and Mr. Wm. K. Rowell was elected Principal. In February, 1868, the school was consolidated with the Boys' High School, Mr. Rowell being assigned the position of Teacher of Classics. In the same year Mr. Rowell resigned, and was succeeded by Mr. A. L. Mann, who remained in charge of the Classical Department of the Boys' High School until December, 1877, when he resigned to fill the office of City Superintendent, and was succeeded by Mr. F. A. Black-

* There are also seven Junior Classes in the old High School building on the corner of Clay and Powell streets.

burn. Upon the election of Mr. F. A. Blackburn to the position of Principal of the Boys' High School, Mr. A. L. Mann was again placed in charge of the Classical Department.

DENMAN GRAMMAR SCHOOL.

This school is pleasantly located on the northwest corner of Bush and Taylor streets, in a fine, large, sixteen-class brick building, erected in 1864. It is now exclusively a girls' school, and contains 878 pupils.

This was one of the first free schools organized in the city, and was opened on the 17th of November, 1851, in a small one-story rented building, near the corner of Second and Minna streets, and was then called the "Happy Valley School." It was removed in November, 1853, to a wooden building on Bush street near Sansome street, where it remained until the 21st of May, 1854, when it was transferred to the brick school-house on the corner of Bush and Stockton, now used to accommodate some of the classes of the South Cosmopolitan Primary School. It was again removed in July, 1864, to its present location. It was first organized as a mixed school for boys and girls, but in July, 1865, the sexes were separated, and the boys were transferred to the Lincoln School. This school was first taught by James Denman, who remained as Principal till May 4, 1857, when he resigned on account of ill health. In consideration of his being one of the pioneer teachers of our present system of free schools, the Teachers' Institute of the city petitioned the Board of Education to have this first public school, which he had organized and taught so long, named the "Denman Grammar School." The Board of Education, in granting the request of the teachers of the city, unanimously passed the following order:

Resolved, That we fully appreciate the obligations of this Board, as well as that of all friends of education, to Mr. Denman as the pioneer teacher in the Public Schools of this city, and in token thereof, cheerfully accede to the request made by the teachers, and hereby order that the Bush Street Grammar School be hereafter designated and known as the Denman Grammar School.

DENMAN MEDALS.

In June, 1865, James Denman presented to the Board of Education the sum of \$1,000 to establish a medal fund, the proceeds from the interest of which were to be expended annually in procuring medals for the most deserving pupils attending the Denman Grammar School.

At first, a gold medal was awarded the best scholar in the graduating class, and a silver medal to each graduate who was good in deportment and regular in attendance. A silver medal was also given to the best pupil in each of the lower classes.

At present none but silver medals are awarded, and those only to graduates who are good in deportment and regular in attendance.

The following teachers have been principals of this school:

James Denman, elected November 17, 1851.

George Tait, elected June, 1857.

Theodore Bradley, elected December, 1861.

James Denman, re-elected July 3, 1864.

John Swett, elected December, 1867.

James Denman, re-elected January, 1871.

John Swett, re-elected December, 1873.

James Denman, re-elected June 13, 1876.

RINCON GRAMMAR SCHOOL.

This is now exclusively a girls' school, and is located in a fine large twelve class building, on the school lot on Silver street, near Second street. It has five hundred and eight girls in attendance.

This school was instituted on the 8th of January, 1852, in a small one-story building near the corner of Folsom and First streets. It was transferred from this dilapidated structure to a larger rented building on Hampton place, leading from Folsom to Harrison streets, and near Third street. The present building for the Silver Street Primary School, on Vassar place, leading from Harrison street, between Second and Third streets, was erected for this school in 1861. It was transferred to it in 1861, where it has remained until it was transferred to the present building, in September, 1875.

It was first organized as a mixed grammar school for boys and girls, but in January, 1865, the sexes were separated, and the boys were transferred to the Lincoln School.

The following teachers have been Principals of this school:

Silas Weston, elected January 28, 1852.

Wm. H. O'Grady, elected May 5, 1852.

Stillman Holmes, elected November 11, 1853.

John Swett, elected November 11, 1853.

John C. Pelton, elected January 2, 1863.

Ira G. Hoitt, elected September 13, 1864.

Ebenezer Knowlton, elected June 15, 1865.

Miss E. A. Cleveland, elected October 22, 1874.

LINCOLN GRAMMAR SCHOOL.

This school was first instituted in July, 1865, in the large and beautiful brick edifice on Fifth street, near Market street, and was named after Abraham Lincoln. The building contains twenty-three large and pleasant class rooms and a large hall for general exercises. This has always been a boys' school exclusively, and now contains one thousand one hundred and ninety-eight pupils. This building has been occupied for several years by the Evening School, which now numbers nine hundred and five pupils.

LINCOLN MEDALS.

In December, 1866, the Lincoln Medal was founded, through the influence and exertions of Mr. Ira G. Hoitt, Principal of the school, who raised the sum of \$1,687.25 by public exhibitions and private subscriptions.

At first silver and bronze medals were given for the most meritorious pupils in each class of the school, but now none but silver medals are given to the graduates who are perfect in deportment and regular in attendance.

The following teachers have been Principals of this school:

Ira G. Hoitt, elected July, 1865.

J. C. Pelton, elected November 19, 1867.

W. T. Luckey, elected December 30, 1867.

Bernhard Marks, elected June 10, 1868.

J. K. Wilson, elected November, 12, 1872.

WASHINGTON GRAMMAR SCHOOL.

This school is located in a commodious twelve-class building on the corner of Washington and Mason streets. It is now a boys' grammar school, and contains 639 grammar and primary pupils.

It was first instituted as a mixed school for girls and boys on the 22d of December, 1851, in a small rented building on Dupont street, near Jackson street. It was transferred in 1853 to the basement of the Baptist Church, where it remained till the 14th of June, 1855, when it was removed to the building now occupied by the Primary School on Powell street, near Washington street.

In 1861, the school was removed to its present location, corner of Washington and Mason streets.

The sexes were separated in this school in July, 1868, and the girls were transferred to the Broadway Grammar School.

The following teachers have been Principals of this school:

F. E. Jones, elected December 22, 1851.

E. H. Holmes, elected March 1, 1853.

H. P. Carlton, elected August, 1856.

James Stratton, elected January 1, 1861.

Capt. L. D. Allen, elected July, 1868.

Joseph O'Conner, elected December, 1874.

BROADWAY GRAMMAR SCHOOL.

This school is situated on Broadway, near Powell, in a twelve-class brick building which now contains six hundred and eighty young ladies, including about one hundred in outside rooms. It was first opened as a Primary School in January, 1867, but it was reorganized as a Girls' Grammar School, and the young misses of the Washington and Union Grammar classes were transferred to it.

The following teachers have been Principals of this school:

Mrs. Wm. R. Duane, elected January, 1867.

W. J. G. Williams, elected June, 1868.

Noah F. Flood, elected June, 1869.

Chas. F. True, elected November 12, 1872.

J. W. Anderson, elected December 29, 1874.

W. J. G. Williams, re-elected February 16, 1875.

Chas. H. Ham, elected March 21, 1876.

Miss Jean Parker, elected March 22, 1880.

BROADWAY SCHOOL MEDALS.

In December, 1876, a medal fund, amounting to \$725, was raised by a school exhibition given under the charge of Mr. Chas. H. Ham, Principal of the school. Silver medals are given to the graduates of the school who are perfect in deportment and regular in attendance.

SPRING VALLEY GRAMMAR SCHOOL.

This school now occupies a large twelve-class wooden building on Broadway, near Polk street, and now accommodates seven hundred and seventy boys and girls, including about one hundred in outside rooms. When first erected it was a four class building, but it has been raised twice, and each time four rooms were added. It was instituted on the 9th of February, 1852, in a small wooden house used for church and school purposes, on Union, near Franklin street. It was removed to its present location on Broadway in 1866.

The following teachers have been Principals:

Asa W. Cole, elected February 9, 1852.

J. C. Morrill, elected October 1, 1853.

Geo. W. Peck, elected May 17, 1860.

Geo. W. Bunnell, elected January 2, 1862.

B. Marks, elected January 5, 1864.

Noah F. Flood, elected June 8, 1868.

W. J. G. Williams, elected June 8, 1869.

Silas A. White, elected February 16, 1875.

J. W. Anderson, elected January 3, 1876.

HAYES VALLEY GRAMMAR SCHOOL.

This school is in the large eighteen-class building on McAllister street, between Franklin and Gough streets. The school was opened July 7, 1871, in the present building, and the grammar department was first composed almost entirely of pupils transferred from the Mission Grammar School. The school contains boys and girls, and numbers nine hundred and thirty-four grammar and primary pupils.

Mr. E. D. Humphreys was placed in charge of the school at its organization, and he remained until January, 1877, when he resigned his position on account of ill health. He died on the 18th of March, 1878. Mr. George Brown, the present Principal, was elected January 16th, 1877.

COSMOPOLITAN SCHOOL.

A school for teaching the French and German languages was first instituted in October, 1865, in a small building on the lot now occupied by the Tehama Street Primary School. This school was commenced for the purpose of teaching only such children as desired to acquire a knowledge of the French or German language, and at first the institution was mainly confined to teaching these languages, but the liberal offer of the Board of Education to instruct the children of the city gratis in foreign languages, soon made this system of instruction so popular with the public that the Board of Education in October, 1866, reorganized them and changed their classification, so that instead of devoting much time and attention to teaching French and German, nearly all the pupils' time was occupied in the English studies. This change in the organization of the Cosmopolitan Schools increased their number, but it seriously injured their real usefulness, which should be to teach the French and German languages.

In 1872 and 1873 instruction in the French and German languages was introduced in nearly all the public schools. The little children of the primary schools, as well as the larger ones in the grammar classes, were compelled to study either German or French, and the pupils in the grammar classes were compelled to study both French and German in the Cosmopolitan Schools.

In February, 1874, the Board of Education abolished the study of all languages other than the English, except in the Girls' and Boys' High Schools.

In July, 1874, the study of the French and German languages was again introduced into the South Cosmopolitan, the North Cosmopolitan, the Hayes Valley and the Valencia Grammar Schools; also into the South Cosmopolitan, the Stockton Street, the Taylor street, and the Silver Street Primaries.

At the present time German is taught in the Greenwich Street Primary, and the South Cosmopolitan Primary Schools; French and German are taught in the North Cosmopolitan and South Cosmopolitan Grammar Schools, and French is taught in the Boys' High School.

SOUTH COSMOPOLITAN GRAMMAR SCHOOL.

This school now occupies the large and pleasant eighteen-class building on Eddy street, between Polk street and Van Ness avenue.

It is a mixed school for boys and girls, and now contains one thousand and thirty-seven pupils, including about fifty in an outside room. This was instituted as a Cosmopolitan Primary School in October, 1865, in a rented building on Tehama street, near First street. This school was transferred to

the brick building on Post street, between Dupont and Kearny streets, purchased of Dr. E. Cohn, in October, 1866. The school remained in this building until July 1, 1871, when it was again transferred to the Girls' High School building on Bush street, near Stockton street. It was again transferred to its present location at the opening of the school in July, 1875. The French and German languages are taught in this school.

The following teachers have been Principals of this school:

Mrs. Ulrika Rendsburg, elected October, 1865.

H. N. Bolander, elected February 19, 1867.

A. Herbst, elected December 26, 1871.

NORTH COSMOPOLITAN GRAMMAR SCHOOL.

This school is located on Filbert street, between Jones and Taylor streets, in a commodious twelve-class wooden building, which at present accommodates five hundred and seven boys and girls.

This school was first instituted in July, 1867, as a Cosmopolitan School for instruction in the German and French languages under the instruction of Miss Kate Kennedy, the present Principal. It was made up mostly of pupils transferred from the Greenwich street and other schools in that part of the city.

NORTH COSMOPOLITAN GRAMMAR SCHOOL MEDALS.

In May, 1882, a medal fund, amounting to \$540.50, was raised by school exhibitions given under the charge of Miss Kate Kennedy, the Principal of the school. Silver medals are awarded to the graduates of the school who are good in deportment and regular in attendance.

HAIGHT GRAMMAR SCHOOL.

This school occupies a three-story frame building, containing twelve class rooms, on Mission street, between Twenty-fifth and Twenty-sixth streets. It has twelve grammar classes with an enrollment of five hundred and fifty-two pupils.

This has always been a mixed school for boys and girls, and was organized as a primary school in July, 1867, in the Shotwell Street School building. It was transferred February 7, 1871, to the school building on Valencia Street, between Twenty-second and Twenty-third streets, where it remained until August 8, 1881, when it was transferred to its present location.

The following teachers have been Principals of the school:

S. A. White, elected July, 1867.

J. W. Anderson, elected February 16, 1875.

S. A. White, re-elected January 3, 1876.

FRANKLIN GRAMMAR SCHOOL.

This school is located on Eighth street, between Harrison and Bryant streets, in a commodious eighteen-class building. This is a mixed school for

boys and girls, and contains eight hundred and ninety-two grammar and primary pupils. It was instituted January 14, 1868, in rented rooms connected with St. Joseph's Church on Tenth street, between Howard and Folsom streets. It was made a Grammar School in July, 1870, and was transferred to its present location January 4, 1871. In January, 1881, the name of this school was changed to the "Franklin Grammar School."

The following teachers have been Principals of this school:

Wm. J. Gorman, elected January 14, 1868.

J. Phelps, elected September 18, 1869.

John A. Moore, elected September 27, 1870.

Elisha Brooks, elected February 11, 1879.

MISSION GRAMMAR SCHOOL.

This school is located in the twelve-class wooden building on Mission street, between Fifteenth and Sixteenth streets. It is a mixed school for boys and girls, and now contains five hundred and twenty-three pupils.

This was first instituted on the 10th of May, 1852, in a small building near the old Mission Catholic Church. It was afterwards transferred to Mr. Benton's brick church, where it remained until 1858, when it was again transferred to its present location. The grammar pupils, with the Principal and teachers, were transferred February 14, 1871, to the Hayes Valley Grammar School. It was then organized as a Primary School, and remained so until the new building was completed, June, 1875, when it was again made a Grammar School.

The following teachers have been Principals of this school:

Alfred Rix, elected May 10, 1852.

Clara B. Walbridge, elected August, 1853.

Thos. C. Leonard, elected November 28, 1855.

Ahira Holmes, elected June 15, 1865.

E. D. Humphrey, elected June 25, 1867.

Mary J. Bragg, elected February 14, 1871.

Laura T. Fowler, elected November 3, 1874.

HAMILTON GRAMMAR SCHOOL.

This school is located on Geary street, between Pierce and Scott streets, in a large three-story wooden building, containing twelve pleasant rooms. It is a mixed school for boys and girls, and contains five hundred and sixty-eight pupils, including about one hundred in outside rooms.

The school was opened in its present building as a primary school on the 5th of July, 1875, and was composed of the pupils transferred from the Pine Street Primary, the Tyler Street Primary, and from the Grammar schools of the city. It was declared a grammar school July 18, 1876, and was named the "Jefferson Grammar School," February 4, 1879. In February, 1881, the name of the school was changed to the "Hamilton Grammar School." The

school from which this school receives its origin was first opened as the Pine Street Primary School, on Pine street, near Scott street, in October, 1865.

The following teachers have been Principals of this school:

Miss L. A. Pritchard, elected October, 1865.

Miss Ellen Cushing, elected May 10, 1870,

Miss M. J. Hall, elected August 1, 1871.

W. A. Robertson, elected June 13, 1876.

CLEMENT GRAMMAR SCHOOL.

This school is located on Geary street, between Jones and Leavenworth streets, in a frame building containing fourteen class rooms. It is a mixed school for boys and girls, and contains seven hundred and sixty-four pupils.

This school was organized in July, 1867, in connection with the Girls' High School, for the purpose of training young ladies in the theory and practice of teaching. It was taught in the High School till November 4, 1874, when it was transferred to rented rooms on Bush street, near Hyde. The school was again transferred, in July, 1875, to the basement of the synagogue on Sutter street, and the basement of the synagogue on Taylor street, where it remained until July 10, 1876, when it was transferred into the present building. The school was named the "Clement Grammar School," September 18, 1877.

Mrs. A. E. Dubois, the present incumbent, was elected the first Principal of the school.

COLUMBIA GRAMMAR SCHOOL.

This school is located on Columbia street, between Twenty-fifth and Twenty-sixth streets, in a two-story frame building containing twelve classrooms. The San Bruno School, including the teachers and pupils, was transferred into this building July 10, 1876. The school now has twelve classes, and six hundred and thirty-eight pupils enrolled. It was declared a Grammar School July 18, 1881.

Mrs. M. Deaue, the present principal, was placed in charge of the school at its organization.

GARFIELD PRIMARY SCHOOL.

This school occupies a beautiful and commanding position on Telegraph Hill, Union street, near Montgomery street. This is a fine ten-class brick building, and at present accommodates five hundred and ten pupils. This school was first instituted on the 17th of June, 1852, in a rough wooden building on the corner of Montgomery and Broadway, and was then called the "Clark's Point School."

It was removed in 1853 to a rented building at the [corner of Dupont and Broadway streets, where it remained till 1854, when it was transferred to its present location on Union street.

The school was first organized as a mixed grammar school for boys and girls, but in June, 1868, the sexes were separated, and the girls were transferred to the Broadway School.

In February, 1877, girls were again admitted to this school. During the year 1879, on account of the smallness of the classes in the four Grammar Schools situated in the northern part of the city, the grammar grades, except the fourth grade, were transferred from this school to other Grammar Schools, thus reducing this school from a Grammar to a Primary School. In May, 1880, the grammar grades were ordered transferred back to the school, thus restoring it to the rank of a Grammar School. In July, 1881, the grammar grades were again transferred to other Grammar Schools, and the school declared a Primary School. The name of the school was changed July 18, 1881, to the "Garfield Primary School."

This school has been under the charge of the following Principals:

A. Holmes, elected June, 1852.

Wm. Hammill, elected November 25, 1852.

Ahira Holmes, re-elected January 7, 1858.

Thomas S. Myrick, elected January 3, 1860.

Philip Prior, elected June 18, 1869.

Charles F. True, elected December 29, 1874.

SOUTH COSMOPOLITAN PRIMARY SCHOOL.

This school is located on Bush street, near the corner of Stockton street, in the commodious three-story wooden building which was originally erected for the Girls' High School. The building contains twelve large and pleasant class rooms. The school also occupies the small two-story brick building containing four rooms, on the corner of Bush and Stockton streets. The classes in this building, composing the Stockton Street Primary School, were transferred to this school February 3d, 1876. The number of pupils in attendance is eight hundred and ninety-seven. The German language is taught in this school. The name of the school was changed from the Bush Street Primary to the South Cosmopolitan Primary, December 12, 1881.

This school was instituted as a branch of the Cosmopolitan School in July, 1868, in the synagogue on Mason street, near Post street. It was transferred to its present location July, 1875. This building was first occupied by the Girls' High School in July, 1871, and afterwards by the South Cosmopolitan Grammar School until July, 1875.

The South Cosmopolitan Primary School on Post street, between Stockton and Dupont streets, was ordered discontinued December 12, 1881, and most of the teachers and pupils were transferred to the school on the corner of Bush and Stockton streets, on the 16th of the same month. The primary school on Post street was first opened in a small brick building on the front part of the Post street school lot, in October, 1866, where it was taught in connection with the grammar school until July, 1871, when the grammar

grades were transferred to the grammar school. Miss M. Graf, the first Principal, was elected January, 1867. She remained in charge until November 12, 1872, when Miss M. A. Castelhun was elected. Miss Castelhun remained in charge until the school was discontinued. The school lot on Post street and the buildings thereon were leased for business purposes February 20, 1882.

The following teachers have been Principals of this school:

Mrs. P. C. Cook was elected first Principal when it was organized as an independent Primary School.

Mrs. Marie Dupuy, elected April 19, 1870.

Mrs. C. F. Plunkett, elected January 9, 1872.

Miss M. A. Castelhun, elected December 12, 1881.

POTRERO SCHOOL.

This school occupies a two-story frame building, containing eight class rooms, on Minnesota street, between Napa and Sierra streets. The school was formerly situated on the corner of Kentucky and Napa streets, in a one-story four-class wooden building, where it remained until November 7, 1877, when it was transferred into the present building. It is a mixed school for boys and girls of the grammar and primary grades, and now numbers three hundred and fourteen pupils. It was first opened in May, 1865.

The following teachers have been Principals of this school:

Miss Jennie Sheldon, elected May, 1865.

T. C. Leonard, elected June 27, 1865

Miss A. E. Jewett, elected August 13, 1867.

Miss M. J. Pascoe, elected July 6, 1870.

Miss S. L. Brown, elected March 11, 1873.

Miss H. M. Fairchild, elected February 17, 1874.

W. W. Stone, elected February 1, 1876.

SOUTH SAN FRANCISCO SCHOOL.

This school occupies a pleasant and commodious ten-class wooden building, on Fourteenth avenue, near L street. It is now a mixed school for girls and boys, and contains five hundred and fifteen pupils.

This school was instituted as a Primary School in February, 1869, but was declared a Grammar School July 12, 1870. The resolution declaring it a Grammar School was afterwards rescinded.

Mrs. Ada E. Wright was elected Principal February, 1869, and remained in charge until September 16, 1869, when Mr. W. J. Gorman, the present incumbent, was elected.

STARR KING PRIMARY SCHOOL.

This school is located on Bryant street, between Sixth and Seventh streets, in a three-story wooden building, containing twelve large and pleasant classrooms. The present attendance is seven hundred and forty-two pupils.

The school was instituted in July, 1866, in the one-story building corner of Market and Fifth streets. When the lot on which the building was located was leased the school, in April, 1875, was moved to the Mechanics' Pavilion, and in July it was again moved, for temporary accommodation, into the old school building on the corner of Seventh and Market streets, where it remained until it was transferred to its present location in October, 1875. The name of the school was changed from the Lincoln Primary School to the Starr King Primary School January 16, 1882.

Miss Kate Sullivan was placed in charge of the school at its first organization, and remained in charge for thirteen years. She died July 17, 1879. Miss Margaret McKenzie, the present Principal, was elected September 16, 1879.

LINCOLN PRIMARY SCHOOL.

This school now occupies two eight-class wooden buildings in the rear of the Lincoln Grammar School building on Fifth Street, near Market street. At present there are nine hundred and forty-seven boys and girls in attendance.

The school was instituted March 4, 1860, in one of the present buildings on Fifth street. It has since been removed to the rear portion of the lot to make room for the Grammar building. In 1865 it was organized as a Training School for the instruction of the pupils of the State Normal School in the art of teaching. The upper portion of this building was occupied by the State Normal School from 1865 until it was removed to San Jose in June, 1872. After the removal of the Normal School, the Primary School in the Presbyterian Church on Mission street, near Sixth street, under the charge of Miss Agnes M. Manning, was transferred to this school. The school was originally called the Fifth Street Primary, then the Market Street Primary, then, on September 21, 1875, it was changed to Lincoln Primary; shortly afterwards it was again changed to the Market Street Primary. On January 16, 1882, it was again changed to the Lincoln Primary School.

The following teachers have been Principals of this school:

Miss M. D. Lynde, elected March 4, 1860.

Fred. Elliot, elected January, 1862.

Bernhard Marks, elected September, 1862.

Mrs. C. H. Stout, elected January, 1864.

Miss Agnes M. Manning, elected July, 1872.

GRANT PRIMARY SCHOOL.

This school occupies a three-story frame building, containing twelve classrooms, on Tyler street, between Leavenworth and Hyde streets.

The school was opened February 7, 1876, in a rented building on the corner of Market and Seventh streets, where it remained until May 3, 1880, when it was transferred into the present building. It was named the "Grant

Primary School" by the Board of Education, October 7, 1879. It is a mixed school for boys and girls, and has seven hundred and forty-three pupils enrolled.

The Tyler and Jones Street Primary School, with the pupils and teachers, was transferred to this school July 2, 1878.

Miss A. M. Stincen, the present Principal, was placed in charge of the school at its organization.

MISSION PRIMARY SCHOOL.

Up to July, 1876, the Mission Grammar School occupied the two buildings on the school lot on Mission street, between Fifteenth and Sixteenth streets. The school grew too large to be properly managed by one principal, and in the month named the Board of Education passed a resolution declaring the rear building with the classes therein a primary school, to be known as the "Mission Primary School." It is a mixed school for boys and girls, and numbers six hundred and fifty-one pupils.

Mrs. M. H. Walker, the present Principal, was placed in charge of the school at its organization.

TEHAMA PRIMARY SCHOOL.

This school is located on Tehama street near First street, in a large three-story brick building, containing sixteen class rooms, a hall and a large basement. There are eight hundred and sixty-one boys and girls in attendance.

The school was instituted in July, 1865, and was opened in the new building January, 1867.

The following teachers have been Principals of this school:

Mrs. E. C. Burt, elected June 15, 1865.

Mrs. E. A. Wood, elected June 25, 1867.

IRVING PRIMARY SCHOOL.

This school is located on Broadway, between Sansome and Montgomery streets, in a two-story wooden building, with eight pleasant class-rooms. There are at present four hundred and fifty-six pupils in attendance.

This school was instituted in the Seamen's Bethel Church, corner of Drumm and Sacramento streets, in February, 1867. It was transferred to its present location May 2, 1871. The name of the school was changed from the Broadway Primary School to the Irving Primary School, May 9, 1881.

Principals of this school:

Miss A. M. Murphy, elected February, 1867.

Mrs. L. G. Deetkin, elected August 3, 1870.

Miss Carrie B. Barlow, elected November 21, 1876.

EWING PRIMARY SCHOOL.

This school occupies a two-story frame building, containing twenty class-rooms, on Harrison street between Fourth and Fifth streets. The school

formerly occupied the old building on the corner of Fourth and Clary streets. It was moved into the present building at the opening of the term in July, 1881. It is a mixed school for boys and girls, and contains twenty classes with an enrollment of 1,257 pupils.

It was opened in April, 1863, under the supervision of Mr. A. E. McGlynn. Mr. McGlynn was succeeded by Mrs. L. A. Morgan, who was elected June 15, 1865, and remained until April 18, 1876, when she tendered her resignation. The Board of Education, however, did not accept her resignation, but granted her an indefinite leave of absence, on account of her valuable services and long connection with the department. Miss E. E. Stincen, the present Principal, took charge of the school in April, 1876.

SILVER STREET PRIMARY SCHOOL.

This school is now located in the old Rincon Grammar building, on the lot fronting on Vassar place, and extending through to Silver street, near Second street. This is a frail wooden building, containing twelve small and very poorly arranged class rooms. There are seven hundred and twenty-two boys and girls in attendance.

This school was first instituted in the Bryant Street Engine House, near Third street, in January, 1867. It was transferred to a rented building on Silver street, near Third street, in December, 1869, where it remained till October, 1875, when it was again transferred to its present location. The school was first called the Bryant Street Primary, afterwards the Silver Street Primary, and in 1875, its name was changed to "Rincon Primary." Shortly afterwards the name was again changed to the "Silver Street Primary School."

The following teachers have been Principals of this school:

Miss E. G. Smith, elected in January, 1867.

Miss Jennie Smith, elected March 24, 1868.

PINE AND LARKIN STREET PRIMARY SCHOOL.

This school is situated on Pine street near Larkin, in a small one-story wooden building containing four small rooms, and a two-story wooden building with eight large and pleasant rooms. The attendance at present is six hundred and five pupils.

This school was instituted in October, 1857, in a small one-story wooden building on Bush street, near Hyde. It was first organized as a primary school, and then changed to a mixed grammar and primary school under J. C. Pelton and Geo. W. Bunnell, but since their resignation it has been exclusively a primary school.

The following teachers have been Principals of this school:

Miss Fanny Slocum, elected January, 1857.

Mr. J. C. Pelton, elected September 29, 1857.

Mr. G. W. Bunnell, elected May 17, 1860.

Miss Eliza Hawhurst, elected January 2, 1862.
 Miss J. A. Lyon, elected March 25, 1862.
 Mrs. C. H. Stout, elected May 20, 1863.
 Mrs. Alice Bunnell, elected May 18, 1864.
 Miss Hannah Cooke, elected June 15, 1865.
 Mrs. C. F. Plunkett, elected December 12, 1881.

GREENWICH STREET PRIMARY SCHOOL.

This school is pleasantly located on Greenwich street, between Jones and Leavenworth streets, in a three-story wooden building, containing twelve large and cheerful rooms. At present the attendance is six hundred and ninety-eight.

This school was first opened in January, 1858, in an old brick building on this lot, which was formerly occupied by a city hospital. In 1874 this building was demolished to make a place for the present commodious structure, which was completed and occupied at the opening of the schools on the 5th of July, 1875.

The following teachers have been Principals of this school:

Mrs. R. D. Bird, elected January 7, 1852.
 Miss P. M. Stowell, elected December 30, 1861.
 Miss Kate Kennedy, elected May, 1862.
 Mrs. A. S. Trask, elected June, 1868.

HAYES VALLEY PRIMARY SCHOOL.

This school is located on Grove street, between Larkin and Polk streets, in a two-story wooden building, containing nine poorly arranged rooms. At present there are eight hundred and sixty-two pupils in attendance, including about three hundred and twenty in outside rooms.

This school was instituted in May, 1863.

The following teachers have been Principals of this school:

Miss H. B. Cushing, elected January, 1863.
 Miss L. J. Mastic, elected May, 1864.
 Miss P. M. Stowell, elected March 24, 1868.

UNION PRIMARY SCHOOL.

This school is located on an elevated site on the northwest corner of Filbert and Kearny streets, in a pleasant two-story wooden building containing eight commodious rooms. It is a mixed school for boys and girls, and has an attendance of four hundred and seventy-one pupils.

This school was instituted in a rented building on the corner of Union and Kearny streets, January 3, 1865.

Mrs. Aurelia Griffith, who was elected the first Principal of this school in June, 1865, still has charge of it.

SHOTWELL STREET PRIMARY SCHOOL.

This school is located on Shotwell street, between Twenty-second and Twenty-third streets, in a two-story wooden building, containing eight pleasantly arranged class-rooms. The number of pupils at present in attendance is four hundred and ninety-five. This school was first opened in July, 1867, as a mixed Grammar and Primary School, but in February, 1872, the Grammar pupils were transferred with their Principals and teachers to the Valencia Street Grammar School (now the Haight Grammar School, on Mission street, between Twenty-fifth and Twenty-sixth streets), when the Shotwell Street School was reorganized as a Primary School under the charge of Miss Annie A. Hill, the present Principal.

EIGHTH STREET PRIMARY SCHOOL.

This school is located on the rear portion of the Grammar School lot on Eighth street, between Harrison and Bryant, in a two-story wooden building, containing eight pleasant and well arranged class-rooms. At present there are twelve classes, including four in outside rooms, with an enrollment of about seven hundred and thirteen pupils.

This school was instituted June, 1864.

The following teachers have been Principals of this school:

Miss May Williams, elected June 18, 1864.

Miss Annie E. Slavan, elected October 19, 1864.

POWELL STREET PRIMARY SCHOOL.

This school is located on Powell street, between Washington and Jackson streets, in a two-story wooden building, containing ten small and poorly arranged rooms. There are at present about five hundred and fifty-one pupils in attendance.

This is probably the oldest American school building in San Francisco, being erected by the Rev. F. E. Preveaux, for a private school in 1850. The first public school was opened in this building on the 14th of June, 1855. It was first organized as a Grammar School, but June 10th, 1861, the Grammar pupils with their Principal and teachers, were transferred to the Washington Grammar School, when it was re-organized as a Primary School.

The following teachers have been Principals of this school since it has been classified as a Primary School:

Mrs. E. C. Burt, elected June 10, 1861.

Miss Caroline Price, elected June, 1863.

Mrs. C. J. Gummer, elected June 26, 1866.

Mrs. N. R. Craven, elected September 16, 1879.

SPRING VALLEY PRIMARY SCHOOL.

This school is located on Union street, between Franklin and Gough streets, in a one-story wooden building, containing five poorly arranged rooms. The present attendance is two hundred and eighty-one pupils.

This school was first opened under our present system of free schools on the 9th of February, 1852, in an old wooden church on the site of the present building. It was first organized as a Grammar School, but in 1866 the grammar and most of the primary pupils were transferred to the Spring Valley Grammar School, on Broadway, near Polk street. It was then reopened as a Primary School.

Principals of this school since it was reorganized as a Primary School:

Miss H. A. Hanecke, elected March, 1866.

Miss P. A. Fink, elected September 25, 1866.

Miss J. M. A. Hurley, elected November, 1867.

TURK STREET PRIMARY SCHOOL.

This school was opened in the basement rooms of a church building on Laguna street, between Tyler and McAllister streets, November 3, 1875, under the charge of Mrs. Georgia Washburn as Principal. It was transferred December 13, 1877, into the Turk street building, which then contained eight class-rooms. Afterwards the roof of the building was raised and another story was added, thus increasing the number of class-rooms to twelve. This work was finished in June, 1878. The school now contains twelve classes, and has an enrollment of seven hundred and thirty boys and girls in the primary grades.

VALENCIA PRIMARY SCHOOL.

This school occupies the large eighteen-class-room frame building on Valencia street, between Twenty-second and Twenty-third streets. It has sixteen classes, with an enrollment of nine hundred and sixty-six boys and girls. This school was opened July 7, 1879, in the building now occupied by the Haight Grammar School on Mission street. It was transferred to its present location August 8, 1881.

The following teachers have been Principals of this school:

Miss Jean Parker, elected May 6, 1879.

Miss M. Haswell, elected March 22, 1880.

FAIRMOUNT PRIMARY SCHOOL.

This school is located on Chenery street, near Randall street, in a two-story wooden building, containing eight rooms. It was moved into this building from the old building on the same lot November 15, 1877. The school contains eight classes, and has an enrollment of four hundred and thirty-one pupils. This school was instituted in September, 1864.

The following teachers have been Principals of this school:

Miss M. A. Salisbury, elected September 13, 1864.

Miss A. M. Manning, elected January 10, 1865.

Miss A. C. Bowen, elected June 27, 1865.

E. D. Humphrey, elected June 27, 1866.
 Philip Prior, elected June 25, 1867.
 Mrs. T. J. Nevins, elected August 13, 1867.
 Miss Susie Carey, elected July, 1868.
 Albert Lyser, elected October 29, 1868.
 Geo. B. Robertson, elected August 23, 1870.
 J. W. Lannon, elected October 4, 1870.
 J. C. Robertson, elected November 28, 1871.
 J. W. Anderson, elected October 21, 1873.
 H. P. Carlton, elected October 6, 1874.
 W. W. Stone, elected August 3, 1875.
 Miss H. M. Fairchild, elected February 1, 1876.

NOE AND TEMPLE STREET PRIMARY SCHOOL.

This school is located on the corner of Noe and Temple streets, in a wooden building, containing eight large pleasant rooms. The school contains eight classes, and has an enrollment of three hundred and eighty-seven pupils. The school was instituted February 2, 1875.

The following teachers have been Principals of this school:

Mrs. E. Foster, elected February 2, 1875
 Mrs. M. W. Phelps, elected February 11, 1879.
 R. P. Davidson, elected November 18, 1879.

SANCHEZ STREET PRIMARY SCHOOL.

This school occupies a two-story frame building, containing eight classrooms, on Sanchez street, between Sixteenth and Seventeenth streets. It was opened January 8, 1877, in rented rooms on Castro street, between Seventeenth and Eighteenth streets, and was moved into the building on Sanchez street January 6, 1879. The school contains eight classes, and has an enrollment of four hundred and seventy-three pupils. Mrs. F. A. Banning, the present Principal, was placed in charge of the school at its organization.

EMERSON PRIMARY SCHOOL.

This school occupies a two-story frame building, containing eight classrooms, on Pine street, between Scott and Devisadero streets. It is a mixed school for boys and girls of the primary grades, and contains eight classes, with an enrollment of five hundred and three pupils. The school was opened November 1, 1880, under the charge of Miss Sallie A. Rightmire as Principal. At first the school was known as the Pine and Scott Street Primary, but the Board of Education, by an order passed April 21, 1882, changed the name to the Emerson Primary School.

WEST MISSION PRIMARY SCHOOL.

This school occupies a two-story frame building, containing eight class-rooms, on West Mission street, between Herman and Ridley streets. It is a mixed school for boys and girls, and contains eight classes, with an enrollment of five hundred and fifty-one pupils. The school was opened January 3, 1881, under the charge of Mrs. Louise F. Cadwell as Principal.

GOLDEN GATE PRIMARY SCHOOL.

This school is located on Golden Gate Avenue, between Pierce and Scott streets, in a two-story wooden building, containing nine large and pleasant rooms.

The present attendance is four hundred and fifty-three pupils.

This school was instituted August 1, 1866, on the corner of Steiner and Tyler streets. It was transferred to its present location in October, 1867. The name of the school was changed from the Tyler Street Primary to the Golden Gate Primary April 21, 1882.

The following teachers have been Principals of the school:

Miss A. S. Jewett, elected August 1, 1866.

Miss S. H. Whitney, elected August 13, 1867.

Miss Mary J. Bragg, elected June 18, 1868.

Miss E. Cushing, elected February 14, 1871.

JACKSON STREET PRIMARY SCHOOL.

This school is located on Jackson street, between Webster and Fillmore streets, in a wooden building with four small class-rooms. The building was originally erected on Pine street, near Scott street, for the Pine Street Primary School, but it was moved to this lot after the transfer of the pupils of the Pine Street School to the Hamilton Grammar School. The school contains six classes, including two in outside rooms, and has an enrollment of two hundred and fifty-nine pupils.

The school was instituted in November, 1875, under the instruction of Mrs. B. F. Moore. Mrs. Moore was succeeded by Miss H. Cooke, the present Principal, who was elected December 12, 1881.

LOMBARD STREET PRIMARY SCHOOL.

This school occupies a one-story frame building, containing four class-rooms, on Lombard street, between Baker and Broderick streets. It was opened March 25, 1878, under the charge of Miss A. B. Chalmers, the present Principal. The school now has two classes with an enrollment of ninety-one primary pupils.

BUENA VISTA PRIMARY SCHOOL.

This school occupies a four-class-room frame building on York street, between Solano and Butte streets. At present the school contains three classes with an enrollment of one hundred and sixty-three pupils. The school was opened March 25, 1878, in a rented building on Florida street, near Eighteenth, under the charge of Mrs. Emma S. Code, the present Principal. The school was first known as the Florida Street School, and when it was moved into the present building December, 1880, it was named the York Street Primary School. On February 14, 1881, the name was changed to the Buena Vista Primary School.

LAGUNA HONDA SCHOOL.

This school is located on Eighth avenue, near K avenue, in a wooden building, containing two pleasant rooms. It contains pupils of nearly all the Grammar and Primary grades. There are sixty-five pupils in attendance at present.

This school was instituted in August, 1869, in a rented room on the old Ocean Beach road. It was transferred to its present location in 1872.

The following teachers have been Principals of this school:

Mrs. J. E. Meeker, elected August 17, 1869.

James Dwyer, elected February 19, 1878.

WEST END SCHOOL.

This school is located on the San Jose Road, near the Six-Mile House, in a wooden building containing three small class-rooms. This is a mixed grammar and primary school, and at present contains ninety pupils. It was instituted in October, 1864.

The following teachers have been Principals of this school:

Miss A. M. Dore, elected October, 1864.

Mrs. Louisa Carter, elected June 15, 1865.

Mr. S. A. White, elected October 15, 1866.

Mr. Robert Desty, elected July 16, 1867.

Mr. W. W. Holder, elected July 28, 1868.

Mr. J. W. Lannon, elected August 24, 1869.

Mr. Chas. F. True, elected March 15, 1870.

Mr. C. H. Ham, elected August 23, 1870.

Mr. W. W. Stone, elected February 11, 1873.

Mr. Selden Sturges, elected September 21, 1875.

Mr. B. L. Brown, elected May 15, 1877.

SOUTH END PRIMARY SCHOOL.

This school is located on Williams street, between Henry and Burrows streets, in a one-story frame building containing two class-rooms. It was

opened July 9, 1877, and now has two classes and an enrollment of one hundred and three pupils in the grammar and primary grades. Miss R. B. Birdsall was placed in charge of the school as Principal at its organization.

The following teachers have been Principals of this school:

Miss R. B. Birdsall, elected October 23, 1877.

Philip Prior, elected September 3, 1878.

Reginald H. Webster, elected August 13, 1880.

Miss Mary A. Scherer, elected September 27, 1881.

LOBOS AVENUE PRIMARY SCHOOL.

This school occupies a rented building on Point Lobos avenue, near Parker avenue. It contains four classes, and has one hundred and sixty-five primary pupils enrolled. The school was opened September 3, 1877. Mrs. E. Goldsmith, the present Principal, has had charge of the school since its organization.

POINT LOBOS SCHOOL.

This school is located on Nineteenth avenue, near Point Lobos avenue, in a wooden building, containing four large and pleasant class-rooms. At present but two rooms are occupied, with sixty grammar and primary pupils.

This school was instituted March 1, 1871, under the instruction of Wellington Gordon as Principal. Mr. Gordon was succeeded by Mr. H. C. Wilson, the present Principal, who was elected May 7, 1878.

OCEAN HOUSE SCHOOL.

This school is situated on the Ocean House road, near the Ocean House, in a wooden building, containing two large and pleasant rooms, erected in February, 1879. This building was erected to take the place of the Ocean House School building, erected in 1871, which was totally destroyed by fire in June, 1878. The school contains two classes, and has an enrollment of fifty-three pupils.

This school was instituted in July, 1866, in a small rented room near the Ocean House. It was transferred to its present location in January, 1872.

It has been taught by the following teachers:

Mrs. M. McGilvery, elected July, 1866.

Albert Lyser, elected June 10, 1868.

W. A. Robertson, elected November 10, 1868.

John Fox, elected April 5, 1869.

John A. Moore, elected June 18, 1869.

W. Gordon, elected December 28, 1869.

Miss A. M. Murphy, elected September 27, 1870.

Jas. O. Dwyer, elected February 11, 1873.

W. F. Gibson, elected February 19, 1878.

Mrs. M. J. Carusi, elected September 27, 1880.

BERNAL HEIGHTS SCHOOL.

This school is situated on Cortland avenue, between Laurel avenue and Moultrie street, in a one-story frame building, containing four class-rooms. It has four classes, and an enrollment of one hundred and fifty-three pupils. The school was opened August 19, 1878, under the charge of Mrs. M. W. Phelps as Principal.

The following teachers have been Principals of the school:

Mrs. M. W. Phelps, elected August 6, 1878.

R. P. Davidson, elected March 4, 1879.

Philip Prior, elected November 18, 1879.

HARRISON STREET UNGRADED SCHOOL.

This school is situated on Harrison street, between Tenth and Eleventh streets, in a one-story frame building, containing two class-rooms. It was organized June 3, 1878, under the charge of Mr. H. C. Kinne, the present Principal. The school contains one class, and has an enrollment of forty-eight pupils. For an account of the objects aimed at and the results accomplished in this school, see special article prepared by Mr. Kinne, in Superintendent's Report for 1878.

JACKSON STREET KINDERGARTEN.

The Jackson Street Kindergarten occupies rented rooms at No. 116 Jackson street, and contains one class, with an enrollment of forty-five boys and girls, most of whom are between five and six years of age. It was opened July 13, 1880, under the charge of Miss Flora Van Den Bergh as teacher.

UNION STREET KINDERGARTEN.

The Union Street Kindergarten occupies rented rooms at No. 512 Union street, and contains one class, with an enrollment of forty-four boys and girls, most of whom are between five and six years of age. It was opened August 1, 1881, under the charge of Miss Annie Stovall as teacher.

EVENING SCHOOLS.

During August, 1856, the evening schools were opened in the basement of the Cathedral, corner of California and Dupont streets. They were first organized by Messrs. William Hammill, John Swett, Ahira Holmes, and James Denman, who volunteered their services until the Board of Education was convinced of the importance of evening school instruction.

The evening schools have continually grown in public favor, until now they are the most useful and prosperous schools in the city. There are at present nine hundred and five young men and women in attendance, under the instruction of twenty-one teachers.

The Superintendent's Report for 1878, contains a very valuable historical sketch by Mr. Joseph O'Connor, Principal of the Evening Schools, giving a somewhat detailed account of the early life of these schools, and much interesting information concerning their progress. Mr. Charles H. Ham, the present Principal, was elected July, 12, 1880.

COLORED SCHOOL.

The first Colored School was opened May 22, 1854, in the basement of the Church for colored people, on the corner of Virginia Place and Jackson street. This school was transferred in 1864 to Broadway, near Powell street, and in April, 1869, it was transferred again to the corner of Vallejo and Taylor streets. A colored school of about twelve pupils was organized on Howard street, near Fifth, on November 14, 1871, and sustained till it was abolished, August 3, 1875.

These schools have never been successful or popular among the colored people. They would not be satisfied with anything but the admission of their children to the schools for white children. Separate schools for colored children were abolished by the Board of Education on the 3d of August, 1875, and the pupils were transferred to the other schools of the city.

CHINESE SCHOOL.

The Chinese School was first organized in September, 1859, under the instruction of Mr. B. Lanctot, in the basement of the Chinese Chapel, corner of Stockton and Sacramento streets. For want of pupils and a lack of interest among the Chinese to appreciate the benefits of free school instruction, it was suspended June, 1860, as a day school, but it was continued as an evening school until February, 1871, when it was discontinued.

BOOKS USED IN THE PRIMARY AND GRAMMAR SCHOOLS.

Swinton's Word Book.
 Brown's Physiology and Hygiene.
 McGuffey's Revised Readers (five books).
 Bartholomew's System of Drawing (new edition).
 Harvey's Language Course (three books).

Allen & Greenough's Cicero.
Allen & Greenough's Virgil (in Normal Class).
Swinton's Seven American Classics.
The Franklin Arithmetic.

SECRETARY'S REPORT.

To John W. Taylor Esq., Superintendent of Common Schools:

DEAR SIR—In compliance with your direction I submit the following report:

GENERAL STATISTICS.

Population of the city (U. S. Census, 1880)...		234,144
Number of youth in the city under seventeen years of age, June, 1882.....		80,155
Increase for the year.....	769	
Number of youth in the city between five and seventeen years of age who are entitled by law to draw public money.....		55,880
Increase for the year.....	765	
Valuation of city property for the year ending June 30, 1882.....		\$222,336,400 00
Decrease for the year.....	\$31,209,076 00	
Total amount of revenue for city purposes for the year.....		\$5,166,740 11
Increase for the year.....	\$370,170 09	
Total income of the School Department for the year, including cash on hand July 1, 1881.		\$764,199 62
Decrease for the year.....	\$138,286 04	
Per cent. of the total revenue of the School Department on the whole revenue raised by the city for the year.....		14.7
State and city tax for 1881-82 on each hundred dollars.....		\$1.854
City school tax on each hundred dollars.....		9½ cts.
Estimated value of school sites.....	\$1,930,000 00	
Estimated value of school buildings.....	975,000 00	
Estimated value of school furniture.....	195,000 00	
Estimated value of school libraries.....	12,000 00	
Estimated value of school apparatus.....	25,000 00	
Total valuation of school property.....		\$3,137,000 00

SCHOOL ATTENDANCE.

Enrollment in the High Schools.....		1,257
Boys, 327; Girls, 930.		
Increase for the year.....	82	
Enrollment in the Grammar Schools, including some Primary grades.....		13,723
Boys, 6,615; Girls, 7,108.		
Increase for the year.....	19	
Enrollment in the Primary Schools, including some Grammar grades.....		22,683
Boys, 11,889; Girls, 10,794.		
Increase for the year.....	886	
Enrollment in the Evening Schools.....		3,089
Boys, 2,654; Girls, 435.		
Decrease for the year.....	422	
Whole number of different pupils enrolled dur- ing the year in all the public schools.....		40,752
Boys, 21,485; Girls, 19,267.		
Increase for the year.....	565	
Average number belonging to High Schools...		1,048
Increase for the year.....	27	
Average number belonging to Grammar Schools		11,260
Decrease for the year.....	282	
Average number belonging to Primary Schools		17,802
Increase for the year.....	475	
Average number belonging to Evening Schools		904
Decrease for the year.....	144	
Average number belonging to all the public schools.....		31,014
Increase for the year.....	76	
Average daily attendance in the High Schools.		1,007
Increase for the year.....	23	
Average daily attendance in Grammar Schools		10,805
Decrease for the year.....	210	
Average daily attendance in Primary Schools..		16,845
Increase for the year.....	632	
Average daily attendance in Evening Schools..		778
Decrease for the year.....	102	
Average daily attendance in all the public schools.....		29,435
Increase for the year.....	343	
Per cent. of attendance in the High Schools...		95.1
Per cent. of attendance in the Grammar Schools		95.9

Per cent. of attendance in the Primary Schools		94.6
Per cent. of attendance in the Evening Schools		86.
Per cent. of attendance in all the public Schools		94.9
Average daily attendance per class in the High Schools		33.7
Average daily attendance per class in the Grammar grades		42.5
Average daily attendance per class in the Primary grades.....		53.2
Average daily attendance per class in the Evening Schools		32.6
Per cent. of pupils enrolled in the High Schools		3.08
Per cent. of pupils enrolled in the Grammar Schools.....		33.68
Per cent. of pupils enrolled in the Primary Schools		55.66
Per cent. of pupils enrolled in the Evening Schools		7.58
Number attending private and Church Schools only, during the year (not including Chinese) as reported by the Census Marshals in June, 1882.....		5,589
Decrease for the year.....	142	
Number attending public and private schools during the year, not including Chinese....		41,691
Decrease for the year.....	451	
Number of children between five and seventeen years of age, (not including Chinese) who have not attended school at any time during the year, as reported by the Census Marshals in June, 1882....		14,189
Increase during the year.....	1,216	

SUMMARY OF ANNUAL REPORTS

COMPENSATION OF SUBSTITUTE TEACHERS.

ADOPTED MARCH 19, 1878.

1. The Board of Education appoints twenty Substitute Teachers. They are employed by the Superintendent to take charge of the classes of teachers who are temporarily absent, to fill vacancies and to take charge of new classes until regular teachers are appointed by the Board.

2. The rates of payment per day are as follows:

When filling the position of Assistant in High Schools	\$6 00
When filling the position of Assistant in Grammar Grades.....	4 00
When filling the position of Assistant in Primary Grades.....	3 00
When filling the position of Assistant in Evening Schools.....	2 00

3. All Substitutes required to report for duty at the office of the Superintendent are paid \$1.00 per day when their services are not needed in any school.

4. A Vice-Principal or an Assistant Teacher when filling the position of Principal receives the salary that would be paid to the Principal for the same time.

5. All other cases are determined by the Superintendent in conjunction with the Committee on Salaries.

SCHOOL FUND, 1882-83.

On March 17, 1882, the Board of Education, as required by law, adopted the following estimate of the amount needed to meet the expenses of the Department during the fiscal year 1882-83, and transmitted it to the Board of Supervisors:

For Teachers' salaries.....	\$631,220 00
For Janitors' salaries.....	38,400 00
For Census Marshals.....	1,500 00
For books.....	2,400 00
For stationery.....	7,000 00
For printing.....	3,000 00
For advertising.....	800 00

For furniture.....	\$10,000 00
For fuel.....	4,000 00
For lights.....	2,000 00
For rents.....	1,620 00
For repairs.....	20,000 00
For permanent improvements.....	10,000 00
For erection of buildings.....	80,000 00
For purchase and improvement of lots.....	22,000 00
For office salaries.....	8,700 00
For telegraph service.....	1,620 00
For general supplies.....	2,500 00
For legal expenses.....	1,200 00
For incidentals.....	2,500 00
Total.....	<u>\$850,460 00</u>

This estimate was reduced by the Board of Supervisors to \$750,000. The revenue of the Department for the fiscal year 1882-83 is estimated to be as follows:

From city taxes.....	\$300,000 00
From State apportionment.....	450,000 00
From rents.....	4,400 00
From balance June 30, 1882.....	28,725 01
Total.....	<u>\$783,125 01</u>

NEW SCHOOL HOUSES.

BERNAL HEIGHTS SCHOOL.

SITUATED ON CORTLAND AVENUE NEAR LAUREL AVENUE.

This is a one-story frame building, and contains four class rooms. The plans and specifications were prepared by William Curlett, architect, and the work was done by Messrs. Terrill and Slaven, builders. The contract price was \$4,175.00; extra work, \$65.00; architect's fees, \$208.75; total cost, \$4,448.75. The building was finished in August, 1881, and was accepted by the Board of Education September 2, 1881. The old building, containing but two class rooms, was sold and moved off to make room for the present building. The school now contains four classes, and is under the charge of Mr. Philip Prior as Principal.

NOE AND TEMPLE STREET SCHOOL.

This building, originally containing four rooms, was raised, and one story with four class rooms was added to it. The work was done by David Perry, contractor, under the supervision of William Curlett, architect. The contract price was \$4,765.00; extra work, \$721.50; architect's fees, \$274 30; total cost of additional rooms, \$5,760.80. The work was finished in August, 1881, and was accepted by the Board of Education, September 2, 1881. The school now contains eight classes, and is under the charge of Mr. R. P. Davidson as Principal.

Respectfully submitted,

GEORGE BEANSTON,

Secretary.

EXPENDITURES IN THE SAN FRANCISCO SCHOOL DEPARTMENT
FOR THE FISCAL YEARS 1879-80, 1880-81 AND 1881-82.

REPORT OF THE DEPUTY SUPERINTENDENT.

To HON. JOHN W. TAYLOR, *Superintendent of Public Schools*:

SIR—In compliance with your request I submit the following report of the

EVENING SCHOOLS.

The present condition of the evening schools is very encouraging. The Principal has put forth every effort to make them a success. Many difficulties had to be encountered; the classes had to be more closely graded, the pupils educated to a more regular attendance, and a more definite appreciation instilled in their minds of the benefits to be derived from attending the evening schools.

The results are, that now a classification and promotions occur at the end of each term, and as nearly as practicable the same course of study is pursued as in the day schools. Last year the Board decided that the pupils of the First Grade who successfully passed the same examination as First Grammar Grades, should receive Diplomas of Graduation. The laudable ambition to be the possessors of a Diploma, as well as the primary desire to have an education, stimulated the pupils in all the grades to more earnest study and regular attendance. Several young men who concluded, one or two terms ago, that they could not afford to spend any more time in the schools, have re-entered, principally to obtain the much coveted Diploma.

The pupils who attend the Evening Schools are employed in the daytime, and generally feel the necessity of an education. The only time they have to study, is the two hours employed in the school room. During that time the teacher, to be successful, must employ every moment in earnest, active, intelligent instruction. The humdrum groove of many a teacher is entirely out of place in these classes, as nearly every pupil has come in contact with the active business of life in his daily employment, and therefore, readily appreciates the active instructor who is himself acquainted with the busy life by which he is surrounded.

The action of the Board of Education in opening and closing the Evening Schools at the same time that the Day Schools are opened and closed, has given more character and permanency to the schools in this city than they ever had before.

The importance of this branch of our educational system is not easily estimated. It opens wide the doors of knowledge to that class of our population who must otherwise remain illiterate, and our fair Republic has no greater source of danger than illiteracy.

The children of the poorer classes are now able, with the excellent classification established in the Schools, to graduate from the First Grade by the time they are through with their apprenticeship. The more ambitious have also the opportunity of taking one or two courses in bookkeeping, thus enabling them to compete, on something of the same footing, with those who have superior advantages.

In the drawing classes our young artisans have the only facilities within their reach of becoming acquainted with mechanical drawing—an acquirement so necessary to every successful artisan. The class is in charge of a practical teacher, who understands by actual and daily experience, both drawing and mechanism. The large numbers in attendance show how eager the young men are to take advantage of its privileges.

The welfare of the Evening Schools require that more permanency be given to the position of teacher. The necessity of selecting the proper person as teacher is imperative, and no uncertain experiment should be made with inexperienced teachers, no matter how highly educated. When a teacher is found having the peculiar qualifications necessary, his services should claim good pay and continuous labor during efficient service, and on the same footing as the day teacher. The minds and time of the youth who seek an education under so many disadvantages should be held too sacred for educational quacks to tamper with.

The Principal, with the permission of the Board, has added another attraction to the evening school. He has arranged with several of our prominent and educated citizens to deliver lectures on a variety of subjects before the classes most likely to be benefited by these lectures. So far, the classes comprising the First and Second Grades, the two Bookkeeping Classes and the two Drawing Classes—7 classes, with a total of 320 pupils—were selected as the lecture class. The pupils have manifested great interest in these lectures. In the First Grade the pupils are required to write a synopsis of the lectures in the form of compositions.

The following are some of the lectures, delivered before the lecture class:

Negotiable Paper—by Prof. Pomeroy, of Hastings' Law College.

Insurance—by C. T. Hopkins, President California Insurance Company.

Life and Living Organisms as Shown by the Microscope—by Dr. J. H. Wythe.

The Law of Happiness—by C. T. Hopkins, President California Insurance Company.

Ocean Currents—by Captain A. D. Wood, of the *Rescue*.

Self Culture—by Joseph Leggett, Esq.

Pursuit of Knowledge Under Difficulties—by Joseph Rosenthal, Esq.

Education on Pitcairn's Island—by Hon. J. M. Days.

The objects of these lectures are to give condensed information outside of school topics, and to direct the thoughts of the pupils to literary channels.

Several more lectures of equal interest are in contemplation. As these and

other gentlemen have consented to deliver lectures for the especial benefit of the youth attending the evening school, at more or less inconvenience to themselves, and without any pecuniary remuneration, they are justly entitled to the gratitude of pupils, parents, and friends of education.

All the Evening Schools are under the supervision of Chas. H. Ham, as Principal. The Lincoln Evening School is in the Lincoln Grammar School building, Fifth, between Market and Mission streets. In it are 20 classes. 1 First Grade, 1 Mixed-First and Second Grades, 1 Second Grade, 3 Third Grades, 3 Fourth Grades, 2 Fifth Grades, 1 Sixth Grade, 2 Bookkeeping Classes, 3 Ungraded Classes, 1 for adults, 2 for Foreigners to study English, 2 Drawing Classes, 1 Free Hand and Designing, and the other Mechanical.

There is one Spanish class, which is divided into two divisions, 'of 62 pupils each, and taught on alternate nights, giving an average of 200 hours' instruction during the year.

The Mission Evening School is located in the Mission Grammar School building, between Fifteenth and Sixteenth streets. There are three mixed classes having all the grades.

The Washington Evening School is located in the Washington Grammar School building, corner of Washington and Mason streets. In this there are three classes, two mixed, having all the grades, and one ungraded foreign class.

Annexed is a comparative table taken from the reports of the principal cities in the Union.

I find that the average attendance in a class is higher in our schools than in any other. Also that our school is in session a longer time than the others, thereby insuring much better results to those who attend. Contrary to the expectation of many, the attendance in our schools was good up to the close of the term, indicating the earnestness of the pupils.

	Total No. pupils enrolled.	Average Attendance.	Av. attendance in each class.

Very respectfully submitted.

A. H. MacDONALD,

Deputy Superintendent.

REPORT ON KINDERGARTENS.

HON. JOHN W. TAYLOR, *Superintendent of Public Schools:*

MY DEAR SIR—It gives me great pleasure to present herewith, in compliance with your request, a summarized statement in regard to Kindergarten work in this city during the past year.

I am happy to report encouraging advancement in this work, and increasing interest in it among all classes of citizenship, more especially among the critical and intelligent in educational affairs. The Kindergarten work in San Francisco is no longer an experiment, but an established fact. At the late National Kindergarten Convention, held in Detroit, Michigan, it was found that San Francisco had distanced all other cities in the rapidity of advancement in this new educational system. When I last reported to you, a little more than one year ago, there were but five free Kindergartens in San Francisco. There are now fifteen, with an enrollment of about one thousand little children between the ages of three and six years.

Thirteen of these Kindergarten classes are supported by charity, and two are connected with the Public School Department as experimental classes. These two last-named are at 116 Jackson street and 512 Union street, and are taught respectively by Miss Flora van Den Bergh and Miss Anna M. Stovall, who have been signally successful in applying the principles of the Frœbel system in the instruction given in these interesting classes, which are the connecting link between the Kindergarten proper and the Primary School.

POPULARITY OF THESE SCHOOLS.

The chief difficulty with which these Kindergartens have to contend is the great number of little children who apply for admission, but cannot be accommodated. Eager, anxious mothers turn away, sadly disappointed, because there is no room for their little ones. The children themselves often cry bitterly as they linger around the doors, and listen to the songs and games going on within. In the Union Street School there have been enough children turned away the present year to form another class. The same is true of the Silver Street School. The pity of it all is, these little children, for the most part, have miserable homes, and many of them have parents who are addicted to drink; and when the Kindergarten affords them no shelter, their time is passed in the streets and alleys, where schools of vice and crime abound. And the sequel at last too often is, that the money which might have saved them to intelligent and valuable citizenship, is spent in supporting them as criminals in prisons and penitentiaries, or in swinging them

from the gallows. It takes society a long time to learn the everlasting value of a little child to the commonwealth. And just in this connection I am constrained to here place on your official records the familiar but fearfully suggestive statistics in regard to Margaret, the mother of criminals, which General John Eaton, the United States Commissioner of Education, has embodied in one of his Annual Reports. The terrible details show what perils may come to a community from

A SINGLE NEGLECTED CHILD.

In a wealthy county, in the State of New York, not less than twelve hundred criminals, vagabonds and paupers, have been traced as the lineage of six children, who were born of one perverted and depraved woman, who was once a pure, sweet, dimpled little child, and who, with proper influences thrown about her, at a tender age, might have given to the world twelve hundred progeny who would have blest their day and generation. Instead of this, came a notorious stock of criminals, imperiling every dollar's worth of property, and every individual, in the community. Look at the tremendous fact involved! In neglecting to train this one child in ways of virtue and well-doing, the descendants of the respectable neighbors of that child have been compelled to endure the depredations and support in alms-houses and prisons, scores of her descendants for six generations. If the citizens of San Francisco would protect the virtue of their children, their persons from murder, their property from theft, or their wealth from consuming tax to support paupers and criminals, they must provide a scheme of education that will not allow a single youth to escape its influence. And to effect the surest and best results, these children must be reached just as early in life as possible. Think of the vast difference in results, had there been twelve hundred useful, well-equipped men and women at work in that county in New York, building it up in productive industries, instead of twelve hundred paupers and criminals tearing down and defiling the fair heritage! We have but to look at this significant fact, to estimate the value of a single child to the commonwealth.

WHO SUPPORT THE CHARITY KINDERGARTEN?

The men and women who support the charity Kindergartens of this city, and who endorse and advocate this great work, are among the most thoughtful, philanthropic, and far-seeing citizens of San Francisco; men who seek to crown with ceaseless blessing the destinies of this western world. Their monthly subscriptions range all the way from one to ten dollars per month. There are never any glum looks and wry faces when collection day comes round, but only cheery words of appreciation and encouragement. It is a pleasure to meet our patrons and helpers. The general feeling among them is, that the children of the poorer classes are not brought under helpful and restraining influences early enough in life. A number of Front street merchants who have watched with keen interest the Kindergarten work on the Barbary Coast, have become voluntary subscribers. They affirm that the

moral tone of that part of the city has improved since the establishment of the Kindergarten classes at 116 Jackson street, three years ago. Among the first subscribers to the Jackson street work were Mrs. Charles Crocker and Mrs. Leland Stanford; and their intelligent observation of the results of this training on the little children has induced them to contribute, from time to time, liberal sums for the carrying forward of charity Kindergartens in different portions of the city. Several of those recently established owe their successful inauguration to these generous-hearted patrons. It is unquestionably true that the deepest, most far-reaching and abiding influence that can be exerted is that which takes hold of childhood in its earliest unfoldment. An ounce of prevention is worth a pound of cure. It is better to keep a little child from going wrong than to seek to recover him from ways of wrong doing. A horse is never half so valuable after he has once learned the trick of running away. Said a wealthy tax-payer, as he paid me his monthly subscription: "Mrs. Cooper, this work among the children is the very best work that can be done. I give you this aid most gladly. I consider it an investment for my children. I would rather give five dollars a month to educate these children than to have my own taxed ten times that amount, by and by, to sustain prisons and penitentiaries." This was the practical view of a practical business man—a man of wise forethought and of generous, genial impulses. He was right. The preservation and increase of property are directly conditioned upon the educated intelligence of the people, which, to be radical, must have its foundations laid deep down in earliest childhood. It is true that "Society prepares the crime which the criminal commits." The preventive process is far more possible than the curative, and far more economical; and money devoted to educating little children, wisely and universally, is the very best investment that can be made, both for the individual and the State. In view of these facts, it seems to me

THE MOST VALUABLE PERIOD OF CHILDHOOD

For formative purposes, is yet unclaimed by the State. I wish it were possible for the guardians of Education, in this city, to provide a vicarious motherhood for the luckless little ones whose homes lack this divine nurturing. I am very well aware that the funds of the Department will not admit of the necessary outlay to compass this end. The members of the School Board have shown themselves most kind to this work. When the crisis came, where it seemed imperative to reduce the expenses of the Department, I well remember the effort made by the Superintendent and Directors to save the experimental schools, and keep the little children from being turned back into the streets. It was a triumph worthy the cause.

THE NEW KINDERGARTEN CLASSES.

About the 1st of July, 1881, the Jackson Street Kindergarten Association opened another class at 512 Union street, with Miss Anna M. Stovall as teacher. Pupils enough for a second class applied for admission. Rooms were secured in the same building, and another class was formed, in which were grouped

the five-year-old children. The Association carried forward both classes for several months, after which the School Department adopted the Senior Class, this being the second experimental class under the care of the School Board. Miss Stovall, the teacher, is especially endowed for her work, and is enthusiastic and devoted; her natural love for little children fitting her for the position which she fills with so much credit to herself, and so much profit to her pupils. The School Board has been fortunate in securing teachers for these two Kindergarten classes so thoroughly trained, and so exceptionally qualified for the work. Miss Nora Griffin has charge of the Charity Class, and is very successful.

The Pioneer Kindergarten moved from its former quarters to the corner of Market and Seventh streets, where a large and flourishing class is carried forward under the auspices of the Misses Morse, who are doing excellent work. Two large classes have recently been opened on Silver street, between Second and Third streets, one of which is taught by Mrs. Arnold, and the other by Miss Nora Smith. There are over seventy-five pupils enrolled in each of these classes, the teachers being aided in their work by the members of the Kindergarten Training Class of Mrs. Kate Smith Wiggin, which is held in the same building. This is, undoubtedly, one of the best-appointed and ably-conducted Charity Kindergartens in this country, and with its able corps of teachers, under the careful superintendence of Mrs. Wiggin, it cannot fail to become the model Kindergarten in this line of work. A young lady of large wealth, who has become deeply interested in Charity Kindergartens, is a liberal supporter of this branch of the work, and is President of the Association under whose auspices it is carried forward.

At the corner of Bartlett and Twenty-second streets, Miss Lily Ransome has opened a large free Kindergarten Class, some fifty scholars being in attendance. This young lady deserves great credit for her unwearied fidelity and patient industry in building up this flourishing Kindergarten.

St. Luke's parish has also opened a charity Kindergarten, at the corner of Polk and Pacific streets. Mrs. Briggs, the capable and efficient teacher, is doing a noble work in that section of the city. It would be a blessed thing for San Francisco if every church in the city would emulate the example of this parish, and establish a free Kindergarten for the poor children that flock in the by-ways and alleys and grow up in vice and crime.

Kindergarten classes have been opened in the Protestant Orphan Asylum, the Little Sisters' Infant Shelter, and the Boys' and Girls' Aid Society; and the beneficent results of this system of training verify the claims made for it by its most enthusiastic advocates. The Young Women's Christian Association has opened a second class at 29 Minna street. The Shipley Street Kindergarten has been removed to Folsom street. All these schools are flourishing under the care of excellent teachers, who devote themselves to the work. The only sad feature in connection with their severe labors is the turning away of so many little children, who cannot be accommodated. There should be a free Kindergarten connected with every Primary School in the city. There are a large number of

PRIVATE KINDERGARTENS

In San Francisco, nearly every leading private school having a class attached thereto. This is another evidence of the growing interest in this system of education. Miss Emma Marwedel, the pioneer Kindergartner of the Pacific Coast, has a very large and interesting class at her residence, No. 1711 Van Ness avenue, where she carries on also her Normal Training Class. Some fifteen well trained and devoted Kindergartners were graduated the present year from the Training Classes of Miss Marwedel and Mrs. Kate Smith Wiggins. Many of these have already secured positions, and some of them are negotiating to open Kindergartens in other cities and towns.

A GROWING INTEREST ALL OVER THE COAST.

A rapidly growing interest in the Kindergarten system of training is manifest all over the Coast. Visitors from all parts are almost daily to be seen at the schools. From Washington Territory, Oregon, and from the interior, letters are constantly received, asking for reports and information in regard to the work. Some fifteen hundred copies of the Second Annual Report of Jackson Street Kindergarten Association, and an equal number from the Silver Street work, have thus been distributed in every direction.

THE PROGRESS OF KINDERGARTENS.

All over the country the movement is making steady and substantial progress. In St. Louis there are now over sixty free Kindergartens, connected with the School Department. These schools are inspected and supervised by Miss Susan E. Blow, who spent a generous fortune in demonstrating to the citizens of St. Louis the superiority of this system in unfolding little children. She has maintained a free Training School since 1872. The taxpayers of St. Louis now demand a Kindergarten in connection with every Primary School. The cost of tuition, per pupil, is lower than the expense of primary instruction, while the Kindergarten training enables children to go through the regular school course more rapidly, as well as more thoroughly, than other pupils, with better satisfaction to their parents and more profit to themselves. A result of this is a saving of one year or more in the time of schooling, and consequently a saving of money to the public treasury. This statement comes from official sources, and can be abundantly verified. Professor Wm. T. Harris, who for so many years was at the fore front of public educational affairs in St. Louis, prepared an exhaustive and convincing paper for the American Froebel Union, in which he gave a valuable summary of information on this subject, and detailed with wonderful precision the practical conditions necessary for success. It should be read by every educator in the land, and by every intelligent parent as well.

During the present year, Milwaukee has attached the Kindergarten to her

Public School system. It may not be generally known that a memorial for a free National Training School and Model Kindergarten, signed by the highest educational authorities from fourteen different States, has been presented to Congress. President Garfield, whose own children were trained under this system, presented the first memorial on this subject. Thoughtful men and women everywhere, who investigate the principles on which this new educational system is based, cannot fail to see that it is Nature's own method of unfolding a little child. The Crown Princess Victoria of England has not only had all her own children educated by Fröbelian Kindergartens, but has interested among others the Princess Helena of Russia in the system, and allows the use of her name as lady patroness of the Training School for Kindergartners in London. The most successful and enlightened educators of our own State are advocates of the system, and no higher tribute could be paid to the intellectual discernment and educational sagacity of the San Francisco Board of Education than the intelligent and well advised interest they have manifested in the Kindergarten system of instruction.

THE PRINCIPLES AND AIMS OF THE KINDERGARTEN.

Lack of space forbids anything more than a brief summary of the principles and aims of the Kindergarten. The Kindergarten concerns itself more with the development of faculty than with imparting abstract knowledge. It does not ask so much, "What does the child know?" as it does, "Has the child learned how to learn?" It looks less to present acquirements, and more to the capacity to learn. It turns the destructive energies of a child into constructive forces. It teaches the child to create, and not to destroy. It utilizes play, and makes it an educative function. It fosters self-activity for useful ends. It quickens observation, begets habits of attention and perseverance; it cultivates and regulates the will-power; it fosters in the child self-government; it teaches him respect and reverence for others; it brings out the individuality of the child, and fits him to his place; it unfolds the moral and religious nature, and brings it into harmony with outward surroundings; it cultivates the physical, begetting grace and strength of body and limb; it inspires in the child a laudable desire and purpose to make the most of himself; it enjoins unselfishness and generous regard for others—in short, it prepares those who are trained and moulded by its principles and precepts for a noble, self-contained manhood and womanhood, for good citizenship and useful lives, in whatever sphere they may be called to labor. The Kindergarten furnishes the best training for the arts and trades. It cultivates the eye and hand and muscles. It prepares for all sorts of technical activity. All the different gifts serve to make the child accurate in measurement, correct in outline, creative in producing forms, sensitive of touch, quick in manipulation, graceful in handling, and ingenious in combination. And it should be remembered that all this admirable preparation for handcraft has

subtracted nothing from the years usually devoted to ordinary school life and training.

I cannot do better than by closing this report with the strong, intelligent appeal of Superintendent Harris, of St. Louis, who has thoroughly tested this system in the public schools of that city. He says: "The advantage to the community in utilizing the age from four to six; in training the hand and eye; in developing habits of cleanliness, politeness, self-control, urbanity, industry; in training the mind to understand numbers and geometric forms, to invent combinations of figures and shapes, and to represent them with the pencil—these and other valuable lessons in combination with their fellow pupils, and obedience to the rule of their superiors—above all, the youthful suggestions as to methods of instruction which will come from the Kindergarten and penetrate the methods of other schools—will, I think, ultimately prevail in securing to us the establishment of this beneficent institution in all the city school systems of our country."

Earnestly hoping that this great and good work may be speedily realized, and that San Francisco may lead the van in this noble educational movement, I respectfully submit this report.

SARAH B. COOPER.

REPORT OF THE PRINCIPAL OF THE GIRLS' HIGH SCHOOL.

SAN FRANCISCO, September 1, 1882.

JOHN W. TAYLOR, *Superintendent of Common Schools*;

DEAR SIR—In accordance with your request I herewith submit a report of the Girls' High School and Normal School for the school years ending June 30, 1881, and June 30, 1882.

Very respectfully,

JOHN SWETT,
Principal.

ANNUAL STATISTICS—1881 AND 1882.

	1881.	1882.
Whole number of pupils enrolled during the year.....	879	930
Average daily attendance.....	738	753
Number of classes.....	20	21
Number of teachers.....	24	24

RESULT OF THE ANNUAL EXAMINATION, MAY.

Normal Department—

Total number enrolled during the year.....	108	165
Examined.....	86	126
Graduated.....	86	125

Senior Classes (5)—

Enrolled.....	226	200
Examined.....	199	175
Graduated.....	187	170

Middle Classes (6)—

Examined.....	196	175
Promoted.....	182	164

Junior Classes (8)—

Examined.....	227	273
Promoted.....	207	270

OF COMMON SCHOOLS.

683

GRADUATES OF THE GIRLS' HIGH SCHOOL.

The Graduating Class of '81 numbered 187; that of 1882, 170. The following table shows the number graduated annually since the organization of the school:

1865.....20	1874..... 54
1866.....13	1875..... 88
1867.....34	1876..... 90
1868.....33	1877..... 101
1869.....18	1878..... 154
1870.....35	1879..... 186
1871.....36	1880..... 205
1872.....31	1881..... 187
1873.....50	1882..... 170
Total.....	1505

FIFTEENTH ANNUAL COMMENCEMENT EXERCISES, MAY 19, 1881, AT THE GRAND OPERA HOUSE.

ORDER OF EXERCISES.

1. Introductory remarks, by the President of the Board of Education, L. H. Van Schaick
2. Song—by the Class, "Summer Fancies".....Olivier Metra
3. *Essay—Thought Repeats Itself.....Marian Hill
4. *Essay—A Noted Trio.....Blanche E. Leviele
5. Song—By the Class, "Cradle Song".....Taubert
6. *Essay—Fans.....Caro Morse
7. Recitation—Bernardo del Carpio.....Bertha Weil
8. Essay—Modern Travel.....Hattie I. Cahn
9. *Essay—A Hundred Years Hence.....Alice Rhine
10. Song—By the Class, "Ave Maria".....Abt
11. *Essay—Houses.....Letitia Aldrich
12. Essay—The Poetic Side.....Leonie Friedman
13. Essay—Enthusiasm.....Edith Lapham
14. Song—By the Class, "Lorelei".....Silcher
15. Essay—Lessons from Nature.....Alice Ahern
16. *Essay—Through Difficulties to the Stars.....Olga Josue
17. *Essay—Lillies and Roses.....Sheda Torbert
18. *Essay—"One Hoss Shays".....Lizzie Hyde
19. *Essay—Mountain and Plain.....Annie Cray
20. *Spectacles.....Annie McCone
21. Farewell Song.....By the Class
22. Delivery of Diplomas, by the Superintendent of Public Schools.....John W. Taylor
23. Presentation of Flowers.

Only the essays marked * were read.

SIXTEENTH ANNUAL COMMENCEMENT EXERCISES, MAY 25, 1882,
AT THE GRAND OPERA HOUSE.

ORDER OF EXERCISES.

1. Introductory remarks by Dr. Henry M. Fiske, Chairman of Committee on Classification
2. Song—By the Class.
3. Essay—Our Senior Year..... Nellie Thompson
4. Song—By the Class.
5. Essay—Houses..... Maude Pearce
6. Song—Solo..... Margaret Thornton
7. Essay—I Shall Live..... Hattie Levy
8. Song—By the Class.
9. Essay—Proverbs..... Victoria Roussell
10. Poem..... Bessie Curtis
11. Song—By the Class.
12. Delivery of Diplomas by J. C. Stubbs, President of the Board of Education.
13. Presentation of Flowers.

HONORARY ESSAYS.

The Three Caskets.....	Effie Worley

THE COURSE OF STUDY.

The revised course of study, adopted in June, 1880, has proved quite satisfactory to the faculty and pupils of the High School.

The course for the two previous years was adopted without consultation with the Principal of the school, the main object in adopting it being to

make the Girls' High a *fac-simile* of the Boys' High School. The attempt was not a success. The present course is not in every respect all that could be desired, but it has some good features, and in the main is adapted to the needs of the pupils.

The High School is merely an outgrowth of the Grammar School. Its course of study and its mental *status* are mainly determined by the training given in the lower departments of the school system.

The fact that two-thirds of all the pupils who enter the Girls' High School intend to become teachers, and do teach after graduating, has to be taken into consideration in the curriculum.

Without going into details, the leading purpose of the school is to graduate young ladies with:

1. The ability to read well and spell well.
2. A fair knowledge of English grammar.
3. Some knowledge of the meaning and use of words, of etymology and of synonyms.
4. An elementary knowledge of algebra and geometry.
5. Some knowledge of physical and political geography.
6. A general knowledge of the history of the world.
7. Some knowledge of *what* to read in English literature, and *how* to read it.
8. The ability to express their thoughts in correct English, gained by actual practice in composition, rather than by a study of technical text-books on rhetoric.
9. An elementary knowledge of physics, chemistry, botany, astronomy, and zoology.
10. Some knowledge of physiology and of the laws of health.
11. Some training in vocal culture and vocal music.
12. An elementary knowledge, for those who desire it, of Latin.
13. The ability to write their mother-tongue with readiness and accuracy.

The main purpose of the school is, not to fit young women for the State University, but to give them a substantial English education. Yet the school affords all who desire it the means of fitting for the University of California. The average number from the school who have entered the University has been, for the past five years, about three a year, or less than two per cent. of the graduates. It has been found impossible to secure enough pupils to make up a "University Class," not because the girls are not encouraged to go to the University, but because their parents do not desire to have their girls take a University course.

CLASSIFICATION OF THE GIRLS' HIGH SCHOOL, AUGUST 1, 1881.

Normal Department—three classes, fifty pupils each; Senior Classes—five; Middle Classes—five; Junior Classes—eight.

FACULTY OF THE GIRLS' HIGH SCHOOL AND NORMAL SCHOOL, AUGUST 1, 1881.

John Swett, Principal.

Volney Rattan, Teacher of Botany, Physics and Chemistry.

Henry Senger, Teacher of Latin.

NORMAL DEPARTMENT.

Mrs. Mary W. Kincaid,
Mr. George W. Minns.

Mrs. C. R. Beals,

SENIOR DEPARTMENT.

Miss Helen M. Thompson,
Miss Fidelia Jewett,
Miss Mary J. Bragg.

Miss S. A. Barr,
Mrs. C. L. Atwood,

MIDDLE DEPARTMENT.

Miss Margaret Wade,
Miss Jessie Smith,
Miss Nellie M. Owens.

Miss C. L. Hunt,
Mrs. M. L. Hoffman,

JUNIOR DEPARTMENT.

Mrs. Dorcas Clark, Vice-Principal of Powell Street Branch,
Miss S. E. Thurton,
Miss Irene Doyle,
Miss Grace Smith,
Mrs. M. A. Colby.

Miss Kate Elliott,
Miss Maria L. Soule,
Mrs. Mary Prag,

THE NORMAL DEPARTMENT.

This Department was established in 1876, for the purpose, in the words of the resolutions adopted by the Board, "of organizing a department which shall afford its members the means of preparation for the University of California, and for the occupation of teaching."

From 1876 to 1880 the Normal Class maintained a precarious existence, opposed, as was to be expected, by the conservatives that oppose any new thing because it is not old, and by untrained teachers that have an instinctive antipathy to skilled labor.

In 1881, by action of the Board, First Grade Certificates were awarded to graduates that obtained at least eighty-five per cent. in the annual examination, and Second Grade Certificates to those who obtained at least eighty per cent.

The number of graduates from the Normal Department, since its organization, is as follows:

1877.....	31	1880.....	70
1878.....	25	1881.....	86
1879	37	1882.....	125
		Total	374

By resolution of the Board, June, 1882, the Normal Department was restricted to one class of fifty pupils.

More than one hundred applicants presented themselves for admission to this class in July, out of which number the fifty having the highest graduation per cent. were admitted, *provided*, they passed a satisfactory examination in arithmetic, reading, music and writing.

By action of the Board of Examination and Board of Education, the graduates of the Normal School are to receive only Second Grade Certificates.

FIFTH ANNUAL COMMENCEMENT EXERCISES OF THE NORMAL DEPARTMENT AT B'NAI BRITH HALL, MAY 17, 1881.

1. Introductory Remarks, by the President of the Board of Education, L. H. Van Schaick
2. "Summer Fancies"—Class.....Olivier Metra
3. Essay—Defense of High SchoolsRachel Abel
4. Essay—The Kindergarten Laura E. Chesley
5. "Lorelei"—Class.....F. Silcher
6. Essay—Is there any Necessity for Professionally Trained Teachers..... Corinna Curtis
7. "O Balmy Sleep"—Class.....Isonard
8. Essay—Personality of the Teacher..... Emily Tracy Swett
9. Select Reading—Which Shall it be?.....Mattie Latham
10. Essay—Shall our High Schools be Abolished?.....Minora S. Ellis
11. "Ave Maria"—Class.....Abt
12. Essay—Some Noted Women Fanny Davies
13. Essay—How Shall Our Girls be Educated?.....Nellie McDougall
14. Recitation—Grandmother's Story of Bunker Hill Battle..... May French
15. "Cradle Song"—Class.....Taubert
16. Essay—A Plea for the Kindergarten..... Annie M. Johnson
17. Essay—Our Teachers Regina Reilly
18. "Farewell Song"—Words by Miss Ella Pryal, of Normal Class.
19. Delivery of Diplomas by the Superintendent of Public Schools, John W. Taylor.
20. Address to the Graduates by Chas. H. Allen, Principal State Normal School.
21. Presentation of Flowers.

SIXTH ANNUAL COMMENCEMENT EXERCISES OF THE NORMAL DEPARTMENT OF THE GIRLS' HIGH SCHOOL, MAY 23, 1882, AT THE GRAND OPERA HOUSE.

ORDER OF EXERCISES.

1. Introductory Remarks by Dr. T. B. DeWitt, Chairman of Committee on Rules and Regulations.
2. Song—Class.
3. Essay—Our Humorists..... Frederica H. de Leo de Laguna
4. Essay—Truth.....Sarah C. Burnett
5. Song—Class.
6. Essay—Keeping and Getting..... Marion S. Thom
7. Essay—Reading.....Mary Sullivan
8. Song—Class.
9. Essay—Our Kindergartens..... Maggie Smyth
10. Essay—Our Pride.....Blanche E. Leville
11. Song—Class.
12. Delivery of Diplomas by John W. Taylor, Superintendent of Common Schools
13. Presentation of Flowers.

NEED OF A NORMAL DEPARTMENT.

It is hardly necessary to go into any labored argument for the support of a local Normal School. Such a Department constitutes a part of the system of the new education. Local City Normal Schools or Normal Departments, have been established in New York, Philadelphia, Chicago, St. Louis, Baltimore, Boston, New Orleans, and many other cities in the United States. These schools have been established for the purpose of supplying trained primary teachers. It is true, there is a State Normal School at San Jose, but only a few of those who desire to become teachers can afford the boarding expenses of attending school there.

In the report of the Committee, July, 1876, which report was adopted by the Board, the following reasons are urged for the establishment of a Normal Department:

“Those who shall pass a satisfactory examination in the normal studies pursued during the year, shall receive a certificate, which shall render the holder eligible to any position in the Grammar or Primary Schools of this city. This normal, or teachers'-training department, although it is made for convenience an appendage of the High School, should have its separate educational appliances, and its distinct field of labor. In this city there are at no time less than several hundreds of teachers applying for situations in the Public Schools. These applicants hold certificates of qualifications, which show that they possess knowledge sufficient to teach our schools—and yet our Board of Teachers' Examiners assert positively that very few candidates ever furnish any proofs in their examination of technical skill or tact, or any other fitness for teaching. Every School Superintendent this city has had, has in

his day declaimed upon the necessity of a City Normal School. Our finances will not justify us in establishing a complete school. Let us then make this Normal Department, although shorn of its full proportions, as efficient as possible. We can in no better way secure this desirable object than by inducing the graduates of our Girls' High School to spend a year in the special training herein provided, with the guaranty of this Board that every year a certain number of those showing the best training shall be elected as teachers of our schools.

"In conclusion, your Committee will recommend that some one of the schools possessing the requisite classification and location be selected as a place in which the normal students may, under the observation and instruction of a skillful teacher, reduce to practice the theories and principles of teaching elsewhere acquired. The school selected might appropriately be called "The City Training School," and a portion of its classes should be taught gratuitously by the normal pupils, who could thus repay the city all the expense of their professional education."

Of the graduates of the Normal Class nearly one hundred are engaged in teaching in this city, the remainder are teaching in all parts of the State, from Humboldt to San Diego.

It is not to be expected that all graduates will become superior teachers, but the testimony of principals and superintendents is that many of them rank among the best and most progressive teachers.

CLASSIFICATION OF THE GIRLS' HIGH SCHOOL, AUGUST 1, 1882.

Normal Department—One Class, fifty pupils.

Senior Classes—Four.

Middle Classes—Seven.

Junior Classes—Eight.

FACULTY OF THE GIRLS' HIGH SCHOOL AND NORMAL SCHOOL,
AUGUST 1, 1882.

John Swett, Principal.

Miss Grace Smith,	Mrs. Mary Prag,
Mr. Geo. W. Minus.	

FRENCH, GERMAN AND GREEK.

Two years ago, as a matter of retrenchment, the position of the teacher of French and German was declared vacant, and the study of French and German in the High School was discontinued. The action was considered a financial necessity; but, as the same reason no longer exists, I trust the Board will consider the propriety of making provision for instruction in the modern languages in the Girls' High School. There are many girls that desire to continue the French or German course begun in the Cosmopolitan Grammar Schools; and a still larger number that desire to begin French in the High School. There seems to be no valid reason why girls that desire to study Latin should be provided with instruction, and those who desire to take French or German instead of Latin, should be denied a teacher.

A CLASS IN GREEK.

In 1872, when I was Deputy City Superintendent, at my suggestion, a teacher of Latin and Greek was elected to the Girls' High School, for the purpose of fitting girls for the State University. The class formed at that time maintained a lingering existence until 1876, when the teacher resigned, and his place was left vacant for several years. In 1878 a class in Latin was formed, and Mr. Senger, the teacher of German, was assigned to it. There are now five classes in Latin, numbering one hundred and sixty pupils.

There is now one young lady in the School who desires to begin the study of Greek next January. It is for the Board to determine whether or not a class of one shall be formed.

REFERENCE BOOKS.

The School is poorly supplied with reference books. It has only one Cyclopaedia—Appleton's old one—for the use of 850 pupils. The School needs at least \$300 worth of reference books of various kinds, in order to be tolerably equipped.

RESIGNATIONS.

At the close of the School year, June, 1882, Miss Sara A. Barr, of the Senior Department, resigned her position after fifteen years of continuous teaching in the High School. It seems appropriate, in this report, to acknowledge the efficient and faithful service of an accomplished and educated teacher.

Mrs. M. A. Colby, of the Junior Department, also resigned her position after a successful term of five years teaching in the High School.

DEATH.

The School mourns the loss of one of its teachers, Miss Margaret Wade, who died September 23, 1882, after a short illness. Miss Wade was a graduate of the Girls' High School. She was elected a teacher in the High School in 1875, and was continuously engaged in teaching to within a week of the time of her death.

NEED OF NEW BUILDING.

A new building is an imperative necessity. At present most of the junior pupils are required to attend the Branch School on Powell street, in the extreme northern part of the city. A considerable number of pupils living in the southern parts of the city are practically debarred from attending School on account of distance, and from the fact that the Powell Street building is not available by street-car routes. Besides, in another year, the two buildings will fail to accommodate the pupils, and the establishment of another "branch school" will become necessary.

It will be much more economical to maintain one central school. The lot on which the carpenter's shop now stands is, in my opinion, the spot on which a new building should be erected. To begin with, one wing of twelve class-rooms could be built, one-half the School remaining in the present Bush Street House until there should be means to complete the new building.

JOHN SWETT, Principal.

REPORT OF PRINCIPAL OF BOYS' HIGH SCHOOL.

SAN FRANCISCO BOYS' HIGH SCHOOL, SEPT. 20, 1882.

HON. JOHN W. TAYLOR, *Superintendent of Common Schools*:

DEAR SIR—I have the honor to submit herewith my Annual Report as Principal of the San Francisco Boys' High School for the school year 1881-82.

There has been very little in the work of the Boys' High School during the past school year that calls for comment, or seems to need mention in a report. The regular work of the year has gone on without interruption, and the progress of the pupils has been quite as satisfactory as we have reason to expect. The embarrassments of the beginning of the year, the change in the Principalship, the loss of two teachers, and the adoption of a new course of study with the consequent consolidation of two classes, had only a temporary effect, as the experience of the teachers, most of whom had been in the School for several years, and their prompt and earnest support, brought the School into good shape at once. The year's work has therefore gone on smoothly and successfully.

There has been, however, one serious deficiency of which I wish to speak, hoping that some means may soon be found to supply it. I refer to the suspension of the study of modern languages in consequence of the dismissal of Mr. Levy, our teacher of French and German. The last Board of Education, finding itself compelled by insufficient appropriations to economize in every possible way, dismissed most of the special teachers of the Department, including the teacher of modern languages in this School, who stands on a different footing from that of special teachers in general, and whose dismissal I cannot help thinking a serious mistake. The special teachers of the Boys' High School are so called because special qualifications are required of them, not because they are teachers of outside or special studies. They teach the regular classes in the required work of the course, much of which is of a high grade and needs special knowledge and experience. The dismissal of our special teacher of French and German has resulted, therefore, not in lopping off certain extras, but in cutting out portions of our regular work; studies that form a part of our published course, and which are not only desired by a large number of pupils and parents, but are necessary to make a real High School. This work should be taken up again as soon as possible, and no thought of dropping it permanently should be entertained for a

moment. The lack of modern languages during the past year has compelled all the pupils of the English course to substitute for them the course in English literature, a study of great value, but of far less practical use to the average pupil than the daily drill in English language that comes from exercises in translation. Nothing in our course, in my opinion, is of such direct and practical benefit to the pupils as the study of a foreign language—not for the knowledge of the language itself, which must necessarily be very imperfect, and which will be utterly lost from lack of practice within a short time after the pupil leaves school—but for the training in the use of his own tongue, an advantage which he will use every day of his life, no matter what his later occupation may be. The habit of thinking definitely and clearly, and the power of expressing thought clearly and forcibly, is of itself a good education, and no study contributes so much to these as that of language. I cannot help regretting, therefore, that studies so valuable as French and German are dropped from our course, and should regard their loss as a serious blow to the School but for the hope that they may soon be restored.

There is nothing in the conduct of the School that serves for display, and few of the studies of the curriculum are of a kind to show the real thoroughness of work, which is our chief aim. Standing between the Grammar School and the State University, the studies of our course are necessarily fixed, to a great extent, by the requirements of admission to the latter. These studies have been wisely chosen, however, and represent so fairly the result of long and careful study and thought on the part of those whose influence has given shape and direction to the education of the country, that very little, if any, change would be desirable, even if it were feasible. I am convinced, moreover, that the best interests of the High Schools of the State will be promoted by making them, as far as possible, feeders to the State University. This is not a matter of theory, but an inference drawn from observation. If one should name the best High Schools and academies of the Eastern States, he would name those that make it a specific object in their teaching to prepare pupils for college. Any influence for good on the school, as on the individual, comes from above. By special effort a school may be improved within itself, but such improvement is difficult to maintain if it rises above the general level of the schools of the community. We look, therefore, to the State University for our best help in maintaining and increasing the efficiency of our High Schools, and we expect the High Schools to act in the same way on the Grammar Schools. It is gratifying to know, therefore, that the number of pupils who are looking forward to a higher course of study, and thinking of entering college, is steadily increasing. Their work is made more thorough and earnest by such a plan, the general average of the class is raised, and every pupil is affected more or less by the influence of the few who have a higher incentive to thorough and honest work. The fact that many pupils, from necessity or inclination, never go beyond the High School, and that many who enter never complete its work, is no argument against the plan of making it a feeder to the University. The object of making it so is to

benefit—not the University—but the School; a result which, as experience has often shown, is sure to follow. The studies of the course, as said above, are the result of the thought and attention of the ablest and most earnest teachers of the country for several generations, and furnish, without doubt, the best training for those who stop at the end of a High School course, as well as for those who go further. Such being the case, there can surely be no objection to any influence that makes the work more thorough, and gives the classes a more honest and manly tone.

Closely connected with the question of efficiency in school work and how to secure and maintain it is another topic of which I wish to say a few words in this report, believing that in so doing, I am speaking for a large number of the best and most efficient teachers in the Department. I refer to promotions made by the Board of Education, through the Superintendent or through its Committees, in the case of pupils who have not earned promotion by their work. I speak of it the more freely because no such promotions have been made since the present Board took office. But at the opening of the last school year, before the rule adopted with our present course of study came into force, the case was very different. No less than forty-seven boys were admitted to the school or promoted within it, who had failed to get the percentage required by the rules. Some of these managed to get a recommendation from their teachers, others were granted a re-examination, others seemed to have gained promotion by simply asking for it. One or two entered a higher class to which they had no right, and were not detected for some time, owing to the change in the principalship, and the non-acquaintance of the Principal with their status. In one class every member who had failed at the end of the preceding year was promoted on trial.

It hardly needs argument to prove that such a proceeding, if continued, would be ruinous to the spirit and tone of work in the school, but everyone may not know that it is also equally injurious to the pupils themselves, who are thus promoted. I have carefully compiled from our records the results of unearned promotion in the case of these forty-seven boys, and wish to present them here, quite as much for the consideration of parents who visit Principals and School Directors to get their children promoted contrary to the rules, as for the Directors themselves.

Of the forty-seven boys promoted by the Superintendent or by the Committee on Classification at the opening of last year, twenty-one failed outright, being put back during the course of the year or at the annual examination at the end; eleven left school during the year, two of whom seemed likely to succeed, one was doubtful, and eight were sure to fail, had they stayed; and of the remaining fifteen who stayed through the year and gained promotion, only three were *good*, four being *fair*, and eight *bad*. Of the twelve classified as *fair* and *bad*, ten have returned to school this year and are now in their classes, but their standing may be inferred from the fact that eight of the ten have already been warned for low scholarship, seven of them twice. Out of the forty-seven pupils thus promoted we have to-day, therefore, just five who

are doing satisfactory work in the classes where they were placed. To offset this gain of a year in time by five boys, we have the expenditure of time and labor by the teacher, the unavoidable lowering of the tone of the class and the average of scholarship, the removal of all distinction between good and bad work, and, more than all, in nearly all cases a permanent dislike of school and study on the part of those who failed, a natural result of putting more on a pupil's shoulders than he can carry, and making his work drudgery and failure. It is the greatest possible wrong to a pupil to put him at work for which he is not yet fitted, and the temporary mortification of failure is far better than the permanent distaste for study that is sure to follow overwork. The rule adopted by the Board with our Course of Study, viz: that there shall be no re-examination and no promotion on trial, is in my opinion, the best possible for both teacher and pupil, and the facts given above are presented chiefly to put on record the result of the opposite practice, and to prevent, if possible, a return to it.

I add a few statistics chiefly in regard to this year's graduates, which seem to me to have a special interest for the friends of the School:

Total enrollment for School year of 1881-2.....	327
Enrollment at the end of the year.....	233

PROMOTIONS AND FAILURES.

Classical Senior.....	Promoted	16	Failed	1
English Senior.....	"	18	"	1
Classical Middle.....	"	42	"	8
English Middle.....	"	38	"	2
Classical Junior.....	"	45	"	14
English Junior.....	"	44	"	4
Total.....		203		30

The two members of the Senior Classes who are entered as "failed," had a satisfactory general standing, but were refused diplomas for the reason that they fell below fifty per cent. in one study. One of them has since passed a satisfactory examination by permission of the Board of Education, and received his diploma. The list of "failed" also contains several who left school just before, or during the examinations, to avoid certain failure.

Of the thirty-four boys who received the diploma of the school last May, eight applied for admission to the State University, and all were admitted without conditions; three took the preliminary examinations of Harvard College, two of them passing without conditions, and the third with a condition in mathematics; one entered Princeton without conditions. One or two others have entered college, but we have received no report as yet of their success in the examinations.

Eleven boys from our middle classes took the preliminary examinations of the State University, ten of whom were granted certificates, six without conditions, four with conditions in mathematics, two of them with conditions in Latin also. The short notice given of this examination kept many from taking it, and may be fairly urged, also, in explanation of the fact that the result was less satisfactory than in the case of the Senior classes.

These examinations certainly furnish as fair a test as it is possible to get of the character of the work done in the school. The teachers engaged in the public schools of the city and the people who patronize and support them, may justly speak of them with pride, when their graduates take rank in such examinations with pupils from the leading schools of the Eastern States. To maintain and improve their present excellence should be the aim of every teacher and every parent, until all opposition to public education is broken down by the unanswerable argument of success.

Very respectfully, yours,

F. A. BLACKBURN, Principal.

REPORT ON THE COSMOPOLITAN SCHOOLS.

SOUTH COSMOPOLITAN GRAMMAR SCHOOL, Aug. 9th, 1882.

J. W. TAYLOR ESQ., *Superintendent of Public Schools:*

DEAR SIR—In accordance with your request, I have the honor of herewith submitting a brief report on the Cosmopolitan Schools of this city, their present condition and their requirements.

Since my last report, the number of Cosmopolitan Schools was again reduced, leaving at present only two Grammar and two Primary Schools, the minimum fixed by law.

The former are the South Cosmopolitan Grammar School, Eddy street, near Van Ness avenue, and the North Cosmopolitan Grammar School, Filbert street, near Jones; the latter, the South Cosmopolitan Primary, corner Bush and Stockton streets, and the Greenwich Street Primary, Greenwich between Jones and Leavenworth streets.

When, in July, 1881, this reduction in the number of Cosmopolitan Schools took place, and when, owing to the cutting down of the school appropriation, the Board of Education dismissed all special teachers in the Department, the teachers of French and German shared the fate of the rest, and during the last year, the languages have been taught without extra expense to the taxpayers of this city, whereas formerly every child that studied German or French cost the city between 21 and 22 cents per month. It is to be hoped that the enemies of a liberal public education will now discontinue their cries about the sin and shame and outrage of teaching German and French in the public schools, as the instruction in these languages does not interfere with the English branches, and as the popularity of the Cosmopolitan Schools is sufficiently demonstrated by the number of those who claim admission and who travel long distances to obtain the advantage of being taught German or French.

It is true that since the dismissal of the special teachers, the instruction of the languages has been somewhat impaired, particularly in the higher classes, because now class-teachers with two certificates are expected to do the same amount of work that was previously done by specialists in one branch.

Professional musicians will mostly produce better effect than amateurs; the drill of a volunteer corps seldom equals that of the regular army, and if we engage a physician or a lawyer, we generally prefer the services of an experienced practitioner to those of one who has just passed his examination.

The same principle applies to teaching, and thus it happened that the instruction in languages has suffered in the same way as music and drawing.

In music we are a little better off, as one of the special teachers was retained to direct and superintend the work of the class-teachers, and if the same could be done in French and German, things would be materially improved, and the expense would not amount to much.

There are, at present, in our Cosmopolitan Schools, thirty-eight classes in which German, and twelve classes in which French is taught. The instruction is given by twenty-seven teachers, who hold double certificates—seven French and twenty German.

Eleven of these twenty-seven teachers are graduates of the public schools of San Francisco, and have learned their French and German here, a fact which shows that respectable results are obtained from Cosmopolitan teaching.

The number of pupils that study German during the present year is 1,719, and the number of those studying French 231. This is a falling off since my last report, but it must not be forgotten that the number of schools in which French and German is taught, is reduced from six to four. There is still room for teachers with double certificates, as in all of our Cosmopolitan Schools a great deal of changing classes takes place during the day, and matters could be much improved by appointing a cosmopolitan teacher to each cosmopolitan class.

I cannot understand how it is that French is not taught at the Cosmopolitan Primary Schools. The course of instruction in French as well as in German, commences with the seventh grade, but it seems there is no provision made for the pupils in these Primary Schools to commence French at any time. The consequence is, that many pupils desire to commence it when they reach the fourth grade, and then it cannot be done without completely upsetting the whole plan. There ought to be a class-teacher with a French certificate at each of these primaries, in order that instruction in French can be commenced in the proper grade, and the course of instruction be carried out.

There is a growing endeavor among the Principals of Primary Schools to keep their highest classes, and this is almost always to the disadvantage of the nearest Grammar School. When two schools, one a Grammar and the other a Primary, are very near each other, it stands to reason that the Grammar School should have the highest and the Primary the lowest classes.

Principals of Grammar Schools have never yet shown a disposition of retaining their first grades after they have been promoted to the High School, and in all probability, such wishes would never have been gratified.

When a Primary School, at the commencement of the year, is becoming too full, the Principal should always send away to the nearest Grammar School the fifth grades, and not the seventh or eighth, as it often happens when the said Principal can manage to have her own way.

At present the Greenwich Primary has two fifth grades, and the North Cosmopolitan Grammar (only one block off) has a sixth grade. This is entirely wrong. The fifth grades should be sent to the Grammar School (they

are grammar grades to all intents and purposes), and the sixth to the Primary. If there are too many class-rooms in the Primary School, and not enough in the Grammar School, why should not the Primary become the Grammar School, and Grammar School the Primary?

The appearance of the building ought to be a secondary consideration, if the good of a system is at stake.

My own school, the largest of all Cosmopolitan Schools, has no Cosmopolitan Primary within reasonable distance. I called attention to this serious inconvenience in several reports, and showed the necessity of having a Cosmopolitan Primary nearer at hand. About six months ago this change might have been effected to the permanent advantage of the Cosmopolitan Schools, by making the Pine and Larkin Street the feeder to my school; but unfortunately those interested in this movement did not know in time that a change of principals was contemplated, or the South Cosmopolitan Primary might have been transferred to the Pine and Larkin Street School. The South Cosmopolitan Primary, from which my school ought to draw its grammar pupils, is fifteen blocks away, and the distance is certainly too great for young pupils to walk. To accommodate these, the fourth grades were allowed to remain there last year, and a third grade this year. This is all perfectly proper; but what will be the consequence? Instead of having two Cosmopolitan Grammar Schools, and two Primaries, there will shortly be three Grammar Schools and only *one* Primary. These Grammar Schools will need a Primary each, and thus, ere long, the number of Cosmopolitan Schools will again be increased from four to six. There cannot be any reasonable objection to this, but it will open the way to fresh attacks and lead to further troubles. It is much to be regretted that French and German has been discontinued at the High Schools. The pupils of the Cosmopolitan first grades have now no opportunity of continuing their studies in modern languages, and if we consider that German and French are, to a certain extent, necessary at the State University, the connection is destroyed in this particular instance. Besides, a high school without modern languages is just as defective as a high school without Latin and Greek; for a literary course, the former are without doubt as important as the latter.

Economy was the reason of the discontinuance of German and French, but when economy is the order of the day, the question may not be out of place, which is more entitled to consideration, French and German at the high schools, or Spanish at the evening schools. The day schools are for the school children; the evening schools for those who work during the day, and are desiring to improve themselves in the ordinary branches of education. Persons who earn money during the day are not entitled to receive free instruction in languages—Spanish, French or German—at the expense of the city, any more than in music or dancing. If the establishment of the Cosmopolitan Schools was originally a concession made to the demands of the German and French residents of this city, the introduction of Spanish in the evening school is a favor to those who want to save the money which it

would cost them to learn it privately, and a favor to those who want to teach it. No one denies the importance of Spanish for California. The growing business relations with Mexico and Central America make the acquisition of Spanish at least as desirable for a Californian youth as German or French; but the question arises whether the evening school is the proper place for it. Anybody who knows anything about teaching at all, and teaching languages in particular, will agree with me that it is a hopeless task to attempt to teach a language efficiently to a class of fifty or more, consisting of persons varying in age from twelve to forty years, as I have seen them, and as such a class will be. The difficulty will be increased, if we consider that only a few members of such a mixed class have any grammatical knowledge of their own language, and the greater portion none whatever. The little that such a class will profit is not worth the money paid for it.

If Spanish is to be taught in California, the day schools are the places for it, as well as for German and French, and this will bring up the old and ever vexing question, whether our schools are to be elementary schools in the strictest sense, or whether they shall be public schools in which a free and liberal education is afforded to rich and poor alike.

If the majority of the people decide that the public schools must be rudimentary only, then in a short time merely the most necessary branches, such as reading, writing and arithmetic, will be taught, and all higher schools abolished; but if people continue in a liberal spirit, all these so-called luxuries, as Spanish, French, German, Classics, mathematics, drawing, etc., will be provided, and the expense will not be so very great.

There are higher and lower public schools elsewhere, special schools for certain purposes, why not in San Francisco? Is it necessary that the instruction in all our public Grammar Schools be alike? Could we not have, for instance, two schools in which pupils might learn Spanish? two, in which architectural and mechanical drawing might be taught? There might be two girls' schools, in which instruction in needle-work could be given. It would not even be a bad plan to commence Latin and Greek in one or two Grammar Schools, and algebra and geometry in another. Many pupils would willingly come a long way to gain such a special object, and distance would not be considered any more than it is now, if a girl lives at the Mission and attends the High School.

All of which is very respectfully submitted,

A. HERBST,

Principal South Cosmopolitan Grammar School.

REPORT ON TEACHERS' INSTITUTES.

HON. JOHN W. TAYLOR, *Superintendent Public Schools:*

DEAR SIR—In accordance with your request, I herewith beg to submit a brief report of the Institute classes, inaugurated and held in the Public School Department of San Francisco during the past eleven months. The plan adopted has been, in a measure, an experiment, and changes of methods were tried from time to time, that whatever could enhance the usefulness of the Institutes might be embraced in the system. The results obtained were highly satisfactory, and the greatest interest was manifested by the members of the committee—Hon. John W. Taylor, Mr. Selden Sturges, Mr. James Denman, Hon. John Swett, Miss Jean Parker, Miss Agnes Manning and Mrs. Aurelia Griffith.

The importance of Teachers' Institutes is shown by Section 1,560 of the Political Code, which makes special provision for them, as follows: "Every teacher employed in a public school in the county must attend such Institute and participate in its proceedings."

That such meetings are beneficial will be conceded by every progressive mind. Unfortunately, however, the appointment of teachers depends upon a power consequent upon political strife, and the best material has not always been sought, nor even accepted. Other motives, necessarily, entered largely into the selection of teachers, and it is a great credit to our different Boards of Education that the Department has been burdened with but comparatively few who make the profession a passing convenience. Such unprofessional instructors not only consider all teachers' meetings as an infliction to be avoided, but sometimes express shame at occupying a position they hope to fill but temporarily. To meet such an element, and to insure obedience to the law, our present very efficient Board of Education passed the following rule: "The absence of any teacher from this meeting will be regarded the same as absence from school for one-half day." This secured a full attendance, but, being compulsory, was by some silently resented, and in some cases did not produce the desired result. No evidence of awakening thought appeared in those teachers who regarded Institutes as something utterly apart from if not actually opposed to themselves. This series of Institutes continued from October 14 to December 2, 1881. The Department was divided into six classes, as follows: Class A, Principals; Class B, High School teachers; Class C, First, Second and Third Grades; Class D, Fourth and Fifth

Grades; Class E, Sixth and Seventh Grades: Class F, Eighth Grade. Instruction was given to classes F, E, D and C by Miss Marie Withrow in Music, and by Miss Mary J. Titus, of the State Normal School, in Arithmetic.

The Superintendent repeatedly spoke of the importance of these class meetings, and urged teachers to ask questions and to express their own ideas on the subject under discussion, that all might be benefited by a full exchange of views. That such appeals were almost without response, all will readily understand, if acquainted with the dread existing in the Department of unfair and sometimes unkind criticism from fellow teachers. If this dread is well founded, it is a disgrace to us as a body, and especial care should be taken to show our appreciation of those who brave such an unpleasant position. An attempt was made to foster thought, preparation and expression by appointing committees from each class, who were to prepare a programme for each meeting of their own body. This series of classes, extending from February 6 to April 11, 1882, showed a great increase of interest among the teachers. The work was entirely their own, and considerable benefit was derived in evolving the best methods of teaching practiced by them. At the meeting of Class A, Principals discussed "The Autonomy of the Class Teacher," excellent papers being read by Miss Cleveland Mrs. DuBois and Mrs. Craven. To Class F, Miss Alice E. Lynch illustrated Language; Mrs. Newhall, Arithmetic; and Miss Kate Conklin, Drawing. This class also discussed "The Method of Teaching Language to Beginners." At the meeting of Class E, Miss Jean Parker gave a lesson in Composition, employing pupils who were not members of her school to practically illustrate her method. This most excellent plan was also followed by many others, who thereby rendered their lessons much more effective. Miss Emma F. Kraus also gave a lesson on Language; Mr. John Swett, an address on "Methods of Teaching;" and Prof. V. Rattan exhibited his wonderful Phonograph to this and other classes.

Class D had an essay on "The Work of Teachers," by Miss Cleveland, and Miss Withrow gave a lesson in Music. To Class C Mr. S. Sturges presented the method of teaching Arithmetic, and Mr. W. H. Edwards, Language.

The third series of Institutes commenced April 18, 1882, by Class A discussing an able paper read by Mr. Elisha Brooks, entitled, "Have we the best System of Grading in our Schools?" If this article could embrace more than a dry record of facts, the thoughts elicited by this subject, reaching, as they do, every teacher and every pupil, should be fully reported. Briefly stated, they ask whether credits or higher motives should be used to induce a pupil's progress, whether the mind, able to express itself in high percentages, ranks above the sensitive one that trembles and loses power in the presence of stated and dreaded examinations, and whether teachers should conscientiously strive to become true educators, developing the pupil's mind after Nature's own order and method, or work to promote the greatest possible number in the least possible time.

Other classes followed generally adopting the methods of the previous pro-

fitable series, seeming to appreciate the Superintendent's prophesy that there must be a revolution in methods of teaching, and keeping abreast with the best thought of the country, as advised by Mr. John Swett.

Class F had a lesson in Writing from Miss K. M. Hickey; in Reading from Mrs. L. Kelly; on Sentences from Miss J. S. Klink, and on Numbers by Miss Susie Harris.

Class E were favored with an excellent model for composition by Miss Lucy Adams, who cleverly drew a country scene with colored crayons, for the subject; and Miss H. Whirlow gave a lesson in Local Geography.

To Class D, Miss Jessie Smith illustrated Physical exercises; Mrs. S. F. Neil, Reading; Miss J. Patton, Letter Writing; Mr. Montgomery, of San Jose, "The Revolving Chart;" Miss Ruth Campbell, Reading, and Mrs. M. W. Kincaid, the "Fitz Globe."

Class C had Reading by Miss S. P. Lillie, an essay on "The Difference between the Polar and Equatorial Diameter," by Mr. J. T. Hamilton; an address by Mr. T. B. White, on "The Cause of the Tides;" History by Miss Mary Murphy and Sentence-making by Mrs. N. A. Wood."

May 9, 1882, Class A met to discuss a plan for examining and promoting pupils, when it was decided:

' 1. That each teacher be required to keep a record of the standing of the scholars in the class.

" 2. That monthly reports of the standing of the pupils in scholarship and deportment be sent to the parents.

" 3. That one-half the class may be promoted without examination—one-fourth so promoted being honorary, and the other fourth on recommendation.

" 4. That an examination be held at the close of the Christmas term for all the class, and that an examination be held at close of the May term for those pupils who cannot be promoted without examination; the questions for both examinations to be issued by the Superintendent; this not to preclude examinations by Principals at such times as they may select."

Meantime, there had been four general Institutes attended by all the teachers of the department, and by the pupils of the Normal Class of the Girls' High School.

The first was held November 10, 1881, and addresses delivered by Hon. John Eaton, U. S. Commissioner on Education; by Hon. Horace Davis, and others.

The second general meeting took place March 3, 1882, a lecture being given by Hon. Joseph Leggett, on English Grammar. Mr. Leggett very logically commented upon the defective methods of most grammarians, built as they were upon the dead, inflected languages, and outlined a system by which English might be taught practically and thoroughly. Rev. Dr. Barrows fully endorsed Mr. Leggett's views in regard to grammar, and trusted that a like reform might be as ably indicated in regard to other studies. The Superintendent spoke very earnestly, urging teachers to lend a helping hand to all efforts for the improvement and elevation of the public schools, that they might be thoroughly effective for good.

The third general Institute occurred April 13, 1882, when a paper was read by Mrs. Sarah B. Cooper, on "The Public Schools, the Hope of the State." The lady forcibly expressed the self-evident truism, "Education is the best prevention of crime," dwelling especially upon the most important division of education—the training of the child's moral nature. At the close of her lecture, she spoke feelingly upon her favorite topic, the Kindergarten.

The fourth general assembly of teachers and Normal School pupils was held May 11, 1882, at which time Prof. E. S. Morse, the naturalist, gave an excellent extempore address, illustrating it by capital crayon sketches. The Superintendent spoke of the reforms and improvements that must be made in public school teaching and management during the next ten years. He assured the teachers that it would be better to have such changes wrought from within, rather than forced upon the department from without; and trusted the San Francisco Public Schools would be in the van, and not the rear, of the great army of education.

The next series of class meetings, being the fourth consecutively held, changed somewhat in the classes as well as in the form of its divisions. The Committee realized that, although most of the previous work was very satisfactory, more direct instruction was needed and a more general sense of individual responsibility desirable. It was thought this might be obtained, if each grade formed a separate class and each teacher was liable to be appointed to practically illustrate her class-work. Yet, as the Superintendent had not the power to attach any penalty to non-compliance, when in fact no penalty short of loss of position would overcome many teachers' objections to simply repeating in public their actual work of the school-room, he proposed to give a prize of \$20 to each class for the best essay or class exercise on any subject chosen by the division, that body to decide by ballot who was the honored competitor. This proposition was accepted by the Committee, and a hope expressed that it might not hereafter be necessary to ask that some severe penalty, if not actual loss of position, attend a refusal to serve at Institutes, as the Superintendent may direct. This suggestion was not made by the Superintendent, difficult as his work has been, and at first may seem extraordinary; yet if a teacher, while seeking a position, was required to indicate her capacity in such a manner, would it be thought extraordinary, or would the teacher hesitate to so do? Certainly if there are unkind criticisms passed upon those who bravely appear at the Superintendent's request, it is high time that a universal responsibility create a concord of work and sympathy. The Committee finally divided the department into eleven classes, each made to correspond with the same grade, until the ninth, which embraces Low Eighth Grade teachers; the tenth class, High School teachers, and the eleventh class, those who are principals. Commencing with the first class, each had reading illustrated by pupils from different schools, until the ninth class, which met September 7, 1882.

At this Institute an excellent lesson on Oral Instruction was given by Miss H. Spalding, and "Reading for Beginners," illustrated by Miss Kate Bonnell and Mrs. A. H. Hamill.

The following circular indicates the course to be pursued for the remainder of the calendar year:

[CIRCULAR No. 129.]

OFFICE OF SUPERINTENDENT OF COMMON SCHOOLS,
SAN FRANCISCO, October 3d, 1882. }

To Principals:

The next series of Teachers' Institutes will be held as follows, in the Girls' High School:

11th Class, Principals, on Tuesday, October 17th, 1882, at 3:30 P. M. Subject: Waste of time in the school room, and how to avoid it.

10th Class, High School teachers, on Thursday, October 19th, 1882, at 3:30 P. M. Subject: The credit system.

1st Class, first grade teachers, on Tuesday, October 24th, 1882, at 3:30 P. M. Subject: Business arithmetic.

2d Class, second grade teachers, on Thursday, October 26th, 1882, at 3:30 P. M. Subject: The presentation of history to the class.

3d Class, third grade teachers, on Tuesday, October 31st, 1882, at 3:30 P. M. Subject: What shall we do to inspire enthusiasm in the lowest quarter of the class?

4th Class, fourth grade teachers, on Thursday, November 2d, 1882, at 3:30 P. M. Subject: How shall we interest the dull pupils?

5th Class, fifth grade teachers, on Tuesday, November 7th, 1882, at 3:30 P. M. Subject: Language as it should be taught in the fifth grade.

6th Class, sixth grade teachers, on Thursday, November 9th, 1882, at 3:30 P. M. Subject: How to teach arithmetic in the sixth grade.

7th Class, seventh grade teachers, on Tuesday, November 14th, 1882, at 3:30 P. M. Subject: How to teach spelling.

8th Class, high eighth grade teachers, on Thursday, November 16th, 1882, at 3 P. M. Subject: How to secure the attention of pupils in the eighth grade.

9th Class, low eighth grade teachers, on Tuesday, November 21st, 1882, at 3 P. M. Subject: How to employ the time of pupils not engaged in recitation.

At a meeting of the General Committee on Teachers' Institutes, held September 21st, 1882, the following resolutions were passed:

1. That the work of the next series of institutes consist of the reading of papers upon subjects selected at the last series, and that a prize of twenty dollars be given for the best paper.

2. That the prizes be awarded by secret ballot, the members voting upon the papers.

3. That the reading of no paper shall consume more than twenty minutes.

Papers shall be filed with Mr. Geo. Beanston, Secretary of the Board of Education, at least forty-eight hours before the meeting. The papers must not contain the names of the authors, nor any marks to indicate the same.

They may be presented in the handwriting of the authors, or of any other person.

After the reading of the papers, the successful authors will claim their papers, and the prizes will be awarded accordingly. The Superintendent will number the papers and select persons to read them.

It is hoped that as many of the teachers as possible will present papers, and if more papers are presented than can be read, the General Committee will make selections.

No further notice of these meetings will be given.

Principals will permit their teachers to leave their schools in time to report at the Girls' High School at the hour of meeting.

Teachers having two or more grades under their charge will be required to attend the institute meetings of only one of those grades.

By order of the Board of Education, the absence of any teacher from this meeting will be regarded the same as absence from school for one-half day.

Principals will duly notify assistants.

JOHN W. TAYLOR,
Superintendent.

GEO. BEANSTON, Secretary.

I believe these prize papers will prove a blessing, not only to the successful competitors, but to all who strive for success. I believe that, as advance is only secured by endeavor, this Department, individually and collectively, has received, and will receive, an impetus from these Institute classes, whose momentum may not be measured, outlasting time and enriching eternity.

Very respectfully,

AURELIA GRIFFITH.

DISTRICTING THE CITY.

The feeling is growing in the minds of many persons deeply interested in our public schools, that the *city should be districted*.

Under the present system, or rather lack of system, it is supposed that parents are allowed to send their children to any school they may choose; this, however, is not true. I have known many cases where children were not received in schools most convenient for them, because the places were taken by more desirable pupils from a distance. It is no uncommon thing for Principals to compel the parents of unruly children to take transfers to less favored schools, and the Principals of the latter are obliged, because their benches are not filled, to take all who apply. Some Principals select the children who may attend their schools, and who will not receive a child bearing a poor transfer. Some Principals have been known to invite children to their schools promising *promotion* where it had not been gained. Parents have been called upon and flattered until they could plainly see the advantages of one school over another, and the necessity for change. Again, when a parent finds a Principal or teacher whom he considers unworthy, or one who will not promote his child in accordance with his own views—no complaint is made to those who should hear it—the wrong is not righted—he simply gets a transfer, and leaves his neighbor's child to endure what he escaped. Since I have been connected with the schools, the subject of *transfers* without good cause has been a source of constant complaint, and one that has occasioned much ill-feeling and unprofessional conduct on the part of some Principals and teachers.

The feeling that certain schools are greatly superior to others is shared by the children to such an extent that much dissatisfaction and unhappiness is created in the minds of many whose parents do not sufficiently interest themselves in the schools. It appears a grievous misfortune to some that they have not the car-tickets and fine dresses which enable their next door neighbors to attend a school which, they are assured, is much *nicer* than theirs. I am quite certain of my position when I assert that the tendency of all this is to establish *Select Schools* and a feeling of *caste*—

a tendency which should be deplored by every good American citizen, and arrested before it has fixed itself upon our boasted system of *Free Schools*.

A good school is made up of three essentials, viz: good children, good teachers and good accommodations. The first is abundantly and about equally distributed to all parts of the city. The second and third requisites are confided to the care of the Board of Education, and if on account of these the schools are not all equally good, it is plainly the duty of the Board to make them so. The best teachers should not be collected in a few schools, as many seem to suppose they are, but scattered over the city, that they may act as leaven for the Department. In the Lincoln Grammar School are pupils from South San Francisco, Black Point and the Mission. The Broadway Grammar School, which is on Broadway near Powell street, has in attendance children whose home is on the corner of Folsom and Fifth streets, others who live on Howard and Eleventh streets, and still others on Chattanooga and Twenty-third streets.

The Denman Grammar, situated corner Bush and Taylor streets, enrolls pupils from the remotest ends of the city, some of them traveling four and five miles daily.

I hold if the *teachers* in schools near the homes of these children are not competent to take charge of them, they and not the children should be removed. Each school should have the attendance of the best children, and the united support and sympathy of the most intelligent citizens of its neighborhood.

I believe San Francisco is the only city of its size in the Union where this "go as you please" privilege is allowed. For the sake of common education I hope it may not long exist here.

District the city in accordance with the residence of the school children. If it be found that the Department owns property where it is not needed, it can be disposed of, and the new buildings reared where the population demands them. The sooner this is done, the better.

Were such a plan adopted, a few teachers might, for a time, suffer inconvenience, but their work could be more properly equalized. At present a teacher in one part of the city is paid a certain salary and has fifty-four pupils; in another part she would get

the same salary for teaching thirty-five, and in yet another the same and be given sixty-five or even seventy pupils—all three classes being the same grade. This is not a proper state of things in a school department like ours. The crowded and most popular schools are not in all cases the best.

Our present system doubtless has some advantages, and its overthrow will meet with strong opposition, especially from that class of parents whose children may now, on the merest trifle or whim, remove to any school in the city. Such, it is to be presumed, will consider themselves, and their personal pleasure, rather than take the broad and unselfish ground of "the greatest good to the greatest number."

COMMON SCHOOLS.

The Common School system of our country has survived criticism, censure and misrepresentation. Its friends have stood by it, sustained it, promoted it and protected it. Its main support has been found in the lower walks of life, so far as the possession of wealth and social prestige is concerned. The current assaults on higher education and the animosity to free schools occasionally expressed in the press and the pulpit, constitute nothing new in the history of schools. Attacks of this character have been resisted since the door of the first common school was opened to the common people. The upper classes—so-called, usually to distinguish the idlers who have inherited wealth from the toilers who are seeking to lift themselves above the necessity of hard labor—have generally fought against universal education. In more countries and in more generations than one, the school master has been held in derision and the free school spoken of in terms of reproach.

It is hard to convince some people that the poor should be advanced beyond a menial position in life. History tells of a few men of noble birth and ample fortune who pushed aside the privileges of caste and gave their energies and example to the cause of educating the masses of the people. Instances of this kind are isolated, however. Somehow it is destiny that the common people shall struggle and aspire through adversity to reach the even ground whereon their children shall stand on terms of

intellectual equality with the children of their more favored neighbors.

Everything accomplished so far has been gained by gradual progress. The barriers of prejudice have always been strong, and will so continue. The friends of education in the future, as in the past, must stand together, and if they cannot get all they want, let them take as much as they can get.

Thirty years ago, in some sections of the Union, the public school was scorned by the rich families—it was only the poor and the “no-accounts” who attended, and they were even compelled to pay a small tuition fee as a pledge of good faith and a contribution to the State. By degrees the obligation of the commonwealth to give children instruction in the primary branches became recognized, and following this recognition the radicals in the cause demanded that the State should do more—that it should open the doors of the school-house, without money and without price, to give all who desired to enter, education not inferior to that imparted in the best select schools.

It would not be a fair statement to say that the opposition to high schools, which frequently crops out, arises wholly from prejudice. Well-meaning, and in some respects progressive men of strong individuality and positive convictions, attack the schools. They are at least honest in the belief that the Creator intended that some men and women should be “bearers of wood and drawers of water,” and that education would lift certain grades of boys and girls above their natural station. They conscientiously believe that if all the people were educated there would be no mechanics, no artisans, no farmers or laborers, no painters or plumbers, no milliners or dressmakers, and nothing in all the world but the lofty and labor-despising, who had been taught to believe that labor was degrading. Persons who take this view form conclusions hastily from mere surface observation. They refuse to study the subject, and therefore do not comprehend that the greatest prosperity goes hand in hand with the widest dissemination of knowledge. Higher education of the right kind teaches the young man that it is just as honorable to sell fish in the market place as to count cash in the banking house. Ignorance and prejudice take the contrary view. The

broadier-minded now take into consideration the fact that intelligence is a source of wealth to the State—that schools cost less than the jails—that an army of school teachers is a better guarantee of peace and protection than an army of policemen. Ignorant masses, when crushed and oppressed beyond human endurance, revolt, and the revolution is marked by bloodshed, carnage and plunder. Masses of educated people appeal to the mind and conscience of their followers, and overthrow dynasties by the divine force of intellect. Some may imagine that the taxes which they pay to maintain schools is a gift to the children of others, but the clear and solid truth—the cold and irresistible logic—is that it is no gift or bounty, but a purchase of protection for their lives and property at the lowest price it can be obtained in this world.

If a little education is good, a little more is better. The intelligence of a community is a barometer of its prosperity. Take one glance over the country and see what the free schools have done; wherever they are most liberally sustained there will be found the best state of society. If the men who resist taxation for advanced education of the youth should carry their convictions of resistance to the logical outcome, they would retrograde step by step until they proclaimed it robbery to levy a tax on one man to teach the alphabet to the child of his neighbor. It would require only a few more backward steps to reach that position described by Ingersoll, where the head of the family emerges from his cave in the morning to kill a snake for breakfast.

School Directors, School Superintendents and School teachers may in some measure be responsible for the apparent reaction against a liberal support of the schools. A broad gauged man, commenting on this branch of the subject, said: "It is not the dissemination of useful knowledge that people object to paying for, but it is the extravagant diffusion of useless instruction." Objection is also advanced to the admission to the high schools of girls and boys who have simply acquired enough knowledge to pass a parrot-like examination. There should be more discrimination in this respect, and the basis of admission should be actual merit without regard to wealth or station.

The real friends of the common school system should not allow side issues, such as text books and appointments, to divide them. They should secure the strength which unity gives, especially when the press is divided, the pulpit apathetic if not hostile, and the tax-payers complaining of extravagance. Less money should be expended for gilt-edged furniture and ornamental school houses. Fewer changes of text books should be made, and the burdens on parents made as light as possible.

If the common school could be judged by results already accomplished, it would have no enemies; but it happens, whether for good or evil, that it is judged by immediate observation. The work of the school survives the teacher. This is not the age of retrospection. People make the standard of dollars and cents. If it costs more in California to educate a child than it does in Arkansas, something is supposed to be wrong. The man who pays the tax imagines that he is robbed. Even the intelligent man may form the conclusion. The ignorant rich are not supposed to think. They hold that all common people should be degraded and forced to eat grass in the fields as the people did in that era which preceded the French revolution.

MUSIC IN THE COMMON SCHOOLS.

In the study of music, very much of earnest and intelligent work has been done by the teachers in co-operation and under the direction of the Principal of Music, Miss Marie Withrow, and the fact fully demonstrated that music as well as other branches of art and science can be best taught by a process similar to the Pestalozzian.

Circulars designating the work for each month were issued, and the uniformity thus gained has been valuable, while the classes have been placed, irrespective of grade, at a point in music within their knowledge and confidence and led to ask for new things—signs and terms—through new necessities. This in sight-reading has been attended with wonderful results.

It is to be hoped the time will come when America will be as thoroughly musical as the Old World, and to have this true the *children* must learn to love it. Besides being a natural

outbreak of exuberant spirits, the mental discipline is great, and it is surprising to a thoughtful person to notice how much of mathematics, reading, spelling, even geography, history and mythology, can be combined in a music lesson well prepared. The vocal exercise in our schools is not only a rest and recreation, but one of the most excellent forms of hygienic exercise. The words are not only studies for proper and careful enunciation, but maxims never to be forgotten—awakening fresh thoughts in their young minds and unconsciously kindling the soul to a higher perception of the beautiful in Nature, and in conduct, impressing life-long lessons. The two and three-part songs are beautiful to listen to—an education to the mind as well as the ear. With such an array of beautiful words for children as our poets now give us, set to such good music, all the affections, personal, sympathetic and religious, can be appealed to, and what opportunities for moral lessons are hidden in every exercise! Listen to “Home, Sweet Home,” “Hail Columbia,” and “Abide with Me,” or a thousand others learned in childhood. How they touch the tender chords of love, courage, or hope, and gliding into the heart, thrill and fill its inmost recesses with something of the radiance and content of a better and spiritual world. Why does the “Ranz des Vaches” send the Swiss soldier home, a deserter, for one sight of his loved ones? Why are we made wild with enthusiasm or melted to tears before a combination of sounds? Since it is not to be gainsaid that music influences thousands of lives—give us good music—give us your best, and as a crown of laurel was given at the Olympian games to the best performer on the lyre, so let there be now a systematic fostering of the art, and encouragement to all who will aim to be its best interpreters in children or in teachers.

SECONDARY EDUCATION.

In this age of enlightenment it seems strange that any one should find it necessary to advocate such secondary education as is afforded by our High Schools; yet, the outcries constantly dinned in our ears by many of our fellow-citizens, and articles in some of our leading daily and weekly newspapers, astonishing

an intelligent reading public, prove the necessity of a vigorous defense of our High Schools. There are various classes of persons who oppose higher education in our public schools, each class instigated by a petty motive that would have little influence on the general public, but all uniting their efforts at destroying the usefulness of our public school system in urging retrenchment, such retrenchment to begin with, doing away with our High Schools. We might concede their right to effect retrenchment, were this to save our citizens from undue taxation, but who can prove by the actual rate of taxes that, when a cut in the school appropriation is made, a like reduction appears in the tax rate? It is evident, then, that the real object is not retrenchment in our city government, but to cut off the opportunities of secondary education for the masses.

Among the most powerful opponents to our entire public school system, is the aristocracy founded on wealth. It is chiefly from them that this hue and cry of too much education for the masses emanates. This class is indignant to find that John, the poor carpenter's son, has as good an opportunity of education as John, the son of the rich *ci-devant* carpenter. His idea is to establish a social barrier more powerful even than wealth, and what can he find like the want of education in the common people to accomplish this end! He contrasts, too, the superficial accomplishments, acquired at fashionable private institutions by his boys and girls, with the substantial development of our High School pupils. Geo. Hicks, in his essay on The Public School System, says: "If there be a tendency to form an aristocracy of wealth, the public school system, including its high schools, will serve as a check to keep the influence of such an aristocracy within safe limits."

In young cities like our own, society is apt to be somewhat kaleidoscopic in its formation; yet, however subject to change, we see a growing tendency to form an aristocracy of wealth similar to that so long regnant in the South, and to the more recent, but very powerful one of the East—aristocracies that despise labor and the laboring classes. This state of affairs permitted to exist, will result in a division of society into two classes,

a wealthy, and a laboring class; luxury and idleness will degenerate the former, oppression and ignorance the latter.

An aristocracy of any kind is in direct opposition to the principles of republicanism; then let us see to it that we educate the children, as there is no means of giving our youths and maidens a thorough insight into the use and ends of freedom, like a liberal education. Aristotle says, "All who have meditated on the art of governing mankind have been convinced that the fate of empires depends on the education of children."

In our High Schools are gathered children from all parts of our city, from all classes of society, and from all nationalities here represented; their minds operate on one another, and, under the guidance of skillful teachers, develop a free, liberal spirit impossible to be attained under any other circumstances. The Prince of Wales in a recent speech, urging the founding of a free Royal College of Music, said: "A union of different classes in a common and elevating pursuit is the best mode of binding in one tie of common enthusiasm, the different grades of society, varying alike in wealth and social influence. Each has much to learn from the other, and this learning is best acquired in an institution where all meet on common grounds and on a footing of artistic equality."

If we turn to the reports on education from contemporary nations, we find that our provision for secondary education is far more limited than in the great nations of Europe. Hon. J. W. Patterson, in his article on National Aid to Education, says: "While the statesmanship of Europe is pouring out millions in the rivalry of her systems of schools, shall we stand still to be swamped in the surf that rolls from her shores? To-day we are hardly abreast with England, France, and Russia in the character and resources of our schools. * * * The day is not distant, I trust, when both the North and the South will learn that the rivalries of labor and trade, and the emulations of literature and science, are more profitable than the squabbles of politics, or of old fires that ought to be dead. Let us unite in the noble enterprise of making our country foremost in the march of intelligence, foremost in dignity of power, and foremost in the purity of its civilization."

And shall we of the glorious West ignore the example set us by our mother States of the East, and instead of proving that "Westward the course of empire takes its way," make a new record and say, the light fades with the setting sun? No! There is yet too much that is truly noble in our people, too much intelligence gone forth to make our State—nay, our City—equal, at least, in all the great aims of a great people to any of our sisters! Time which worketh change must uproot this evil in our midst. We have no need, with all our great advantages of climate, soil, and rich inheritance of nature, to curb the minds of our youth to the condition of slaves. We are freemen, and have a right to demand advantages for the support of which we all contribute, both directly and indirectly.

The most energetic business men are finding out that a better class of work is done by the educated than the ignorant workman, and happily we find them on our side strongly advocating *education to all*, with the advantages of secondary education for those who wish to avail themselves.

We see that among the first evidences of a people freeing itself from despotism is the establishment of free schools. The great struggle in Russia is a good example. They are now wrestling with the problem long ago settled by the independent freemen of the United States, that one of the bulwarks of liberty is free and unlimited education!

Our greatest statesmen, our greatest philosophers, and our authorities on political economy are all of one voice in proclaiming the value of an educated people, and all are unanimous in the opinion that "Where education is neglected, it is hurtful to the State."

GENERAL REMARKS.

Considering the great reductions which your Honorable Body were obliged to make in the estimates submitted to you by the heads of the various departments of the City Government, the School Department is to be congratulated upon the liberal manner in which you have treated it.

The liberal manner in which the various Boards of Super-

visors, with one exception—your immediate predecessors—have provided for the support of public education is a matter of congratulation. San Francisco may well be proud of her Public Schools; all the elements required for their success exist. An abiding faith in the hearts of the people, a generous support by the Board of Supervisors, an economical expenditure of the School Fund by the Board of Education, faithful, intelligent, and untiring labor on the part of the teachers, a bright and robust class of children, all tend to give our Public Schools that success and efficiency for which they are noted. There is no city of equal size in the United States in which private schools are so poorly patronized as in San Francisco. This is owing to the efficiency of our Public Schools and the superior facilities offered for the education of our children. San Francisco, in the matter of public education, is second to no city in the United States, and occupies the same relative position in the States on the Pacific Slope that Boston does in New England.

It is to be regretted that your Honorable Body could not have seen your way clear to raise one hundred thousand dollars for school buildings, as the department is much in need of new buildings in some portions of the city. The fault is not yours, as you were compelled to keep the rate of taxation within a certain limit.

At the rate in which the city is growing, from seventy-five to one hundred thousand dollars per annum ought to be expended for new buildings to give the proper accommodations to the children who are entitled to attend school. Some of the old buildings ought to be replaced with new ones, as they are unfit for occupancy, notably the Spring Valley Primary, the Jackson street Primary, the Hayes Valley Primary, and the Powell street Primary.

The money annually expended to maintain the armies and fleets of modern nations would more than pay for the education of all the children of the world. One may gain an idea of the immense annual outlay for war footings from the following figures compiled from recent official estimates. In most cases the national debts are incurred to meet expenditures for war.

NAME.	POPULATION.	ANNUAL EXPENSE OF ARMY AND NAVY.	NATIONAL DEBT.
United States.....	50,152,866	\$45,263,121	\$1,778,285,340
Debt of States and Territories.....			800,000,000
France.....	37,405,793	149,317,000	3,845,290,164
Great Britain and Ireland.....	35,246,560	132,940,440	3,720,525,869
Italy.....	28,437,091	50,087,048	1,889,073,925
Spain.....	16,800,000	33,631,200	2,472,996,615
Russia.....	85,426,142	187,554,661	2,478,080,000
Austria.....	37,754,972	64,556,218	1,855,870,896
Hungary.....			210,056,000
Germany (States of the German Em- pire).....	45,238,829	103,766,724	377,001,006
	336,462,253	\$767,116,412	\$19,427,179,815

Amounts expended by Belgium, Denmark, Greece, Portugal, Norway, Switzerland, Turkey, Brazil, Argentine Confederation, Canada, Mexico, Peru, Chili, Japan, Persia, Siam, and Australasia would add many millions to the foregoing.

When universal intelligence prevails, nations will no longer resort to force of arms in the settlement of questions involving the welfare of mankind. The resources of the country will not be exhausted to maintain in time of peace vast standing armies. The farmer, the mechanic, the laborer and the professional man, will not be taxed to perpetuate military glory. Blood and treasure will not flow until the best of the former and all of the latter are drained. Peace follows the dissemination of learning as surely as prosperity follows peace.

Educated men in high places, sustained by learned masses of educated men behind them, will in the future find their greatest triumphs in the adjustment of differences by diplomatic negotiations. It is an old proverb "That Peace hath her victories no less renowned than War." We owe the comforts of life, the protection of property, and the means of alleviating physical distress to the work, the invention, and discoveries of educated men. Science applied to the invention of machinery, has diminished the hours of labor and relieved the poorest worker of much of

the drudgery which was formerly borne. The shell-backs of this age, however, who would stint the schools would also abolish the use of steam in order to supply hand labor in driving horses and making harness. They would abolish gas and electricity to give men employment in manufacturing tallow candles by hand. Discoveries in medical science prolong human life and minister in many ways to the happiness of our existence. The good attained in this respect may be fairly credited to the work of learned men, and it is too great and sacred to be measured by dollars and cents. Learning is something that the people, for their own good cannot have too much of, and there is no better place to get it than the Public Schools. Education is the companion of peace. It gains by appeal to human reason and conscience, that which could not otherwise be secured without the sacrifice of human life and the expenditure of rich treasures. The educated help each other. The ignorant destroy one another. Tracing the history of the world from ancient times until the present era, it will be found that ignorance and barbarism go hand in hand. Where there is the least education there will be found the most misery, squalor, crime and brutality. Education is the strength of government—even in war the intelligent minority conquers the ignorant majority.

Arguments invincible could be multiplied into volumes to show that money expended in support of educational institutions could not be more wisely invested. It is now, and has for centuries been the calm, deliberate and far-seeing judgment of eminent men that the happiness of the masses, the protection of life and property, the permanence of government for the good of the whole people, rest mainly on a foundation of intelligence. It is gratifying to observe that the profession of school teaching is gradually enlisting in its ranks the brightest, best, and most useful men and women of the age. It gives work and scope for those who aim to advance our country to the highest place of intellectual eminence. The masses, ever slow to appreciate work, the results of which are not immediately disclosed, are beginning to recognize the profession of the school teacher as the worthiest of the worthy, and it may be said truly that there is glory enough in the work to reach from the humblest

school house in the remotest mining camp to the presidency of the highest university.

When the cost of sustaining the common schools of the country is considered as an argument against the system of giving every child an education, the criticism reaches a low plane. At first glance one may say that too much money is used, but the impression springs from superficial observation. We are not educating for to-day and to-morrow, but for the next and succeeding generations. We are to-day, however, reaping the reward of investments made a half a century ago by our ancestors, who then laid deep and broad the foundation of a great and enduring system of common education. It costs the taxpayers some money to build school-houses and pay school-teachers, and the old fogies no doubt growled about the expense, but the money was placed where it did good beyond calculation.

In conclusion, it is hoped your Honorable Body will take into consideration the intimate and vital relations which the schools bear to all classes of our people. You will find the graduates of our schools working in every branch of industry and pursuing all professions. One cause of the great advancement of the mechanic arts in this age over the past, is the superior intelligence of the masses of the people.

The statement that the graduates of our public schools despise labor is untrue, and shows a lamentable ignorance on the part of the person making it. Surely a man who has been taught habits of thought, who thinks before he acts, who governs his actions by his intelligence, will make a better citizen in whatever walk of life he may be, than the man whose mind has not been cultivated, and whose actions are governed by the fancy of the moment. The intelligent mechanic and day laborer will perform more and better work in a day than the ignorant. The intelligent farmer will secure better crops, and have a more valuable farm, and add more to the nation's wealth, than the ignorant. The intelligent herdsman will have better and more productive flocks than the ignorant.

The intelligent manufacturer will make a better, and hence

more desirable article, with less expenditure of labor and money than the ignorant. In short, intelligence is the key note not only to individual success and happiness, but also to national prosperity and advancement, and the protection of individual liberty.

On the other hand, most of the failures in life can be ascribed to ignorance; and from this same source arise nearly all the miseries and physical sufferings which afflict mankind. The records of our prisons show that crime is the concomitant of ignorance. In public tumults and riots, where the laws are violated, and property and lives destroyed, the most ignorant are found to be the most active, and blindly follow their leaders in the work of destruction.

It is necessary for the prosperity and peace of the State and Nation, that the masses of the people be educated. It is right and just that the property of the State be made to educate the people of the State. Property and individual rights have no better safeguards and security than an educated people.

Many of our rich men, notably owners of real estate, object to being taxed for the support of the public schools, and some of them are very active in their efforts to reduce the school fund, thereby crippling the schools. They are laboring under a serious mistake. If their ideas were to prevail the United States would soon become Mexicanized, and the rights of property and the individual would exist only in theory.

I urge upon you to throw around the schools every safeguard and protection. Support them liberally, and they will return to the city, the State and the Nation, one hundred-fold more than they cost, by producing an intelligent class of citizens.

You ought to protect securely the interests of the faithful teachers in the schools. As a class they are doing more for the State than any other equal number of people. They are intelligent and faithful workers. They each stand in *loco parentis* to fifty or sixty children, whose minds they develop and store with useful knowledge. You cannot honor them too highly, nor pay them too liberally.

“When wisdom entereth into thine heart, and knowledge is pleasant unto thy soul:

“Discretion shall preserve thee, understanding shall keep thee:

“To deliver thee from the way of the evil man, from the man that speaketh froward things:

“Who leave the paths of uprightness to walk in the ways of darkness:

“Who rejoyce to do evil, and delight in the frowardness of the wicked:

“Whose ways are crooked, and they froward in their paths.”

JOHN W. TAYLOR,
Superintendent of Common Schools.

APPENDIX.

BOARD OF SUPERVISORS

OF THE

CITY AND COUNTY OF SAN FRANCISCO,

1881-'82.

ROBT. B. BARTLETT, Sergeant-at-Arms.

BOARD OF SUPERVISORS.

On December 5th, 1881, the members of the present Board, elected on the 7th day of September, 1881, met at 9.30 o'clock A. M. in the Chambers of the Board at the New City Hall, pursuant to call of His Honor M. C. Blake, Mayor-elect, and ex-officio President of the Board of Supervisors. His Honor M. C. Blake took the Chair, called the members-elect to order, and stated that he had called them together for the purpose of organization and for the transaction of business.

The credentials of the members were presented and the Board organized, and after appointing the standing committees of the Board and transacting other business, at the suggestion of His Honor M. C. Blake, took a recess till 2 o'clock P. M.

On re-convening at the above named hour, His Honor the Mayor delivered the following inaugural address:

GENTLEMEN—I have not been able since our last election to give the matters which will engage our attention as officers of the city any special consideration. I must, therefore, for this occasion content myself with some very brief and general suggestions, reserving the right to make hereafter such particular recommendations as may from time to time seem to be required. What I shall say will be said out of regard to what is customary, for I have a decided conviction that all inaugural talk and ceremony might be omitted without the slightest public detriment. All of us were elected upon pledges and platforms demanding entire uprightness and the strictest economy in the administration of our municipal affairs. I assume that every one of us intends to keep, as an officer, every promise made by him as a candidate. I assume, further, that every one of us, pledged or unpledged, intends to do his whole duty according to his best skill and judgment. It will be fortunate for us and for our constituents if what may now be fairly assumed shall be justified by our official conduct. There is no matter in regard to which our constituents feel a deeper interest, none in regard to which our pledges were more explicit, none in regard to which our duty is clearer and more imperative, than in regard to the question of taxation. In a certain sense it will not be difficult to keep our pledge in regard to taxation, for we can favor any rate of taxation, high or low, but it may be no easy matter well to administer our municipal affairs with no greater revenue than will be derived from such rate of taxation as our pledges will allow us to impose. To do this there must be good management and the strictest economy in every department of our city government. All its officers must have a common purpose, while doing their work well, to do it at the least possible expense. It may be said that we have undertaken to demonstrate what is the lowest rate of taxation upon which the affairs of the city can be properly administered, and I trust that is the determined purpose of each one of us, of every officer of our city, that in this particular there shall be no failure. It will be your duty in the month of February to fix the "water rates" for the year commencing on the first day of July next. You will not be able to do this properly without very careful and thorough investigation. Allow me to advise that each one of you will give this question prompt and assiduous attention. We owe this to the people of the city, to the water company and to ourselves. I hope we shall do our whole duty in this matter, from the beginning to the end, honestly, laboriously, fearlessly and intelligently.

Allow me to suggest that it may, and in my judgment will, be proper for you, at an early day, to give expression to your sentiments and the sentiments of the people of this city in regard to the question of Chinese immigration. This question will soon be before Congress, and it is certainly desirable that such action may be there had that will give us all the benefit that is possible under the recent treaty between the United States and China. If you, as the representatives of the people of

San Francisco, shall adopt resolutions setting forth, in clear, positive and dignified language, the great hardship and wrong which we have suffered from the immigration referred to, and the greater hardship and wrong which we must suffer from it should it continue unchecked, your action can hardly fail to aid our representatives in their efforts to secure the best possible legislation under the treaty. We want to show Congress that we will respect the rights and protect the persons and property of the people of China who have come to this State by the permission and under the guaranty of the General Government, but that we are firmly and unalterably and for good reason opposed to the coming hither of more of that race. Exhibitions of passion and prejudice and violence will not aid us, but the truth, if understood, cannot fail to give us great, if not full relief. I think we ought to have a Charter under the provisions of the Constitution. I am very decidedly of this opinion. But, for the reason that I have not sufficiently considered whether the present is a proper time for action in regard to it, I make no recommendation in this connection, except to ask for this matter the careful consideration of the Supervisors and the people of this city. In conclusion, I have only to say that I hope our official intercourse will be uniformly courteous and dignified, as becomes honorable men in the discharge of an honorable trust, and that the public good will always be the controlling motive of our official conduct.

In connection with and referring to that portion of the Mayor's Inaugural Address which treats of the question of Chinese immigration, a communication was received, January 9th, 1882, by the Board of Supervisors from the Representative Assembly of Trades and Labor Unions of the city, calling attention thereto, and urging such action as would give force to the expected legislation by Congress upon that subject.

This communication was referred to the Judiciary Committee, who reported thereon February 6th, in the following terms:

"In regard to the communication from the Representative Assembly of Trades and Labor Union, calling attention to that-portion of Mayor Blake's Inaugural Address in relation to the Chinese, and urging the Board to take such action as will give force to the proposed legislation by Congress upon that subject, your Committee recommend that inasmuch as His Honor has fully considered the matter and made it one of special inquiry, he be requested to make the question of Chinese immigration the subject of a special message, recommending to the Board such action upon the subject as he may deem proper, with his reasons therefor, so that not only the members of the Board but the people generally may intelligently consider the views of the chief executive officer of the city."

The following resolution, in accordance with the above report, was adopted:

RESOLUTION NO. 15,531—NEW SERIES.

Resolved, That His Honor the Mayor be and he is hereby respectfully requested to make the question of Chinese immigration the subject of special message to this Board, recommending in detail such action upon the subject as he may deem proper should be taken, together with his reasons therefor, in order that not only the members of the Board, but that the people generally may intelligently consider the views of the Chief Magistrate of the city upon this momentous question.

In Board of Supervisors, San Francisco, February 6, 1882.

Adopted by the following vote:

Ayes—Supervisors Bodfish, McKew, Shirley, Carmany, Molineux, Torrens, Bradford, Fisher, Merrill, Russ, Parrish, Kennedy.

JNO. A. RUSSELL, Clerk.

At a meeting of the Board of Supervisors, held on Thursday afternoon, March 2, 1882, His Honor Mayor Blake presented and read the following message, in response to Resolution 15,531 (New Series):

To the Honorable Board of Supervisors of the City and County of San Francisco:

In response to your resolution requesting me "to make the question of Chinese immigration the subject of a special message," and to recommend such action as should by me be deemed proper,

with the reasons therefor, I have the honor to submit the following: The citizens of this State are deeply and earnestly opposed to Chinese immigration; the number of those who are not is infinitesimal. I believe this opposition is just and proper, and that it should be respected by the people of our entire country and should be embodied in the most forcible and effective legislation possible under the existing treaties between the United States and China. For this belief, which is unqualified, there are two principal reasons, which I will state briefly: The Chinese, though they are with us, are not of us. They are, so far as they can be, a government by themselves, *imperium in imperio*. They will not mingle or affiliate with our people, and if they would, God forbid that they ever should, for the result would, in my opinion, be a people with the vices of both without the virtues of either. But whether this opinion is correct or not, the fact is that they are in our midst a distinct people, and will so remain.

Chinatown in this city is as distinct from this municipality, from the State and the United States, as is the most remote province of China, except that, being in our midst, it can sell us its merchandise and send out its swarms to invade and destroy our industries, and invite us to an adoption of its vices. This part of China has been here a long time, but it has not an American sentiment or an American sympathy. During all this time it has drawn from us all that it could, and has yielded us as little as it could, and beyond question, this state of things will continue as long as Chinatown continues. As the Chinese quarter in the city is China on a small scale, so will this State be a large China as soon as the majority of its inhabitants are Chinamen, an event, in the absence of proper prohibitory legislation, neither impossible nor improbable. It has been and is the policy of this country to invite immigration, but the immigrants that we have invited and do invite have become Americans, with American ideas and American sympathies, and with every disposition to add to the wealth and greatness of our common country. But it has not been and cannot be the policy of any country to invite within its borders a population that will always remain distinct and alien—alien in thought, habits, customs and allegiance—a population at all times a source of general annoyance, irritation and agitation, and in war a source of great weakness and danger, as all history shows that such a population is.

There is another view of this case. It costs much less to support a Chinaman than to support an American. It costs much less to feed him, clothe him or house him, and consequently the labor of a Chinaman can be had at a much lower rate than can the labor of an American. As a rule, capital will purchase labor at lower rates, and as China can supply ready and willing laborers in unlimited numbers, it follows that unless an effectual remedy is provided the labor of the State will eventually be Chinese. These facts will not be denied, and the conclusion from them is irresistible. To a great extent Chinese labor has already supplanted the labor of our citizens, and the process by which this result has been accomplished was never in more active or successful operation than at present. I do not suppose that Chinese labor, if undisturbed, will entirely supplant American labor, but it will do it so nearly that American labor will be the exception, not the rule. If a man can say he knows anything, it would seem that we can say we know that wherever there is the power there is the duty to prevent this condition of things.

For what does government exist if not for the protection of the men who instituted and sustain it? Is there any reason why governmental charity, as well as individual charity, should not begin at home? We have often heard that there should be no conflict between labor and capital, for the reason that each is necessary to the other. But certainly to the extent that American capital employs Chinese labor, there is between the two no reciprocity. But there must be reciprocity between the capital and labor of the country. American capital must, of its own good-will or from necessity, be true to American labor, or there will be no peace, no assured order, but constant strife and agitation. I deprecate strife and agitation. I want peace and order, so that all the industries of the country may flourish; but where justice is not, peace and order will not be.

No one can expect—the idea is absurd—that American labor will allow itself to be supplanted by any kind of foreign labor without agitation and without resistance by all lawful means, and for one, I neither expect nor desire it. I have said so much in compliance with your request that I should give reasons for such action as I would recommend in regard to Chinese immigration. I have spoken of matters which you know, and which I believe are generally known. Of the correctness of my conclusions from facts stated or assumed, you will judge for yourselves, as you will of the facts themselves. I have the most profound conviction that it is of the first importance that the efforts of our delegation at Washington to obtain relief from Congress should be entirely successful. And if you will allow me, I will recommend what seems to me appropriate on your part, in the language of my inaugural address:

“In my judgment, it is proper for you, at an early day, to give expression to your sentiments and the sentiment of the people of this city in regard to the question of Chinese immigration. This

question is now before Congress, and it is certainly desirable that such action may be there had as will give us all the benefit that is possible under the recent treaty between the United States and China. If you, as the representatives of the people of San Francisco, shall adopt resolutions, setting forth in clear, positive and dignified language, the great hardship and wrong which we have suffered from the immigration referred to, and the greater hardship and wrong which we must suffer from it should it continue unchecked, your action can hardly fail to aid our representatives in their efforts to secure the best possible legislation under the treaty. We want to show Congress that we will respect the rights and protect the persons and property of the people of China who have come to this State by the permission and under the guaranty of the General Government, but that we are firmly and unalterably opposed to the coming hither of more of that race. Exhibitions of passion and prejudice and violence will not aid us, but the truth, if understood, cannot fail to give us great, if not full relief."

In conclusion, let me say that nothing in this communication is the result of hostility to Chinamen. I do not blame them for being here, any more than I blame an American residing in China, so long as he lawfully may. During a residence of nearly thirty years in this city I have resented every indignity to a Chinaman which I have witnessed or heard of. I know that in the Courts in which I have presided, so far as has depended on me, Chinamen have had as fair a chance, as full and ample protection to person and property as has been accorded to our own citizens. And so far as depends on me, Chinamen shall have as fair a chance before the law as the most favored citizen of the State. But during my residence here the conviction has been forced upon me, has been growing until it has become absolute, that the Chinese are a bad population for us; that their presence is a wrong to our people, particularly to our laborers; that their increasing numbers will endanger our peace and prosperity in a constantly increasing ratio, and that their residence among us must be discouraged and their coming prevented by all just and lawful means. All of which is respectfully submitted.

M. C. BLAKE, Mayor.

On motion of Mr. Kennedy a recess of fifteen minutes were taken for the preparation of appropriate resolutions. Upon the reconvening of the Board, Mr. Bodfish offered the following resolution, which was unanimously adopted:

RESOLUTION NO. 15,581—NEW SERIES.

WHEREAS, The Mayor has this day at our request sent to this Board a special message in regard to the question of Chinese immigration, and

WHEREAS, Said message accords with our views; therefore—

Resolved, That we fully approve and endorse the views and statements in said message contained as to the disastrous and blighting effects of unrestricted Chinese immigration to this State.

Resolved, That we respectfully and earnestly petition Congress to enact the most stringent laws, which our treaties with China will permit, for the prevention of Chinese immigration.

Resolved, That we heartily approve the action of our Senators and Representatives in Congress to procure proper and efficient Congressional action for the prevention of Chinese immigration and tender them our warmest thanks for the same.

Resolved, That these resolutions are not prompted in the slightest degree by any unkind feeling towards the Chinese residents of this city and State whose persons and property we believe should be fully protected, but by the deepest conviction that what we ask for is essential to the peace, prosperity and material interests of our people.

Resolved, That His Honor the Mayor be and he is hereby requested to telegraph to the Hon. J. F. Miller a copy of these resolutions.

In Board of Supervisors, San Francisco, March 2, 1882.

Adopted by the following vote:

Ayes—Supervisors Bodfish, McKew, Shirley, Carmany, Molineux, Torrens, Bradford, Fisher, Merrill, Russ, Parrish, Kennedy.

JNO. A. RUSSELL, Clerk.

The following is a copy of the Act passed by Congress prohibiting for a period of ten years the coming of Chinese laborers into the United States, to-wit:

ACT OF CONGRESS RELATING TO CHINESE.

7

AN ACT TO EXECUTE CERTAIN TREATY STIPULATIONS RELATING TO CHINESE.

Approved May 6, 1882.

Be it Enacted by the Senate and the House of Representatives of the United States of America in Congress assembled:

That from and after the expiration of ninety days next after the passage of this Act, and until the expiration of ten years next after the passage of this Act, the coming of Chinese laborers to the United States be, and the same is hereby, suspended; and during such suspension it shall not be lawful for any Chinese laborer to come, or, having so come after the expiration of said ninety days, to remain within the United States.

SEC. 2. That the master of any vessel who shall knowingly bring within the United States on such vessel, and land or permit to be landed, any Chinese laborer, from any foreign port or place, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine of not more than five hundred dollars for each and every such Chinese laborer so brought, and may be also imprisoned for a term not exceeding one year.

SEC. 3. That the two foregoing sections shall not apply to Chinese laborers who were in the United States on the seventeenth day of November, eighteen hundred and eighty, or who shall have come into the same before the expiration of ninety days next after the passage of this Act, and who shall produce to such master before going on board such vessel, and who shall produce to the Collector of the Port in the United States at which such vessel shall arrive, the evidence hereinafter in this Act required of his being one of the laborers in this section mentioned; nor shall the two foregoing sections apply to the case of any master whose vessel, being bound to a port not within the United States, shall come within the jurisdiction of the United States by reason of being in distress or in stress of weather, or touching at any port of the United States on its voyage to any foreign port or place; *provided*, that all Chinese laborers brought on such vessel shall depart with the vessel on leaving port.

SEC. 4. That for the purpose of properly identifying Chinese laborers who were in the United States on the seventeenth day of November, eighteen hundred and eighty, or who shall have come into the same before the expiration of ninety days next after the passage of this Act, and in order to furnish them with the proper evidence of their right to go from and come to the United States of their free will and accord, as provided by the treaty between the United States and China dated November seventeenth, eighteen hundred and eighty, the Collector of Customs of the district from which any such Chinese laborer shall depart from the United States shall, in person or by deputy, go on board each vessel having on board any such Chinese laborer and cleared or about to sail from his district for a foreign port, and on such vessel make a list of all such Chinese laborers, which shall be entered in registry books to be kept for that purpose, in which shall be stated the name, age, occupation, last place of residence, physical marks or peculiarities, and all facts necessary for the identification of each of such Chinese laborers, which books shall be safely kept in the custom-house; and every such Chinese laborer so departing from the United States shall be entitled to, and shall receive, free of any charge or cost, upon application therefor, from the Collector or his Deputy, at the time such list is taken, a certificate, signed by the Collector or his Deputy and attested by his seal of office, in such form as the Secretary of the Treasury shall prescribe, which certificate shall contain a statement of the name, age, occupation, last place of residence, personal description, and facts of identification of the Chinese laborer to whom the certificate is issued, corresponding with the said list and registry in all particulars. In case any Chinese laborer, after having received such certificate, shall leave such vessel before her departure, he shall deliver his certificate to the master of the vessel, and if such Chinese laborer shall fail to return to such vessel before her departure from port the certificate shall be delivered by the master to the Collector of Customs for cancellation. The certificate herein provided for shall entitle the Chinese laborer to whom the same is issued to return to and re-enter the United States upon producing and delivering the same to the Collector of Customs of the district at which such Chinese laborer shall seek to re-enter; and upon delivery of such certificate by such Chinese laborer to the Collector of Customs at the time of re-entry in the United States, said Collector shall cause the same to be filed in the custom-house and duly canceled.

SEC. 5. That any Chinese laborer mentioned in Section four of this Act being in the United States, and desiring to depart from the United States by land, shall have the right to demand and receive, free of charge or cost, a certificate of identification similar to that provided for in Section four of this Act to be issued to such Chinese laborers as may desire to leave the United States by water; and it is hereby made the duty of the Collector of Customs of the district next adjoining the foreign country to which said Chinese laborer desires to go to issue such certificate, free of charge or

cost, upon application by such Chinese laborer, and to enter the same upon registry-books to be kept by him for the purpose, as provided for in Section four of this Act.

SEC. 6. That in order to the faithful execution of Articles one and two of the treaty in this Act before mentioned, every Chinese person other than a laborer who may be entitled by said treaty and this Act to come within the United States, and who shall be about to come to the United States, shall be identified as so entitled by the Chinese Government in each case, such identity to be evidenced by a certificate issued under the authority of said government, which certificate shall be in the English language, or (if not in the English language) accompanied by a translation into English, stating such right to come, and which certificate shall state the name, title, or official rank, if any, the age, height, and all physical peculiarities, former and present occupation or profession, and place of residence in China of the person to whom the certificate is issued and that such person is entitled conformably to the treaty in this Act mentioned to come within the United States. Such certificate shall be *prima-facie* evidence of the fact set forth therein, and shall be produced to the Collector of Customs, or his Deputy, of the port in the district in the United States at which the person named therein shall arrive.

SEC. 7. That any person who shall knowingly and falsely alter or substitute any name for the name written in such certificate or forge any such certificate, or knowingly utter any forged or fraudulent certificate, or falsely personate any person named in any such certificate, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined in a sum not exceeding one thousand dollars, and imprisonment in a penitentiary for a term of not more than five years.

SEC. 8. That the master of any vessel arriving in the United States from any foreign port or place shall, at the same time he delivers a manifest of the cargo and if there be no cargo, then at the time of making a report of the entry of the vessel pursuant to law, in addition to the other matter required to be reported, and before landing, or permitting to land, any Chinese passengers, deliver and report to the Collector of Customs of the District in which such vessels shall have arrived a separate list of all Chinese passengers taken on board his vessel at any foreign port or place, and all such passengers on board the vessel at that time. Such list shall show the names of such passengers, (and if accredited officers of the Chinese Government traveling on the business of that government, or their servants, with a note of such facts), and the names and other particulars, as shown by their respective certificates; and such list shall be sworn to by the master in the manner required by law in relation to the manifest of the cargo. Any willful refusal or neglect of any such master to comply with the provisions of this section shall incur the same penalties and forfeiture as are provided for a refusal or neglect to report and deliver a manifest of the cargo.

SEC. 9. That before any Chinese passengers are landed from any such vessel, the Collector, or his Deputy, shall proceed to examine such passengers, comparing the certificates with the list and with the passengers; and no passenger shall be allowed to land in the United States from such vessel in violation of law.

SEC. 10. That every vessel whose master shall knowingly violate any of the provisions of this Act shall be deemed forfeited to the United States, and shall be liable to seizure and condemnation in any District of the United States into which such vessel may enter or in which she may be found.

SEC. 11. That any person who shall knowingly bring into or cause to be brought into the United States by land, or who shall knowingly aid or abet the same, or aid or abet the landing in the United States from any vessel of any Chinese person not lawfully entitled to enter the United States, shall be deemed guilty of a misdemeanor, and shall, on conviction thereof, be fined in a sum not exceeding one thousand dollars, and imprisoned for a term not exceeding one year.

SEC. 12. That no Chinese person shall be permitted to enter the United States by land without producing to the proper officer of Customs the certificate in this Act required of Chinese persons seeking to land from a vessel. And any Chinese person found unlawfully within the United States shall be caused to be removed therefrom to the country from whence he came, by direction of the President of the United States, and at the cost of the United States, after being brought before some Justice, Judge, or Commissioner of a Court of the United States and found to be one not lawfully entitled to be or remain in the United States.

SEC. 13. That this Act shall not apply to diplomatic and other officers of the Chinese Government traveling upon the business of that government, whose credentials shall be taken as equivalent to the certificate in this Act mentioned, and shall exempt them and their body and household servants from the provisions of this Act as to other Chinese persons.

SEC. 14. That hereafter no State Court or Court of the United States shall admit Chinese to citizenship; and all laws in conflict with this Act are hereby repealed.

SEC. 15. That the words "Chinese laborers," wherever used in this Act, shall be construed to mean both skilled and unskilled laborers and Chinese employed in mining.

PERSONAL PROPERTY ASSESSMENT.

The Personal Property Assessment Roll for the Fiscal Year 1882, was received by the Board of Supervisors on June 5, 1882, accompanied by a communication from the City and County Assessor, representing the aggregate amount of the assessments to be \$50,396,712.

The total amount of the Roll as reported shows a decrease in value of \$5,335,616 from the valuation of the Roll for the year 1881-82, when delivered by the Assessor to the Board of Supervisors.

The Board of Supervisors met on June 12, 1882, and examined the Assessment Roll, and continued in session from time to time until June 26, 1882, heard all applicants who filed sworn applications for correction, and who appeared before the Board relative thereto, and made corrections as follows:

Reduction by Board.....	\$322,568
Reductions, Corrections by Assessor.....	17,510
Reductions	340,078
Additions—Corrections by Assessor.....	10,850
Total Reductions to Personal Property Roll.....	329,228

The following is a copy of the communication referred to, as received from the Assessor:

SAN FRANCISCO, June 5, 1882.

To the Honorable the Board of Supervisors, City and County of San Francisco:

GENTLEMEN:—

I beg to inform your Honorable body that I have this day delivered to your clerk, John A. Russell Esq., sixteen volumes, containing the Roll of Personal Property of this City and County for the year 1882, amounting to the sum of \$50,396,712.

I am pleased to say that the Deputies have performed their work in a thorough manner, using proper diligence in demanding and procuring sworn statements from all taxpayers, but it is evident that great advantage has been taken of the law, which requires the taxpayer to make a sworn return of his taxable property held on a particular day and hour.

A large amount of money has doubtless been converted into Government Bonds, and other unassessable property, for the purpose of evading taxation.

By an examination of their books I find the sworn statements are correct, in which case I have no relief but to condemn the law that designates a particular day and hour for assessments. Were it otherwise, a fair average might be made the basis of the assessment.

Under new rules adopted this year the cost of the assessment has been greatly reduced, although the exact estimate cannot yet be made. I believe the saving will be more than fifty thousand dollars.

Your Finance Committee has followed closely the details of the work of my large force of men, and are entitled to great credit for their economical suggestions which, with my co-operation, have resulted as above. Over 7,000 persons have sworn to statements that they have no personal property, while about 30,000 have listed their property under oath.

Very Respectfully,

ALEXANDER BADLAM,

Assessor City and County of San Francisco,

NAMES AND ASSESSMENTS.

The following table contains the names of all persons, firms, and corporations assessed for the sum of \$5,000 and over, for personal property on the personal property assessment book of the City and County of San Francisco for the fiscal year 1882.

The total valuation of property assessed on the Personal Property Assessment Book of 1882, as verified by the Auditor, was \$50,105,994, of which \$7,799,358 is assessed as money.

WATER RATES.

The following Article of the Constitution of the State, adopted in 1879, and which went into effect on January 1, 1880, made it the duty of the Board of Supervisors, in the month of February of each year, to fix the rates or compensation to be collected by any person, company or corporation engaged in the business and supplying water for the use of the City and County or the inhabitants:

ARTICLE XIV.

WATER AND WATER RIGHTS.

SECTION 1. The use of all water now appropriated, or that may hereafter be appropriated, for sale, rental or distribution, is hereby declared to be a public use, and subject to the regulation and control of the State, in the manner to be prescribed by law; provided, that the rates or compensation to be collected by any person, company or corporation in this State for the use of water supplied to any city and county, or city or town, or the inhabitants thereof, shall be fixed annually by the Board of Supervisors, or city and county, or City or Town Council, or other governing body of such city and county, or city or town, by ordinance or otherwise, in the manner that other ordinances or legislative acts or resolutions are passed by such body, and shall continue in force for one year and no longer. Such ordinances or resolutions shall be passed in the month of February of each year, and take effect on the first day of July thereafter. Any Board or body failing to pass the necessary ordinances or resolutions fixing water rates, where necessary, within such time, shall be subject to peremptory process to compel action at the suit of any party interested, and shall be liable to such further processes and penalties as the Legislature may prescribe. Any person, company or corporation collecting water rates in any city and county, or city or town in this State, otherwise than as so established, shall forfeit the franchises and water works of such person, company or corporation to the city and county, or city or town where the same are collected, for the public use.

SEC. 2. The right to collect rates or compensation for the use of water supplied to any county, city and county, or town, or the inhabitants thereof, is a franchise, and cannot be exercised except by authority of and in the manner prescribed by law.

The Legislature of the State, at its last session, passed the following Act, providing for carrying out the objects of Article 14th of the Constitution by imposing upon the Board of Supervisors the duty of requiring all persons or corporations engaged in supplying water to file statements in the month of January of each year, showing the names, residence and the amount paid by each rate-payer during the year, the revenue derived from all sources and an itemized statement of expenditures made for supplying water during the same time, together with a statement of the amount actually expended and the gross cash receipts annually since commencing business:

AN ACT TO ENABLE THE BOARD OF SUPERVISORS, TOWN COUNCIL, BOARD OF ALDERMEN, OR OTHER LEGISLATIVE BODY OF ANY CITY AND COUNTY, CITY OR TOWN, TO OBTAIN DATA AND INFORMATION, FROM ANY CORPORATION, COMPANY OR PERSON SUPPLYING WATER TO SUCH CITY AND COUNTY, CITY OR TOWN, REQUIRING SUCH BOARDS, TOWN COUNCIL, OR OTHER LEGISLATIVE BODY TO PERFORM THE DUTIES PRESCRIBED BY SECTION 1 OF ARTICLE 14 OF THE CONSTITUTION, AND PRESCRIBING PENALTIES FOR THE NON-PERFORMANCE OF SUCH DUTIES.

Approved March 7, 1881.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

(Municipal corporations to fix water rates.)

SECTION 1. The Board of Supervisors, Town Council, Board of Aldermen or other legislative body of any city and county, city or town, are hereby authorized and empowered, and it is made their official duty, to annually fix the rates that shall be charged and collected by any person, company, association, or corporation, for water furnished to any such city and county, or city or town, or the inhabitants thereof. Such rates shall be fixed at a regular or special session of such Board, or other legislative body, held during the month of February of each year, and shall take effect on the first day of July thereafter, and shall continue in full force and effect for the term of one year, and no longer.

(Annual statements to be made by water companies, etc.)

SEC. 2. The Board of Supervisors, Town Council, Board of Aldermen, or other legislative body, of any city and county, city or town, are hereby authorized and it is hereby made their duty, at least thirty days prior to the fifteenth day of January of each year, to require by ordinance or otherwise any corporation, company or person supplying water to such city and county, city or town, or to the inhabitants thereof, to furnish to such Board or other governing body, in the month of January in each year, a detailed statement, verified by the oath of the President and Secretary of such corporation or company, or of such person as the case may be, showing the name of each water-rate payer, his or her place of residence, and the amount paid for water by each of such water-rate payers during the year, preceding the date of such statement, and also showing all revenue derived from all sources, and an itemized statement of expenditures made for supplying water during said time.

(Additional statements to be made by water companies, etc.)

SEC. 3. Accompanying the first statement made as prescribed in Section 2 of this Act, every such corporation, company or person shall furnish a detailed statement, verified in like manner as the statement mentioned in Section 2 hereof, showing the amount of money actually expended annually since commencing business in the purchase, construction and maintenance, respectively, of the property necessary to the carrying on of its business, and also the gross cash receipts annually, for the same period, from all sources.

(Refusal by water companies to make statement a misdemeanor.)

SEC. 4. Every corporation, company or person who shall refuse or neglect to furnish the statements mentioned in sections two and three of this Act, or either of them, or who shall furnish any false statement in relation thereto, within thirty days after having been required or requested to furnish the same, as prescribed in sections one, two and three of this Act, shall be deemed guilty of a misdemeanor.

(Copies of statements to be made and filed with County Recorder.)

SEC. 5. Upon receiving the statements provided for in sections two and three of this Act, the Board of Supervisors, Town Council, Board of Aldermen, or other legislative body, shall cause a copy thereof to be made and filed in the office of the County Recorder of such City and County, or of the county wherein such city or town is situated.

(Water rates to be equal and uniform—Proviso.)

SEC. 6. Rates for the furnishing of water shall be equal and uniform. There shall be no discriminations made between persons, or between persons and corporations, or as to the use of water

for private, and domestic, and public or municipal purposes; *provided*, that nothing herein shall be so construed as to allow any person, company, association or corporation to charge any person, corporation or association anything for water furnished them when, by any present law, such water is free.

(Excess in charging rates, forfeits franchise, etc.)

SEC. 7. Any person, company, association or corporation, charging, or attempting to collect from the persons, corporations or municipalities using water, any sum in excess of the rate fixed as hereinbefore designated, shall, upon the complaint of said Board of Supervisors, Town Council, Board of Aldermen, or other legislative body thereof, or of any water rate payer, and upon conviction before any court of competent jurisdiction, shall forfeit the franchises and water works of such person, company, association or corporation to the city and county, city or town, wherein the said water is furnished and used.

(Penalty to Supervisors for neglecting to enforce provisions of Act.)

SEC. 8. Any Board of Supervisors, or other legislative body of any city and county, city or town, which shall fail or refuse to perform any of the duties prescribed by this Act, at the time and in the manner hereinbefore specified, shall be deemed guilty of malfeasance in office; and, upon conviction thereof, at the suit of any interested party, in any Court of competent jurisdiction, shall be removed from office.

(Act in Effect.)

SEC. 9. This Act shall take effect and be in force from and after its passage.

The Board of Supervisors, acting under the provisions of the Constitution of the State and the Act of the Legislature, passed the following Order requiring the statements contemplated to be filed:

ORDER NO. 1, 151.

PROVIDING FOR STATEMENTS BEING FILED BY COMPANIES, CORPORATIONS OR PERSONS ENGAGED IN THE BUSINESS OF SUPPLYING PURE FRESH WATER FOR USE OF THE INHABITANTS OF THIS CITY AND COUNTY.

WHEREAS, Under the provisions of Section 1 of Article XIV of the Constitution of the State of California, it is declared that all water appropriated for sale, rental or distribution, is a public use and subject to the regulation and control of the State, in the manner to be prescribed by law, provided that the rate of compensation to be collected by any person, company or corporation in this State for the use of water supplied to any city and county, or city or town, or the inhabitants thereof, shall be fixed annually by the Board of Supervisors or City and County, or City or Town Council or other governing body of such city and county, or city or town, by ordinance or otherwise, in the manner that other ordinances or legislative acts or resolutions are passed by such body, to continue in force for one year, and no longer; and that such ordinances or resolutions shall be passed in the month of February of each year and take effect on the first day of July thereafter; and that any person, company or corporation collecting water rates in any city and county, or city or town in this State, otherwise than as so established, shall forfeit the franchises and water works of such person, company or corporation to the city and county, or city or town, where the same are collected for the public use; and,

WHEREAS, By an Act of the Legislature of said State, approved March 7, 1881, it is enacted that the Board of Supervisors, Town Council, Board of Aldermen or other legislative body of any city and county, city or town, are authorized and empowered, and it is made their official duty, to annually fix the rates that shall be charged and collected by any person, company, association or corporation for water furnished to any such city and county, or city or town, or the inhabitants thereof, to be fixed, take effect and continue in force as in said provision of said Constitution provided; and that such Board of Supervisors, Town Council, Board of Aldermen, or other legislative body of any city and county, city or town, are authorized, and it is made their duty, at least thirty days prior to the 15th day of January of each year, to require, by ordinance or otherwise, any corporation, company or

person supplying water to such city and county, city or town, or to the inhabitants thereof, to furnish such Board or other governing body, in the month of January in each year, a detailed statement, verified by the oath of the President and Secretary of such corporation or company, or of such person, as the case may be, showing the name of each of such water rate payers, his or her place of residence and the amount paid for water by each of such water rate payers (during the year preceding the date of such statement, and also showing all revenue derived from all sources, and an itemized statement of expenditures made for supplying water during said time, accompanied by a detailed statement—verified in like manner—showing the amount of money actually expended annually since commencing business in the purchase, construction and maintenance respectively of the property necessary to the carrying on of the business of such corporation, company or person, and also the gross cash receipts annually for the same period from all sources, under the penalty in case of neglect to comply with the said provisions of the said Act of the Legislature, of being adjudged guilty of misdemeanor. Therefore,

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. That the Spring Valley Water Works, a corporation, and every other corporation, company or person, if any there be, supplying the water to the City and County of San Francisco, or to the inhabitants thereof, be and hereby are required to furnish to the Board of Supervisors of the said City and County in the month of January, in the year of our Lord one thousand eight hundred and eighty-two, a detailed statement, verified by the oath of the President and Secretary of such corporation or company, or of such person, as the case may be, showing the name of each water rate payer, his or her place of residence and the amount paid for water by each of such water rate payers during the year preceding the date of such statement, and also showing all revenue derived by such corporation, company or person from all sources, and an itemized statement of expenditures made for supplying water during said time; and that such statement be accompanied by a further and detailed statement, verified by the President and Secretary of such corporation or company, or of such person, as the case may be, showing the amount of money actually expended annually since commencing business in the purchase, construction and maintenance respectively of the property necessary to the carrying on of the business of such corporation, company or person, and also the gross cash receipts annually for the same period from all sources.

SEC. 2. The Clerk of this Board is hereby directed to forthwith serve a certified copy of these preambles and order upon the President and Secretary respectively of the said corporation, the Spring Valley Water Works, and every other corporation or company, and upon every person so supplying water to the City and County of San Francisco, or to the inhabitants thereof.

In Board of Supervisors, San Francisco, November 14, 1881.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Schottler, Mason, Litchfield, Drake, Whitney, Eastman, Fraser, Taylor, Doane, Bayly, Stetson.

Absent—Supervisor Torrey.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, November 20, 1881.

I. S. KALLOCH,

Mayor and ex-officio President Board of Supervisors.

In response to the notification sent as required by law, verified statements were received in the month of January, 1882, from the following-named parties, owners of artesian wells, engaged in the business of supplying water to the inhabitants and collecting compensation therefor:

WATER RATES.

SYNOPSIS OF THE VERIFIED STATEMENTS OF PERSONS, COMPANIES AND CORPORATIONS SUPPLYING WATER TO THE INHABITANTS OF THE CITY AND COUNTY OF SAN FRANCISCO, FILED IN THE OFFICE OF THE CLERK OF THE BOARD OF SUPERVISORS DURING JANUARY, 1882, PURSUANT TO ORDER NO. 1651 OF SAID BOARD, AND IN COMPLIANCE WITH THE PROVISIONS OF AN ACT OF THE LEGISLATURE APPROVED MARCH 7, 1881.

The above amounts are the gross cash receipts annually from assessments, revenue, loans, sales and all other sources.

STATE OF CALIFORNIA, }
CITY AND COUNTY OF SAN FRANCISCO, } ss.

John F. Pope, being duly sworn, says: That he is an expert accountant; that he has examined the books of the Spring Valley Water Works, and also the books of the San Francisco City Water Works, consolidated with the Spring Valley Water Works in February, 1865, for the purpose of making the statements required by an Act of the Legislature of California, approved March 7th, 1881, and appearing in the published statutes of the State of California, at page 54 thereof; that the foregoing statements have been prepared by him, and that they are true and correct, except as to the list of water rate payers, and as to such list this deponent says, that he has had a large force of assistants engaged in the preparation of said list, and that he believes the same to be correct, but that he has not had sufficient time to verify the same; and this deponent further says, that he has calculated the cost of the Spring Valley Water Works up to the first day of January, 1882, including therein the cost of the San Francisco City Water Works at the time of consolidation with the Spring Valley Water Works, February 5, 1865, and in ascertaining such cost, interest was estimated by him on the expenditure at current rates, namely, the rate paid by the company itself, and from such interest was deducted the entire income of the company from all sources of revenue; and this deponent declares that the principles upon which such calculation was made are correct; and this deponent alleges that on the first day of January, 1882, the total cost of the Spring Valley Water Works up to said date was and is nineteen million two hundred and sixty-eight thousand and forty-four dollars and fifty cents (\$19,268,044.50).

JOHN F. POPE.

Subscribed and sworn to before me this 31st day of January, A. D., 1882.

[SEAL]

J. H. BLOOD,
Notary Public.

The statements filed were delivered to the Chairman of the Committee on Water and Water Supplies, and were by the Board referred to the Committee. On February 13, 1882, the Committee, after consultation with the Hon. J. F. Cowdery, City and County Attorney, presented the following report:

To the Honorable the Board of Supervisors of the City and County of San Francisco:

GENTLEMEN—Your Committee on Water and Water Supplies would respectfully report: That under the New Constitution and the Statute passed at the last Session of the Legislature, it is made the duty of the Board, in the month of February, of each year, to fix the rates that shall be charged and collected by any person, company, etc., for water furnished to the City and County and its inhabitants.

In compliance with the provisions of Order No. 1,651, approved November 20, 1881, passed in conformity with the provisions of the statute referred to, all persons or companies so engaged in the business of supplying water were required to file statements in the month of January, showing the name of each water rate-payer, his or her place of residence, and the amount paid for water by each during the preceding year; also, all revenues derived from all sources, and an itemized statement of expenditures during said period. Further, to file an additional statement showing the amount of money expended annually since commencing business, in the purchase, construction and maintenance respectively of the property necessary to carry on said business, and also the gross cash receipts annually for the same period from all sources.

The following Company and persons were notified as required: The Spring Valley Water Works; Wm. H. Bradbury, Van Ness avenue and California street; Horace Hawes, 212 Ninth street; M. V. Stevens, 1500 Folsom street; K. Strauss, 701 Golden Gate avenue; J. M. Comerford, Church street, between Duncan and Twenty-Seventh streets; H. R. Clark, Folsom street, between Seventh and Eighth streets; Kem Wong, 617, 619 Jackson street; S. C. Hastings, Perry street, between Third and Fourth streets.

The following parties have filed statements, which are now in the possession of your Committee: Warren & Tuttle, 212 Ninth street; Wm. E. Bradbury, Van Ness avenue and California street; H. R. Clark, 1135 Folsom street; W. Helbing, 2 Hayward street; and the Spring Valley Water Works.

In addition, a communication has been received from S. C. Hastings, stating that the water obtained from the well at No. 177 Perry street, is used for private purposes only, and not for merchandizing, and that none of it has been sold.

As it is the duty of the Board to fix the rates this month, your Committee deemed it advisable to consult the Hon. J. F. Cowdery, City and County Attorney, as to the propriety of proceeding to consider and act upon this matter at once, but, as the question is now before the Supreme Court, in the suit of The San Francisco Pioneer Woolen Factory vs. H. Brickwedel, Auditor, as to whether or not the City is entitled to free water, under the New Constitution, as formerly, it is deemed advisable to simply proceed in an investigation of the question of the proper rates to be established, and to that end to report that your Committee will hold meetings during the month to consider the subject; and as it is a matter of importance, and necessarily of interest to, and the duty of each member to be thoroughly acquainted with and informed upon the subject, so that he may be enabled to form an opinion based upon an intelligent consideration, all the members of the Board are hereby invited to be present at all meetings of the Committee, and take part in the discussion of this question in all its bearings. The Committee on holding their meetings will accordingly notify and request all members of the Board to be present.

Your Committee would also report that they have had under consideration a petition of the Golden Gate Woolen Mill Company, for the laying down of water mains in and to the block bounded by Nineteenth, Twentieth and Hampshire streets and Bryant avenue.

The President of the Company, Major Harney, stated that the reason of the application was for the purpose of obtaining a supply of water for protection from fire, the Woolen Mills being supplied with water for their business from an artesian well on the premises, and the question was at once presented as to the power of the Board to order the laying down of mains and pipes for that purpose.

The officers of the Spring Valley Water Works represented that the Company were desirous of extending their mains and pipes if any reasonable income could be derived by the Company therefrom, but as the supplies of water for all other purposes were obtained from artesian wells, it would only be an expense to the Company, without producing any income.

It was understood by the Committee that the question of the constitutionality of the Bayly Ordinance was now before the Supreme Court, and that the question as to whether property should be or could be taxed for fire protection, was involved, and if decided that the City and County was required to pay, then the City would have the undoubted right to order water mains laid for protection against fire. The opinion of the City and County Attorney was that the Supreme Court would decide, as formerly, that the City and County of San Francisco is entitled to free water; but that action on the question involved in the petition should be postponed until after a decision of the case now submitted to the Supreme Court.

The principle, however, of the taxation of property for fire protection purposes was presented with some force, and it was cited as an example that in the southern portion of the City, where the Spring Valley Water Works have mains large enough to furnish a supply of water sufficient for all purposes from which they derive a revenue, the Underwriters desire larger mains for fire purposes. Also, that while under the present condition it may be claimed that the Company have the right to furnish water to the extent of their means for the extinguishment of fires, etc., free of charge, it was not obligatory on the Company to lay larger mains (which in many parts of the City are necessary) for that purpose, or to furnish a pressure such as they were able to do, and do give for that purpose.

It was also urged that no incentive existed in some districts to lay mains for fire protection where a portion of the district was furnished with water from artesian wells, the owners of which did not and could not, from the size of their pipes and pressure, afford any protection against fire, while they could and did furnish water for domestic purposes. These views were presented and taken under consideration for future action.

As in the matter of fixing rates, your Committee desire the presence of all the members to discuss and determine this question upon the rendition of a decision by the Supreme Court.

JOHN H. CARMANY,
G. B. BRADFORD,
H. MOLINEUX,
J. F. KENNEDY,
W. H. BODFISH.

It was claimed on behalf of the Spring Valley Water Works, that under Article 14 of the New Constitution, the City and County was liable for the payment of water furnished for all municipal purposes, and that the said Article abrogated any rights heretofore possessed by the City and County to the use of free water for any municipal purpose, as determined in 1877 by the Supreme

Court under the Act of the Legislature of 1858, under which the said Spring Valley Water Works was incorporated.

The Board of Supervisors, in fixing water rates for the years ending respectively on June 30, 1881, and June 30, 1882, made provision in the Order establishing said rates for the payment by the City and County for the water so used and the amount so raised by general taxation, amounting respectively to the sum of \$324,000 and \$315,000, was paid into the Treasury as a portion of the General Fund. These amounts were not expended for the purpose for which they were raised, that of paying the same to the Spring Valley Water Works to secure a reduction of 25 per cent. on the rates charged to other consumers. The litigation based upon the refusal of the Auditor to audit demands of the Spring Valley Water Works for water furnished for municipal purposes passed by the Board, being such as would not permit of a speedy determination as to the question of free water, on suggestion of the Hon. J. F. Cowdery, City and County Attorney, the following resolution was adopted by a unanimous vote by the Board of Supervisors, at a meeting held January 30, 1882:

RESOLUTION NO. 15,519—NEW SERIES.

Resolved, That the City and County Attorney be and he is hereby respectfully requested to take such speedy action as may be practicable to determine the question whether or not, under the New Constitution, the City and County is entitled as heretofore to free water for public purposes.

Further, to present that question alone, stripped of all immaterial issues, so as to bring about an early decision by the Supreme Court, and thereby decide the proper action to be taken by this Board in any future legislation required upon the subject, and in determining the amount of the tax levy.

The following communication from the City and County Attorney was received on February 6, 1882, informing the Board as to the action taken by him pursuant to the instructions contained in the foregoing resolution:

OFFICE OF THE CITY AND COUNTY ATTORNEY.

To the Honorable the Board of Supervisors of the City and County of San Francisco:

GENTLEMEN—The resolution passed by your honorable body, No. 15,519 (New Series), requesting me to take such speedy action as may be practicable to determine the question whether or not, under the Constitution, the City and County is entitled, as heretofore, to free water for public purposes, and requesting me to present that question alone to the Supreme Court for decision, was received by me, and, in reply, I beg leave to inform you that on the first day of this month a proceeding was commenced in the Supreme Court by the San Francisco Woolen Factory against the County Auditor, Henry Brickwedel, Esq., to compel him to enter in the proper book in his office demands Nos. 140, 141 and 142, amounting in all to the sum of \$27,000, for water supplied by the Spring Valley Water Works to the City and County during the month of July, 1880. I inclose, for your information, herewith, a copy of the petition and answer filed therein.

I also respectfully call your attention to the fact that the issues raised by the pleadings herein are broader than what my instructions call for.

The issues presented to the Supreme Court by this case are as follows:

First—Is the City entitled to free water for the extinguishment of fires, the flushing of sewers and the use of public parks?

Second—Is the so-called Bayly Ordinance valid inasmuch as it discriminates in the rates or compensation to be paid for the use of water against the City by making it pay a higher rate than other consumers?

Third—Is the so-called Bayly Ordinance constitutional, inasmuch as it apparently grants a subsidy to the Spring Valley Water Works, contrary to the provisions of Section 31, Article IV of the Constitution?

I also desire to state that before your honorable body adopted Resolution No. 15,519, it was submitted to me for my approval, and if it was not broad enough to cover the issues raised by the cause now before the Supreme Court, the fault, if any, was my own; and I would therefore request your honorable body to approve of the steps which I have taken in the premises.

Respectfully,

J. F. COWDERY,

City and County Attorney.

On February 16, 1882, a meeting of the Committee on Water and Water Supplies was held, at which all the members of the Board were present by invitation, to consider the question of fixing water rates for the year beginning July 1, 1882, and for that purpose the City and County Attorney was present to advise as to whether the statute providing for fixing the rates in the month of February was mandatory. The City and County Attorney, the Hon. J. F. Cowdery, gave the opinion that it was not discretionary, but under the statute it was the duty of the Board to proceed and fix rates in the month of February; also that in acting the Board could not be held responsible if sufficient time was not given to make such an investigation as the gravity of the question might require.

At a subsequent meeting of the committee, held on February 18, 1882, it was understood and agreed that any member who desired should prepare an Order for the fixing of water rates and offer the same at the next meeting of the Board, with the recommendation that all the Orders offered be passed to print and referred to the committee and all the members of the Board for consideration.

At a meeting of the Board of Supervisors, held on February 20th, 1882, three Orders providing for establishing water rates were respectively presented by Supervisors Carmany, Fisher and Russ. These Orders as introduced contemplated in the order named a reduction of 5, 10 and 20 per cent. of the rates established by Order No. 1632 during the year ending June 30, 1882.

Supervisor Carmany, in presenting his Order, submitted the following report:

To the Honorable the Board of Supervisors of the City and County of San Francisco:

GENTLEMEN—As Chairman of the Committee on Water and Water Supplies, I have carefully investigated the question of cost and value of the works of the different parties engaged in supplying water to the City and County and its inhabitants, and of the cost of operating the same.

In fixing the rates in the ordinance herewith presented, I have estimated the value of the works and franchise of the Spring Valley Water Works, from which the principal supply (and, in fact, the only one which affords protection against fire) is derived, at fourteen million dollars, (\$14,000,000), and have endeavored to arrange a schedule of rates that shall afford a fair, though by no means large, return upon the money invested, and at the same time be fair and just to all parties, both public and private.

It will be observed that the rates to private consumers are an average of five per cent. below those now established, and I estimate that the revenue to be derived under this ordinance, as a whole, will be less than heretofore authorized by law.

In view of the great benefit to property arising from the establishment and maintenance of water works capable of affording the protection which is afforded in this city, I believe that property ought to bear the proportion that is provided for in the ordinance herewith presented, and by doing so the rate-payers, who have heretofore borne the entire burden of this protection, will be relieved of nearly forty per cent. upon the rates which they are now paying.

Respectfully submitted,

JOHN H. CARMANY, Chairman.

On Feb. 28, 1882, the Committee on Water and Water Supplies presented the following report:

To the Honorable Board of Supervisors of the City and County of San Francisco:

GENTLEMEN:—Your Committee on Water and Water Supplies to whom was referred the various orders providing for fixing water rates for the year commencing July 1, 1882, have, in conjunction with the other members of the Board, had the same under consideration. It appears by the provisions of the statute under which the Board are required to act, that the rates must be fixed during the month of February. That being the case, but little time has been at the disposal of the Board to consider this important question in all its bearings, so as to afford the opportunity to decide clearly and unmistakably as to the just and proper rate to be established, alike fair to the people and to the Company. However that may be, your Committee has endeavored to arrive at a fair and just conclusion in believing that the valuation of the property of the Spring Valley Water Works should be estimated at \$14,000,000, about the amount which our predecessors in office seemed to determine as its value.

The Committee is also of the opinion that a fair and reasonable rate of interest should be allowed in addition to taxes and operating expenses. Also that if proper encouragement in the shape of liberal rates are allowed, it will stimulate the corporation to double its supply, which event will not alone lead to lower rates to consumers, but to an increased revenue to the corporation. The necessity for an increased supply of water so as to render it cheap in the near future to make it available for all manufacturing purposes, etc., is so apparent as to admit of no argument.

The revenue of the Company from all sources during the last year, as shown by their statement, was \$1,341,137.17, of which the sum of \$1,308,616.56 has been expended in operating expenses, interest on its debt, taxes and a dividend of 8 per cent. to its stockholders, leaving a balance on hand of \$32,520.61. In order that water in abundant quantity may be supplied by the Company and afford an opportunity to make still further reductions on the rates, it is important that the Company should connect Crystal Springs Lake with the city by a pipe line, and that the mains in the southern part of the city should be enlarged so as to afford property more adequate protection against fire. The Company estimate that the contemplated increase of supply and the laying down of larger mains in the southern portion of the city will cost from one to two million dollars.

In our opinion this improvement, by an increase—in fact, doubling the present water supply—and the laying of larger mains, is an imperative necessity, and it cannot be expected that the Company will make this large expenditure if its present revenue is seriously impaired. One of the questions which has occupied the public mind and to which there has been no reasonable objection, is that the city should pay a proportion of the compensation to be allowed for water, and in our opinion the city should pay a sum amounting to at least one-third of the revenue of the Company for the water furnished for all municipal purposes. This amount, as heretofore, ought to be raised by levy on all the property, real and personal, and when paid, to be allowed on the rates of the consumers, so as to reduce them thirty-three and one-third per cent.

Your Committee would further state that the order introduced by Supervisor Fisher best meets the above view. It reduces the rates of the previous order, No. 1,632, ten per cent., and in addition makes a reduction of 33½ per cent., contingent upon the power of the Board to make such provision. The principle involved, it is believed, will be passed upon shortly by the Supreme Court, and will determine this phase of the question. The injustice of the former system, which fixed upon the consumers of water the entire cost of the water supply, and permitted property, which receives the benefit of protection from fire, to go free, has been condemned by the people at the polls, and requires no comment.

Your Committee believe that the passage of the order recommended, though not in consonance with the views of all the members, is practically a reduction of 10 per cent. upon the rates now paid, and in our opinion any greater reduction would materially interfere with the development of the water resources upon which the future of this city so much depends, and would of necessity assist in keeping water rates high.

The passage of this order and the recognition of the rights of the Company, they having no voice in the determination of the amount of revenue to be derived from their own property, will demonstrate that at least this Board have not legislated to prevent the Company from obtaining a fair revenue on the value of their property, and this certainly will be the only means by which this corporation will be induced to double the present supply, and thus be enabled by an additional expenditure of money to bring about such a revenue as will enable a still further reduction to be made.

This action is also in consonance with the pledge exacted from us, on being nominated, it being expected that with a due regard to the rights of all parties concerned, that the members would, if

practicable on an investigation, effect a material reduction in the rates. This, we think, is effected by the Fisher Order, which, while accomplishing a material reduction in the rates, cannot be considered as oppressive to the Spring Valley Water Works.

JOHN H. CARMAN,
J. F. KENNEDY,
G. B. BRADFORD,
W. H. BODFISH.

I approve of the foregoing, except as to the valuation put upon the property of the S. V. W. Co.

H. MOLINEUX.

At the meeting held on the above named date, the following Order, as introduced by Supervisor Fisher, was finally passed, Supervisors Shirley and Russ voting no, and on the same date transmitted to the Mayor and ex officio President of the Board, as required by Section 68 of the Consolidation Act:

ORDER No. 1662.

ESTABLISHING WATER RATES AND FIXING THE COMPENSATION FOR WATER FOR ALL MUNICIPAL PURPOSES.

The People of the City and County of San Francisco do ordain as follows:

The monthly rates or compensation to be collected by any person, company or corporation engaged in the business of supplying water to the City and County of San Francisco, or the inhabitants thereof, for the year commencing July 1st, 1882, and ending June 30th, 1883, are hereby fixed as follows:

GENERAL RATES.

SECTION 1. For buildings occupied by a single family, covering a ground surface of

SQUARE FEET.	ONE STORY.	TWO STORIES.	THREE STORIES.	FOUR STORIES.	FIVE STORIES.
600 to 700.....	\$1 45	\$1 45	\$1 60	\$1 80	\$2 00
700 to 800.....	1 45	1 60	1 80	2 00	2 15
800 to 900.....	1 60	1 80	2 00	2 15	2 35
900 to 1000.....	1 80	2 00	2 15	2 35	2 50

NOTE.—No single rate less than \$1.45.

For all houses one story in height, covering a greater area than one thousand (1,000) square feet, there shall be added eighteen (18) cents for each additional 200 square feet or fractional part thereof, and the further sum of eighteen (18) cents for each additional story.

Where a house or building is occupied by more than one family there shall be charged in addition to the foregoing rates, three-quarters ($\frac{3}{4}$) of said rates for each additional family.

NOTE.—The *general* rate includes water for general household purposes, but does not include any of the following specified items:

SPECIAL RATES.

SECTION 2. Bathing tubs in private houses, for each tub.....	\$ 72
In public houses, boarding houses, bathing establishments and barber shops, where meters are not used, for each tub.....	1 62
SECTION 3. For horses kept for private use, including water for washing one vehicle:	
For one horse.....	72
Each additional horse.....	36
Each additional vehicle.....	72
For one cow.....	45
Each additional cow.....	22

SECTION 4. Boarding and lodging houses, not including water for baths, water closets and urinals, or for uses without the house, shall be charged for each head for boarders and lodgers within the same, in addition to the rates for private families.....\$0 18
 For each day boarder..... 0 13

SECTION 5. Irrigation for gardens and grounds, one cent per square yard.

Hose for washing windows and sidewalks shall not have a nozzle larger than three-eighths of an inch, and for water used for this purpose a charge may be made, in addition to that made for other uses, not to exceed two (2) cents per front foot.

SECTION 6. Water closets.

For each water closet for use of public buildings.....\$1 45
 For each water closet for use of private dwellings..... 36

SECTION 7. Urinals.

For each urinal for use of public houses or public buildings..... 36
 For each urinal for use of private dwellings..... 18

SECTION 8. For water furnished for building purposes -

Each barrel of lime..... 35
 Each thousand brick..... 22
 Stores, banks, offices, warehouses, saloons, groceries, eating-houses, barber shops, butcher shops, book binderies, blacksmith shops, confectioneries, churches, halls, laundries, photograph galleries, printing offices, steam engines, greenhouses, markets, market stalls, horse troughs, soda fountains, and other places of business not supplied by meter, to be charged, according to the estimated quantity used, from one dollar and eighty (\$1.80) cents to thirteen dollars and fifty (\$13.50) cents.

SECTION 9. Bakeries, according to monthly use of flour.

For each twenty-five barrels.....\$1 35

METER RATES.

SECTION 10. Water furnished for any and all other purposes not embraced in the above will be supplied by meter at the following rates:

- \$0.81 per thousand gallons, provided the monthly bill shall be not less than five dollars.
- \$0.63 per thousand gallons, provided the monthly bill shall be not less than ten dollars.
- \$0.45 per thousand gallons, provided the monthly bill shall be not less than fifty dollars.
- \$0.36 per thousand gallons, provided the monthly bill shall be not less than one hundred dollars

SECTION 11. The compensation to be collected for water supplied to the City and County of San Francisco for all municipal purposes shall be the sum of \$396,660, to be paid monthly in sums of \$33,055 by the said City and County to the Spring Valley Water Works.

In case the compensation hereby fixed for water supplied to the City and County of San Francisco for all municipal purposes shall be fully paid monthly by the said City and County to the Spring Valley Water Works, the same shall be allowed by said corporation, upon the rates charged to its consumers, other than the City and County, for the month succeeding the month in which the same are collected, and in such manner that the rates to such consumers for such succeeding month shall be diminished thirty-three and one-third (33 $\frac{1}{3}$) per cent., or such proportion thereof as may be collected from said City and County.

SECTION 12. All persons, companies or corporations supplying water as aforesaid shall have power in all cases to apply meters for the purpose of discovering waste or excessive use, and when waste or excessive use is found, to charge for water so wasted or excessively used at meter rates.

SECTION 13. All water rates except meter and City and County rates are due and payable monthly in advance, and when not so paid shall be subject to an addition of five per cent.

Meter and City and County rates are due and payable at the end of the month, and upon meter rates a deposit not exceeding three-fourths ($\frac{3}{4}$) of the value of the estimated quantity of water to be consumed, may be required.

Meter rates, if not paid within ten days after becoming due, shall be subject to an addition of five per cent.

At a special meeting of the Board, held, pursuant to call of the Mayor, on March 10, 1882, his Honor Mayor Blake presented and the Clerk read the following message, returning Order No. 1662, without his approval and with his objections thereto:

MESSAGE OF THE MAYOR.

MAYOR'S OFFICE, CITY AND COUNTY OF SAN FRANCISCO, }
March 10, 1882. }

To the Honorable, the Board of Supervisors:

GENTLEMEN—I herewith return to you, without my approval and with my objections, Order No. 1662, "establishing water rates and fixing the compensation for water for all municipal purposes," passed by you on the 28th day of February, 1882. The said objections are as follows:

1. It seems very important that the Order fixing the water rates for the year commencing on the 1st day of July, 1882, should be framed under the light which will be given by the decision of the Supreme Court in the case of "the San Francisco Pioneer Woolen Factory vs. Henry Brickwedel, Auditor of the City and County of San Francisco, and the Spring Valley Water Works." The decision of this case, which is expected at an early day, will doubtless determine some important questions which, as is well known, exist in regard to a part of the Order in question. I understand that the members of the Board desired the benefit of the decision of the Court, in the case before referred to, before acting upon said Order, but concluded that, under the Constitution and the Act of the 7th of March, 1881, the Order must be passed in February. The non-approval of the Order will enable them to avail themselves of the information which will soon be given by the Supreme Court.

2. I suppose it was the intention of your Honorable Board in passing this Order to effect a reduction of ten per cent. of the water rates heretofore actually collected. I understand that it will effect a reduction of ten per cent. of the meter rates, but not of the ordinary rates. From the very limited examination which I have been able to give the question, I am not certain that, all water rates considered, the Order in question would at all reduce the rates which have been collected within the last two years. The delay which the non-approval of this Order will occasion, will give you an opportunity for a more careful examination, so that you may be sure, if you are not, of the reduction which it will actually accomplish, or as nearly sure as the nature of the case will admit. Under the circumstances attending the passage of the Order, there was probably very little opportunity for that full and careful examination essential from the nature of the case. I do not question that every member of your Honorable Body intended, in his action upon the Order under consideration, to respect, in its letter and spirit, the pledge taken by him as a candidate, which, in case of most of you, was to fix a schedule of water rates materially reducing the present rates. As I suppose each of you intended to keep, and intends to keep, this pledge, it is not, I think, improper or irrelevant for me to say that I intend to keep it, for it is my pledge as well as yours, and I shall not approve any Order in regard to water rates which, in my judgment, does not make this pledge good. And I intend in my action upon any Order fixing water rates, not only to regard my pledge, but to regard my oath, which binds me to do justice; and should it happen, in any case, that I cannot in my judgment regard both, I know very well what I should do, but I shall not violate either my pledge or my oath. I think that a reduction of ten per cent. from the water rates heretofore actually collected, the entire rates being considered, would be a *material* reduction, and it may be all the reduction which would be fair and just, but this last point I reserve for fuller information. The rates which should be fixed, should be fair and just, both to the rate-payers and to the company or persons supplying water, whatever reduction they may occasion, whether greater or less than ten per cent.

In brief, I return the Order without my approval, to the end that the Supervisors, as well as myself, may have the benefit of the decision of the Supreme Court in the case before referred to, and of a fuller and more careful examination of the facts necessary to be ascertained in order properly and justly to fix the water rates.

All of which is respectfully submitted.

MAURICE C. BLAKE, Mayor.

The message of his Honor Mayor Blake was ordered published and spread upon the minutes of the Board.

On the same day, the Hon. Supreme Court filed a decision in the case of the San Francisco Pioneer Woolen Factory *versus* Brickwedel, Auditor, in

which the principle as embodied in Order No. 1573, providing for payment to the Spring Valley Water Works for water used for all municipal purposes and for a rebate to other consumers conditional upon said payment, was decided to be unconstitutional.

The following is the decision referred to:

SUPREME COURT DECISION.

[Filed March 10, 1882.]

IN BANK.

SAN FRANCISCO PIONEER WOOLEN FACTORY }
 vs. } No. 8252.
 BRICKWEDEL, AUDITOR.

The petitioner alleges that on the first day of June, 1880, the Board of Supervisors of the City and County of San Francisco passed an Ordinance known as "Order No. 1573 - Establishing Water Rates," to take effect on the first day of July thereafter, and that by Section 11 of said ordinance it is provided that "The rates of compensation to be collected for water supplied to the City and County of San Francisco for municipal purposes shall be as follows:

"Fifteen (\$15) dollars per month for every hydrant for fire purposes and for flushing sewers. Five hundred (\$500) dollars per month for water furnished for Golden Gate Park. Seven thousand (\$7,000) dollars per month for water for all the public buildings" * * * "due and payable at the end of each month."

And it is further alleged that in and by said ordinance rates were also prescribed to be collected for water furnished for domestic and other purposes to private consumers.

But it was provided in said ordinance that "in case the rates or compensation hereby fixed for water supplied to the City and County of San Francisco for municipal purposes shall be fully paid monthly by the said City and County to the Spring Valley Water Works, the same shall be allowed by said corporation upon the rates charged to its consumers other than the City and County, for the month succeeding the month in which the same are collected, and in such manner that the rates to such consumers for such succeeding month shall be diminished twenty-five (25) per cent., or such proportion thereof as may be collected from said City and County."

Since the passage of that ordinance such proceedings have been had by said Board as to entitle the Spring Valley Water Works to have its claims for compensation for water furnished to said City and County, audited and allowed by the respondent as Auditor of said City and County, provided said ordinance was valid. But it is alleged that the respondent has refused to audit and allow said claims, and that by reason thereof said Spring Valley Water Works has not allowed anything upon the rates charged to its private consumers, of which the petitioner is one, and it therefore asks the Court to compel the allowance of said claims against the City and County, in order that the Spring Valley Water Works may be compelled to proportionately diminish the rates charged to the petitioner as a private consumer of its water.

It is claimed on behalf of the petitioner that by Section 1 of Article XIV of the Constitution, it is made the duty of said Board of Supervisors to fix the rates or compensation to be collected by said Spring Valley Water Works for the water supplied to said City and County, or the inhabitants thereof, and that by the passage of the ordinance above referred to, said Board strictly fulfilled the requirement of said clause of the Constitution. But we have looked in vain for any provision of the Constitution which would authorize said Board to fix the rates to be paid by the City and County, and then, in effect, provide that if said City and County did not pay the rates so fixed for it to pay, that the same should be added to the rates fixed for private consumers to pay. Or, that in case the City and County did pay its rates or any part thereof, that the amount paid by it should be allowed to private consumers. We do not think that the language of the Constitution will admit of that construction. If it confers upon the Board the power to fix the rates or compensation which the City and County must pay to the Spring Valley Water Works, for water supplied to said City and County, it is very clear that when said rates are fixed, it concerns nobody except the Spring Valley Water Works and said City and County, whether said rates are paid by the latter or not. The ordinance under consideration simply provides that, if the Spring Valley Water Works collects any money from the City and County for water, it shall credit the amount so collected to private consumers of water. Is that fixing rates? If not, that provision of the ordinance is void, and the petitioner can claim nothing by virtue of it.

The question mainly discussed on the hearing of this case was whether, under the Constitution, the City and County is chargeable for water which, under the general incorporation law of the State, it was entitled to have furnished without charge before the adoption of the Constitution.

But that question does not arise in this case. The petitioner's right to be heard depends wholly upon the validity of the ordinance now before us. If invalid, as we think it to be, the Auditor cannot be compelled to audit and allow claims for water furnished to the city under it. And that is the only question now before the Court.

Application denied.

SHARPSTEIN, J.

We concur:

THORNTON, J.,
MORRISON, C. J.,
MCKINSTRY, J.

I concur in the judgment:

McKEE, J.

CONCURRING OPINION.

First—In Article XIV, Section 1, of the Constitution of 1879, it is declared that "the use of all water now appropriated, or that may hereafter be appropriated, for sale, rental or distribution, is hereby declared to be a public use, and subject to the regulation and control of the State;" and "that the rates or compensation to be collected by any person, company or corporation in this State, for the use of water supplied to any city and county, or city or town, or the inhabitants thereof, shall be fixed, annually, by the Board of Supervisors," etc. Section 2. "The right to collect rates or compensation for the use of water supplied to any county, city and county, or town, or the inhabitants thereof, is a franchise, and cannot be exercised except by authority of and in the manner prescribed by law."

Before the adoption of the Constitution of 1879, there was a growing assertion on the part of interested parties, that when a franchise had been granted by the Government, it so far partook of the nature of a contract that neither its existence nor its mode of being exercised could thereafter be interfered with or controlled; that the creature became and was independent of its creator. This idea had, in some States, received the sanction of the courts.

The insertion of the above quoted provisions, and some others, in the Constitution, is a protest on the part of the people of this State against the growing assumption. The people declared, in language unmistakable, that the use of water for sale, rental or distribution is a public use, subject to the regulation and control of the State, and that the right to collect compensation is a franchise, and cannot be exercised except by authority of and in the manner prescribed by law.

This language is plain and direct, and means just what it says. It is to apply to all water for sale, rental or distribution by means of a franchise. It will control all franchises heretofore or hereafter to be granted or exercised. If any provision in any existing franchise is contrary to or assumes to give privileges or impose burdens inconsistent with this language, such provision must give way. In my opinion, then, it follows that the Board of Supervisors of the City and County of San Francisco has had, since the new Constitution went into effect, and has, the power to fix and determine the rates or compensation to be collected by the Spring Valley Water Works, as well from the City and County as from private persons, any provision in any statute to the contrary notwithstanding; that the Board of Supervisors has the power to determine what amounts respectively would be proper for individuals to pay for water furnished to and used by them, and what amounts respectively should be paid by taxation for water used for fire purposes, for flushing sewers, for public buildings and offices, for sprinkling streets and for beautifying parks. The Board may fix the rates for each and all these purposes by a system of measurement, if practicable, or it may adopt any other mode which, in its judgment, will attain the required result. It may determine what sum would be a proper proportion for property to pay, through taxation, for the benefit it receives, and what sums individuals should pay for benefits they receive; and I find nothing in the Constitution which prevents the Board from relying upon the judgment of its own members in fixing such proportions.

As if to declare more certainly, if possible, that the people were in earnest in their intention to have control over franchises of this character, it is also declared in Section 1, above referred to, that if any person, company or corporation shall collect water rates in any city and county, or city or town, otherwise than as established, the franchise and water works shall be forfeited for the public use.

This question of water supply and regulation in this State is much broader than local differences as between rate-payers and taxable property in San Francisco. It is co-extensive with the State, and may be co-extensive with its prospects and needs. It may be that in dealing with the subject at large, and in laying down general rules to be applied to the water supply throughout the State, local changes will result, not to the satisfaction of all; but that is no argument against the application of the general rules, nor any reason why the will of the people, as expressed in the Constitution, should not be enforced and acted upon. In cities and counties, and cities or towns, the local governing bodies are to fix rates. In other subdivisions of the State the supply of water is subject to the regulation and control of the Legislature.

Second—In the ordinance before us (Order No. 1,573, approved June 10, 1880), the Board of Supervisors of the City and County of San Francisco did not fix rates or compensation for water to be furnished during the year commencing July 1, 1880, to the City and County, nor to the inhabitants thereof, as it was authorized and required by the Constitution to do. After naming sums as rates to be paid for water furnished to houses, tenements, offices, etc., etc., and for other individual purposes, the order proceeds in Section 11 to name sums as rates or compensation to be collected for water supplied to the City and County for municipal purposes, viz., fifteen dollars per month for each hydrant, five hundred dollars per month for the Golden Gate Park, and seven thousand dollars per month for all the public buildings; but at the close of that section is a clause which destroys the effect of the whole order. That clause is as follows:

"In case the rates of compensation hereby fixed for water supplied to the City and County of San Francisco for municipal purposes, shall be fully paid monthly, by the said City and County to the Spring Valley Water Works, the same shall be allowed by said corporation, upon the rates charged to its consumers, other than the City and County, for the month succeeding the month in which the same are collected, and in such manner that the rates to such consumers for such succeeding month shall be diminished twenty-five per cent., or such proportion thereof as may be collected from said City and County."

This is not *fixing rates*—it is naming rates with a contingency. If the city pays, the rates to individuals are to be diminished: or, at least, there is to be a rebate. The amount, too, of the rebate is uncertain. If the city pays *so much*, there is to be a rebate of twenty-five per cent.; if it pays less, there is to be a proportionate rebate. Who is to determine the proportion? Who is to determine how much will have been paid by the city, and thus ascertain the amount of the rebate? As we said above, this is not *fixing rates*. To fix is to establish, to settle, to determine, to limit, to define. To name a sum to be paid, with some uncertain amount to be repaid upon a contingency, is not a fixing of rates. In the first place, the order goes on to name rates to be paid by individuals and thereby names the amounts they ought properly to pay, respectively, for water used by them; and then says, if some one else, viz., the City and County, shall pay the sums which ought to be paid by it, and that promptly, month by month, then, in that case, the sums named to be paid by individuals are too large, and there shall be a rebate.

That kind of legislation is too uncertain to be called legislation. As well might the Board have said, if Mr. A shall pay his water bills at, say five dollars per month, Mr. B's bills shall be five dollars; but if Mr. A shall not pay his bills in full, Mr. B shall pay a proportional increase.

The Constitution is very plain and direct in its provisions. The Board of Supervisors is to fix the rates or compensation for the use of water to be supplied to the City and County; the Board is, also, to fix the rates or compensation for the use of water supplied to the inhabitants of the City and County; the Board is to fix—not leave indefinite and uncertain. Until there shall have been a fixing of rates, according to the Constitution, I do not see how the City and County can be compelled to pay; neither do we see how the City and County can be compelled to do an act in furtherance of the uncertainty created by the ordinance.

MYRICK, J.

The purpose of this proceeding, as explained by all parties, is to obtain a determination by this Court of two questions—first, whether or not the Spring Valley Water Works is now under the legal obligation to furnish water to the City and County of San Francisco free of charge for any purpose—and second, whether or not the so-called Bayly Ordinance is valid. Both questions have been elaborately argued, a decision on both requested by all parties, and as the questions are of public as well as of private interest, I think they ought now to be determined.

As respects the first, I am of the opinion that the construction placed by a majority of the Court on the provisions of the new Constitution in relation to water, in the case of the Spring Valley Water Works vs. The Board of Supervisors of the City and County of San Francisco, 7 Pac. C. L.

J., 614, necessarily results in relieving that company of the obligation to furnish water to the City and County of San Francisco free of charge for any purpose. I dissented from that construction, and, in an opinion filed at the time, stated why I thought that result would follow the construction then adopted by the majority. Subsequent reflection and investigation has but confirmed and strengthened the views I then expressed. I thought then, and think now, that by incorporating and availing itself of the privileges conferred by the Act of 1858, the Spring Valley Water Company entered into a contract with the State by which it agreed, among other things, to furnish water to the extent of its means to the City and County of San Francisco free of charge, in case of fire or other great necessity—which latter terms, it has already been determined by this Court, included all water necessary for sprinkling streets, watering public squares and parks, for flushing sewers and for all like purposes beneficial to the public; and, as a part consideration for this agreement on the part of the company to furnish water free of charge for those purposes, the State agreed that the company should be entitled to furnish pure, fresh water to such of the inhabitants of the City and County as should wish to take it, for family uses, at reasonable rates and without distinction of persons, upon proper demand therefor—such rates to be determined by a majority of a Board of Commissioners, to be selected: Two by the City and County and two by the water company; and in case of the inability of the four to agree to the valuation, then the four to choose a fifth person, who should also become a member of the Board; and in the event of the inability of the four commissioners to agree upon a fifth, then the sheriff of the county to appoint such fifth person. (Act of April 22, 1858, Stats. 1858, p. 219.) Whether the rates which would be fixed by a Board so constituted would be higher or lower than those fixed by the Board of Supervisors, is a question with which the Court has nothing to do.

That the manner of fixing the rates was as much a part of the agreement between the company and the State as was the agreement to furnish the public water for certain purposes free of charge, is, to my mind, beyond any and all question. Both the right and the obligation arose out of contract and out of contract alone, and the one formed an important part of the consideration for the other. This contract, relating as it did to property rights—to the disposition of the water the company owned—was, in my opinion, beyond the reach of subsequent legislation, statutory or constitutional. But a majority of my associates were of the opinion that the provisions of the new Constitution applied to this company, and annulled its right to have the water rates fixed in the manner provided by the Act of 1858; and the court so determined. It having been thus decided that the provisions of the new Constitution apply to the Spring Valley Water Company, it seems clear enough that the obligation on the part of the latter to furnish water free for any purpose, no longer exists. It certainly cannot be said that the provisions of the Constitution apply to this company for one purpose and not for another—that so far as a burden is imposed, they apply, but so far as a right or privilege is granted, they do not apply. To so hold, would not only be to adopt a rule of construction altogether new and manifestly unjust, but it would also be in direct contravention of that provision of the Constitution itself which declares that its provisions are mandatory and prohibitory, unless by express words they are declared to be otherwise.

Applying, then, the provisions of the Constitution to the Spring Valley Company, we find that company clothed by the 19th section of the 11th article with the privilege of introducing into and supplying "the City and County of San Francisco and its inhabitants * * * with fresh water for domestic and all other purposes, upon the condition that the municipal government shall have the right to regulate the charges thereof."

Elsewhere in the same section the company is charged with the payment of damages to persons injured by laying of pipes, etc., but with this exception, the sole condition here imposed on the company, in granting to it the privilege of introducing and supplying the City and County of San Francisco and its inhabitants with fresh water for domestic and all other purposes, is that the municipal government shall have the right to regulate the charges thereof. And this provision is followed up by Section 1 of Article XIV of the Constitution, in which it is declared that the rates or compensation to be collected for water so supplied shall be fixed, annually, by the Board of Supervisors, by ordinance, which shall continue in force for one year and no longer. Such ordinances are required to be adopted in the month of February of each year, and to take effect on the first day of July thereafter; and it is further provided that if the Board fail to pass such ordinances within such time, it shall be subject to peremptory process to compel it to do so, at the suit of any party interested, and shall, also, be liable to such further process and penalties as the Legislature may prescribe.

These provisions of the Constitution applied to the Spring Valley Water Company, as they must be under the decision to which allusion has been made, leave no doubt in my mind that the company has thereby become entitled to receive compensation for all water furnished the City and County, to be fixed in the mode pointed out in the Constitution itself.

The question remains: Does the Bayly Ordinance fix the rates or compensation to be collected for

the use of the water supplied to the City and County and the inhabitants thereof? With the reasonableness of the rates or compensation the courts have nothing to do. That is a matter for the Board of Supervisors, although, of course, the Constitution contemplates that the rates or compensation to be established shall be fair and just—to the company furnishing the water, and just to those who use and have the benefit of it. But when the Board undertakes to fix the rates or compensation it must do so. To make the rates or compensation depend on a contingency or on contingencies, as does the ordinance in question, is not to fix them. Fixed means settled, established, firm. To say that certain rate-payers shall pay certain sums, provided the City and County shall pay a certain other sum or sums, in which event the amounts to be paid by the rate-payers shall be proportionately reduced, is not to fix anything, and does not answer the requirement of the Constitution, which, as I understand it, is that the Board of Supervisors shall by ordinance declare absolutely, independent of conditions and irrespective of contingencies, the rates or compensation to be collected by the Water Company for the use of water supplied to the City and County for the use of water supplied to the City and County and to the inhabitants thereof. When so fixed, the company is as much entitled to collect the amount from the City and County as from the inhabitants.

I concur in the judgment denying the writ.

ROSS, J.

At a subsequent meeting of the Board, held March 13, 1882, the message of his Honor Mayor Blake was taken up and considered.

The following communication was presented by Supervisor Fisher, as embodying his views, which was received, read and placed on file:

COMMUNICATION OF SUPERVISOR FISHER.

To the Honorable Board of Supervisors

of the City and County of San Francisco.

GENTLEMEN—As the member who introduced Order No. 1,662, providing for the establishment of water rates, and fixing the amount of compensation for water used for municipal purposes, finally passed by your honorable Board, and returned by his Honor Mayor Blake without his approval, and with his objections thereto, I desire to state briefly my position and views on this subject. In the first place, after a personal consideration of this question of water rates, I believed then and I believe now, that a reduction of 10 per cent. of the present rates to be what is fair and reasonable alike to consumers and the Spring Valley Water Works; and I am not now, and I know I never shall be in favor of seconding or taking any aggressive or oppressive means to impair or destroy the value of the property of any person, company or corporation to satisfy the prejudices or evil designs of persons inimical to fair dealing.

Especially is this a subject requiring some firmness and independence of character, as the parties interested have no voice in the matter of determining the amount of compensation and income to be derived from their own property, while a portion of the public press seems disposed to prevent any fair, candid or conscientious treatment being accorded to them, and if not successful, then by vituperation and reiteration and continued false statements endeavor to convince the public mind that nothing but a reduction crippling and destroying the future usefulness of the corporation should have been the proper policy to pursue. I agreed fully with the report of the Water and Water Supply Committee upon the question of the recommendation of the passage of the order which I had the honor to introduce. In the consideration of a matter of this importance I feel satisfied that upon a proper investigation every intelligent and unprejudiced citizen would indorse the rates fixed by Order No. 1,662 as fair, just and considerate, and I pride myself that this class of our citizens would feel outraged if, obeying the behests of the vicious rule-or-ruin class, who attempt to create or represent public opinion, we should take the action dictated by them and do an injustice and a gross outrage to the company engaged in the supplying of such an indispensable want as an unlimited supply of pure, fresh water.

In my consideration of this question it naturally occurred to me to inquire as to the water facilities of this peninsula, and I ascertained that, beyond the few artesian wells,

the inhabitants of this City and County for all public and almost all private wants were dependent upon the supply of water furnished by the Spring Valley Water Works; that the enterprise, business sagacity and prudence of that company had acquired sources of supply which in addition to the present supply can and will be utilized and connected with this city from time to time, thus insuring and protecting the future of this City and County from anything like a water famine. It further occurred to me, in what condition would this City and County and its future be if, for any reason, inadequate supplies of water were furnished, or this water supply should be interfered with or imperiled, and to inquire what additional amounts would be expended in the connection of these auxiliary supplies of water which will be so needed, if an illiberal or unjust policy were pursued, and I felt satisfied in my own mind that the subject of determining a just and fair compensation was one that should not be arrived at or adjusted except upon a basis which would encourage the company to increased expenditures as well as promote the sanitary well-being of the people.

The surest and most effectual mode of securing cheap water is encouraging by such treatment the connection of other available sources. This in time—within two years, as I am informed—will be effected, and will lead to that much-desired end, and still afford a proper and just revenue to the company. On a water supply of 12,000,000 gallons per diem (and I am assured the supply is largely in excess of this) the company do not realize to exceed twenty-eight cents per thousand gallons furnished under the provisions of this order. A similar provision of a former order, in providing for the payment by the City and County of 25 per cent. of the entire revenue of the company, and for a rebate to that extent of the rates charged to consumers, having been determined by the Supreme Court since the passage of this order to be unconstitutional, in that a contingent provision of that character is not fixing rates, it follows that the veto of his Honor the Mayor should be sustained.

It was understood that the question of whether or not the City and County was still entitled to free water for certain municipal purposes under the provisions of the Constitution would be decided and thus enable the Board to intelligently legislate upon the establishment of rates, but the opinion of the honorable Supreme Court just rendered, states "that the question does not arise in this case." This is somewhat singular, as the resolution of the Board, passed at the suggestion and with the approval of the Hon. J. F. Cowdery, City and County Attorney, instructed that officer specially to have that particular question presented, stripped of all immaterial issues.

This being the status of the case, I am in favor of postponing further action, if it shall appear that this question can be presented to and passed upon by the Supreme Court in time to allow action being taken by the Board as contemplated by law.

In my judgment a decision which should determine that the City and County is entitled to free water as heretofore would be unfortunate in its results, and I so term it for the reason that the benefits, blessings and protection afforded by a large and abundant supply of water are of great enhancing value to property, and property necessarily should be called upon to pay its just proportion (which, in my opinion, should not be less than one-third), in order to apportion justly and lessen the rates to be collected from the rate-payers.

Whatever may be the opinion expressed by designing persons who present their views under the pretended assumption of public opinion, it must certainly follow that if it should be decided that property cannot be taxed under the present laws to pay its just proportion, the principle will be adopted by political parties that property must pay its quota, and in the bid for political influence and control it appears evident to me that eventually free water for consumers will be a political necessity and will be accomplished by the force of political strength, and will lead to the amending of the State Constitution or statutes, if they stand in the way, and the enactment of such laws as will compel the payment of water rates to be defrayed by a general tax upon property, just as police and fire protection and street lights are paid for at present. When it is considered that none of these wants are as indispensable as water, the transition from the present

mode of special to general taxation will not be surprising, but, I think, probably will be heralded as proper and beneficent legislation.

In order that some action may be taken which will enable the Board to proceed intelligently, I will at the proper time introduce a resolution for such action as you may deem proper, instructing his Honor the Mayor and the City and County Attorney on behalf of this City and County to respectfully request the honorable Supreme Court to take into consideration this question of so much public importance, and if in their judgment it can be passed upon as supplementary to the decision of that honorable Court in the case of "The San Francisco Pioneer Woolen Factory vs. Brickwedel, Auditor," to decide "whether under the Constitution the City and County is chargeable for water, which, under the general incorporation law of the State, it was entitled to have furnished without charge before the adoption of the Constitution."

Yours respectfully,

CHARLES A. FISHER.

The Mayor's veto of Order No. 1,662 was then, on motion of Supervisor Fisher, sustained by a unanimous vote. At the same meeting of the Board, the following resolution, presented by Supervisor Fisher, was adopted by a unanimous vote:

RESOLUTION NO. 15,600. (New Series.)

Resolved, That the Mayor and the City and County Attorney be and they are hereby instructed, on behalf of this City and County, to respectfully request the Honorable the Supreme Court to take into consideration the question of the right of the City and County to free water for municipal purposes, and if practicable to pass upon the same as supplementary to the decision of said Court in the case of the San Francisco Pioneer Woolen Factory vs. Brickwedel, Auditor.

At a meeting of the Board, held March 20th, 1882, his Honor Mayor Blake presented the following communication relative to the action taken in response to the requirements of Resolution No. 15,600 (New Series):

COMMUNICATION OF MAYOR.

MAYOR'S OFFICE, CITY AND COUNTY OF SAN FRANCISCO, }
March 20, 1882. }

To the Honorable Board of Supervisors

of the City and County of San Francisco:

GENTLEMEN—In compliance with your Resolution No. 15,600, I forwarded a copy of said resolution to his Honor Chief Justice Morrison, and with it a letter, of which the following is a copy:

SAN FRANCISCO, March 15, 1882.

Hon. Robert F. Morrison, Chief Justice, etc.:

DEAR SIR—Allow me to present to you the inclosed copy of resolution, and to request that you will lay it before your Associates. You know that I very much desire that the Supreme Court will decide the question referred to in the resolution, and I am glad of the opportunity of submitting upon this point the unanimous wish of the Supervisors of this City and County.

With great respect, truly yours,

M. C. BLAKE, Mayor.

In response, I have received a communication from the Chief Justice, which is herewith submitted. It would seem that the question of free water could not have been authoritatively passed upon in the case of The Pioneer Woolen Factory vs. Brickwedel, Auditor, et al.

All of which is respectfully submitted.

M. C. BLAKE, Mayor.

STATE OF CALIFORNIA, JUDICIAL DEPARTMENT SUPREME COURT, }
 CHAMBERS OF THE CHIEF JUSTICE, }
 San Francisco, March 17, 1882. }

Hon. M. C. Blake, Mayor:

DEAR SIR—Your communication in reference to the case of the Pioneer Woolen Factory vs. Brickwedel, Auditor, has been received, and I have submitted it, as well as the accompanying resolution of the Board of Supervisors, to the Justices of the Supreme Court. They respectfully decline to pass upon the question of free water to the city, and the reason of the declination is that the question is not involved in the above case, and, therefore, a decision upon it would be mere *obiter dictum*. The case of the Pioneer Woolen Factory vs. Brickwedel, Auditor, simply involved the validity and effect of the so-called Bayly Ordinance, and the Court having decided that that ordinance did not fix the water rates agreeably to the requirements of the Constitution, no other question was left in the case for the Court to decide. In the absence of a valid order fixing the water rates, the plaintiff in the case referred to has no standing in Court, and, therefore, the question of free water cannot be authoritatively passed upon.

Respectfully, your obedient servant,

R. F. MORRISON, Chief Justice.

At the same meeting the following communication was received from the Hon. J. F. Cowdery, City and County Attorney, under date of March 16, 1882, reporting the action taken with a view to bringing about a decision of the Supreme Court:

COMMUNICATION OF CITY AND COUNTY ATTORNEY.

SAN FRANCISCO, March 16, 1882.

To the Honorable the Board of Supervisors

of the City and County of San Francisco:

GENTLEMEN—In reply to Resolution No. 15,600 (New Series), I respectfully state that on Friday, March 11th, his Honor the Mayor of the City and I presented a petition to the Supreme Court, requesting a decision upon the question of the right of the city to free water, notwithstanding its decision rendered the day before. To this petition no reply has been received, but it is hoped that our petition will be granted.

In this petition we were joined by Messrs. Wallace, Greathouse & Blanding, the attorneys for the San Francisco Pioneer Woolen Factory, by Mr. Newlands, the attorney of the Spring Valley Water Works, and by the attorneys of the Oakland Water Company, Messrs. Flournoy & Mhoon.

I desire, in this connection, to state that the case of the San Francisco Pioneer Woolen Factory vs. Henry Brickwedel was presented to the Supreme Court exactly in accordance with the instructions of your Honorable Board. All parties interested agreed upon the manner and form of presenting the case to the Court, and we all regret that the merits of the city's claim to free water was not disposed of.

Respectfully,

J. F. COWDERY,
 City and County Attorney.

The following communication from the Spring Valley Water Works, making a demand upon the Board to fix the water rates, was received on March 20, 1882, and referred to the committee on Water and Water Supplies:

COMMUNICATION OF SPRING VALLEY WATER WORKS.

To the Honorable Board of Supervisors

of the City and County of San Francisco:

GENTLEMEN—The Spring Valley Water Works, organized under the laws of this State, and engaged in the business of supplying pure, fresh water to the City and County of San

Francisco, and to the inhabitants thereof, and being the only corporation, firm, association, person or company supplying water to said City and County for municipal purposes, hereby respectfully requests and demands of your Honorable Board that you fix the rates or compensation to be collected and paid for water supplied to the inhabitants of said City and County, and also to the said City and County for all municipal purposes, including in the latter not only rates or compensation for water supplied and to be supplied to said City and County for its family uses, but also for water supplied and to be supplied for all municipal uses for which the public authorities may require or demand the same, and that you so fix such rates or compensation as to yield to this company the revenue to which it is entitled.

Respectfully yours,

SPRING VALLEY WATER WORKS.

By CHAS. WEBB HOWARD, President.

SAN FRANCISCO, March 20, 1882.

At a special meeting of the Board of Supervisors, held on March 22, 1882, pursuant to call of his Honor Mayor Blake, the committee on Water and Water Supplies presented the following report upon the demand made by the Spring Valley Water Works:

REPORT OF THE COMMITTEE ON WATER AND WATER SUPPLIES.

To the Honorable Board of Supervisors

of the City and County of San Francisco.

GENTLEMEN—Your Committee on Water and Water Supplies to whom was referred a communication from the Spring Valley Water Works, making a demand upon this Board to fix the rates or compensation to be collected for water supplied to the inhabitants of this City and County for the year commencing July 1st, 1882, also the rates or compensation for water to be supplied to the City and County for all municipal purposes, would respectfully report that it was considered desirable that some action should be taken to bring about a decision as to whether or not the City and County, under the Constitution, is liable to pay for water supplied in cases of fire, for the irrigation of the public squares and parks, for the sprinkling of streets, the flushing of sewers, and for such other purposes which, under a former decision of the Supreme Court, filed July 5, 1877, it was held the city is entitled to free of charge. As no subsequent action has been taken to bring about a consideration and decision of this question since the adoption of the new Constitution, it seems to your committee that the only course left is to accept the decision of the Supreme Court rendered in 1877 and prepare an order fixing rates, but excluding therefrom, any rate or compensation for water supplied for the purposes which, under the decision of said Court the City and County is entitled to free of charge. While believing it to be in the interest of property that the people should be supplied with an abundant supply of water as nearly without cost to the consumer as possible, and that property should be taxed and pay a proportion of the cost, your committee see no recourse but to act in accordance with the decision of the Supreme Court referred to, that the City and County is entitled to free water.

JOHN H. CARMANY,
J. F. KENNEDY,
H. MOLINEUX,
W. H. BODFISH,
G. B. BRADFORD.

The Committee on Water and Water Supplies further presented the following resolution, which was adopted by a unanimous vote:

RESOLUTION NO. 15,616. (New Series.)

WHEREAS, The Spring Valley Water Works is the only individual, firm, association, company or corporation engaged in the business of supplying fresh water to the City and

County of San Francisco, or the inhabitants thereof, from whose works any supply is furnished or taken for municipal purposes, or whose works are capable of supplying the wants of the municipality;

And WHEREAS, Said Spring Valley Water Works is a corporation organized under the provisions of an Act of the Legislature entitled "An Act to provide for the incorporation of water companies," approved April 22, 1858, and by the terms of said Act is required to furnish water to said City and County in case of fire or other great necessity, free of charge;

And WHEREAS, The Supreme Court has heretofore determined that under the provisions of said Act the City and County is under obligation to pay for the water supplied for those municipal purposes which are denominated "family uses" when rates therefor shall have been fixed; but that said corporation is under obligation to furnish water to said City and County in cases of fire and for the irrigation of its public squares and parks, for the sprinkling of streets, the flushing of sewers, and for all other municipal purposes for which the public authorities may demand the same, except its "family uses," free of charge. Now, therefore,

Resolved, That this Board will proceed to fix the rates or compensation to be collected by any individual, firm, association or corporation engaged in supplying fresh water to said City and County for its "family uses," as the same have been heretofore defined by the Supreme Court, or to the inhabitants thereof, but that it will not fix rates to be paid or collected for any water furnished or to be furnished in cases of fire, or for the irrigation of its public squares or parks, the sprinkling of its streets, the flushing of its sewers, or for any municipal purpose for which the public authorities may demand the same, except its "family uses" aforesaid, for the reason that it is the duty of said Spring Valley Water Works to furnish the water therefor free of charge. And the Committee on Water and Water Supplies are hereby directed to prepare and present to this Board an ordinance drawn accordingly.

On application of the Spring Valley Water Works, the Supreme Court granted an alternative writ of mandate, returnable before the Court in bank at 10 o'clock on Wednesday, March 29th, 1882, requiring the "Board of Supervisors forthwith to proceed to and fix the rates or compensation to be collected for all water supplied, as well to said City and County as to the inhabitants thereof, and that it be adjudged and determined that this petitioner is not under obligation to furnish water to said City and County for any municipal purpose whatever, free of charge."

The City and County Attorney, on behalf of the Board, filed an answer, setting forth that it was not the duty of the Board of Supervisors to fix rates or compensation for water for any other municipal purpose except that denominated family uses, and that under the Act of the Legislature of 1858, under which the company was incorporated, the City and County was entitled to water for all municipal purposes free of charge.

The following communication from that officer, under date of March 30, 1882, was received, informing the Board of the submission of the case for decision:

COMMUNICATION OF CITY AND COUNTY ATTORNEY.

SAN FRANCISCO, March 30, 1882.

To the Honorable, the Board of Supervisors

of the City and County of San Francisco:

GENTLEMEN—On the 23d day of March, 1882, the Spring Valley Water Works commenced proceedings in the Supreme Court to compel your Honorable Board by mandamus to proceed to fix the rates which the city shall pay for water for municipal purposes.

On Wednesday of this week the case came on to be heard before the Court in bank, and was submitted upon the merits.

Respectfully,

J. F. COWDERY,
City and County Attorney.

On June 5, 1882, the Committee on Water and Water Supplies presented the following report, accompanied by an order fixing water rates for the year ending June 30, 1883, which was received, read and referred to a committee, consisting of all the members, to-wit:

REPORT OF COMMITTEE ON WATER AND WATER SUPPLIES.

To the Honorable, the Board of Supervisors

of the City and County of San Francisco.

GENTLEMEN—Your Committee on Water and Water Supplies, who, by resolution of your Honorable Board, were instructed, to prepare an order establishing water rates for the year ending June 30, 1883, in accordance with decisions of the Supreme Court rendered in 1877, on the presumption that the City and County was entitled to water free of charge for all municipal purposes, except the water furnished and used for family purposes in all the public buildings, would respectfully report that, on the passage of the said resolution, the Spring Valley Water Works obtained a writ of mandate to compel your Honorable Board to show cause why it should not provide for the payment for water furnished and used for all municipal purposes, which question has been heard by and submitted on briefs to the Supreme Court for decision. In hopes that a decision would have been rendered so as to have enabled you to intelligently legislate on this matter, your committee have refrained from presenting any order for your consideration until now; but as sufficient time is barely left to pass an order in compliance with the requirements of the Consolidation Act so that water rates may be established on and from July 1, 1882, your committee have felt it their duty, in compliance with your instructions and with a due regard to all interests, to prepare and submit an order for that purpose.

The order prepared by your committee is based upon the order introduced by Supervisor Fisher, eliminating those provisions which the late decision of the Supreme Court holds to be unconstitutional, and differing from that order only in providing for the payment of \$7,000 per month by the City and County, for the water used for family purposes in the public buildings, and making a reduction to that extent in the rates to be paid by consumers.

That order having met with the approval of nearly all the members of your Honorable Board, it was considered proper in the preparation of this order to consider and adopt the principles, as advanced by Supervisor Fisher, together with the amount to be allowed to provide such a revenue as would be fair to the company, and an incentive to keep their works and property in the highest efficiency, to insure a bountiful supply of water for the use of the inhabitants and *the protection* of their property.

The order submitted by your committee, as stated, provides for a payment of \$84,000 per annum for water used for family purposes, and reduces the rates as presented in the Fisher Order seven per cent. The order, therefore provides for a reduction from the present rates as fixed by the Bayly Order, of seventeen per cent. The results of the investigations previously had on this question have heretofore been presented to your Honorable Board, and your committee therefore deem it unnecessary to again present views as to the valuation and income of the works of the Spring Valley Water Works, as practically all the members of your Honorable Board have formed opinions based on a previous examination of this subject.

Your committee beg leave to state that the delay in presenting an order for your consideration at an earlier period, was, in consequence of it, being understood that the attitude taken by your Honorable Board, in assuming that water furnished for municipal

purposes (except for family uses) was free of cost or charge to the City, being for the purpose of obtaining a decision of the Supreme Court, whether or not under the new Constitution, the same obligation devolved upon the company as decided by said Court in 1877.

The injustice of the water consumer bearing the entire burden of the water supply, has been presented at length in former reports and communications on this subject, and your committee believe it is thoroughly and intelligently understood, and therefore will conclude by stating, that while the present order is prepared under the provisions of law as interpreted, it is neither in accord with the views of this Board, or with what could be considered, except to the prejudiced and malicious, as a just and fair determination, inasmuch as property escapes paying its proper proportion of the rates for water supplied for its protection.

JOHN H. CARMANY,
H. MOLINEUX,
W. H. BODFISH,
G. B. BRADFORD,
J. F. KENNEDY.

At a special meeting of the Board, held at the request of the members, on June 9, 1882, pursuant to call of his Honor Mayor Blake, the committee to whom the order providing for establishing water rates was referred by Supervisor Molineux reported verbally that the committee had agreed upon and recommended the passage of the order as introduced by Supervisor Carmany, and as amended by the committee, in providing that water for all other municipal purposes except for family uses, should be furnished free of charge by the Spring Valley Water Works.

The order referred to as amended was then passed for printing, Supervisors Shirley and Russ voting No; and at a meeting held June 17, 1882, the order was taken up, finally passed and numbered 1,680, Supervisors Shirley and Russ voting No. The Order No. 1,680 was then transmitted to his Honor Mayor Blake, who returned it without his approval and with his objections thereto, on the 26th day of June, 1882. The following is a copy of the message of his Honor Mayor Blake returning said order, which was read, ordered published, and spread upon the minutes of the Board:

MESSAGE OF THE MAYOR.

MAYOR'S OFFICE,
CITY AND COUNTY OF SAN FRANCISCO, }
June 26th, 1882. }

To the Honorable, the Board of Supervisors.

GENTLEMEN—I herewith return to you, without my approval, Order No. 1,680, "Establishing water rates, and fixing the compensation for water furnished for family uses in all public buildings," passed by your Honorable Board on the seventeenth day of June, 1882, and presented to me on the same day.

The convention which placed me in nomination for the office of Mayor adopted as part of its platform, and I indorsed, the following resolution: "*Resolved*, That the Mayor and Supervisors be pledged to fix annually a schedule of water rates that will provide for a material reduction of the present rates, and that shall bear equally and uniformly upon all rate-payers."

It afterward became a question whether the reduction of the resolution was a reduction from the rates established by the existing ordinance, or the rates actually collected by the company. In a speech delivered by me in Platt's Hall, I construed the resolution as meaning a material reduction from the rates collected, so that my pledge was in favor of

a reduction from the rates which the people were in fact paying. In the same speech I also defined "material" as synonymous with the words "considerable" and "important."

The words "material reduction" are quite indefinite, for one person may think a reduction material which another may think quite immaterial. In this case, I think a uniform reduction of ten per cent. would be a material, and perhaps a sufficient, reduction, and possibly eight per cent. would be. Of course the reduction should be as great as it can be without doing injustice to the company, and should be the result of a most careful and thorough investigation. When I took the pledge I believed it involved, upon my construction of it, no injustice to the company, and this opinion is unchanged. The order herewith returned undoubtedly effects a material reduction from the rates fixed by the existing order, but I do not think it does make such a reduction from the rates actually paid, except in the case of meter rates, which, as I understand, have, as collected, been the same as fixed by the order. The few tests which I have been able to make do not indicate such a reduction, nor do tests which have been reported to me by others; but, on the contrary, they at the best leave it in doubt whether, in the aggregate, there will be any reduction, the meter rates not being considered.

My objection, then, to this order is that I do not think it effects either a material or a sufficient reduction of the water rates. I might question the order in other respects, but there is so much that is unsettled in regard to the "water question," and that can only be settled by the Supreme Court, that I do not think it worth while to enter into a discussion which I am satisfied could result in no practical benefit.

Respectfully submitted,

M. C. BLAKE, Mayor.

At a meeting of the Board, held June 27, 1882, the following report was presented by the Committee on Water and Water Supplies:

REPORT OF THE COMMITTEE ON WATER AND WATER SUPPLIES.

To the Honorable, the Board of Supervisors

of the City and County of San Francisco.

GENTLEMEN—Your Committee on Water and Water Supplies beg respectfully to report in relation to the message of His Honor, the Mayor, returning without his approval Order No. 1680, establishing water rates, etc., that when the order in question was passed by your Honorable Board, the reductions in the price to be charged for water therein provided for were, in their opinion, material and proper reductions, and can see no reason for changing their views in relation thereto.

Your committee regret that while His Honor, the Mayor, in his message, points out the many difficulties which surround the settlement of the water problem, he suggests nothing practical tending to throw new light upon the subject.

Considering that the whole question of fixing the water rates has been so fully discussed, not only by your committee, but by all the members of your Honorable Board, and in view of the necessity which exists for fixing the rates before July 1st, your committee recommend that Order No. 1680 be now passed, notwithstanding the objections of His Honor, the Mayor.

JOHN H. CARMANY,
G. B. BRADFORD,
W. H. BODFISH,
J. F. KENNEDY.

At the same session, Order No. 1680 was taken up, finally approved, and passed, notwithstanding the objections of his Honor the Mayor:

ORDER No. 1680.

ESTABLISHING WATER RATES AND FIXING THE COMPENSATION FOR WATER FURNISHED FOR FAMILY USES, IN ALL THE PUBLIC BUILDINGS.

The People of the City and County of San Francisco do ordain as follows:

The monthly rates or compensation to be collected by any person, company or corporation engaged in the business of supplying water to the inhabitants of the City and County of San Francisco,

or for family uses in all public buildings of said City and County, for the year commencing July 1st, 1882, and ending June 30th, 1883, are hereby fixed as follows:

GENERAL RATES.

SECTION 1. For buildings occupied by a single family, covering a ground surface of

SQUARE FEET.	ONE STORY.	TWO STORIES.	THREE STORIES.	FOUR STORIES.	FIVE STORIES.
600 to 700.....	\$1 35	\$1 35	\$1 50	\$1 70	\$1 85
700 to 800.....	1 35	1 50	1 70	1 85	2 00
800 to 900.....	1 50	1 70	1 85	2 00	2 20
900 to 1000.....	1 70	1 85	2 00	2 20	2 35

NOTE.—No single rate less than \$1.35.

For all houses one story in height, covering a greater area than one thousand (1,000) square feet, there shall be added seventeen (17) cents for each additional 200 square feet or fractional part thereof, and the further sum of seventeen (17) cents for each additional story.

Where a house or building is occupied by more than one family there shall be charged in addition to the foregoing rates, three-quarters ($\frac{3}{4}$) of said rates for each additional family.

NOTE.—The general rate includes water for general household purposes, but does not include any of the following specified items:

SPECIAL RATES.

SECTION 2. Bathing tubs in private houses, for each tub.....\$ 67
In public houses, boarding houses, bathing establishments and barber shops, where meters are not used, for each tub..... 1 50

SECTION 3. For horses kept for private use, including water for washing one vehicle:
For one horse..... 67
Each additional horse..... 33
Each additional vehicle..... 67
For one cow..... 42
Each additional cow..... 20

SECTION 4. Boarding and lodging houses, not including water for baths, water closets and urinals, or for uses without the house, shall be charged for each head for boarders and lodgers within the same in addition to the rates for private families.....\$0 17
For each day boarder..... 12

SECTION 5. Irrigation for gardens and grounds, one cent per square yard.
Hose for washing windows and sidewalks shall not have a nozzle larger than three-eighths of an inch, and for water used for this purpose a charge may be made, in addition to that made for other uses, not to exceed two (2) cents per front foot.

SECTION 6. Water closets—
For each water closet for use of public buildings.....\$1 35
For each water closet for use of private dwellings..... 33

SECTION 7. Urinals—
For each urinal for use of public houses or public buildings..... 33
For each urinal for use of private dwellings..... 17

SECTION 8. For water furnished for building purposes—
Each barrel of lime..... 33
Each thousand brick..... 20

Stores, banks, offices, warehouses, saloons, groceries, eating-houses, barber-shops, butcher-shops, book-binders, blacksmith shops, confectioneries, churches, halls, laundries, photograph galleries, printing offices, steam engines, greenhouses, markets, market stalls, horse-troughs, soda fountains, and other places of business not supplied by meter, to be charged according to the estimated quantity used, from one dollar and seventy (\$1.70) cents to twelve dollars and fifty-five (\$12.55) cents.

SECTION 9. Bakeries, according to the monthly use of flour—
For each twenty-five barrels.....\$1 26

METER RATES.

SECTION 10. Water furnished for any and all other purposes not embraced in the above will be supplied by meter at the following rates:

\$0.75 per thousand gallons, provided the monthly bill shall be not less than five dollars.

\$0.59 per thousand gallons, provided the monthly bill shall be not less than ten dollars.

\$0.42 per thousand gallons, provided the monthly bill shall not be less than fifty dollars.

\$0.33 per thousand gallons, provided the monthly bill shall be not less than one hundred dollars.

SECTION 11. The rates or compensation to be collected for water supplied to the City and County of San Francisco shall be as follows:

Seven thousand dollars per month for water furnished for family uses in all the public buildings.

For all other municipal purposes water shall be furnished free of charge by the Spring Valley Water Works.

SECTION 12. All persons, companies or corporations supplying water as aforesaid shall have power in all cases to apply meters for the purpose of discovering waste or excessive use, and when waste or excessive use is found, to charge for water so wasted or excessively used at meter rates.

SECTION 13. All water rates except meter rates and City and County rates, are due and payable monthly in advance, and when not so paid shall be subject to an addition of five per cent.

Meter and City and County rates are due and payable at the end of the month, and upon meter rates a deposit not exceeding three-fourths ($\frac{3}{4}$) of the value of the estimated quantity of water to be consumed, may be required.

Meter rates if not paid within ten days after becoming due shall be subject to an addition of five per cent.

In Board of Supervisors, San Francisco, June 17, 1882.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Bodfish, McKew Carmany, Molineux, Torrens, Bradford, Fisher, Merrill, Parrish, Kennedy.

Noes—Supervisors Shirley, Russ.

The foregoing Order, No. 1680, finally passed by the Board of Supervisors of the City and County of San Francisco, on the 17th day of June, 1882, having been presented to His Honor, the Mayor and *ex-officio* President of the Board of Supervisors, for his approval, and returned by him with objections thereto, on the 26th day of June, 1882, was taken up and finally approved and passed notwithstanding said objections, in Board of Supervisors, on the 27th day of June, 1882, by the following vote:

Ayes—Supervisors Bodfish, McKew, Carmany, Torrens, Bradford, Fisher, Merrill, Parrish, Kennedy.

Noes—Supervisors Shirley, Russ.

Absent—Supervisor Molineux.

JOHN A. RUSSELL, Clerk.

On June 30, 1882, the Supreme Court rendered the following decision, in which it is held that the City and County was not entitled to the use of water free of charge for any municipal purpose whatever, to-wit:

SUPREME COURT DECISION.

IN BANK.

[Filed June 30, 1882.]

THE SPRING VALLEY WATER WORKS	}	No. 8,340.
VS.		
THE BOARD OF SUPERVISORS OF THE CITY AND COUNTY OF SAN FRANCISCO.		

This is an application for a peremptory writ of mandamus to compel the defendants, as the Board of Supervisors of the City and County of San Francisco, to proceed forthwith to fix the rates or compensation to be collected for the use of all water supplied by the petitioner to the City and County of San Francisco, as well as to the inhabitants thereof, and also praying that it may be adjudged that the petitioner is not under obligation

to furnish water to said City and County, for any municipal purpose whatever, free of charge. The petition contains the proper, general and introductory allegations showing that the plaintiff was, on the 19th day of June, 1858, duly incorporated under the laws of this State, for the purpose of introducing pure and fresh water into the City of San Francisco; that it has erected the necessary works, and expended a large sum of money to that end, and that it has already introduced water into the city, and has commenced to supply it, and the inhabitants thereof, with pure, fresh water; that the petitioner alone supplies all the water taken for the extinguishment of fires, irrigation of public squares and parks, sprinkling of streets, flushing of sewers, and for all other municipal purposes; that there are no public works owned or controlled by said City and County for supplying the same with water. It further states that no rates have been fixed by the Board of Supervisors of said City and County, although application has been made to the Board of Supervisors to fix such rates or compensation, and that the said Board has refused, and still refuses, to fix any rates or compensation to be charged, collected or paid, for water supplied to said City and County, for any municipal purpose whatever, except for the single purpose denominated "family uses."

The answer of the defendants admits that the petitioner, the Spring Water Works, was, on the 19th day of June, 1858, and now is, a corporation organized and existing under the laws of the State of California, and avers that when the company became incorporated, it assumed an obligation to furnish water, to the extent of its means, to the City and County of San Francisco for the extinguishment of fires, the flushing of sewers and the watering of parks, free of charge, which is still in full force, and therefore defendants allege that it is not their duty to fix rates or compensation to be charged, collected or paid for water supplied to said City and County, for any municipal purpose, except for the single purpose denominated family uses; and they pray to be hence dismissed.

The issues made in the case, and the questions upon which the Court is called upon to pass, clearly appear from the pleadings, and I will proceed to examine them with that care and deliberation which their great importance demands.

The petitioner was incorporated under "An Act for the Incorporation of Water Companies," approved April 22, 1858, the fourth [section of which provides that "all corporations formed under the provisions of this act, or claiming any of the privileges of the same, shall furnish pure, fresh water to the inhabitants of such City and County, or city, or town, for family uses, so long as the supply permits, at reasonable rates, and without distinction of persons, upon proper demand therefor, *and shall furnish water to the extent of their means to such City and County, or city, or town, in case of fire, or other great necessity, free of charge.*" Under that portion of the section which I have italicised, it has been held by this Court that "it is the duty of the Spring Valley Water Works to furnish water free to the City and County in case of fire, and also in case it is demanded for irrigating the parks and squares, watering the streets and flushing the sewers." (S. V. W. W. vs. San Francisco, 52 Cal., 111; San Diego Water Co. vs. San Diego, 8 Pac. C. L. J., 1,123.) It therefore follows, as a consequence, that if Section 4 of the Act of 1858 is still in existence, this Court has no right, by mandamus, to compel the Board of Supervisors to fix the rates or compensation for water to be furnished the City, which the company is obliged to furnish without charge, and therefore that portion of petitioner's prayer should be denied.

But it is claimed, on behalf of the petitioner, that the Act of 1858, so far as the same relates to free water, so called, has been abrogated and annulled by the provisions of the Constitution, that went into effect on the first day of January, 1880. One of the provisions of the Constitution, which, it is claimed, abrogate the Act of 1858, is Section 19 of Article XI, which reads as follows:

"In any city where there are no public works owned and controlled by the municipality, for supplying the same with water or artificial light, any individual, or any company duly incorporated for such purpose, under and by authority of the laws of this State, shall, under the direction of the Superintendent of Streets, or other officer in control thereof, and under such regulations as the municipality may prescribe for dam-

ages and indemnity for damages, have the privilege of using the public streets and the thoroughfares thereof, and of laying down pipes and conduits therein, and connections therewith, so far as may be necessary for introducing into and supplying such City and its inhabitants either with gas-light or other illuminating light, or with fresh water for domestic and all other purposes, upon the condition that the municipal government shall have the right to regulate the charges thereof.

It will be observed that Section 19 of Article XI declares that any individual or company, duly incorporated under the laws of this State, shall, under certain conditions prescribed, have the privilege of using the public streets and thoroughfares for laying down pipes and conduits therein for introducing and supplying such city and its inhabitants with fresh water for domestic, and all other purposes, "upon the condition that the municipal government shall have the right to regulate the charges thereof."

By the third section of the Act of 1858 it is provided that "all privileges, immunities and franchises that may hereafter be granted to any individual or individuals, or to any corporation or corporations, relating to the introduction of fresh water into the City and County of San Francisco, or into any city or town in this State, for the use of the inhabitants thereof, are hereby granted to all companies incorporated, or that may hereafter become incorporated, for the purposes aforesaid."

It is claimed on behalf of the petitioner that by virtue of the above section the Spring Valley Water Works was put upon an equality with any individual or corporation to whom the right of introducing fresh water into the city should afterwards be granted, and that as such right has been granted by a provision of the Constitution to any individual or corporation to introduce water into the city for sale, without any limitation or condition except the sole condition of having the rates fixed by the Board of Supervisors, therefore the obligation imposed upon the Spring Valley Water Works to furnish free water has been removed.

I think the position is well taken, for if any other individual or corporation has the right to introduce water into the city for its use and to demand pay therefor, the Spring Valley Company stands on the same footing and is entitled to the same "privileges, immunities and franchises." To impose upon the petitioner the obligation of furnishing water to the city for certain purposes free, would be withholding from it privileges and immunities, and would be imposing upon it burdens not cast upon any other individual or corporation provided for by Section 19 of Article XI of the Constitution. It may be that no other individual or corporation has laid pipes or introduced water into the city for its use or for the use of the inhabitants thereof, but the right to do so is clearly granted by the Constitution, subject to certain conditions therein prescribed, none of which provide for or contemplate free water, and this is a privilege, and immunity, within the meaning of Section 3 of the Act of 1858, which *ipso facto* relieves the petitioner from the obligation of furnishing water free, under Section 4 of the same Act.

2. But there is another ground relied upon by petitioner, which seems even stronger than the one above presented. By Section 1 of Article XIV of the Constitution it is provided that "the use of all water now appropriated, or that may hereafter be appropriated, for sale, rental or distribution, is hereby declared to be a public use, and subject to the regulation and control of the State, in the manner to be prescribed by law; provided, that the rates or compensation to be collected by any person, company, or corporation in this State, for the use of water supplied to any city and county, or city or town, or the inhabitants thereof, shall be fixed annually, by the Board of Supervisors, or city and county, or city or town council, or other governing body of such city and county, or city or town, by ordinance or otherwise, in the manner that other ordinances or legislative acts or resolutions are passed by such body, and shall continue in force for one year and no longer. Such ordinances or resolutions shall be passed in the month of February of each year, and take effect on the first day of July thereafter. Any board or body failing to pass the necessary ordinances or resolutions fixing water rates, where necessary, within such time, shall be subject to peremptory process to compel action at the suit of any party interested, and shall be liable to such further processes and penalties as the Legislature may prescribe.

Any person, company or corporation collecting water rates in any city and county, or city or town in this State, otherwise than as so established, shall forfeit the franchises and water works of such person, company or corporation to the city and county, or city or town where the same are collected, for the public use."

The provision contained in the above article to the effect that "the rates or compensation to be collected by any person, company, or corporation in this State, for the use of water supplied to any city and county, or city or town, or the inhabitants thereof, shall be fixed," etc., is as broad and comprehensive as the English language could make it, and gives to the Board of Supervisors of the city plenary power over the subject matter to which the article relates. Water supplied to the City and County is as fully covered by the express language of the article as is water supplied to the individual consumers, and the whole matter of rates or compensation is placed within the power and control of the Board of Supervisors.

Section 4 of the Act of 1858, which imposes upon water companies the duty of furnishing water to cities and towns in case of fire or other great necessity free of charge, also provides that the rates to be charged for water shall be determined by a Board of Commissioners, two of whom to be elected by the city and county, or city or town authorities, and two by the water company, and in case the four cannot agree, the four Commissioners shall select a fifth.

The effect of the present Constitution upon the clause of Section 4 of the Act of 1858, last referred to, was under consideration by this Court in the late case of the Spring Valley Water Works vs. The Board of Supervisors of San Francisco, 7 Pac. C. L. J., 614, and it was there held that the portion of Section 4 which gave to the company a voice in fixing the rates or compensation for water furnished the City of San Francisco or the inhabitants thereof, was taken away by Article XIV of the Constitution. In that case Mr. Justice McKee, delivering the majority opinion of the Court, says: "A privilege of participating in the selection of agents for the performance of a public duty between it and the public has been taken away; but that privilege was in no sense a part of the contract between it and the State. The State was not under any obligation to continue it or to make it co-existent with the grant of the charter. As a mere privilege, the company held it subject to the retained power of the State, in the exercise of which it was liable at any time to be modified or annulled. By the Constitutional amendment the State has annulled it; but in doing so, it has not interfered with the charter of the company or disturbed any right of property acquired under it, or obstructed the company in the enjoyment of any of these rights."

It seems to me that the decision in the above case has a bearing upon the case now under consideration, for if the Constitution took from the Water Company the privilege of having a voice in fixing the rates it might charge for water supplied, it also relieved the company of the duty of supplying water to the City for any purpose free of charge. The consideration for the duty imposed upon the company to supply free water was the privilege conferred by the same section of the Act upon the company to participate in fixing the water rates. The duty and privilege were correlative, and when the privilege was taken away the corresponding duty ceased to exist.

But I am not obliged to rely upon this line of argument to support the conclusion arrived at in the case now before us. The plain language and obvious intention of the Constitution force me to the same conclusion. It was the manifest purpose of that instrument to frame a scheme covering the entire subject of water supply: "The use of water now appropriated, or that may hereafter be appropriated, for sale, rental or distribution, is hereby declared to be a public use, and subject to the regulation and control of the State, in the manner to be prescribed by law; *provided*, that the rates or compensation * * for the use of water supplied to any city and county * * shall be fixed, annually, by the Board of Supervisors." The time for the performance of this duty is the month of February in each year. The duty imposed by the Constitution, as well as the time for its performance, are plainly marked out in the Constitution—its provisions

being both mandatory and self-executing. But if legislation on the subject were necessary, I find it in the Act of March 7, 1881, the first section of which provides as follows:

"The Board of Supervisors, Town Council, Board of Aldermen, or other legislative body of any city and county, city or town, are hereby authorized and empowered, and it is made their official duty, to annually fix the rates that shall be charged and collected by any person, company, association, or corporation, for water furnished to any such city and county, or city or town, or the inhabitants thereof."

This Act follows the language of the Constitution. It contains numerous details, applicable to the subject, and the eighth section thereof imposes a penalty on the Board of Supervisors, or other legislative body for a failure to perform any of the duties prescribed by it.

I have endeavored to show that Section 4 of the Act of 1858, which made it the duty of the petitioner to furnish water to the City of San Francisco for certain purposes, without any compensation therefor, has been abrogated by the Constitution. It was a duty imposed upon the company by the law, and it was within the power of the Legislature, and, *a fortiori*, of the framers of the Constitution, at any time, to relieve the Water Company from the obligation.

But if permitted to inquire into the motives of the Constitutional Convention in discharging the Water Company from an obligation imposed upon it by the law of its creation, it will not be difficult to discover a sufficient motive. The company must be compensated for the water supplied by it. This compensation may be fair and just, or it may be unjust and exorbitant. Whether it is the one or the other, an unfair and disproportionate burden fell upon the individual consumers under the operation of the Act of 1858. The water furnished the City for the extinguishment of fires, and other great necessity, was not paid for by the City out of funds arising from taxes upon City property, but it was indirectly paid for by the individual consumers of the water. The owner of a large and very valuable building, used as a store or warehouse, in which but little if any water is used, enjoys benefits resulting from the use of the water in extinguishing fires, and the protection of his property, as well as the reduction of the rate of insurance thereon, but he contributes little or nothing to the Water Company for the benefits thus conferred. The householder occupying a small residence of comparatively but little value, is required to pay for all the water used by him. It is too plain to require argument, that if the Water Company is to receive compensation for all the water furnished by it (and that it is will hardly be denied), the burden under the Act of 1858, fell almost exclusively upon the consumers, and the owners of valuable property, enjoying the protection and other benefits from the water, paid little or nothing. It was to distribute the burden more equally that the new Constitution abolished free water. And there is no hardship in the new rule of rates or compensation introduced by the Constitution. The matter has been placed in the hands and under the power and control of the Board of Supervisors of the City and County. This body represents the people of the City, one member being selected from each of the twelve districts thereof. It is their duty to protect the rights of the City and the individual rights of the citizens. It also owes certain duties to the individual or corporation furnishing water for the use of the City and the inhabitants thereof. If, in fixing the rates or compensation it is governed by fair and disinterested motives, and does establish such rates as will be fair and just to the Water Company, as well as to the people, distributing the burden as equally and justly as possible among the consumers, as well as the property owners, who enjoy the benefits and protection which the presence of the water in the city affords, no one will have any cause to complain of the scheme adopted by the new Constitution.

Writ granted as prayed for.

MORRISON, C. J.

CONCURRING OPINIONS.

I concur in the judgment for the reasons stated in my dissenting opinion in the case of

the *Spring Valley Water Works vs. The Board of Supervisors of San Francisco*, 7 Pac. C. L. J., 614, and in my concurring opinion in the case of *San Francisco Pioneer Woolen Factory vs. Brickwedel*, 9 Id., 136.

ROSS, J.

I concur in the judgment upon the third ground stated in the foregoing opinion written by the Chief Justice, and for the reasons given by me in concurring in the judgment in the case of *San Francisco Pioneer Woolen Factory vs. Brickwedel*, 9 Pac. C. L. J., 136.

MYRICK, J.

The provision of our State Constitution, which imposes upon the Board of Supervisors the duty of fixing the rates to be paid for water supplied to the City and County of San Francisco, as well as to the inhabitants thereof, must be obeyed, unless it contravenes that clause of the Constitution of the United States, which prohibits a State from passing any law impairing the obligation of contracts. The petitioner was incorporated under a general law providing for the incorporation of water companies, approved April 22, 1858. (*San Francisco vs. S. V. W. W.*, 48 Cal., 493; *S. V. W. W. v. San Francisco*, 52 Id., 111.)

The law under which it incorporated is its charter, and to that extent it is protected as by a contract. (*Chicago, etc., R. R. Co., vs. Iowa*, 94 U. S., 155.) But it is a contract between the State and the petitioner exclusively. The City and County of San Francisco is in no sense a party to it. And the State, by the adoption of the present Constitution has declared "that the rates or compensation to be collected by any person, company or corporation in this State for the use of water supplied to any *city and county*, or city or town, or the inhabitants thereof, shall be fixed, annually, by the *Board of Supervisors* or City or Town Council, or other governing body of such city and county, or city or town, by ordinance or otherwise, in the manner that other ordinances or legislative acts or resolutions are passed by such body, and shall continue in force one year and no longer."

That indicates with sufficient clearness, to my mind, an intention on the part of the State to alter the law which provided that the rates to be collected for water supplied for other purposes than extinguishing fires, flushing sewers, sprinkling streets and watering parks, should be fixed by a Board of Commissioners composed of four persons—two of whom should be selected by the City and County and two by the petitioner. And that in case of fire or other great necessity, it should be furnished free of charge. And the petitioner acquiesces in the change, (1) by requesting the respondents to comply with the constitutional provision; (2) by asking this Court to enforce a compliance with it.

But I attach little or no importance to such acquiescence. In my opinion the State had the right to alter or repeal the law under which the petitioner became incorporated without its acquiescence. I think so because the right to do so was expressly reserved by the Constitution. And I concurred in the opinion of Mr. Justice McKee in *S. V. W. W. vs. Supervisors* (7 Pac. C. L. J., 614), in which he said: "But the company obtained its charter under a section of the Constitution of 1849, which authorized the formation of corporations under general laws, and reserved to the State the power of altering such laws from time to time or repealing them. As a part of the organic law of the State, this provision entered into the contract between the company and the State, and when the corporation accepted the charter of the company, under the general law of 1858, they consented to take it subject to the exercise of the reserved powers of the State."

In speaking of a similar clause in the Constitution of Wisconsin, the Supreme Court of the United States said: "In Wisconsin, all corporations are liable to have their charters altered or repealed at the will of the Legislature." (*Pelk vs. Chicago, etc., Railway Co.*, 94 U. S., 164.)

I have said that while the charter granted by the State to the petitioner constituted a contract, the City and County of San Francisco was in no sense a party to it. But whether it was or not, could make no difference, because the Legislature could not by inserting the clause which provides that water shall be furnished to said City and County for certain

purposes free, deprive the State of the power to alter or repeal the law under which the petitioner became incorporated. The Constitution could not be evaded in that way. That part of the law was subject to alteration or repeal the same as any other part. It was not excepted or protected by the Constitution any more than any other provision of the law. It was subject to such alteration or repeal because the Constitution in force when the law was enacted declared that it should be subject to alteration or repeal. In *Chicago, etc., R. R. Co. vs. Iowa, supra*, "the company had pledged its income as security for the payment of the debts incurred, and had leased its road to a tenant that relied upon the earnings for the means of paying the agreed rent," and it was claimed that that constituted a contract which would be impaired by the alteration which the Legislature had made in the law under which the company incorporated. To that the Court replied: "The company could not grant or pledge more than it had to give. After the pledge and after the lease the property remained within the jurisdiction of the State, and continued subject to the same governmental powers that existed before."

And it seems to me to be equally clear that in this case neither the Legislature nor the petitioner could make any contract which could interfere with the right which the State had reserved to itself of altering or repealing the law under which the petitioner became incorporated.

It is urged, however, that, if it be conceded that the people of the State, either by legislative enactment, or by the adoption of a constitution containing a provision inconsistent with that clause of the Act for the incorporation of water companies which requires them to furnish water free of charge for the extinguishment of fires, etc., might alter or repeal that clause, that it has not been altered or repealed, because it is not inconsistent with the Constitution, and must therefore "remain in full force and effect until altered or repealed by the Legislature." (Const. Art. XXII, Sec. 1.) In other words, it is claimed that the evident intention of the framers of the Constitution was to substitute the Board of Supervisors for the Board of Commissioners, provided for by the law as it stood before the adoption of the Constitution, and to confer upon the Board of Supervisors the same powers that had been previously conferred upon the Board of Commissioners, and none other, in respect of the fixing of rates to be paid for water supplied to private consumers and to the City and County of San Francisco.

If there is nothing in the Constitution which is inconsistent with the law in force at the time of the adoption of the Constitution, such law has not been affected by the adoption of the Constitution. So that the only question to be determined is whether the law in relation to the furnishing of water free of charge for certain specified purposes, is inconsistent with the clause of the Constitution which provides that the Board of Supervisors shall fix the rates to be collected for the use of water supplied to said City and County. If the law in relation to furnishing water for certain purposes free of charge be not inconsistent with any provision of the Constitution, it follows that if there were no such law the Legislature might now enact one, because any law which is not inconsistent with any provision of the Constitution is equally valid whether enacted before or after the adoption of that instrument.

And is it not quite clear that the Legislature could not now pass a law affecting the rates to be collected for water to be supplied to the City and County of San Francisco which would be valid? Has not the Constitution withdrawn that subject wholly from the jurisdiction of the Legislature? It seems to me that it has. And I do not think that under the authority to fix the rates to be paid for water supplied to said City and County the Board of Supervisors would have the power to say that water should be furnished free of charge for any purpose. If for any purpose why not for all purposes? Water must be supplied at the rates fixed by the Board of Supervisors. But there is no provision in the Constitution which requires that it shall otherwise be supplied; and if there had never been a law which provided that it should be supplied for certain purposes free of charge I do not think that anyone would now claim that there was any power in the Board of Supervisors or in the Legislature, to compel the petitioner to furnish any water to the City and County for any purpose free of charge. And if not, it does seem to me that the law which requires

that it shall be supplied for some purposes free of charge is inconsistent with the Constitution and therefore abrogated by it.

The requirement that rates to be collected for water supplied to the City and County of San Francisco shall be fixed by the Board of Supervisors is, in my judgment, wholly inconsistent with the theory that such rates are to be fixed for only a part of the water supplied to said City and County. As well might it be contended that rates were to be fixed for only a part of that supplied to private consumers. The plain import of the language of the Constitution is that rates to be collected for all water supplied to said City and County and to the inhabitants thereof shall be fixed by the Board of Supervisors; and any law which provides that rates shall be fixed for only a part of the water supplied to said City and County is, in my opinion, inconsistent with the Constitution.

I am unable to perceive that the City and County could in any event be at all embarrassed in the case of fire, as it would then have the right, under the police power, to use all the water necessary to extinguish it, whether rates had or had not been fixed.

I concur in the judgment that the writ issue as prayed.

SHARPSTEIN, J.

DISSENTING OPINIONS.

I respectfully dissent:

I. Article XIV of the Constitution reads as follows:

"Section 1. The use of all water now appropriated, or that may hereafter be appropriated, for sale, rental or distribution, is hereby declared to be a public use, and subject to the regulation and control of the State, in the manner to be prescribed by law; provided, that the rates or compensation to be collected by any person, company or corporation in this State for the use of water supplied to any city and county, or city or town, or the inhabitants thereof, shall be fixed, annually, by the Board of Supervisors, or city and county, or city or town council, or other governing body of such city and county, or city or town, by ordinance or otherwise, in the manner that other ordinances or legislative acts or resolutions are passed by such body, and shall continue in force for one year and no longer. Such ordinances or resolutions shall be passed in the month of February of each year, and take effect on the first day of July thereafter. Any board or body failing to pass the necessary ordinances or resolutions fixing water rates where necessary, within such time, shall be subject to peremptory process to compel action at the suit of any party interested, and shall be liable to such further processes and penalties as the Legislature may prescribe. Any person, company or corporation, collecting water rates in any city and county, or city or town, in this State, otherwise than as so established, shall forfeit the franchises and water works of such person, company or corporation to the city and county, or city or town where the same are collected, for the public use.

"SEC. 2. The right to collect rates or compensation for the use of water supplied to any county, city and county, or town, or the inhabitants thereof, is a franchise, and cannot be exercised except by authority of and in the manner prescribed by law."

By the first section the Legislature is commanded to prescribe the manner in which the public use shall be regulated and controlled. The power of regulation and control is placed in the Legislature, without limitation, except that the rates or compensation "to be collected" for water supplied must be fixed annually by the Board of Supervisors, etc. The second section declares the right to collect rates to be a *franchise* which cannot be exercised "except by authority of and in the manner prescribed by law." Both sections contemplate legislation regulating and controlling the public use, by authority whereof, and in accordance with which, the right to enjoy the franchise of collecting rates or compensation, for water supplied, can alone be enjoyed. The *proviso*, in the first section, does not purport to treat of the powers or persons or incorporated companies, on whom the Legislature may confer the right to collect rates, except to the extent that the rates shall be fixed by the local authority. The whole purpose of the proviso is secured by giving to it the effect of making the Supervisors, or other local governing board, the

commission to fix rates *when rates are to be collected*. Neither of the sections prohibits, in terms or by necessary implication, the Legislature from providing—in laws prescribing the regulation of the public use of water “for sale, rental or *distribution*”—that water shall be furnished for certain public purposes free of charge. Under the present Constitution no laws have been passed prescribing the manner in which the use of water, which has been or may be appropriated, shall be regulated or controlled, or by what means *individuals* or corporations may acquire the franchise of collecting rates or compensation. If the plaintiff possesses the right at all, it is by virtue of its organization under the Act of 1858, and such right is subject to all the provisions and conditions of that Act; with the sole exception that, as held by this Court in *Spring Valley W. W. vs. Supervisors* (7 Pac. C. L. J., 614), the rates, which, according to that Act, are “to be collected,” must be fixed by the Supervisors. Certainly, in my opinion, the 14th Article of the Constitution can be held to have no *greater* effect upon the Act of 1858 than to transfer to the Supervisors a power previously employed by the mixed commission composed in part of the appointees of the corporation. By that Act the plaintiff is authorized to charge for water furnished directly to the City and County for certain purposes. (*Spring Valley W. W. vs. San Francisco*, 52 Cal., 122.) As to such purposes there are “rates to be collected” which may be fixed by the Supervisors.

II. The last clause of Section 19 of Article XI of the Constitution provides: “In any city where there are no public works owned and controlled by the municipality for supplying the same with water or artificial light, any individual, or any company duly incorporated for such purpose under and by authority of the laws of this State, shall, under the direction of the Superintendent of Streets, or other officer in control thereof, and under such general regulations, as the municipality may prescribe for damages and indemnity for damages, have the privilege of using the public streets and thoroughfares thereof, and of laying down pipes and conduits therein, and connections therewith, so far as may be necessary for introducing into and supplying such city, or its inhabitants, either with gas-light or other illuminating light, or with fresh water for domestic and all other purposes, upon the condition that the municipal government shall have the right to regulate the charges thereof.”

The article treats of “cities, counties and towns.” This caption includes “cities and counties,” and the provisions as to *cities*, in the 19th Section, are applicable to “cities and counties. (Const., Art. XI, Sec. 7.) But Section 19 of Article XI is to be read in connection with Sections One and Two of Article XIV. All portions of the Constitution are to be given effect. By Section 19, therefore, the power is not conferred upon every individual, under the direction of the Street Superintendent and subject to municipal regulations, to tear up the streets of a city for the purpose of laying down pipes, but only upon such individuals and corporations as shall acquire the franchise of collecting rates or compensation for waters to be supplied “by authority of, and in the manner prescribed by law;” the law, with reference to the use of water, commanded by the first section of the 14th article. No law has yet been passed providing for the manner of acquiring the right by individuals. Hence, the companies organized under the Act of 1858 have not yet acquired additional privileges, immunities or franchises by reason of Section 3 of that Act, which provides that all privileges which “may hereafter be granted to any individual * * * are hereby granted to all companies incorporated,” etc.

Article XIV is headed “Water and Water Rights;” Article XI, as we have seen, “Cities, Counties and Towns.” Section 19 of the article last mentioned does not confer the right to charge tolls for water supplied to cities or their inhabitants. It presupposes the existence of individuals and corporations who shall have acquired the right “by authority of and in the manner prescribed by law,” and confers upon such individuals and corporations the privilege of laying down water pipes in the streets, under municipal direction and regulation. Treating of cities, the 19th section recognizes the right of those who shall be clothed with the franchise of charging rates for water to enter upon and use the streets, but provides that the city shall have power (of which the Legislature cannot deprive them) of directing, by their appropriate officer, how the work shall be done so as to interfere as

little as possible with the general use of the streets, and, by general regulations, to afford protection against damages. Still further, the section reasserts the right of the city government to fix rates to be charged for water supplied.

The Constitution does not confer the franchise of collecting water rates upon any person or class of persons. It leaves the power of granting such privileges to the Legislature, to be exercised by the enactment of general laws. (Art. XIV, Secs. 1, 2; Art. IV, Sec. 25; Art. XII, Sec. 1.)

In the opinion of members of this Court, Section 19 of Article XI of the present Constitution prohibits the passage of a general law, providing for the acquisition of the franchise of charging rates for water supplied to cities or the inhabitants thereof, which shall require water to be furnished free of charge for the extinguishment of fires. The right to demand a supply and the right to demand compensation therefor where "rates are to be collected" are correlative. As has often been held, a further supply may be refused to one indebted for water already furnished. Can the individual or corporation refuse to furnish water to subdue a conflagration because a back bill has not been paid by the city? If this be so, while buildings and other private property may be destroyed to prevent the spread of a fire, water cannot be taken to put the fire out if any sum be due for past supplies.

At all events, water cannot be taken to suppress a conflagration unless the city shall pay for it, while the citizen whose buildings are destroyed to prevent the spreading of a conflagration, has no redress, unless expressly given it by statute. (*Dunbar vs. San Francisco*, 1 Cal., 355; *Ruggles vs. Nantucket*, 11 Cush., 433; *Stone vs. Mayor, etc.*, 25 Wend., 157; *White vs. Charleston*, 2 Hill, S. Car., 571.) I do not say that a statute or constitution cannot confer this extraordinary right on those to whom may be granted the franchise of charging rates for water distributed, but certainly doubtful or ambiguous language should not be construed as conferring it.

As I understand the view of the majority of members of this Court, it is held, that, by a mandatory and self-executing provision of the Constitution, every individual, and every company incorporated to supply water to a city, is not only permitted to use the streets under municipal direction, but is also granted the franchise of charging rates or compensation "subject to the sole condition" that the rates shall be fixed by the municipality; that the Legislature under the present Constitution has no power to attach any other condition to the enjoyment of the franchise by an individual or corporation; and that all conditions found in a law providing for the organization of water corporations, passed prior to the adoption of the present Constitution, were annulled by the provisions of that instrument. If this view be correct, the Legislature has no power to require that the individual who shall acquire the franchise must be a citizen, or even a person capable of becoming a citizen; has no power to require that the organizers of a water corporation shall be citizens, or persons capable of becoming citizens; no power (except by reason of an express constitutional provision) to provide that stockholders in such corporations shall be personally liable for any portion of the corporate indebtedness; cannot, in brief, require of individuals (or corporators) any qualifications other than such as all individuals possess, or the assumption of any liabilities or duties other than those expressly mentioned in the Constitution. And this, although the condition at the end of Section 19, Article XI, is a condition upon the use of the streets, and not a condition upon the grant of the franchise of charging rates—a grant not contained in the section.

But I am not driven to consider the consequences of the rule. What portion of Section 19 of Article XI clearly and distinctly lays down this limitation of legislative power? That a limitation upon legislative power must clearly and distinctly appear in the Constitution of a State, has been so often asserted by the courts that it would occupy space unnecessarily to cite the many authorities here. Again, the plaintiff here claims the new right to be paid for all water furnished for the extinguishment of fires. As it is settled that a limitation upon State legislation should plainly appear in the Constitution, it is equally settled that when there is serious doubt in respect to the interpretation of a law (or constitution) claimed to confer franchises upon individuals or corporations, it should

be construed against the party claiming the privilege, and in favor of the public. This point is ruled in *S. V. W. W. vs. San Francisco*, *supra*, and the proposition is sustained by all the English and well-considered American cases. Franchises or immunities are not conferred or extended by ambiguous language.

The legislative exposition of the new Constitution is opposed to the theory here asserted by the petitioner. The sixth section of the Act of March 7, 1881, (Stats. & Amdts., 1881, p. 55) reads as follows: "Rates for the furnishing of water shall be equal and uniform. There shall be no discriminations made between persons or between persons and corporations, or as to the use of water for private or domestic and public or municipal purposes; provided, that nothing herein shall be so construed as to allow any person, company, association or corporation to charge any person, corporation or association anything for water furnished them when, by any present law, such water is free."

The present decision annuls the proviso, leaving the enacting clause to take effect in a sense the reverse of that intended by the Legislature.

I cannot agree that the fourth section of the Act of 1858, in so far as it requires water corporations to furnish water to a city "in case of fire or other great necessity" free of charge, is no longer of any force or effect, because in conflict with the last sentence of Section 19 of Article XI of the Constitution. If that sentence prohibits the Legislature from requiring that water shall be furnished "in case of fire," etc., free of charge, the prohibition is found in the words "regulate" and "thereof." It may be claimed that the right in the city to regulate charges implies a right on the part of the individual or corporation to make charges, and, as the word "thereof" relates to supplies to the city "for domestic and all other purposes," the charges which it is the right (and therefore the duty) of the city to "regulate" include charges for water used in putting out fires. Thus by a series of implications, and by deducing inference from inference, the language of the Constitution is made the equivalent of a direct declaration, annulling the clause in the Act of 1858 which requires water to be furnished free of charge "in case of fire or other great necessity," and providing, that, from the time the Constitution should take effect, the Legislature should have no power to accompany the franchise with such requirement.

Is it thus that the framers of constitutions declare a limitation upon legislative power?

Section 19 does not purport to impose new duties upon municipal governments. It treats of their rights, giving them authority to direct how corporations or individuals, who shall acquire the franchise of distributing water, etc., shall use the streets, and to pass general regulations or ordinances, with reference to damages; and it reasserts their right to fix rates. The duty of the municipalities to fix rates is imposed by the first section of the 14th article. Reading the two together, the last words of Section 19 of Article XI are in the nature of a proviso, that nothing in that section contained shall be construed as depriving the municipal government of the right of regulating or fixing the rates "to be collected" as provided in Section 1 of Article XIV. To hold, that by reason of the use of the word "thereof," the constitution-makers must have intended to prohibit the Legislature from allowing any water to be furnished free of charge, and to cast upon the municipal governments the duty of imposing charges upon all water supplied (which is not done in Section 1 of Article XIV—the section which directly treats of the subject and defines the duty), is to build a constitutional inhibition upon inferences from language whose main, and, as I believe, only purpose is to reassert the right of the local governments to fix the rates or compensation "to be collected."

III. It has been held that the provisions of the Constitution giving the right to and imposing the duty upon the local governments of fixing water rates did not impair the obligation of any contract between the State and the present plaintiff; also, that such provisions apply to corporations existing before the adoption of the Constitution. (*S. V. W. W. vs. Supervisors*, 7 Pac. C. L. J., 614.) If the question whether the provisions referred to were applicable to corporations organized before the present Constitution took effect were *res nova*, I should be inclined to the opinion that the provisions of the Constitution were not applicable to such corporations. The proviso in Section 1 of Article XIV follows an enacting clause, which declares the use of water "for sale, rental or distribution" a pub-

lic use, to be regulated and controlled in a "manner to be prescribed by law." And the sections of Article XII, which treats of "Corporations," would seem to recognize the proposition that all laws concerning corporations in force prior to the Constitution, would continue in force until altered by legislation; except, perhaps, in certain particulars expressly mentioned in that article. But, in what is said herein, I have assumed that the sections of Articles XI and XIV apply to corporations formed under the law of 1858.

Assuming the constitutional provisions to apply to corporations formed under the law of 1858, I am at a loss to understand how the mere transfer, to the Supervisors, of the power of fixing rates relieves such corporations of the duty of furnishing water, free of charge, for the extinguishment of fires.

It is said, with reference to the effect of the constitutional provision upon the fourth section of the Act of 1858: "The consideration for the duty imposed upon the company to supply free water was the privilege conferred by the same section of the Act upon the company to participate in fixing the water rates. The duty and privilege were correlative, and when the privilege was taken away the corresponding duty ceased to exist." But the section of the Act referred to does not purport to create any relation between the duty and the privilege which makes one dependent upon the other. Where, then, is the duty made the consideration for the privilege, or the former made correspondent to the latter? By the Constitution of 1849 it is provided that general laws under which corporations can be formed "may be altered from time to time, or repealed." (Art. IV, Sec. 31.) It might be argued that there is a limit to this power of alteration, under the former and present Constitution; that it cannot be employed so as to impair the obligation of a contract. But, as we have seen, this Court has already decided that the provision of the Constitution of 1879, transferring the power and duty of fixing water rates to the Supervisors, does not impinge upon vested rights nor impair the obligation of any contract between the State and a water corporation formed under the Act of 1858. (*S. V. W. W. vs. Supervisors, supra.*) How can a clause of the Constitution, of whose effects the corporations formed under the Act of 1858, have no legal right to complain, operate to relieve such corporations of any duty imposed by the law under which they were organized—the clause in the Constitution itself containing no language indicating any such purpose. The people by the Constitution of 1879 did not modify a previous contract between them and the plaintiff. The sovereign power took from its creature, not sacred property, but at most a privilege which it had reserved the right to retake by the thirty-first section of Article IV of the former Constitution. Such is clearly the meaning of the decision in *S. V. W. W. vs. Supervisors*.

The power, by the former Constitution, reserved to the State to alter general incorporation laws is of little value to the State or people if, in a case where admittedly the alteration does not impair the obligation of a contract, the power cannot be exercised without incidentally relieving corporations previously formed of some duties or obligations (not mentioned nor referred to in the amendatory law), supposed to have some "corresponding" relation to the privilege of which—for the future—such corporations are deprived by the alteration in the law.

IV. I am perfectly willing to concede the public spirit which has induced the plaintiff to seek by this proceeding to relieve the individual consumers of water by imposing a portion of their burden upon the city. I shall be glad if any practical benefit shall accrue by the change to the consumers or to the public. After all, however, the question is, What is the law?—not whether the law might be improved.

McKINSTRY, J.

I concur in the conclusion reached by McKinstry, J.

The second section of Article XIV of the Constitution declares in plain words that "the right to collect rates or compensation for the use of water supplied to any city, city and county, or town is a franchise, and cannot be exercised except by authority of and in the manner prescribed by law."

It follows from these words that the right to collect rates or compensation for the use of water pertains to no person, company, corporation or association without authority of law. A law must exist vesting this right or it does not vest in any one. This is the common law, and it was inserted for some reason by the framers of the Constitution in that instrument as a part of the organic law.

It is urged that this right is given by the Constitution, and we are referred to the first section of Article XIV, and the nineteenth section of Article XI. I have examined those sections with great care, and I do not find in any of them any such authority conferred as to rates or compensation. Those sections only make it the duty of the local authorities to fix rates.

As I understand the provisions referred to, they only effect this result, that where by law the franchise is conferred on an individual or company to collect rates or compensation, such rates or compensation can only be fixed by the local tribunals mentioned in those sections.

But back of all this lies the power of the Legislature to grant this right to collect and to limit it as to the persons chargeable therefor, and perhaps to say when it shall be collected, whether monthly or every three months.

I do not find any such grant in the Constitution. It does recognize the right as existing in some individuals or corporations, and makes it the duty of the Boards of Supervisors when such persons or corporations exist, to fix the rates to be charged by them. But in such cases, the right to collect exists by virtue of law, and is no more extensive than the law makes it, and the Boards of Supervisors, when they come to act, fix the rates as allowed by law. Such Board cannot fix rates to be collected when the statute says the water shall be free. They merely take the statute conferring the right as defined by statute, and fix the rates to be collected of such persons as are chargeable, and when the law says no charge is to be made for water furnished, they fix no rate.

There is no statute giving the right to collect rates to any person or corporation who shall lay down pipes and bring water into a city or town. On the contrary, the statute (see Act of March 7, 1881, Stat. 1881, p. 54) goes no further than the Constitution. It is merely intended to carry out the provisions of the Constitution, and to enforce action on the part of the Boards of Supervisors in executing the duty devolved on them by the Constitution.

That the construction placed on the provisions of the Constitution by the Legislature is that urged herein, appears from the sixth section of the Act of 1881, above cited.

"Sec. 6. Rates for the furnishing of water shall be equal and uniform. There shall be no discriminations made between persons, or between persons and corporations, or as to the use of water for private and domestic, and public or municipal purposes; provided, that nothing herein shall be so construed as to allow any person, company, association or corporation, to charge any person, corporation or association anything for water furnished them, when by any present law, such water is free."

In this section, to show that the only object of the Act was to enforce the provisions of the Constitution in relation to the duty cast upon the Supervisors by the Constitution, they expressly declare in the proviso to the sixth section, quoted above, that nothing in this Act shall be construed as allowing a charge for water furnished, where, by any law, such water is to be furnished free.

If this deduction be incorrect it is yet clear, from this section, that the Legislature did not intend to change the law as to the obligation to furnish water free of charge when so required by statute, and the whole Act shows no intention to confer any franchise to collect rates or compensation for water on any individual or corporation. The Act was only intended to enforce the fixing of rates for the purposes of those who had the right to collect such rates already conferred by law.

I cannot perceive that the right to collect rates for water has been conferred on any individual, or company, or corporation, introducing water into a city or town, by the Constitution or the Legislature, when such rates are fixed by the Board of Supervisors, without any previous grant made by law to such individual or corporation to collect such rates,

and therefore the Act of 1858 remains unaltered, so far as the obligation to furnish water free of charge is imposed upon a company or corporation formed under that Act.

I will add here that water is still to be furnished for municipal purposes under the Act of 1858, for which rates are to be fixed. Such purposes are plainly pointed out in the opinion of the Court in *Spring Valley Water Works vs. The City and County of San Francisco*, 52 Cal., 122. Such are the municipal purposes referred to in the sixth section of the Act of 1881, and such are the rates to be collected of a city and county, etc., under the fourteenth article of the Constitution.

In my judgment, the majority of the Court have construed the power to fix rates, vested in the local bodies, as a power in such local bodies, to confer the franchise to collect rates, which power is given to the Legislature by the general express grant of the legislative power, and positively declared to pertain to the last-named body by the second section of the fourteenth article of the Constitution. So far as the question before the Court is to be considered, the Act of 1858 remains unchanged.

I am of opinion that the writ prayed for should be denied.

THORNTON, J.

The Spring Valley Water Company was organized under an Act of the Legislature of the State, approved April 26, 1858. The object of its organization was to supply the City and County of San Francisco and its inhabitants with pure, fresh water. For that purpose the State delegated to it the right to exercise the power of eminent domain for the acquisition of property necessary to its use, and to use the streets, ways, alleys and highways in the City and County for conducting water into and through the city to any part of it. In consideration of the delegation of those rights, the company bound itself to furnish water, to the extent of its means, to the City and County, in case of fire or other great necessity, free of charge, and to all its inhabitants on demand, for family use, so long as the supply lasted, at rates to be fixed according to law. The agreement to do these things was a contract between the corporation and the State, upon the performance of which the company entered and it has been since, presumptively at least, engaged in its performance according to law. At all events, it has had the protection of the law in the control and management of the property which it has devoted to the use of the public; and that use has been subject only to the regulation of the price which the company is entitled to collect from individual consumers.

This power to regulate the use of property dedicated to a public use is, as we have heretofore held, in *The Spring Valley Water Works vs. The Board of Supervisors* (7 Pac. C. L. J., 614), governmental, not contractual. It is a power which the State could not, if it would, delegate or barter away to any person, natural or artificial. And in the Constitution of the State this doctrine has been emphasized; for Section 1, Article XIV, of the Constitution declares, "That the use of all water now appropriated for sale, rental, or distribution, is hereby declared to be a public use, subject to the regulation and control of the State, in the manner to be provided by law;" and Section 2, Article XIV, prohibits "all water corporations from exercising the right to collect compensation, except by authority of and in the manner prescribed by law."

No complaint is made of any infringement of the rights accorded to the company by the Act of 1858, under which the corporation was organized; but it claims in this proceeding that the new Constitution has granted to it additional rights, and, at the same time, absolved and released it from the duty, by which it bound itself to furnish the City and County with free water for the extinguishment of fires or other great necessities; and that since the adoption of the Constitution it is now only bound to furnish water to the City and County at the same rates that it furnished it to other consumers. This claim of the company is founded upon Section 19, Article XI of the Constitution, and Section 3 of the Act of 1858.

The latter provides that, "All privileges, immunities and franchises that may be here-

after granted to any individual or individuals, or to any corporation or corporations, relating to the introduction of fresh water into the City and County of San Francisco, or in any city or town in this State, for the use of the inhabitants thereof, are hereby granted to all companies incorporated, or that may hereafter become incorporated, for the purpose aforesaid." And the former declares that, "In any city where there are no public works owned and controlled by the municipality for supplying the same with water, * * * any individual or any company duly incorporated for such purpose under and by authority of the laws of this State, shall, under the direction of the Superintendent of Streets or other officer in control thereof, and under such general regulations as the municipality may prescribe for damages and indemnity for damages, have the privilege of using the public streets and thoroughfares thereof, and of laying down pipes and conduits therein and making connections therewith, so far as may be necessary for introducing and supplying such city and its inhabitants * * * with fresh water for domestic and all other purposes, upon the condition that the municipal government shall have the right to regulate the charges thereof."

Relying on the third section of the Act of 1858, the company asks this Court for such construction of that section and of the foregoing section of the Constitution as will stretch the former so that it may cover the latter and give to the corporation the immunities, privileges and franchises grantable under the latter. In my judgment, the third section of the Act of 1858 cannot be stretched to that extent, and does not entitle the corporation to any other rights than those which it enjoys under its charter. The section contains a stipulation that the Spring Valley Water Company shall be entitled to all the immunities, privileges and franchises which may be granted to any person or corporation, "relating to the introduction of fresh water into any city or town in the State, for the use of the inhabitants thereof." Such are the terms of the stipulation, but they do not cover the terms of the constitutional provision relating to the introduction of water into a city "for the purpose of supplying such city and its inhabitants with fresh water for domestic and all other purposes." A contract to furnish water to a city for certain exigencies is not a contract to furnish water to the city and its inhabitants for all purposes. The greater includes the less; but the less does not include the greater; nor does it entitle a claimant under it to what may be included in the greater. A corporation is no more entitled than a natural person to that which is not nominated in its bond. The only rights it can claim under its contract are those specifically included within its terms; and any ambiguity or doubt arising out of those terms must be resolved in favor of the public. Both the Act of 1858 and Section 19 of Article XI of the Constitution must therefore be strictly construed, so far as the rights of the public are affected. Now, while it is true that there is no intimation of free water in the Constitution, it does not follow that the State intended to annul the Act of 1858, or to enlarge Section 3 of that Act so as to make it cover things which are not expressed by its terms, nor to release the Spring Valley Water Company from any of its obligations. Certainly none of these things can be presumed. To presume the latter would be to subject the framers of the Constitution to the imputation of legislating so as to impair the obligation of the contract between the corporation and the people. Such a construction would defeat one of the objects of the contract, *i. e.*, to obtain a supply of water for the City and County of San Francisco, free of charge, for certain exigencies. Whatever defeats the object of a contract violates its obligation. Any legislation which makes a contract more beneficial to one party and less to the other than it purports by its terms to be, impairs the contract. To presume the latter would be to strike dead the corporation and strip it of its franchise and privileges.

The framers of the Constitution, therefore, never intended to sweep away the legislation under which the corporation was organized, nor to deprive it of its rights nor to release it from any of its obligations. For the Constitution has not conferred upon any person, natural or artificial, privileges, immunities and franchises in relation to the introduction of fresh water into any city in the State "for the use of its inhabitants" which have not been conferred on the Spring Valley Water corporation by its own charter. The company has exercised and enjoys the privilege of using the public streets and thoroughfares and

of laying down pipes and conduits in them and of making connections with them in any part of the city. It has exercised and continues to exercise the right to collect rates or compensation for the water which it furnishes for family use and domestic purposes to the inhabitants of the City and County. What other or greater rights does the Constitution confer upon any other person that may, under the provision of the Constitution, undertake to supply fresh water to the inhabitants of any city in the State? None. Having these, there is nothing more which the company has a legal right to demand. The obligation of the corporation to furnish water free to the city for the purposes specified in its contract is a thing distinct in itself from its obligation to furnish water to the inhabitants of the city. And the stipulation of the State contained in the third section of the Act of 1858 relates altogether to the latter and not to the former.

For these reasons I am led to dissent from the prevailing opinion.

McKEE, J.

The City and County Attorney subsequently petitioned the Hon. Supreme Court for a rehearing in the case of the Spring Valley Water Works *versus* The Board of Supervisors, and, on July 17, 1882, transmitted the following communication informing the Board of said action, which was received and referred to the Committee on Water and Water Supplies:

OFFICE OF THE CITY AND COUNTY ATTORNEY.

To the Honorable, the Board of Supervisors:

GENTLEMEN—In the matter of Spring Valley Water Works vs. Board of Supervisors (W. H. Bodfish et als.) our Supreme Court, on the 30th day of June, 1882, ordered a writ to issue commanding your Honorable Board to proceed, as required by Article XIV of the Constitution, and fix the rates or compensation which the City and County of San Francisco shall pay for water used for municipal purposes, such as the flushing of sewers, the extinguishment of fires, the sprinkling of streets and the watering of parks, and the use of public buildings. Your Honorable Board not having been in session since said order was made, I take this my first opportunity to notify you of the result of the said proceedings.

I deemed it to be my duty to petition the said Court for a rehearing in the said case, and to move for a new trial, which motion stays the issuance of said writ until the further order of the Court.

Respectfully,

J. F. COWDERY,
City and County Attorney.

The following resolution was introduced by Supervisor Carmany and adopted by the Board, requiring the City and County Attorney to withdraw the application made by him for a rehearing in said case, to-wit:

RESOLUTION NO. 15,820. (New Series.)

WHEREAS, By a late decision of the Supreme Court, in the case of the Spring Valley Water Works vs. The Board of Supervisors of the City and County of San Francisco, the question of the city's liability to pay for water used for the purposes of sprinkling streets, cleansing sewers, irrigating public parks and plazas, the extinguishing of fires, and other public uses, has been determined and is in accord with the expressed views and action of this Board; and

WHEREAS, This decision is one acceptable to the general public, inasmuch as it establishes the principle that property shall bear a proportion of the expense of a plentiful supply of water for all public purposes to the relief of the present water rate-payers of this City and County; and

WHEREAS, This principle has been indorsed by the action of the people at large, at the polls, during the last municipal election; and

WHEREAS, This Board is informed that the City and County Attorney has applied for a rehearing of the case, basing said application principally on questions of error; therefore,

Resolved, That the City and County Attorney be and he is hereby instructed and required to withdraw his said application for a rehearing in the said case of the Spring Valley Water Works vs. The Board of Supervisors of this City and County.

In Board of Supervisors, San Francisco, July 17, 1882.

Adopted by the following vote:

Ayes—Supervisors Bodfish, McKew, Carmany, Molineux, Torrens, Bradford, Fisher, Merrill, Russ, Parrish, Kennedy.

No—Supervisor Shirley.

JNO. A. RUSSELL, Clerk.

The following communication from the City and County Attorney, under date of July 19, 1882, declining to withdraw the application made by him to the Supreme Court for a rehearing in said case, was presented to the Board, at a meeting held July 24, 1882, and ordered placed on file, to-wit:

COMMUNICATION OF THE CITY AND COUNTY ATTORNEY.

OFFICE OF THE CITY AND COUNTY ATTORNEY, }
San Francisco, July 19, 1882. }

*To the Honorable, the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—Resolution No. 15,820 (New Series), instructing me to withdraw my application for rehearing in the case of Spring Valley Water Works vs. Board of Supervisors (Wm. H. Bodfish et al.), now pending in our Supreme Court, has been received, and I beg leave to reply that it is evident that when said resolution was adopted, your Honorable Body did not fully understand the relations of others to said case, or your Honorable Body would not have instructed me as you have. Although the members of your Honorable Board were alone parties to said action, it was understood by the Court and counsel that the City of Oakland and Woodland, and other towns and cities in the State, were equally interested with the City and County of San Francisco in the question involved, and, by leave of the Court, the Contra Costa Water Company appeared by counsel, and "a large portion of the residents of Woodland," who were greatly interested, also appeared. It has always been the practice in our Supreme Court to permit all interested persons to appear in cases of great public importance, and indeed the Court often invites such appearance.

The Spring Valley Water Works vs. The Board of Supervisors is not a private case. It involves the question of the right of children on their way to school and funeral processions to pass free over toll bridges and the obligations of certain railroad corporations to carry certain freight and passengers free in times of peace and troops and munitions in time of war.

These questions are co-extensive with the boundaries of the State, wherever a question involving the construction of a State Constitution is under argument, and any attempt to localize such issues must necessarily fail. Except in the discretion of the Court, petitions for a rehearing are not allowed in mandamus cases where the Supreme Court has taken original jurisdiction. The law does not even require notice of the application to be given to the adverse party, and when the petition is filed the case stands exactly as though no decision had been rendered, and the petitioning party has no more right to withdraw his petition than he has to request the Court not to decide his case after it has been submitted. Courts would be apt to regard such requests with or as contempt.

In order to give this case the weight as authority it is entitled to, if the opinion of the

Court is to stand as the law, it was my duty to proceed as I have and cause all questions involved to be argued and decided. If the questions raised by my petition for rehearing are not disposed of now, they will surely arise when the first demand for compensation for the use of water for the extinguishment of fires is ordered paid by the successors of your Honorable Body under the ordinance passed to pay for such water in 1883.

No good reason can be given for keeping the water question always open. That question can be settled in this case. Why not settle it? Who is interested in keeping it open? The fact that three out of the seven of the Judges dissented is sufficient to keep the question indefinitely open. Upon rehearing the Court may be unanimous against free water, or it may decide the other way. When Judges are so evenly divided upon a question, the principle involved is never considered settled until a petition for rehearing has been denied. It was my duty to file such petition, and now, mindful of my official obligations, I respectfully decline to withdraw it.

Respectfully,

J. F. COWDERY,
City and County Attorney.

The Committee on Water and Water Supplies presented, on July 24, 1882, the following report in reference to the status of the water question and the pending litigation, to-wit:

REPORT OF COMMITTEE ON WATER AND WATER SUPPLIES.

*To the Honorable Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—Your Committee on Water and Water Supplies, to whom was referred a communication from the City and County Attorney informing the Board that he had petitioned the Hon. Supreme Court for a rehearing in the case of the Spring Valley Water Works vs. The Board of Supervisors, and who at the last meeting held, July 17th, introduced a resolution numbered 15,820 (New Series), which was adopted by your Honorable Board, instructing and requiring the City and County Attorney to withdraw said application for a rehearing—would respectfully report, that prior to the adoption of the New Constitution of this State, the Supreme Court, in the year 1877, decided that, under the Act of 1858, the Spring Valley Water Works, the corporation supplying water to the City and County and its inhabitants, was required to furnish water free of charge for all municipal purposes, except such purposes as were defined to be "family uses."

That the New Constitution evidently contemplated and provided that payment should be made for water so supplied.

That it was and is the opinion of a majority of the people, that property should pay its just proportion of the expense of water furnished.

That the rate-payers should not continue to be charged with and compelled to pay for water supplied for the benefit and protection afforded to property.

That the only method by which the rate-payers could be relieved was by the City and County paying for water supplied for all municipal purposes, and the estimated cost or compensation for water so supplied levied as a tax upon all the real and personal property assessed.

That in order to obtain a decision of the Supreme Court as to the effect of the New Constitution, this Board declared its intention to fix water rates based upon the decision of the Supreme Court, as rendered in the year 1877.

That in accord with such intention the Board did in the month of June fix the rates to be paid by consumers and the compensation to be paid by the City and County for water supplied to the said City and County for "family uses" only.

That the Board, in postponing its action in fixing water rates until the month of June, did so in hopes that the Supreme Court would be enabled to render its decision in time to afford an opportunity, in the event the decision was in accord with their views and the

desire of the people, to apportion the cost of the water supply fairly and equitably, and reduce and fix the rate to consumers upon a correct basis.

That as said decision was not filed until June 30, 1882, no action could be taken for the present fiscal year based upon the said decision, the Board being compelled by statute to fix the tax levy for City and County purposes on the fourth Monday in June, and the water rates prior to July 1st.

That the decision of the Supreme Court in the case of the Spring Valley Water Works vs. The Board of Supervisors of this City and County, is a determination of this much vexed question consonant to the views entertained of the effect of the New Constitution, and in the opinion of this Board an eminently proper and just decision, whereby an equitable adjustment of water rates can be made in the interests of the people, and relieve the water rate-payers from the unjust burden of paying for all the water supply.

That this important question being determined, and the Board believing it to be a proper and desirable solution, at its meeting held on Monday, July 17th, by Resolution No. 15,820 (New Series), duly passed, requested and required the City and County Attorney to withdraw said application for a rehearing on the presumption that the Board possessed the power as representatives of the people to so instruct that officer.

That the City and County Attorney, in his conception of his duties, declines to withdraw said application, and in a communication under date of the 19th inst., states his reasons therefor, which your committee, on examination, cannot indorse as relevant or valid.

That the Board has a remedy by causing other counsel to appear, but your committee do not recommend the Board to avail itself of that prerogative, as your committee and the members of the Board, in a consultation with the City and County Attorney in reference to this proceeding, deem such action unnecessary, as the City and County Attorney agrees to file in this case in the Supreme Court a certified copy of Resolution No. 15,820 (New Series) of the Board, instructing him to withdraw said application for rehearing and also to call the attention of the Court to this action of the Board. This will result, in the opinion of your committee, in a determination by the Supreme Court of the power of the Board.

That a prior decision of the Supreme Court in the case of the Bank of California vs. Shaber, Treasurer, as to the power of the Board of Supervisors, recites that "If at any time the Board (of Supervisors) should determine not to proceed further in the prosecution or defense of a suit or other matter, such determination by the Board is binding upon the Attorney and Counselor, and he must be governed thereby."

That it is the opinion of your committee and the members of the Board, that it is the duty of the City and County Attorney to prosecute or defend all cases to the best of his ability, and to appeal to the highest tribunal and make use of all applications and defenses to bring about a fair and final determination in each case, and that he has no authority or right to refrain from taking such action unless he reports to and has authority from the Board for any different or other action in each and every case, except that whenever this Board is satisfied with a decision of the Superior or Supreme Court, and is of the opinion that it is promotive of the general interests and is in accord with the views of the people, the Board has the right to make such an order in reference to a cessation of litigation as expressed in said Resolution No. 15,820 (New Series), and that it is the duty of the City and County Attorney to so act. That question as to the power of the representatives of the people will be again presented to the Supreme Court, and with that this Board is content.

That in the opinion of this Board, the character and condition of this water litigation presents some singular features. In the action of the Spring Valley Water Works to mandamus the Board to fill vacancy in the Board of Water Commissioners appointed under the Act of 1858, caused by the death of Isaac Friedlander, the petition was denied by the Supreme Court, and the case was then taken by the Spring Valley Water Works by writ of error to the United States Supreme Court and submitted on briefs at the October Term, 1881, the submission was set aside on March of this year and the case ordered to be argued

orally on November 6, 1882. This case if decided in favor of the position assumed by the Spring Valley Water Works would secure the so-called "Free Water" for the City and County and the right of appointing two Commissioners on the part of the company as members of the Commission to fix water rates. The other case brought by the Spring Valley Water Works and just decided by the Supreme Court, decides in favor of the position assumed by the company, that all water supplied must be paid for. That being the status, it appears that the Spring Valley Water Works is in the position of assuming both sides of this question, with which this Board has nothing to do, except that in the acceptable decision rendered by our Supreme Court, it will be necessary on the part of the Board as its policy on this question to oppose the position assumed by the Spring Valley Water Works before the United States Supreme Court.

That the question of water supply has been in the adjustment of rates to some extent an embarrassing one and far from satisfactory in its results, owing to the mode and manner of establishing these charges, and of imposing on one class of our citizens the burdens that should have been borne equally by all, in proportion to the benefits derived and to property values. The present solution by the Supreme Court is one that will enable a proper adjustment of the cost or expense to be made and lessen the rates now imposed upon the water consumers from 25 to 33½ per cent.

That the advocates of free water will do well to bear in mind that it has a double significance, and that the result of free water for the city, to be paid for by the consumer, will undoubtedly bring about as an ultimate result free water for all consumers at the expense of the taxpayers. The following extract from remarks made on this subject by Supervisor Fisher, at a meeting held March 13, 1882, embody our views and present this phase of the question very clearly:

"Whatever may be the opinion expressed by designing persons who present their views, under the pretended assumption of public opinion, it must certainly follow that if it should be decided that property cannot be taxed under the present laws to pay its just proportion, the principle will be adopted by political parties that property must pay its quota, and in the bid for political influence and control it appears evident to me that eventually free water for consumers will be a political necessity and will be accomplished by the force of political strength, and will lead to the amending of the State Constitution or statutes, if they stand in the way, and the enactment of such laws as will compel the payment of water rates to be defrayed by a general tax upon property, just as police and fire protection and street lights are paid for at present. When it is considered that none of these wants are as indispensable as water, the transition from the present mode of special to general taxation will not be surprising, but I think will probably be heralded as proper and beneficent legislation."

Your committee, in presenting these views, present them as the unanimous opinion of the members of the Board, who in the consideration of this subject believe that the decision of the Supreme Court affords just and proper relief in the premises, and protects the interests of the consumers of water by making the owners of property liable for their proportion of the benefit derived from a water supply without doing injustice to either.

JOHN H. CARMANY,
J. F. KENNEDY,
H. MOLINEUX,
G. B. BRADFORD,
W. H. BODFISH.

On July 31, 1882, the Hon. Supreme Court denied the application made by the City and County Attorney for a rehearing in the case of the "Spring Valley Water Works *versus* The Board of Supervisors of the City and County of San Francisco," Mr. Justice Ross filing a special opinion, as follows:

OPINION OF ROSS, J.

In voting to deny the petition for rehearing in this case, which I do, I wish to say that before so voting I have carefully reconsidered the question involved in it. When it was determined here by the opinion of a majority of the Court, filed June 6, 1881, in the case entitled *Spring Valley Water Works vs. Board of Supervisors of San Francisco*, No. 7629 (7 Pac. C. L. Jour., 614), that the provisions of the New Constitution in relation to water were applicable to the Spring Valley Company, I distinctly stated in an opinion in which I dissented from the views of the majority, that, in my opinion, the effect of the conclusion then reached by the Court would be to relieve the company of the obligation to furnish the City and County of San Francisco with water for any purpose free of charge.

When the question was presented in the subsequent case, entitled *San Francisco Pioneer Woolen Factory vs. Brickwedel*, No. 8252, the opinion in which was filed March 10, 1882, and is reported in IX Pacific Coast Law Journal, p. 136, I distinctly stated that under the judgment of the Court in the former case, holding that the provisions of the present Constitution are applicable to the company in question, the company had, in my opinion, become relieved of the obligation to furnish the city with any water free of charge. On the first consideration of the present case I held the same view. I could not then, and cannot now read the provisions of the Constitution in any other way. If those provisions apply to this company at all, they apply to it fully. They cannot be read one way for the Spring Valley Company and another way for another company or for an individual. They mean the same thing for every person, natural or artificial, to which they apply. If I could place the same interpretation on Section 19 of Article XI, and Sections 1 and 2 of Article XIV, of the Constitution, that Mr. Justice McKinstry does, in his dissenting opinion in this case, and hold that it is competent for the Legislature, under the Constitution, to impose upon any new corporation or person wishing to introduce water into the city, the furnishing of water to the City and County free of charge, I would agree with him in his conclusion in the present case. But I cannot so read the provisions of the Constitution. I understand Section 19 of Article XI to clothe all corporations and persons to which it applies, with the privilege (under the direction of the Superintendent of Streets and subject to municipal regulations in relation to damages) of introducing and supplying the City and County of San Francisco and its inhabitants with fresh water for domestic and all other persons (with certain exceptions in regard to damages) upon the sole condition that the municipal government shall have the right to regulate the charges thereof.

It is not competent, I think, for the Legislature to add to the terms here imposed. Subject to the restrictions provided for in the Constitution, any person or corporation may lay pipes in the streets for the purpose of supplying the City and County and its inhabitants with water, and the Legislature has no right to require any such person or corporation to furnish the City and County with any water free of charge. And I find upon an examination of the debates in the Constitutional Convention, that that was the expressly declared intention of the distinguished lawyer—Hon. Volney E. Howard—at whose instance the clause in question was inserted in the Constitution. Previous to the adoption of this clause, there had been offered for insertion in the Constitution the following: "In any city where there are no public works owned and controlled by the municipality for supplying the same with artificial light and water, any company duly incorporated by the laws of this State shall, under the direction of the Superintendent of Streets of said city, have the privilege of disturbing and using the public streets and thoroughfares thereof, and of laying down pipes and conduits therein, and of making connection therewith, so far as may be necessary for introducing into and supplying such city and its inhabitants either with gaslight or other illuminating light, or with fresh water, for domestic and all other purposes, for which the same or either may be used, upon the conditions following: such company shall make good all damages to such streets and thoroughfares, except necessarily occasioned by the reasonable use thereof, and be liable to such city and its inhabitants therefor. Such company introducing and supplying gaslight, or other light, and fresh water, or either, shall furnish the same, so far as necessary and required, free

and without charge, to all public buildings, institutions, and school-houses belonging to such city, and used for municipal purposes; and such company introducing and supplying water shall also furnish the same free and without charge to the Fire Department, and for the extinguishment of fires. Each company, its property and franchise, shall be liable to such city and its inhabitants for the performance of these conditions." (Vol. 2 of the Proceedings of the Constitutional Convention, page 1,072.)

After much debate this section was stricken out, and on motion of Mr. Howard, the clause of Section 19 of Article XI of the Constitution was adopted.

The introduction of this clause was accompanied by the following remarks of Judge Howard (page 1,075): "This is a different proposition altogether from the one struck out. My provision steers clear of confining this privilege to corporations or incorporated companies. It gives to any individual, as well as to any incorporated company, the right to the use of streets for laying down pipes for the supply of gas and water or either. I think that the objection that was taken to the section as formerly introduced was well taken—that it should not be limited to corporations; that any individual, for the public good, should have the right to use the street for laying down pipes for supplying water or gas. It is in the public interest that it should be conceded, and it prevents monopoly in any sense. It also provides that the city authorities may make a regulation in relation to damages and indemnity—that is, that they may make a regulation requiring all work to be done under the supervision of the Superintendent of Streets, and also, if any damage should be likely to occur, they may, by security or otherwise, guard against it. I leave out also the provision which required the company to supply the city and the school-houses, and other public buildings with gas or water free of charge, because I think that an unjust burden."

The provision introduced by Judge Howard, and thus explained by him, was adopted, and forms part of Section 19 of Article XI of the Constitution. In my opinion, it bears the construction intended by him and none other.

There was, therefore, no such thing as "free water" contemplated in or by Section 19 of Article XI, but on the contrary, it was intended that every corporation and person subject to its provisions, should be paid for all water furnished, at rates to be regulated by the municipal government. Section 1 of Article XIV follows and declares that the rates or compensation to be collected for water so supplied shall be fixed annually by the Board of Supervisors, by ordinance, which shall continue in force for one year and no longer.

Applying these provisions to the Spring Valley Water Works, as must be done under the decision of this Court in the case to which allusion was first made herein, I see now, as I saw then, no escape from the conclusion that the company is entitled to be paid for all water furnished by it to the City and County of San Francisco.

In connection with this subject of the mode and manner of fixing and establishing water rates, by reason of the proceedings hereinafter recited, a suit is now pending in the Supreme Court of the United States, wherein the question as to whether the rates are to be established as provided in the Act of 1858, under which the Spring Valley Water Works was incorporated, or whether it was the duty of the Board of Supervisors under the provisions of the New Constitution to establish said rates; in other words, whether the New Constitution could abrogate or take away the rights acquired by, and the liability of the Spring Valley Water Works under the Act of 1858.

On February 7, 1881, the Board of Supervisors received a communication from the President of the Spring Valley Water Works, calling attention to the fact that by the death of Isaac Friedlander the City and County lacked the representation in the Board of Water Commissioners appointed in 1877 to which it was entitled, and requesting that the vacancy be immediately filled

by making the selection as provided by law. This application referred to the provisions of the Act of 1858, under which the company was incorporated, and was apparently in compliance with an opinion of the Supreme Court (52 California Reports, page 132) relative to the mode pointed out by the Act to fix the water rates, although under Article XIV of the New Constitution it was made the duty of the Board of Supervisors to take that action, and notwithstanding the fact that the Board of Supervisors acting under the New Constitution had actually fixed the rates to be collected during the year ending June 30, 1881. The communication of the Spring Valley Water Works was referred to the Judiciary Committee of the Board, who reported on February 14, 1881, "that under Article XIV of the Constitution it is the duty of the Board of Supervisors to annually fix the rate to be collected for water, and recommend that the Board decline to take action upon said communication, other than to place the same on file." The Board adopted a Resolution, No. 15,060 (New Series) to that effect at the same meeting.

An alternative writ of mandate on February 26, 1881, was issued by the Supreme Court, on the application of the Spring Valley Water Works, requiring the Board to fill said vacancy, or show cause why the same was not done. The case was heard, submitted and the Supreme Court rendered a decision on June 6, 1881, denying the application, in which it was held that—

"Section 1, Article XIV of the Constitution has been enforced by appropriate legislation. It has, therefore, struck null that provision of Section 4 of the Act under which the company organized, for the appointment of commissioners and the determination of water rates by the board of such commissioners. Water rates must be fixed by the Board of Supervisors pursuant to the provisions of the Act of 1881, and not by a board of commissioners appointed under the Act of 1858, unless it be that the first section of Article XIV of the Constitution contravenes the tenth section of Article I of the Constitution of the United States, which prohibits a State from impairing the obligation of a contract, and that is the ground taken by the company." * * *

"Whence it results that, when the State, by the constitutional amendment of 1879, took away from the petitioner the privilege of participating in the selection of public agents to perform the duty, under its charter, of fixing water rates between it and the public, it did not interfere with any of the vested rights of the company, and the exercise of its power in that respect cannot be regarded as an unconstitutional act within the prohibition of the Federal Constitution."

On August 15, 1881, the Judiciary Committee reported the receipt of a copy of a citation from the Supreme Court of the State of California, citing and admonishing the members of the Board of Supervisors to appear at the Supreme Court of the United States on the second Monday of October, 1881, pursuant to a writ of error filed in the Clerk's Office of the Supreme Court of the State of California, wherein the Spring Valley Water Works was plaintiff in error, to show cause why the judgment in the said writ of error should not be corrected and speedy justice done to the parties on that behalf, and recommended the passage of the following resolution, authorizing Messrs. Rhodes and Barstow to appear for and on behalf of the City and County:

RESOLUTION NO. 15,290. (New Series.)

WHEREAS, The members of this Board have, by copy of citation from the Supreme Court of the State of California, been cited and admonished to be and appear at the Supreme Court of the United States at the City of Washington on the second Monday of October, A. D. 1881, pursuant to a writ of error filed in the Clerk's office of the said Supreme Court of the State of California, wherein the "Spring Valley Water Works" is plaintiff in error, and the Board of Supervisors is defendant in error, to show cause why the judgment in the said writ of error should not be corrected and speedy justice should not be done to the parties in that behalf; therefore,

Resolved, That Messrs. Augustus L. Rhodes and Alfred Barstow, attorneys at law, be and they are hereby authorized and requested to appear for and on behalf of this City and County, and take such action in the premises as to them shall seem necessary.

In Board of Supervisors, San Francisco, August 15, 1881.

Adopted by the following vote:

Ayes—Supervisors Schottler, Mason, Whitney, Eastman, Fraser, Taylor, Doane, Bayly, Torrey, Stetson.

Absent—Supervisors Litchfield, Drake.

JNO. A. RUSSELL, Clerk.

In case of a decision by the United States Supreme Court in favor of the Spring Valley Water Works, then the rates for water supplied for use of the inhabitants will be fixed by a Board of Commissioners, as provided in the Act of 1858, and said company will be required to furnish water to the extent of its means, as heretofore, in case of fire or other great necessity free of charge, which has been defined by the Supreme Court of the State, in opinion filed July 5, 1877, virtually deciding that the incorporation of the Spring Valley Water Works under the Act of 1858 and the conditions expressed therein, was a contract which Article XIV of the New Constitution did not abrogate, and will nullify the last decision of our Supreme Court.

The following communication from Messrs. Rhodes and Barstow, Special Counsel, in reference to their conduct of the case before the United States Supreme Court, was received by the Chairman of the Judiciary Committee:

COMMUNICATION OF RHODES AND BARSTOW.

SAN FRANCISCO, July 8th, 1882.

Hon. Wm. H. Bodfish, Chairman Judiciary Committee, Board of Supervisors:

DEAR SIR—We desire to call your attention to the case of Spring Valley Water Works vs. Schottler and others, composing the late Board of Supervisors of this City and County, your predecessors. The action was mandamus, to compel the City to fill the vacancy in the Board of Commissioners to fix water rates, caused by the death of Isaac Friedlander. The matter was heard by the Supreme Court in bank in March, 1881, and in June a decision was rendered, denying the petition and dismissing the writ. In August following, the Water Company took the case by writ of error to the Supreme Court of the United States. As both parties to the controversy were desirous of a speedy determination of the question involved, and as it would be more than two years before the case could be reached in its order on the calendar for oral argument, a stipulation was entered into, by which the case was submitted, under Rule 20, on briefs to be filed. Briefs were accordingly filed by Mr. Fox on behalf of the Water Company, and by ourselves on behalf of the City. The Court held the case under advisement till March, 1882, when an order was entered setting aside the submission, and ordering the case on the calendar, for oral argument on the sixth day of November next.

We call your attention to Resolution No. 15,290 (New Series), under which we were retained by the city, and to authorization No. 3,087, under which a retainer of \$500 was paid us. It will be necessary that your Board take action in regard to provision for expenses of counsel to Washington and for compensation for services on the oral argument. The case is one of very great importance, involving as it does the question as to whether the provisions of the Act of 1858, for the appointment of commissioners, constitute a contract binding for all time upon the State, the City and the company. Should it be held that those provisions constitute a contract, it will be difficult to avoid the conclusion that the provision in regard to free water also constitutes a contract.

Respectfully,

RHODES & BARSTOW,
Special Counsel.

On July 31, 1882, the Committee of the Whole presented the following report, which was received, read and placed on file, to-wit:

REPORT OF COMMITTEE OF THE WHOLE.

*To the Honorable, the Board of Supervisors
of the City and County of San Francisco.*

GENTLEMEN—Your Special Committee, composed of all the members of the Board, would respectfully report that they are in receipt of a communication from Messrs. Rhodes and Barstow, calling attention to the case of the Spring Valley Water Works vs. Schottler et al., composing the late Board of Supervisors, being a mandamus to compel the City to fill the vacancy in the Board of Commissioners to fix water rates caused by the death of Isaac Friedlander, which case was heard by the Supreme Court in March, 1881, and the petition denied. In August following, the Water Company took the case by writ of error to the Supreme Court of the United States, where the case has been ordered on the calendar for oral argument on November 6th, 1882; also calling attention to Resolution No. 15,290 (New Series), under which they were retained by the City, and to Authorization No. 3087, under which they were paid a retainer of \$500, and stating that it will be necessary that the Board take action in regard to making provision for expenses of counsel to Washington, and for compensation for their services.

Messrs. Rhodes and Barstow were appointed Special Counsel in this matter by Resolution No. 15,290 on August 15, 1881, and \$500 paid them as a retainer. The case was submitted on briefs, which submission was set aside on March, 1882, and the case placed on the calendar for oral argument before the United States Supreme Court on November 6th, 1882. The importance of the settlement and determination of the respective rights of the City and County and the Spring Valley Water Works requires that the interests of the City should be presented and advocated at Washington before the Supreme Court by the counsel heretofore employed who are familiar with the case. Your Committee, after consultation with Messrs. Rhodes and Barstow, beg leave to recommend the allowance of \$2,000, out of the amount allowed by law for the employment of special counsel, to said firm as full compensation for all services to be rendered by them. * * *

H. MOLINEUX, Chairman.

The following resolution providing for payment of the services rendered and to be rendered by Messrs. Rhodes and Barstow, until the final determination of the suit in the United States Supreme Court, was passed by the Board of Supervisors and became valid by lapse of time:

RESOLUTION NO. 15,852. (New Series.)

WHEREAS, Messrs. Rhodes and Barstow were, by Resolution No. 15,290, adopted on the 15th day of August, 1881, retained as Special Counsel for the City and County of San Francisco, in the cause now pending in the Supreme Court of the United States, wherein the Spring Valley Water Works is plaintiff in error and the Board of Supervisors of said City and County is defendant in error; and

WHEREAS, The submission of said cause has been set aside by said Court, and an order made that said cause be argued orally before said Court on the 6th day of November, 1882:

Resolved, That an expenditure of two thousand (\$2,000) dollars be and the same is hereby authorized to be made out of the General Fund in payment to said Rhodes and Barstow for services and expenses in appearing at the hearing of said cause and arguing same on behalf of defendant in error, and in full compensation for all services rendered or to be rendered in said cause until the final determination thereof.

In Board of Supervisors, San Francisco, August 21, 1882.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Bodfish, McKew, Shirley, Molineux, Torrens, Bradford, Fisher, Merrill, Russ, Parrish.

Absent—Supervisors Carmany, Kennedy.

JNO. A. RUSSELL, Clerk.

The above Resolution No. 15,852 (New Series), not having been approved by his Honor the Mayor and ex-officio President of the Board of Supervisors, or returned to this Board with objections thereto, within ten days of the date of presentation thereof, has become valid in accordance with the provisions of Section No. 68 of the Consolidation Act.

San Francisco, September 2, 1882.

JNO. A. RUSSELL, Clerk.

The Committee on Water and Water Supplies of the Board of Supervisors in connection with the question of the water supply for the City and County of San Francisco, deemed it proper to communicate with the cities of Boston and New York, with a view to ascertain certain particulars in relation to the mode of estimating the cost or value of the water works for the supply of those cities. The following communication was therefore dispatched to the Water Registrar, Boston, and to Allan Campbell, Esq., Commissioner of Public Works, New York:

SAN FRANCISCO, November 11, 1881.

To the Water Registrar, Boston:

DEAR SIR—I have been requested by the Chairman of the Committee on Water and Water Supplies of the Board of Supervisors of the City and County of San Francisco, to make application to you for the following information:

- 1st. When were the Cochituate Water Works commenced?
- 2d. What has been their cost up to the present time, stating the principle upon which the cost is estimated?
- 3d. What proportion of this cost has been raised from property?
- 4th. What are the annual running or operating expenses of the works, including in this item the amounts paid for repairs and maintenance?
- 5th. What is the present annual income on the works?
- 6th. Are the works subject to taxation, and, if so, what amount is paid annually for taxes?

Very respectfully,

JNO. A. RUSSELL, Clerk.

A similar communication having, as before stated, been forwarded to New York, the following communications were received in reply:

COMMUNICATION FROM WATER REGISTRAR OF BOSTON.

OFFICE OF THE WATER REGISTRAR, }
Boston, December 17, 1881. }

JNO. A. RUSSELL, Esq., *Clerk of the Board of Supervisors*
of the City and County of San Francisco.

DEAR SIR—In reply to your letter of the 11th inst., I have to say—

1st. The Cochituate works were commenced in 1845.

2d. The cost of the Cochituate Water Works up to 1881, is \$61,107,799.11. This cost is estimated upon the principle which would govern a business man in making up such cost, viz., taking the expenditures annually, adding thereto interest at current rates, and deducting therefrom each year's income.

3d. The proportion of this cost which has been raised from property is little less than half, viz., \$26,858,338.23.

4th. The annual running or operating expenses are about \$316,000.

5th. The present annual income of the works is \$1,133,364.02.

6th. The works are owned by the City and are not subject to taxation.

In conclusion, I will state, in explanation of any apparent discrepancy between this statement as to the cost and that contained in the annual reports, that the cost in such reports is not correctly made up, because it does not include interest.

Very truly yours,

W. F. DAVIS,
Water Registrar.

COMMUNICATION FROM CHIEF ENGINEER CROTON AQUEDUCT, NEW YORK.

DEPARTMENT OF PUBLIC WORKS, OFFICE OF CHIEF ENGINEER, }
31 Chambers St., Room 10, New York, April 18, 1882. }

JNO. A. RUSSELL, Esq., *Clerk of the Board of Supervisors, San Francisco, Cal.*

DEAR SIR—In reply to the question in your letter of March 21st, 1882, I beg leave to state—

1st. "When were the Croton Water Works commenced?" The work of construction was commenced in 1835; the surveys were commenced several years before this date; the water was led into the city in 1842.

2d. "What has been the cost up to the present time (December 31st, 1881), stating the principle upon which the cost is estimated?" The cost is shown in the statement hereinafter given, which shows the amount actually expended on construction, the amount expended for maintenance and repairs, and the amount paid out for interest and discount on bonds.

3d. "What portion of the cost has been raised from property?" This likewise is stated in the statement just mentioned.

4th. "What are the annual running expenses of the works, including in this item the amount paid for repairs and maintenance?" The amount paid in 1881 was \$347,438.95, as compiled by Mr. J. J. R. Croes from the records of the Finance Department. Mr. Croes' statement likewise shows the amount paid under this head in previous years.

5th. "What is the present annual income of the works?" For the year 1881 it was \$1,592,592.04, as compiled by Mr. Croes.

6th. "Are the works subject to taxation, and if so, what amount is paid annually for taxes?" The works are the property of the City and are not subject to taxation.

WATER RATES.

Statement showing the amount expended in construction of works, for maintenance and repairs, and for interest and discount on bonds or stock; also, the amount received from water rates, from taxes on property, and the amount of bonds and liabilities outstanding, all to December 31, 1881:

EXPENDITURES.

For the construction of works.....	\$33,712,196 94
For maintenance and repairs.....	5,343,499 00
For interest and discount on bonds and stock.....	30,259,468 61
	<u>\$69,315,164 55</u>

RECEIPTS.

From water rates.....	\$35,839,809 04
From taxes on property.....	16,272,414 22
From miscellaneous sources—sales of materials, premiums on bonds.....	642,815 33
Amount of bonds or stock and liabilities outstanding, December 31st, 1881..	16,560,125 96
	<u>\$69,315,164 55</u>

The above exhibit is made from the statement (of which you have a copy) compiled at the expense of great labor by Mr. J. J. R. Croes, C. E., from records in the Finance Department of this city. I believe them to be strictly accurate. Of the amount (\$33,712,196.94) expended on the construction of the water works, about four million of dollars was spent for the benefit of certain property owners, and did not increase or add to the efficiency of the water supply.

Very respectfully,

ISAAC NEWTON,
Chief Engineer Croton Aqueduct.

OPEN PUBLIC STREETS.

All streets delineated on the Van Ness Map, the official map made by the Board of City Engineers, approved January 30th, 1856, and the official map (declared by Order No. 966) are open public streets. A number of streets being originally dedicated to public use by the subdivision of tracts of land into homesteads, etc., from time to time, a list showing the different homestead land tracts and associations, of which maps are filed in the office of the Recorder of the City and County of San Francisco, is herewith presented, which, in addition to the streets named on said maps and the following declared and dedicated by Ordinances of the Common Council, and by Orders of the Board of Supervisors, include all the public streets.

CHANGING THE NAMES OF STREETS.

By reference to the official map of this City and County it will be seen that there are many streets, of which from two to five bear the same name, thereby causing much annoyance to the public, and particularly to the Postal Department, whose chief officer in this City recently made the matter the subject of a communication to the Board of Supervisors, in which he complained of the vexation and delay in the delivery of correspondence, resulting from duplication and multiplication in the nomenclature of streets, and suggested that a remedy for the evil might be advantageously applied.

In acknowledging the force of the Postmaster's suggestion, the Board of Supervisor's passed an Order (No. 1,684); also an Order (No. 1686) supplementary to and amendatory thereof, "changing the names of certain streets, avenues, places and lanes, and naming certain other streets and alleys heretofore nameless, within the City and County of San Francisco," and for the convenience of the Postal Department, the Assessor, Conveyancers of Real Estate and the general public, the following tables have been compiled:

TABLE OF STREETS, AVENUES, PLACES, ETC.,

SHOWING THE NAMES BY WHICH THEY WERE FORMERLY KNOWN, AND
BY WHICH THEY ARE NOW DESIGNATED IN CONFORMITY TO ORDERS
NOS. 1684 AND 1686

Volney alley	Between Hayward and Ritch, from Folsom, South East.
Wagner alley	Between Jones and Leavenworth, from Eddy, South.
Waldo alley	Between Vallejo and Broadway, from Leavenworth, West.

HISTORICAL PAINTINGS

BELONGING TO THE CITY AND COUNTY, IN CHAMBERS OF BOARD OF SUPERVISORS AT NEW CITY HALL.

The walls of the Chamber of the Board of Supervisors are adorned with several portraits of historical interest, and the following is a brief history of the circumstances under which these paintings occupy their present positions:

HON. EDWARD GILBERT.

The following communication was presented to the Board of Aldermen, at their meeting held March 1st, 1853, by their President, Joshua P. Haven:

SAN FRANCISCO, February 28, 1853.

To the Hon. J. P. Haven, President Board of Aldermen:

DEAR SIR—By a provision of the will of my late deceased partner, the Hon. Edward Gilbert, his portrait, painted by Osgood, is bequeathed to the City of San Francisco.

As his executor under the will, I take this occasion to place in your hands for presentation, through the Hon. the Common Council, this picture, which I believe is the only one ever painted of Mr. Gilbert from life.

I have the honor to be, very truly, your obedient servant,

EDWARD C. KEMBLE.

The communication was ordered on file, and, after appropriate eulogies, the following resolution was unanimously adopted:

Resolved—the Board of Assistant Aldermen concurring—That the Common Council accept the portrait of the late Hon. Edward Gilbert, one of the first Representatives of the State of California in the Congress of the United States, presented by Edward C. Kemble, Esq., under a provision of the will of the deceased, and that the Clerk be ordered to have the same framed and suspended in the Council Chamber.

The foregoing resolution was presented to the Board of Assistant Aldermen the same evening, March 1st, 1853, and unanimously adopted as Joint Resolution No. 319.

JOINT RESOLUTION NO. 319, ACCEPTING THE PORTRAIT OF THE LATE HON. EDWARD GILBERT.

Resolved, That the Common Council accept the portrait of the late Hon. Edward Gilbert, one of the first Representatives of the State of California in the Congress of the United States, presented by Edward C. Kemble, Esq., under a provision of the will of the deceased, and that the Clerk be ordered to have the same framed and suspended in the Council Chamber.

J. P. HAVEN,

President of the Board of Aldermen.

JAS. DELONG,

President of the Board of Assistant Aldermen.

Passed the Common Council unanimously, March 1st, 1853.

EDWARD TOBY, Clerk.

The following biographical sketch of Edward Gilbert is taken from the Annals of San Francisco, and will be found interesting:

"The Hon. Edward Gilbert was born about the year 1819, in Cherry Valley, Otsego County, New York. Most of his near relatives died before him, and the circumstances of fortune in which he was placed threw him, like so many others of his countrymen, upon his own resources. Consequently, whatever excellence he showed or position he attained subsequently, should be attributed alone to his own inherent qualities, his intellect and perseverance. He was, in the best sense of the word, a self-made man. Self-reliance, a hopeful disposition, energy, a brave and honest heart, were his youthful patrimony. With these he worked and won. At a very early age he was apprenticed to 'the art preservative of all arts' in the office of the Cherry Valley newspaper, where he acquired the trade or profession of a practical printer. In 1839 or 1840 he joined the *Albany Argus* as one of its compositors, and about 1845 was made its foreman, and very soon afterwards assumed the position of one of its associate editors. In this station the war-cry of his country found him in the spring of 1846, and he at once co-operated with others in raising a volunteer company for the Mexican campaign. The services of the company were tendered the Government to join the army on the Rio Grande. A call having been made for a regiment destined expressly for California, he threw up his position on the paper and devoted himself to the work of raising a company. Another company was being formed by Capt. Frisbie. The two commanders, Gilbert and Frisbie, fearing that two companies would not be accepted from the same city (Albany), agreed to unite, Gilbert taking the office of lieutenant. This was done; the company thus formed was accepted, and arrived at the headquarters of the 1st Regiment of New York Volunteers, under command of Col. J. D. Stevenson, at Governor's Island, on the 1st day of August, 1846. The regiment sailed from New York on the 26th day of September, in three transports, the *Thos. H. Perkins*, *Susan Drew* and *Loo Choo*. Gilbert sailed in the *Susan Drew* as far as Rio de Janeiro, where he exchanged to the *Loo Choo*, and arrived in San Francisco in the latter end of March, 1847. Company H, to which Gilbert belonged, proceeded to the Presidio, but he and some twenty men were stationed in San Francisco, their quarters being the 'Old Adobe' on the plaza. Here he remained not only in command of the detachment, but as deputy collector of the port, under Capt. Joseph L. Folsom, who, having been ordered to act as collector for the purpose of raising a military contribution and to select as his deputy a subaltern, had judiciously given that position to Lieutenant Gilbert. This was the first opportunity afforded him in California of evincing his ability and integrity as a business man. Most of the duties of this office necessarily devolved upon him. They were always arduous and sometimes very delicate and critical; but he never failed to inspire respect for his talents, confidence in his integrity, and admiration for his firmness of character and amenity of manners. This position he held until the disbanding of the regiment, August 16th, 1848. The war had then been terminated, and it became necessary to select a civilian to act as collector of the port until the revenue laws of the United States should be extended over the territory. The late General Mason, U. S. Army, then acting as Governor of the territory, appointed Mr. Gilbert to that office. This he declined. By doing so, he voluntarily lost the opportunity of amassing a large fortune in a very short time; Mr. Harrison, who was subsequently appointed, having become the recipient of immense revenues, through the opportunities given him by virtue of his office of getting possession of property, soon became almost if not quite a millionaire. About the 1st of October, he started for the mines, and, after spending some three weeks there, ill health obliged him to return.

"There were then two newspaper establishments in San Francisco, the *California Star* and *Californian*. Mr. Gilbert having formed a partnership with Mr. E. C. Kemble of the *Star* and Mr. George C. Hubbard, and the materials of the *Californian* having been purchased, these two papers, the only ones as yet published in California, were merged into a new paper, the *Alla California*, the first number of which appeared on the 4th of January, 1849, Mr. Gilbert filling the position of senior editor.

"He continued to occupy this position until his death, except when absent in the con-

vention which framed the State Constitution, and afterwards during his Congressional term. In the summer of 1849, he was elected almost unanimously as one of the delegates to represent San Francisco in the convention about to assemble to form a Constitution for the State.

"In the following autumn, having held himself aloof from party nomination, he ran as an independent candidate for Congress, and was elected by a very flattering majority. He had thus the proud distinction of being a member of the first delegation which represented in Congress a sovereign State on the shores of the Pacific Ocean. At the expiration of his term of service he returned to California, where he arrived in June, 1851, with health much impaired. He soon resumed his position of senior editor of the *Alta California*. During the spring and summer of 1852, the relief expedition, sent out to assist the incoming immigration over the plains under the law of the Legislature of that year, became the subject of much criticism through the press, as well as in private circles. Mr. Gilbert could not, from his nature and habits, refrain from expressing decidedly his opinions touching it and its conductors. This unfortunately involved him in a personal controversy with several gentlemen, and finally led to a duel, in which the Hon. J. W. Denver, State Senator from Klamath and Trinity counties, and himself were principals, Mr. Denver being the challenged party.

"They fought at sunrise, August 2d, 1852, at Oak Grove, near Sacramento. The weapons used were Wesson's rifles, the distance forty paces. The first fire having occurred without effect, the weapons were reloaded, the word given, and Mr. Gilbert fell mortally wounded, the ball having taken effect just above the left hip-bone. He survived but a few moments, looking up to his second with a smile, and dying without uttering a word. His funeral ceremonies were performed on the 6th of August. The California Guard, of which he had been a member, acted as escort. A very large concourse of citizens joined in the ceremonies and the procession. His remains were deposited in the Yerba Buena Cemetery. Entirely conscious of his own rectitude and honesty, he could not and would not suffer a doubt of either to be breathed or whispered. If this was an error it sprung from a highly virtuous impulse and principle, and he lost his life in vindicating what he considered his honor.

"The gloom which hung over the city after the announcement of his death, and during his funeral ceremonies, showed how deeply he had fixed himself in the hearts of the community."

His remains were interred in Yerba Buena Cemetery. After the city authorities prohibited further interments in Yerba Buena Cemetery in 1863, his remains were disinterred and buried in the "Printers' Plot" in Lone Mountain Cemetery.

The Record Book of Lone Mountain Cemetery, since named Laurel Hill Cemetery, reads as follows: "Interred May 3d, 1863, from Yerba Buena Cemetery, by the Eureka Typographical Society." The much weather-worn wooden head-board over the place of interment reads: "To the memory of Edward Gilbert. Born in New York; Died August 2d, 1852, aged 33 years."

SIR FRANCIS DRAKE.

At a meeting of the Assistant Board of Aldermen, held August 21st, 1854, Alderman Carter, on behalf of Messrs. Barry & Patten, presented to the Board the portrait of Sir Francis Drake, which was accepted and the thanks of the Board tendered to the donors. The presentation was accompanied by the following communication:

COMMUNICATION FROM MESSRS. BARRY & PATTEN.

Sir Francis Drake, the first Saxon who visited the shores of California, wintered in the bay near Bodega, called since that time (1579-80) "Sir Francis Drake's Bay." On his second voyage he came under the auspices of his sovereign, Queen Elizabeth, and had quite a fleet under his command, and on this occasion gave the Spaniards on the Pacific good reason to remember him. Sir Francis returned with such immense booty in gold, silver and jeweled images, crucifixes, vessels, etc., taken from the churches, besides ingots and money, that he came into great favor with his royal mistress; but it made a rupture with the Spanish crown which was only healed by a restoration of a portion of the spoils. Sir Francis came to California in a forty-ton vessel, inferior in size to our present pilot boats, forming quite a contrast to the splendid leviathan clippers which now float so majestically with their snowy wings past the same pillars of the Golden Gate that served as landmarks for Sir Francis to steer his adventurous little barque nearly three centuries ago—before even a prophet dreamed of Peter Smith, tax titles, Potrero or Pueblo, or the roar of the breakers or the scream of the sea-bird had given way to the more discordant wrangling of rapacious land-sharks or unprincipled officials.

Before these things had entered the brain of the wildest speculator in the future, before the Pilgrims stood on Plymouth Rock, Sir Francis had circumnavigated the globe, the first time, for, be it remembered, Magellan died in the attempt and the voyage was half accomplished.

History tells us that Sir Francis circumnavigated the globe under the following circumstances: After ransacking and burning the Spanish cities of the Pacific, he feared that if he attempted to return by the same course which he came they might be intercepted by the Spaniards. Consequently he sought for a northern passage in upper California, but, finding none, sailed for England by the way of India. On his arrival he was received with signal honors by Elizabeth, who honored him by visiting him on board his ship, where Sir Francis entertained his royal visitor by a beautiful banquet.

The dress in which Sir Francis is represented in this portrait was the one in which he received Elizabeth on shipboard, and it is very easy to imagine that the daring navigator was not unwilling to doff the stiff costume and uncomfortable point lace ruff of Elizabeth's time for the easier and more accustomed sailor's habit. This portrait is by William Sharp, one of the most talented artists in America, after Miraveldt, a distinguished painter of the sixteenth century, and is a correct and authentic copy from the original portrait in England.

The City of San Francisco can congratulate herself on the possession of the portrait to hang in her Council Chambers. It is free to the sight of every citizen, and to the contemplative mind affords a vast field, a boundless area for its exercise. Who can tell or even imagine our destiny three centuries hence! It would have seemed madness in one of that age to have predicted such progress in every branch of art and science, and yet three hundred years hence may show to our descendants even greater advance.

Mr. Carter's eloquence will readily supply all deficiencies in the above desultory facts in the history of Drake the Navigator.

Respectfully yours,

BARRY & PATTEN.

 GEORGE WASHINGTON.

MONDAY MORNING, March 5, 1860.

HON. H. F. TESCHEMACHER, *President Board of Supervisors,*
City and County of San Francisco.

SIR—I have a copy of the full-length portrait of Washington, by the celebrated Stuart, executed by his daughter, herself a distinguished artist, which I am desirous of placing in

a safe and conspicuous position until such time as I may be able to dispose of it for her benefit.

Thinking it would prove an appropriate adornment of the Hall in which the Honorable Board of Supervisors hold their sessions, I herewith beg, through you, to tender them the loan of it for such purpose.

Hoping it will receive their favorable consideration, I have the honor to remain,

Your very obedient, etc.,

R. J. STEVENS.

At the session of the Board, Monday evening, March 5th, the foregoing communication was read, and Supervisor H. S. Gates offered the following resolution, which was adopted unanimously:

RESOLUTION NO. 657.

Resolved, That Mr. R. J. Stevens, proprietor of a full-length portrait of General George Washington, be and he is hereby authorized to place the same on the wall of the room of the Board of Supervisors of the City and County of San Francisco (in the City Hall building), the same to remain during the pleasure of the said Stevens, at his own risk.

In Board of Supervisors, March 5th, 1860. Adopted by unanimous vote.

MILO CALKIN, Clerk.

The portrait was suspended as directed, in its original condition as received, until the year 1871, when it was cleaned and framed by the city.

GAS SUPPLIES.

The following is a continuation of the proceedings had by the Board of Supervisors in the matter of furnishing gas for lighting the public streets and public buildings subsequent to October 4, 1870, the prior proceedings being contained in the Appendix to the Municipal Reports of 1879-80.

On September 10, 1880, the then Auditor of the City and County had refused to audit the demand of the San Francisco Gaslight Company for the month of October, 1879, and other demands subsequent to the month of April, 1880. The San Francisco Gaslight Company instituted suit and made application to the Supreme Court for a writ of mandate to compel the Auditor to audit the demand first referred to for the month of October, 1879. A decision was rendered by the Supreme Court on February 7, 1881, a rehearing was granted, heard and the case submitted; subsequently, on July 30, 1881, the submission of the cause was set aside; finally a decision was rendered on January 30, 1882, granting a writ of mandate to issue, to compel the Auditor to audit the demand as finally allowed by the Board of Supervisors for the month of October, 1879.

On February 28, 1882, the San Francisco Gaslight Company appealed to the Board of Supervisors from the action of the Auditor in refusing to audit eleven demands which had been allowed by the Board for lighting the public streets from the month of July, 1880, to and including the month of June, 1881. It being claimed that the decision of the Supreme Court would determine the status of all the bills allowed, no prior action or appeal had been taken, and these demands therefore, unlike that for the month of October, had not been passed as provided by Section 92 of the Consolidation Act.

The appeal of the San Francisco Gaslight Company, with accompanying communication of the Auditor, were as follows:

To the Honorable Board of Supervisors

of the City and County of San Francisco, State of California.

GENTLEMEN—We herewith present to your Honorable Body eleven demands, which had been duly allowed and passed by your predecessors, the late Board of Supervisors, together with a communication received by us from the Auditor of the City and County, in which that officer declines to audit said demands for the reasons therein stated.

In appealing to your Honorable Body from the above refusal of the Auditor, we beg leave to state that the only difference between the four demands which were allowed by the Auditor (as stated in his communication) and the eleven demands herewith transmitted, is, that appeals were taken from the refusal of the late Auditor to audit the four demands alluded to, to the late Board of Supervisors to overrule the decision of said officer; while in the case of the eleven demands herewith transmitted no appeals were taken, it being well understood between this company and the late Board of Supervisors that these eleven demands should abide the result of the other four on which appeals had been taken, and upon which a writ of mandate was recently issued by the Supreme Court. And we respectfully refer your Honorable Body to Mr. Litchfield, Chairman of the Street Light Committee of the late Board, and to Mr. Stetson, also a member of said Board, as to the entire correctness of the above statements.

In view of these facts, we respectfully request your Honorable Body to take such action as shall insure the immediate auditing and payment of said demands.

SAN FRANCISCO, February 27, 1882.

THE SAN FRANCISCO GASLIGHT CO.
By PETER DONAHUE, President.

SAN FRANCISCO, February 17, 1882.

To the San Francisco Gaslight Company:

GENTLEMEN—Relative to the demand by your company upon me as Auditor of the City and County of San Francisco, to audit, under a decision of the Supreme Court, the bills passed by the Honorable Board of Supervisors for supplying gas and lighting the public streets of this City and County for a period embracing in all fifteen months, I beg to state that as I am advised by the City and County Attorney, the Hon. J. F. Cowdery, the writ of mandate was issued simply to compel the Auditor to audit one demand in the sum of \$22,514.89 for the month of October, 1879, and that the decision carried with it the duty of auditing three other bills for the months of May, June and July, 1880, which bills have been returned by my predecessor and thereafter finally passed by the Honorable Board of Supervisors. Further, that it was my duty and right to refuse to audit the other remaining bills, on the ground that the contract entered into by and between the City and County of San Francisco and the San Francisco Gaslight Company was null and void. Acting, therefore, upon this opinion, I have audited the four bills just referred to and will refuse to audit the other remaining eleven bills for the reasons stated.

This action is taken with a view of having the Board of Supervisors consider the question and take such action as may be proper in the premises, and without any desire on my part to interfere with or delay the settlement of your claims for the services performed.

Yours respectfully,

H. BRICKWEDEL,
Auditor City and County of San Francisco.

The appeal of the San Francisco Gaslight Company was referred to a Joint Committee, consisting of the Committees on Judiciary and Street Lights, who, on March 13, 1882, reported thereon as follows:

REPORT OF JOINT COMMITTEE—JUDICIARY AND STREET LIGHTS.

*To the Honorable the Board of Supervisors**of the City and County of San Francisco:*

GENTLEMEN—Your Joint Committee, consisting of the Committees on Judiciary and Street Lights, to whom was referred a communication from the San Francisco Gaslight Company, appealing from the action of the Auditor in refusing to audit their demands for lighting streets and repairing lamp-posts during the months from and including August, 1880, to and including June, 1881, would respectfully report that these demands of the San Francisco Gaslight Company were duly passed by the Board of Supervisors (and approved by the Mayor), our predecessors, as contemplated and provided for by the Consolidation Act, and were all held subject to a decision of the Supreme Court.

The decision of the Supreme Court was rendered January 30, 1882, in the case of the San Francisco Gaslight Company *vs.* Dunn, in which the Board of Supervisors was not represented, issuing a peremptory writ of mandate compelling the Auditor to audit the bill for the month of October, 1879, and acting under that decision the bills for the months of May, June and July, 1880, were also audited; the demands made are all of a similar character differing only as to the time and amount of service performed, and have all been passed upon.

The predecessor of the present Auditor refused to allow the bill of October, 1879, on which the peremptory writ was issued by the Supreme Court, and thereafter audited the bills for the months of November and December, 1879, and for January, February, March and April, 1880, and then refused to audit further bills, and since that time the company have not received any payment until the decision of the Supreme Court, when the four bills referred to were audited.

The question presented, as it appears to your Committee, shows that unnecessary and unwarranted objections have been put in the way of the payment of said bills, and while the City has been the recipient of the service performed, the company has been prevented

from the collection of its just demands, and, as represented, this action has embarrassed the company, led to a very tedious and expensive litigation, and caused the suspension of dividends to the owners of the said property.

So far as these demands are concerned, common justice, it seems, would dictate their immediate payment. The money has been lying in the Treasury for about two years, and the question at issue has been determined by the Supreme Court.

As business men and as municipal officers, your Committee believe in the prompt payment of all demands on the Treasury for which the City and County is justly liable; and in that view, your Committee will, at the proper time, introduce a resolution for adoption, in accordance with Section 92 of the Consolidation Act, to approve said bills heretofore passed by the Board as required by law.

This recommendation is simply confined to the bills mentioned. The other demands of the company, from July, 1881, not having been under consideration by your Joint Committee, have been held in abeyance, awaiting the decision of the Supreme Court referred to, and an examination by the Committee on Street Lights, who will shortly take action thereon.

W. H. BODFISH,
G. B. BRADFORD,
H. MOLINEUX,
CHAS. A. FISHER,
J. F. KENNEDY,
N. C. FARRISH,
H. B. RUSS.

On March 13, 1882, action upon the appeal of the San Francisco Gaslight Company and the report of the Joint Committee on Judiciary and Street Lights was taken, and the Board finally approved and allowed the demands referred to, and adopted the following resolution:

RESOLUTION NO. 15,598. (New Series.)

WHEREAS, This Board has duly considered the appeal of the San Francisco Gaslight Company from the action of the Auditor in refusing to audit the demands of said company for lighting streets and repairing lamp-posts and lamps during the months of August, September, October, November and December, 1880, and the months of January, February, March, April, May and June, 1881, heretofore allowed and ordered paid by this Board pursuant to authorizations duly passed to print and finally passed as required by Section 68 of the Consolidation Act, and

WHEREAS, Appeals on similar demands have heretofore been referred to the District Attorney, as provided in Section 93 of the Consolidation Act, and said opinions having been received and filed and duly considered in addition to the decision of the Supreme Court (filed January 30, 1882) in the case of the San Francisco Gaslight Company *versus* Dunn; therefore,

Resolved, That the Board finally approves and allows the demands of the San Francisco Gaslight Company for lighting streets, etc., during the months of August, September, October, November and December, 1880, and January, February, March, April, May and June, 1881, as heretofore ordered paid by Authorizations Nos. 2913, 2914, 2915, 3025, 3028, 3029, 3030, 3031, 3032, 3033 and 3056 of this Board, pursuant to Section 92 of the Consolidation Act.

In Board of Supervisors, San Francisco, March 13, 1882.

Adopted by the following vote:

Ayes—Supervisors Bodfish, McKew, Shirley, Carmany, Molineux, Torrens, Bradford, Fisher, Russ, Parrish, Kennedy.

Absent—Supervisor Merrill.

JNO. A. RUSSELL, Clerk.

On February 13, 1882, the following communication from the Central Gas Company was received and referred to the Committee on Street Lights:

COMMUNICATION OF THE CENTRAL GAS COMPANY.

SAN FRANCISCO, February 9, 1882.

*To the Honorable Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—The works of the Central Gas Company are now completed, and we have been delivering gas on the line of our pipe to consumers for the last thirty days.

We hereby propose to the Honorable Board of Supervisors of the City of San Francisco to light all its public buildings, viz., the Old and New City Hall, the Engine Houses, School buildings, etc., on our line of pipe for the sum of \$2 per one thousand cubic feet, less a rebate of ten per cent., making the price \$1.80 net. The gas will be guaranteed to be not less than eighteen to twenty candle power, making it of far superior illuminating power to any gas ever before furnished the City of San Francisco.

Very respectfully,

THE CENTRAL GAS CO.

By CHAS. McLAUGHLIN, President.

On April 3, 1882, the Committee on Street Lights presented the following report on the foregoing communication of the Central Gas Company, and on demands of the San Francisco Gaslight Company for gas used by the City in lighting the streets and public buildings:

REPORT OF COMMITTEE ON STREET LIGHTS.

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—Your Committee on Street Lights, to whom was referred a communication from the Central Gas Company, with a proposition to light all the public buildings on their line of pipe for \$2 per thousand cubic feet of gas, less a rebate of ten per cent., making the price \$1.80 net, would respectfully report that at two meetings held, representatives of the respective gas companies were present by invitation and were heard. After consideration of the statements made, the conclusion arrived at by your Committee was, that as there is no contract or agreement between the City and County and the San Francisco Gaslight Company to light the public buildings other than at the rate or price heretofore established and paid, it would be judicious and proper action to advertise for proposals to furnish gas and light the public buildings for a period of two years. The public buildings to be embraced in the advertisement for proposals to be those situated along the lines of pipe laid by the Central Gas Company and as enumerated in the communication from said company received by your Committee and hereto appended. The standard quality and illuminating power of the gas to be furnished to be not less than seventeen candle power. Your Committee will introduce a resolution to that effect for your action, believing it to be for the interest of the City to take advantage of the competition now existing.

In the matter of the demands of the San Francisco Gaslight Company for furnishing gas and lighting the public buildings during the months of November and December, 1881, and January and February, 1882, your Committee have reduced the rate heretofore charged and allowed and established by the Board from \$3 per one thousand cubic feet to \$2.70, and, as reduced, they recommend that the bills for said months be allowed and ordered paid.

In regard to the demands of the San Francisco Gaslight Company for furnishing lamps, lamp-posts and gas, repairing lamps and lamp-posts, and lighting the public streets from July, 1881, to February, 1882, both inclusive, a period of eight months, your Committee have had under consideration the question of the contract entered into by and between

the City and County and the San Francisco Gaslight Company, and the decision of the Supreme Court on the questions presented and passed upon in the long-pending litigation as to the power of the Board of Supervisors in connection with an adjudication and determination of the compensation to be paid.

The representatives of the San Francisco Gaslight Company claimed that under the contract entered into between the City and the company, they were entitled to be paid by the City for gas furnished as per demands presented to the Board based on the same rate as the demand ordered paid by the Supreme Court, also that the last decision of the said Court in the case of the San Francisco Gaslight Company vs. Dunn stood in place of all other decisions rendered in that litigation, and that under said decision the validity or invalidity of the contract was not determined; also, that in addition to a long, tedious and expensive litigation, the company had been deprived of and delayed from collecting the amounts due and owing by the City for a period of about two years, and that they were in equity entitled to receive the amounts claimed for gas supplied and service performed in lighting the public streets, as the City had received the gas with full knowledge of the rate or price agreed upon; that the company had at no time received any notice of an intention on the part of the Board to test the validity of the contract or to discontinue the furnishing of gas, or to claim or request an abandonment on the part of the company of the terms of the contract, and that in good faith the company on their part had fully complied with all the obligations and requirements of said contract.

These were the principal statements urged by the representatives of the company for the payment of the bills for lighting the public streets during the present fiscal year, none of which have heretofore been paid.

Your Committee, after consideration of the matters presented, are of the opinion that the question raised by the Auditor (the predecessor of the present incumbent) as to the invalidity of the contract, has not been decided, and that no clear and unmistakable conclusion can be reached in reference thereto in the decision referred to as rendered by the Supreme Court. The action of the Board seemed by that decision to determine the compensation allowed.

However that question may be, it appeared to your Committee proper to consider in the solution of the question of the payment of these bills, the rates or compensation upon which they were based, and it is shown by the report made to the Board on establishing the rates during the third and last term of the contract that the price charged per lamp per night and agreed upon at 14½ cents was on a calculation which established the price of the gas furnished to be about \$2.30 per one thousand cubic feet.

The City and County has had the use and service of the lamps and lamp-posts, been supplied with gas and the streets have been lighted in accordance with the schedule time fixed, without any objection being raised by the Board to the price of the service rendered, and from time to time the company have, by request of the Board, laid their mains and erected lamps as the same were required.

It does seem to your Committee that, on an intelligent and unprejudiced consideration, the City is bound, by principles of common justice, to pay the demands as presented. Not a question has been raised on the part of the Board as to the service performed by the company; on the contrary, the rates were agreed upon and the gas and material have been furnished and the labor performed with the full knowledge and at the request of the City, and it must naturally follow that the demands should be allowed and paid. As legislators and business men, there does not appear to be any other honest or honorable course to pursue. The amounts belonging to and due the company have remained in the Treasury, and no good reason exists why the City should subject the company to further delay in obtaining payment.

Your Committee, therefore, recommend that the demands of the San Francisco Gaslight Company for lighting the public streets from July, 1881, to February, 1882, both inclusive, be allowed and ordered paid, and in pursuance of this recommendation will introduce authorizations providing for this purpose, for your consideration and action.

Further, your Committee believe that it is the duty of the Board, in view of some uncer-

tainty as to the duration of the contract between the City and the San Francisco Gaslight Company, to obtain a modification and reduction of the rates now charged for lighting the public streets, and to that end to request the said company to consent to an abandonment of said contract, and to enter into an agreement on such terms as may be mutually agreed upon, to light the streets, also such public buildings as are not otherwise contracted for or to be contracted for, during a term of two years. Your Committee will, therefore, introduce a resolution to that effect, authorizing your Committee to confer with the proper officers of said company relative thereto, and report the result to the Board. Your Committee recommend this action as the proper course to pursue, conceding that the City on the one hand and the company on the other have rights which ought to be respected, and they believe that this course will be just to both the City and the company.

In this connection it may be proper to state that at this time there is to the credit of the Street Light Fund in the Treasury the sum of \$70,849.71; also, that the levy made for the present fiscal year by our predecessors for the Street Light Fund amounted to \$150,000, and that none of the demands for the present fiscal year have as yet been allowed. This is a matter, however, for the financial officers to adjust. Under Section 7 of an Act of the Legislature, to confer further powers upon the Board, approved April 26, 1862 (Statutes 1862, page 466), the Board is "authorized to order paid out of the General Fund any deficiency that may occur in the Street Light Fund." The City, like any other debtor, must pay its just debts, and if an insufficient levy was made, it appears that for this purpose the Legislature has made provision. * * *

The following communication from the Central Gas Company was presented to the Board, with the foregoing report:

COMMUNICATION OF THE CENTRAL GAS COMPANY.

SAN FRANCISCO, March 28, 1882.

*To the Honorable Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—In response to the request of your Committee on Gas Lighting, we would state that we are prepared to offer to furnish gas for lighting the following public buildings, viz., New City Hall, Old City Hall, Hall of Records, Tax Collector, County Jail, Receiving Hospital, Health Office, Coroner's Office, Clock Tower, Fire Alarm Station, Exempt Engine Company, Gas Inspector's Office, County Court, Municipal Court, Law Library, Police Court, Police Stations, Central Station at Old City Hall, New City Hall Station, Folsom-street Station; Telegraph Station, 833 McAllister street; Telegraph Station, 960 Sutter street; Engine Houses—Bush street, near Kearny; Second street, near Howard; Bryant street, near Fourth; O'Farréll street, near Dupont. The aggregate consumption of the public buildings and offices named above is far more than one-half the gross consumption of all the public buildings of the city. A reduction of one-half in the cost of gas would save the city a large sum of money.

We are also prepared to make proposals for lighting the street lamps on over twelve miles of pipe, some twelve hundred in number.

We would suggest to your Honorable Body to call for sealed proposals for lighting the public buildings and street lamps, as above, the gas furnished to be of an illuminating quality of not less than eighteen candle power.

THE CENTRAL GAS CO.

By CHAS. McLAUGHLIN.

On April 3, 1882, in accordance with the recommendation of the committee, the following resolutions were adopted:

RESOLUTION NO. 15,635. (New Series.)

WHEREAS, In view of the uncertainty of the duration of the contract between the City and County of San Francisco and the San Francisco Gaslight Company, and in order to obtain a modification of and reduction in the rates now charged for lighting the public streets, it is desired that the said company should consent to an abandonment of said contract and enter into an agreement upon such terms as may be mutually agreed upon, for lighting the public streets, also such public buildings and offices for the lighting of which no contract has been let or is to be otherwise let for a term of two years; therefore,

Resolved, That the Committee on Street Lights be and they are hereby authorized and empowered to confer with the officers of the San Francisco Gaslight Company relative to the said proposed abandonment and agreement, and report to this Board the result of such conference, that such action may be taken in the premises as shall be deemed necessary.

In Board of Supervisors, San Francisco, April 3, 1882.

Adopted by the following vote:

Ayes—Supervisors Bodfish, McKew, Shirley, Carmany, Molineux, Torrens, Bradford, Fisher, Merrill, Russ, Parrish, Kennedy.

JNO. A. RUSSELL, Clerk.

In accordance with the requirements of the foregoing resolution, the Chairman of the Committee on Street Lights addressed the following communication to the Secretary of the San Francisco Gaslight Company:

SAN FRANCISCO, April 5, 1882.

W. G. BARRETT, Esq.,

Secretary of the San Francisco Gaslight Company:

SIR—The Committee on Street Lights of the Board of Supervisors, in accordance with the instructions contained in the annexed Resolution No. 15,635 (New Series) of said Board, desire a conference with the officers of the San Francisco Gaslight Company relative to the abandonment of the contract between the City and County of San Francisco and the San Francisco Gaslight Company, on the part of your company, and as to the lowest terms upon which your company will enter into a further contract to light the public streets, etc., for a term of two years.

The Committee further desire this matter to be laid before the Board of Directors, so that the officers of your company may be fully authorized and empowered to act in the premises.

Whenever the matter is considered by your Board of Directors and the proper officers duly authorized, please communicate the time and place at which said conference may be had, so that the Committee can be notified and meet the representatives of your company to discuss, consider and determine the question.

If convenient, the Committee would prefer to meet the officers of the company in the chambers of the Board at the New City Hall.

CHAS. A. FISHER,

Chairman of Committee on Street Lights.

RESOLUTION NO. 15,634. (New Series.)

Resolved, That the Clerk be and he is hereby directed to advertise for proposals to furnish gas of the standard quality and illuminating power of not less than seventeen candles, for which bidders will be required to state a price per one thousand cubic feet, and light the following public buildings and offices for a period of two years from May 1, 1882, to-wit: New City Hall, Old City Hall, County Jail, Health Office, Coroner's Office, Clock

Tower, Fire Alarm Telegraph Office, Exempt Engine House, Law Library, Folsom-street Police Station, and houses of the Fire Department on Bush street, near Kearny street, Second street, near Howard street, Bryant street, near Fourth street, and O'Farrell street, near Dupont street.

This Board to reserve the right to terminate the contract at any time, upon giving sixty days' notice thereof.

In Board of Supervisors, San Francisco, April 3, 1882.

Adopted by the following vote:

Ayes—Supervisors Bodfish, McKew, Shirley, Carmany, Molineux, Torrens, Bradford, Fisher, Merrill, Russ, Parrish, Kennedy.

JNO. A. RUSSELL, Clerk.

On April 10, 1882, pursuant to the foregoing resolution, the Clerk advertised for proposals to be handed in April 17th, for supplying gas to the public offices named therein. The following bids were received: From the San Francisco Gaslight Company, \$1.50 per 1,000 cubic feet; from the Central Gas Company, \$1.80 per 1,000 cubic feet; from D. P. Tarpey, \$1.25 per 1,000 cubic feet. The bid of D. P. Tarpey was not accepted, being irregular, in that he did not appear to be in the business of making or furnishing gas, as he did not comply with the conditions of the advertisement for proposals, which rendered it necessary that bidders should connect their mains and furnish gas for testing purposes to the Gas Inspector's Office. The contract was awarded to the San Francisco Gaslight Company at \$1.50 per 1,000 cubic feet, by the following Resolution No. 15,675 (New Series):

RESOLUTION OF AWARD NO. 15,675. (New Series.)

Resolved, That the contract for furnishing gas of the standard quality and illuminating power of not less than seventeen candles, for lighting the public buildings and offices of this City and County, hereinafter enumerated, for a period of two years on and from May 1st, 1882, at the rate of \$1.50 per one thousand cubic feet, in accordance with the specifications published, be and the same is hereby awarded to the San Francisco Gaslight Company, provided their sureties on their bond, which is fixed at \$5,000, are satisfactory to the Committee on Street Lights of this Board, who are hereby authorized to enter into said contract, they being the lowest responsible bidders therefor—

For furnishing gas to the following public buildings and offices, to-wit:

New City Hall Building.

Old City Hall Building.

County Jail, on Broadway, between Kearny and Dupont streets.

Health Office, O'Farrell street, between Dupont and Stockton streets.

Coroner's Office, Sacramento street, between Montgomery and Kearny streets.

Clock Tower, northwest corner of Montgomery and Sutter streets.

Fire Alarm Telegraph, Brenham place.

Exempt Engine Company, Brenham place.

Law Library, southeast corner of Montgomery and Washington streets.

Superior Court, Departments 11 and 12, Montgomery avenue, near Montgomery street.

District Attorney's Office, Montgomery avenue, near Montgomery street.

Police Station, Folsom street, near Miller place, between Fourth and Fifth streets.

Engine Houses—Bush street, between Kearny and Dupont streets.

Second street, between Mission and Howard streets.

Bryant street, between Third and Fourth streets.

O'Farrell street, between Dupont and Stockton streets.

In Board of Supervisors, San Francisco, April 24, 1882.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Bodfish, McKew, Shirley, Carmany, Molineux, Torrens, Bradford, Fisher, Merrill, Parrish.

No—Supervisor Russ.

Absent—Supervisor Kennedy.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, April 25, 1882.

M. C. BLAKE,
Mayor and ex-officio President Board of Supervisors.

On April 28th, 1882, a contract based upon the conditions of the foregoing award was entered into, the bondsmen thereon being James M. Donahue and P. J. Donahue.

On April 10, 1882, Authorizations Nos. 3145, 3146, 3147, 3148 and 3149 were finally passed by unanimous votes, authorizing the payment of demands for lighting the public streets for the months of July, August, September, October and November, 1881; also Authorizations Nos. 3150, 3151 and 3152 for the months of December, 1881, January and February, 1882, Supervisors Shirley, Carmany and Russ voting No. These authorizations were on April 21, 1882, returned by his Honor the Mayor without his approval, accompanied by the following message, setting forth his reasons, to-wit:

MAYOR'S MESSAGE.

MAYOR'S OFFICE,
CITY AND COUNTY OF SAN FRANCISCO, STATE OF CALIFORNIA, }
April 21, 1882. }

*To the Honorable, the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—Authorization No. 3145, in favor of the San Francisco Gaslight Company, for lighting the streets and repairing lamp-posts and lamps during the month of July, 1881, approved and passed by your Honorable Board on the tenth day of April, 1882, and presented to me on the eleventh day of the same month, is herewith returned to you without my approval, my objections thereto being as follows:

It seems to me very clear that the contract under which gas for lighting the streets has been furnished to the City by the San Francisco Gaslight Company since the 19th of May, 1879, is invalid. It is such a contract as is prohibited by an Act of the Legislature, approved April 3, 1876, in which it is enacted, by a proviso therein contained, that "the Board of Supervisors shall not hereafter make any contract for any purpose, binding said City for a longer period than two years." In the case of the San Francisco Gaslight Company vs. John P. Dunn, Auditor, after the first hearing, all the Judges of the Supreme Court, except the Chief Justice, who did not sit in the case, held that "the contract of 1879 was one which the Supervisors were not empowered to make, and any claim based upon such contract, one which the Supervisors had no authority to allow," and further, all, with the exception aforesaid, held that "the Supervisors had power to pass upon the claims of the company for gas furnished the City, and to allow such sums therefor as may be reasonable and just." After the second hearing, the opinions of the Judges who sat in the case, upon the points before stated remained unchanged. On the third hearing, counsel for the company called the attention of the Court to the Act of February 25, 1878, entitled "An Act to regulate and limit the payment of money out of the Treasury of the City and County of San Francisco," and claimed that said Act operated as a repeal of the proviso found in the Act of April 3, 1876. A majority of the Judges held that the conclusion to which they had arrived rendered it unnecessary to decide this point. A minority of the Judges, Messrs. Thornton and Ross, held that the proviso was not repealed. Though the point as to the repeal of the proviso was not decided by the Court, I must say, with all respect to the able and learned gentlemen who made it, that, in my judgment, the point is not good in law. I do not think the proviso is repealed, but is in full force, and my opinion upon this point is so decided that I must treat the contract, to which reference has been had, as invalid. Assuming the correctness of this opinion, it follows that, for

gas furnished by the San Francisco Gaslight Company for lighting our streets, no claim can be made under the contract, but the company can only be allowed and paid what the gas furnished is fairly and reasonably worth.

I may here say that all through the case before referred to, the Judges were of the opinion that the Supervisors could allow the company the fair value of the gas furnished, but they differed upon the question whether the claim in that case was for the reasonable value of the gas furnished, or was made under the contract, the majority holding that the record failed to show that the claim in question was based upon the contract, and that "it must be presumed that, in allowing the claim, the Supervisors were of the opinion that the amount allowed was the fair value of the gas furnished and repairs done by the company;" and further, "that they (the Supervisors) had power to allow a just and reasonable compensation, and they had no right to fix the value by reference to any other standard."

It is hardly necessary for me to say that, if the views which I have submitted are correct, when a claim of the character of that set forth in the authorization in question is presented to your Honorable Board, an examination should be had for the purpose of ascertaining what was the fair value of the articles for which payment is asked at the time the gas was furnished or the work performed, and that such value should be allowed and paid. The fact that in the case of the San Francisco Gaslight Company vs. Dunn, before referred to, the Court ordered the Auditor to audit the claim in question in that case, is no authority for allowing the claim now under consideration, except upon a showing of a fair and reasonable value. The writ of mandate was issued in that case, because the Court held that the Supervisors had jurisdiction of the subject matter, that it did not appear from the record that the allowance was not upon the ground of reasonable value, and that unless the contrary appeared the Court would not presume the Supervisors had acted without authority.

I want the company to have a fair value for all gas furnished the City for lighting streets, but if the contract is invalid, as I believe it is, it seems to me that nothing can be clearer than that it ought to be considered as out of the question, and treated as out of the question, in the presentation and allowance of all claims of this character.

As long ago as February 7th, 1881, six of the Justices of the Supreme Court gave it as their opinion that the contract was invalid, and if parties interested have since acted under it, they may be considered as having acted with notice, or under a very strong suggestion. I think I may say that no man is more desirous than I am that full justice should be done the company, but I want justice to be done in accordance with law; and whether I am right or wrong I must act upon what, after the best examination in my power, seems to me to be the law.

In one view of the case, I admit there is much force in the views contained in the report of your Committee on Street Lights, in favor of the allowance of the claims presented by the San Francisco Gaslight Company, but as a public officer I do not see that I can regard them.

I do not understand that in the presentation of the claim described in the authorization, any express reference was made to the contract, but my understanding is, that, virtually, the claim was made and allowed under the contract.

I also return herewith, without my approval, and for the same reasons as stated for my non-approval of the said Authorization No. 3145, Authorizations numbered respectively 3146, 3147, 3148, 3149, 3150, 3151 and 3152, passed and approved by your Honorable Board on the tenth day of April, 1882, and presented to me on the eleventh day of the same month, which Authorizations are in favor of said San Francisco Gaslight Company for lighting streets and repairing lamp-posts and lamps for and during the months of August, September, October, November and December, A. D. 1881, and the months of January and February, A. D. 1882.

All of which is respectfully submitted.

M. C. BLAKE, Mayor.

On May 1st, 1882, these authorizations returned by the Mayor, without his approval and with his objections thereto, were taken up; thereupon Supervisor Fisher presented the following communication on the subject, as Chairman of the Committee on Street Lights, which was received, read and placed on file, to-wit:

COMMUNICATION OF SUPERVISOR FISHER.

*To the Honorable, the Board of Supervisors
of the City and County of San Francisco.*

GENTLEMEN—As Chairman of the Committee on Street Lights of your Honorable Board, who presented a report from said committee on April 3, 1882, recommending the payment of the bills of the San Francisco Gaslight Company, for furnishing gas, repairing lamps and lamp-posts and lighting the public streets from July, 1881, to February, 1882, both inclusive, I deem it proper, in view of the veto of his Honor Mayor Blake, to again state the reasons which formed the basis of the recommendation, giving my own individual conclusions after an examination and investigation of this subject.

In this investigation it was necessary, prior to arriving at any conclusion, to consider all the various phases of this question. First—Whether or not the existing contract between the City and County and the San Francisco Gaslight Company was valid and binding? Second—Was the rate or price of gas fixed under or by virtue of any other action? Third—Was the price charged above or below the rate or price established? Fourth—Was the rate charged a fair and reasonable price? Fifth—Were there any other question to be considered in determining this matter?

On the first proposition as to the character of the existing contract, a decision of the Supreme Court in the case of the San Francisco Gaslight Company vs. Dunn, rendered in February, 1881, was to the effect that no valid contract existed. A rehearing was applied for and granted, and on July 31, 1881, on account of the members of the Supreme Court being equally divided (the Chief Justice being disqualified), the submission of the case was set aside; subsequently, on January 30, 1882, the Supreme Court rendered a decision, which I understood and understand now to be the decision of the Court in this case.

The decision was to the effect that it was unnecessary to state whether the Act of 1878 did or did not operate to repeal that portion of the Act of 1876 which prohibited the making of a contract for a longer period than two years, and established, if nothing else, the power of the Board to allow a just and reasonable compensation, whatever that might be in its judgment, but not to exceed \$3 per one thousand cubic feet.

The question of contract or no contract was apparently settled so that either party might have a legal opinion based on the decision, in their favor.

In order to provide against any legal contingency, and such contingencies are far-reaching and sometimes astonishing, I considered it good policy, at the suggestion of Supervisor Russ, a member of that committee, to recommend the passage of the resolution setting up the uncertainty of there being any contract and notifying the company that on and from May 1, 1882, the rates or price to be paid should be determined by mutual agreement to be approved by the Board. The contract, therefore, to all intents and purposes was not deemed essential in fixing the price to be paid, but only was considered to the extent of limiting the company from making any charge in excess of the price named in the contract if that rate or price was less than the rate established by the Board.

Second—In investigating as to whether or not the price of gas was in any other manner fixed or established, it appeared that the last action taken under the provisions of an Act of the Legislature, approved March 4, 1878, was on July 16, 1880, when the rate or price of gas was established at \$2.70 per one thousand cubic feet, and the standard illuminating power at not less than sixteen candle power.

Third—As to the price charged being above or below the rate or price established, it appears from the Municipal Reports that by meter tests in 1869, it was ascertained that fifty cubic feet was the average consumption of gas by each lamp per night, which, at \$2.30 per 1,000 cubic feet, would be 11½ cents per lamp per night. The cost of lighting and clean-

ing, etc., 2 4-10 cents per night, and the interest on the investment in lamps, lamp-posts and appurtenances, 6-10 of a cent per night, making a charge of 3 cents for each lamp, aggregating the price charged of $14\frac{1}{2}$ cents per lamp per night. On inquiry of the Gas Inspector, that officer reported that he had ascertained, from tests made from 229 lamps, that the average consumption of gas per hour for each lamp was 6 42-100 cubic feet. The lamps are lighted 329 nights in the year, and based on this and other information, various calculations were made to determine and substantiate the correctness of the service rendered, and the rate per 1,000 cubic feet was computed to be $\$2.25\frac{1}{2}$. Independent, then, of the service of cleaning and lighting the lamps, interest on and repairs to lamps, posts and appurtenances belonging to the company, the City is charged $11\frac{1}{2}$ cents per lamp per night for the gas used in lighting the public streets, while the rate or price established by the Board on July 16, 1880, at $\$2.70$ per 1,000 cubic feet, would be $13\frac{1}{2}$ cents (plus 3 cents for lighting, cleaning and interest), the price or rate charged, therefore, being below the rate established by the Board.

Fourth—From the calculations made and the foregoing, I became convinced in my own mind that the price charged was fair and reasonable, especially when, on an examination, it was ascertained that the street lamps were not confined to an area where other consumers were, but were erected in all directions in the suburbs, where scarcely, if any, revenue was derived, except from that for the gas furnished to the public lamps. These extensions, as they existed, being for the public convenience, the pipes and mains being laid and the lamps erected in every instance at the request and by the direction of the Board duly expressed by resolution.

Fifth—Among the circumstances that operated in my mind, and, I believe, had some influence on the opinion of the committee, was that in addition to a long, tedious and expensive litigation, the company had been deprived of and delayed from collecting the amount due and owing by the City for a period of about two years, and that the company was entitled to receive the amounts claimed, especially when it was ascertained that the price charged was forty-four and one-half cents per 1,000 cubic feet less than the price established. Further—and I quote from the report of the committee—"not a question has been raised on the part of the Board as to the service performed by the company. On the contrary, the rates were agreed upon and the gas and material have been furnished and the labor performed with a full knowledge and at the request of the City, and it must naturally follow that the demands should be allowed and paid." In reading over the veto message, which was published in the newspapers prior to the meeting of the Board, I confess that I was somewhat astounded at the assumptions made by his Honor that no examination or investigation of these claims was made, and that the authorizations were passed for the only reason that there was a contract. This seemed to me incomprehensible, especially when, near the close of the message, his Honor states that "I do not understand that in the presentation of the claim described in the authorization, any express reference is made to the contract; but my understanding is that virtually the claim was made and allowed under the contract." This I think is a paradox and is best answered by the message itself. The authorizations and the action of the Board did not show that they were based upon the contract, simply because there was no intention to regard that instrument in any light except as the means of making a reduction or preventing an increase of the price, if the price specified therein was more or less than the rates established by the Board, or more than could be deemed, under the circumstances, fair and reasonable.

In reviewing the status of the company, its demands and the price or rate on which they were based, its obligations complying with all the requirements of the Board, in the laying of mains and the erection of lamp-posts and lamps, without any action on the part of the Board looking to a different arrangement or price under which the service should be rendered, it followed that there was a tacit understanding as to the terms and price existing as between the City and County and the said company. Further, that as said price was less than the rate established by the Board and was reasonable, the City could not in fair dealing make any valid objection. The uncertainty of a contract was clearly

expressed and that was alleged as the reason why a new contract or arrangement should be made, and a modification and reduction of the terms secured on and from May 1st, and the committee was instructed to confer with the company for that purpose.

I, for one, do not understand that the Board, after supplies have been furnished and service performed, with a full knowledge of the price to be paid therefor, possesses the arbitrary power to fix and determine what shall be paid without reference to the rights of the other party interested, or to justice and fair dealing. The inauguration of such a principle among business men would stamp them as dishonest and unworthy of confidence and destroy their credit and reputation.

I can recognize no standard in the consideration and determination of public business other than what would be characterized in my own private business, as dictated by the recognized standard of common honesty. Without the recognition even of a moral sense of responsibility, the propriety of such a course commends itself to business men as enhancing their credit and interests, if nothing else, and in order to maintain standing, reputation or credit, no business man would dare attempt to reduce or repudiate any of his obligations.

In my advent into public life I did not intend to evade responsibility or to surrender my convictions of right and wrong, and will not knowingly agree or be a party to any action which I do not believe to be right and which I could not justify in my own business; and any other course for any other reason would be discreditable.

In this matter I will conclude by stating that I have not sanctioned or been a party to any proceeding whereby any person interested was debarred from being heard on the question and have not been subservient to the interests of any one for the purpose of making political capital or advancing any other interests. My intention has been to be just, not simply to express a desire, but to use my efforts and shape my conduct to that end, and always to assume my full share of, the responsibility of such action as the facts would justify my advocacy of and not be governed by extraneous questions or shape my course for politic reasons.

I have taken the liberty of presenting my views in writing to avoid any misconstruction as to my position on this subject, and from the investigation had and the reasons herein given I shall vote for the passage of the Authorizations notwithstanding the objections of His Honor the Mayor.

C. A. FISHER.

Supervisor Fisher also presented and had read the following communications from the Gas Company:

THE S. F. GASLIGHT CO., San Francisco, April 28, 1882.

C. A. Fisher, Esq., Chairman Committee on Street Lights, etc.:

DEAR SIR:—In response to your communication of 5th inst. I am directed to inform you that the Board of Directors of the San Francisco Gaslight Company will not entertain any proposition looking to a reduction of the rates now charged for lighting the public streets of the City and County on and from May 1st until the bills now due and owing said company, for the gas, etc., heretofore supplied and used, are allowed and ordered paid.

The disposition of the Directors is favorable to the conference suggested and to make such reasonable concessions as might be found necessary to render the relations of the company to the city satisfactory.

The service heretofore rendered by the company in continuing to light the streets, was by direction of the Board, under the contract, and the company did not desire to assume the responsibility of violating the contract and subjecting itself to damages for a violation of its terms at the suit of the city.

Very respectfully,

WM. G. BARRETT, Secretary.

THE S. F. GASLIGHT CO., San Francisco, May 1, 1882.

C. A. Fisher, Esq., Chairman Committee on Street Lights, etc.:

DEAR SIR:—It may be proper at this time for this company to make a statement to your Honorable Board relative to delinquent taxes, showing that the company has always paid

all the taxes levied and due upon their personal property and real estate, except one year and that was for the purpose of testing the question of the legality of the action in assessing a franchise to the company, and to show that all the property, both real and personal, belonging to the company, was assessed, and that the franchise was simply a mythical property.

That the company are responsible and desirous of meeting and paying all their just obligations, and do not want, and never have attempted to evade the same, but in the preservation of their rights are of the opinion that the franchise tax is unjust, and will, as the matter is now pending before the Courts, await a judicial decision thereon. The company is like all citizens, amenable to the decision of the Courts and certainly cannot be deprived of the right to require and demand a judicial decision on so important a matter. The company cannot be exempted, it is needless to say, from complying with a judgment or decree of the Court when rendered, however oppressive and unjust it may be considered in affecting their interests.

Very respectfully,

WM. G. BARRETT, Secretary.

Remarks were made in explanation on the vote being taken to pass the Authorizations, notwithstanding the objection of his Honor the Mayor, by several of the members, the following being presented:

REMARKS OF SUPERVISOR SHIRLEY.

"As I am always pleased and anxious to pay my just debts, and believe that the old ones should be paid first, I voted with my fellow-members of this Board to pay all the gas bills of the San Francisco Gaslight Company except the bills for the last three or four months, of which there appears to have been a difference of opinion between the members; but I believe they were all finally passed by a majority vote of all present. Since then, his Honor, the Mayor, in his judgment, has deemed it necessary to veto the payment of said gas bills, on constructions of law, and decisions rendered by the Supreme Court of our State. Since reading the veto message, I do not feel disposed to question the wisdom and correctness of his reasons given as his objections to signing the bill, his Honor being well known to the community as a just and able lawyer, and an old experienced jurist. His Honor's reasons for sending the bills back to be reconsidered by this Board, as I view it, is to give us an opportunity to investigate again the correct amount of gas used by the city, as per bills rendered during said months, or period of time called for, according to said bills returned without the approval of the Mayor, independent of any consideration of contract, or contract price. I shall therefore vote 'No.'"

REMARKS OF SUPERVISOR CARMANY.

"On the final passage of these gas bills I voted against three of them, and for the following reason: I believed at the time that we had the power to ask and obtain a reduction in the rates charged from the commencement of our official duties last December, but upon investigation I feel convinced that we have no such right. Had we given notice or taken action in the matter on entering office, as provided by Resolution No. 15,635 passed April 3d, which I understand was introduced by the Supervisor from the Tenth, we would then have had the undoubted right to seek relief from the rates charged in the bills now under consideration. Such action only, it seems to me, is sufficient notice, and if a similar resolution had been introduced at the time the Supreme Court passed upon the matter in question, and upon this decision his Honor the Mayor lays great stress in his veto message, a settlement could have been arrived at upon a reduced basis, which, by the way, as will be noticed by the statistics presented, is only \$2.25, a reduction of 45 cents on the \$2.70 basis; but now having used the article without any interposition on our part, and being fully aware that the bills were accumulating against the City at this same rate of charges, I see no other just and equitable way than to pay them, and then provide a remedy for the future under the resolution above cited. I believe it is well known that

the San Francisco Gaslight Company supplied the City with gas for about two years without any compensation, that the delays in obtaining payment for the bills now before us for final action have been exceedingly vexatious, involving loss of interest and depreciation of stock, and that the final determination of their settlement, after they are allowed by this Board, will subject the company to another and more severe ordeal, viz., the refusal of the Auditor to pass upon said bills, on the ground, as claimed by our authorized attorney, that they should stand as an offset against the indebtedness of said Gas Company for taxes due and unpaid to the City and County of San Francisco. In view of all these facts, and in justice to the company, I shall vote "aye."

REMARKS OF SUPERVISOR MOLINEUX.

At the last meeting of this Board, Authorizations Nos. 3,146, etc., in favor of the San Francisco Gaslight Company, for lighting the streets and repairing lamp-posts and lamps from July, 1881, to February, 1882, inclusive, were returned to this Board without the approval of the head of the City government. The Chairman of the Street Light Committee, Mr. Fisher, has most ably and comprehensively reviewed the veto message and reflected the views of this Board thereupon. My confidence in the very conservative member from the Eighth is so great that whenever he decides affirmatively that a thing is right I am assured that it is so, almost without examination, but I hold no one responsible for my opinions and I shall therefore add my few remarks to what has been already said.

No one can blame the person in whom the veto power may rest from using that power, but my view is, that it should be used with the greatest moderation and as the result of profound and impartial convictions always. As a rule, its use is a challenge to the intelligence or integrity of a majority, and when not used in a spirit of candor and of judgment and from the loftiest considerations of public duty, it is not to be wondered at that those who are called upon to submit to a veto should do so only under the most vigorous and vehement protest. I do not pretend to criticise the motives underlying this veto, but it deals with my supposed opinions and its assumptions must not go unanswered. I have read this veto message, Mr. President, with much care, and it is only frankness to say that I have found in it no new discoveries in the way of facts or law, and nothing novel in the presentation of known facts, and not a ray of light to lead me to new conclusions. But I have found much argument based upon unwarranted assumptions and imagination of facts, and such a labored statement of the whole situation as to have effect only to strengthen and confirm my decision. By what right, Mr. President, is it assumed in this veto that I have founded my action upon the existence of a supposed contract with the Gaslight Company? As a matter of fact the existence or non-existence of a contract between the City and the Gaslight Company, has, under the present condition of things, not entered into my view of the case, nor influenced me in the slightest, and has been set aside as having no bearing whatever. The Supreme Court has said, "The Supervisors have a right to pass upon the claims of the company for gas furnished the City, and to allow such sums therefor as may be reasonable and just." What other authority than this have we required upon which to base our conclusions? It is a fact that this City has received and used gas for lighting streets, as stated before this Board. It is a fact that we are at this moment so receiving and using it. It is a fact that should never be lost sight for a moment that there has not been a lamp-post erected in the City nor an atom of gas used therefor excepting by express direction of the Board of Supervisors. The price the Gaslight Company expected to receive for the gas ordered, used by the City—14½ cents per lamp per night, or \$2.30 per thousand—was perfectly understood, and are we not morally and legally bound—are we not bound by every consideration of equity and fair dealing to not only pay a just and reasonable price for an article ordered and used by the City, but to pay promptly and without resorting to the courts when it is possible to avoid so doing? To my view the veto nowhere touches upon a living issue in this case. The Board of Supervisors having agreed upon a compensation for gas used which they deemed, under the circumstances, "just and reasonable," the veto message, in my opinion, nowhere traverses this decision

but directly tends to strengthen me in the conviction that under the express authority given by the Supreme Court the action of this Board already had is final and conclusive and beyond contravention.

Is there the least reason for supposing that a just and reasonable price has not been established? The veto message nowhere says so. Is there the slightest reason for supposing that the Supreme Court would make other and different terms for the City in this matter than we have done? The veto does not say so. And I wonder if it is in the code of morals of the author of this veto to advise resistance on the part of the City to the payment of just and legal debts? In this matter what would the author of the veto have us do? What can we do but to vote to not sustain this veto? Nothing except to sustain a veto without a reason. Nothing but to feebly, dishonorably and unsuccessfully attempt a sort of repudiation which, to my mind, is the logic of this veto.

Personally, I have no liking for the Gaslight Company, and have no feeling that could induce regret if that company should be strangled in the contest with other lighting companies now going on.

But I do not mean that prejudice shall influence me in considering public matters. As a Supervisor, I mean to be just to all men, and to endeavor to uphold the character of this municipality for fair and equitable dealing, while guarding the interests confided to me with watchful care. And my sense of right, Mr. President, compels me to vote not to sustain this veto.

The authorizations were then passed, notwithstanding the objections of his Honor the Mayor. On the passage of Authorization No. 3,145, Supervisors Shirley and Russ voted no; on the passage of Authorizations Nos. 3,146, 3,147, 3,148 and 3,149 Supervisor Shirley voted no; and on the passage of Authorizations Nos. 3,150, 3,151, and 3,152, Supervisors Shirley and Russ voted no.

The demands in favor of the San Francisco Gaslight Company, as provided for by the foregoing authorizations, were duly passed by the Board, and transmitted to the Auditor. On May 3, 1882, the Auditor, in a communication to the City and County Attorney, requested his opinion on various matters connected with the demands presented to him, the provisions of the Consolidation Act and his duty in the premises, to which the City and County Attorney, on May 9, 1882, made the following reply, to-wit:

OPINION OF THE CITY AND COUNTY ATTORNEY.

OFFICE OF THE CITY AND COUNTY ATTORNEY, }
San Francisco, May 9, 1882. }

HENRY BRICKWEDEL, ESQ.,

City and County Auditor:

DEAR SIR—Your communication of the 3d instant, in which you inform me that you have been presented with eight demands in favor of the San Francisco Gaslight Company, amounting to about \$178,000, and informing me that you desired time to consider the matter, and refused to audit the said demands because—

First—Section 82, of the Consolidation Act, reads: "No demand upon the treasury shall be allowed by the Auditor in favor of any person or officer in any manner indebted thereto without first deducting the amount of such indebtedness."

You also say that a protest has been filed in your office by Hon. D. McClure, Special Counsel for the City in the matter of collecting delinquent taxes, against the auditing of any claim or demand which the San Francisco Gaslight Company may present, until the said corporation has paid its delinquent taxes for the year 1880-81, in the sum of \$176,000.

Second—You say that the Honorable the Board of Supervisors made an appropriation for the Street Light Fund of \$150,000, for the fiscal year 1881-82, which is about \$120,000 less than the total expense for lighting the streets will amount to, and that the One-twelfth Act states plainly that the Auditor shall under no consideration draw any warrant on the City Treasury where the monthly appropriation is insufficient to meet such demands.

In reply to the foregoing, I beg leave to say that, in my opinion, a person against whose property a tax has been assessed is not indebted to the Government. Judge Cooley, in his work on Taxation, on page 13, says: "Taxes are not debts in the ordinary sense of that term. * * * Taxes are not demands against which a set-off is admissible. * * * They are not contracts between party and party, either express or implied, but they are the positive acts of the Government through its various agents, binding upon the inhabitants, and to the making and enforcing of which their personal consent, individually, is not required."

Judge Cooley holds the highest rank as a jurist, and also as a writer upon taxation and constitutional law, and his works are received and respected as authority in all courts. In my opinion, Section 82 of the Consolidation Act does not refer to a person or officer's liability for taxes due or to become due. The indebtedness mentioned is the indebtedness of officers and other persons who have in their custody money received by them as fees or otherwise which it is their duty to pay into the Treasury. In this particular case the tax alleged to be due is secured by a lien in favor of the City upon all the real estate owned by the San Francisco Gaslight Company, and this lien is prior to all other liens, deeds or incumbrances, and as the Statute of Limitations never runs against a tax, the City has ample security for all that is due her, together with the statutory penalty of five per cent. and other costs.

The protest of the Hon. David McClure cuts no figure in the case, because if it is your duty to refuse to audit the said demand, it is your duty to do so without protest. All must be treated alike—the school teacher, the police officer, the laborer on the streets—and all officers of every grade, as well as those who furnish supplies or contract in any form with the City government, must be prevented from drawing their dues from the Treasury until all levied taxes and assessments are paid, whether justly due or not, if you can delay this demand one day for the reason stated in said protest.

Third—In my opinion the Act of the Legislature of the State of California known as the "One-twelfth Act" is not applicable to this particular case, as you have presented it to me. Section 71 of the Consolidation Act creates a "Street Light Fund," and it is made the duty of the Board of Supervisors, in making the tax levy, to apportion to that fund a certain proportion of the taxes. In the year 1881 this was done, but the amount raised for that fund for the current fiscal year has only produced the sum of \$150,000, which is nearly \$120,000 less than the total expense of lighting the public streets will amount to.

If we stop here, the inhibition in the One-twelfth Act will apply, and you would have no authority to audit demands in any one month for more than one-twelfth of \$150,000, more or less; but the Act of April 26, 1862, (Statutes, page 460) provides that the Board of Supervisors "are hereby authorized to order paid out of the General Fund any deficiency that may occur in the Street Light Fund for lighting the public streets."

The Finance Committee of the Board of Supervisors, possessing the necessary information and mindful of the Act of 1862, reported to the Board that there was a deficiency in the Street Light Fund, which report was adopted, and when the claims before you came up for consideration, demands aggregating \$67,723.99, for the months of July, August and September, 1881, were ordered paid out of the Street Light Fund, and demands aggregating \$110,925.02, for the months of October, November, December, 1881, and January and February, 1882, were under the authority of the law of 1862, ordered paid out of the General Fund.

In my opinion, it is your duty to audit the said demands, aggregating \$110,925.02, drawn upon the General Fund, in the same manner as other demands upon said fund are allowed, and to audit the said demands aggregating \$67,723.99 to the amount authorized by the One-twelfth Act, according to the state of the Street Light Fund, as shown by the records in your office.

Respectfully,

J. F. COWDERY,
City and County Attorney.

On May 29, 1882, the following communication was received from the Auditor, informing the Board of his refusal to audit the demands allowed by the Board, accompanied by a copy of a communication received by him from the Hon. David McClure, Special Counsel for the collection of delinquent taxes of the year 1880-81, protesting against the payment of said bills, to-wit:

COMMUNICATION OF THE AUDITOR.

CITY AND COUNTY OF SAN FRANCISCO, }
AUDITOR'S OFFICE, }
San Francisco, May 29, 1882. }

To the Honorable, the Board of Supervisors:

GENTLEMEN—I have refused to audit the eight demands of the San Francisco Gaslight Company which were passed by your Honorable Body on the 1st of May, 1882, for and aggregating \$178,649.01, upon this ground, viz.: On the 1st day of April, 1882, a protest was filed with me against the allowance of any claims of the San Francisco Gaslight Company until all their taxes for the year 1880-81, amounting to \$176,800, were paid.

I have taken legal advice from several prominent attorneys, and find that they differ materially in their opinion as to the section referred to in the Consolidation Act. I therefore decline to affix my signature to those demands until the point of law raised by said protest is decided by the Supreme Court. Enclosed please find copy of protest.

Respectfully yours,

HENRY BRICKWEDEL,
Auditor City and County of San Francisco.

COMMUNICATION OF D. McCLURE.

SAN FRANCISCO, April 1, 1882.

TO THE HON. HENRY BRICKWEDEL,

Auditor of the City and County of San Francisco, State of California.

SIR—The undersigned, as the Attorney and Special Counsel for the City and County of San Francisco in the matter of the collection of the delinquent taxes for the fiscal year 1880-81, understanding that the corporation known and designated as the "San Francisco Gaslight Company," in endeavoring to enforce certain claims alleged to be due from the said City and County for gas furnished the same (the legality of which claims it is not the province of this communication to discuss), and that said claims will, if allowed, be presented to you to audit the same, hereby respectfully calls to your attention the following portion of Section Eighty-two (82) of the Act of the Legislature of the State of California, approved April 19th, 1856, and usually called and referred to as the Consolidation Act, by which it is provided to-wit:

"Section 82. * * * No demand upon the Treasury shall be allowed by the Auditor in favor of any person or officer in any manner indebted thereto, without first deducting the amount of such indebtedness." * * *

The said corporation, the San Francisco Gaslight Company, as appears by the assessment roll of said City and County for the said fiscal year 1880-81, at volume 13, page 22, subdivisions 5 and 6, is indebted to the said City and County for delinquent taxes for said fiscal year 1880-81 in the amount of one hundred and seventy-six thousand eight hundred dollars, the City and County portion of which became delinquent August 2d, 1880, and the State portion December 27th, 1880, together with five per cent. penalty thereon for the non-payment thereof and interest as provided by law. The words of the statute admit of no doubt. The word "person" used in the Act includes corporation, which is the law term for an artificial person.

Action was brought to recover said delinquent taxes on January 10th, 1882, and is now pending in Department Four of the Honorable the Superior Court.

Therefore, I hereby respectfully protest against the auditing of any claim or demand which the said San Francisco Gaslight Company has or may have against the said City and County until the law has been complied with and the said delinquent taxes paid.

DAVID McCLURE,
Attorney and Special Counsel

In the matter of the collection of said taxes for said fiscal year.

The San Francisco Gaslight Company appealed to the Board of Supervisors from the action of the Auditor in refusing to audit said demands, and on May 29, 1882, the Board by Resolution No. 15,738 (New Series), referred the appeal to the District Attorney for his opinion, who, on June 12, 1882, filed a communication in response to said resolution in favor of the payment of said demands, as follows:

OPINION OF THE DISTRICT ATTORNEY.

SAN FRANCISCO, June 12, 1882.

*To the Honorable the Board of Supervisors**of the City and County of San Francisco:*

GENTLEMEN—Your Resolution No. 15,738 (New Series) is before me. The question involved—the duty of the Auditor to audit or not to audit certain gas bills—is one upon which I readily concede that attorneys of equal standing and ability in their profession might differ; still, after reasonable consideration, the conclusion which I have reached is a decided one. I shall not waste much of my own time or of the City's stationery in assigning reasons for the opinion I have arrived at. I have neither leisure nor taste for long arguments. I concur with my brother Cowdery, the City and County Attorney, in his final decision. I may have reached the same conclusion through a different process of reasoning, and I might place it possibly on broader grounds than he has, but it is the same conclusion none the less. I agree with him that a tax is not a debt in the sense in which that term is used in the Consolidation Act. I think that the authorities are almost uniform upon that point. I agree with him that the protest of the Special Counsel for the collection of delinquent taxes is a false factor, a negative quantity, and does not in the slightest degree affect the question we are considering. If such a protest had come from any citizen it would be entitled to the same effect, for its only office would be simply to call the attention of the Auditor to the fact that the Gas Company had not paid its alleged taxes for the fiscal year 1880-81. But back of all this, in my judgment, there are other facts and considerations of no little weight. If we concede that the supposed tax is a *debt*, in the true sense of the term, then it is a debt due not to the City and County alone, but to the City and County *and* State. I know of no theory at law by which this demand can be divided and segregated, no process by which a portion of it can be pleaded as an offset to materials furnished, and the other portion left unconsidered or held in reserve for future use.

The demand for taxes (or rather alleged taxes I should say) cannot be divided, simply because a portion of it belongs to the State and the residue to the City and County; neither can the State *and* the City and County jointly plead an offset to this claim of the Gas Company under any system of law practice known to me. A tax is not a matter of contract. The taxpayer is not consulted; he has nothing to say about it. It is simply a burden imposed by the sovereign upon the subject, and the sovereign enforces payment in its own special way. I will make one more suggestion. The claim of the Gas Company against the City is established. It is conceded that the City owes the company a certain amount of money for gas furnished under an implied contract. Whether the amount is reasonable or otherwise is a question with which neither the Auditor nor myself has anything to do. But it is not an established fact that the Gas Company owes anything to the City and County. The City and County says Yes; the Gas Company says No. Which is right remains for the courts to determine, for that very issue is now in process of litigation. It may be finally determined this year or next, or five years from now. Must the Gas Company wait for its *conceded* demand until the City in its own good time shall have established its disputed demand?

If the Court should finally adjudge that the alleged tax is a just and lawful one, it will thereupon become a lien upon all the property of the company, a lien against which no statute of limitations can be invoked. The City will be perfectly secure.

While in my judgment under the law the tax cannot be offset against the demands for gas, upon the merits of the controversy it resolves itself into this: one demand is estab-

lished, adjudicated, and admitted to be just and due; the other is disputed, contested, and may never become due. The Gas Company has the right to dispute the tax and have it passed upon by the Court, and it has chosen to do so. The City had the right to dispute the gas bills and have them passed upon by the Court, but it has not chosen to do so. In my judgment the contest is without merit on the part of the City.

Very respectfully, your obedient servant,

LEONIDAS E. PRATT,
District Attorney.

The bills referred to in the foregoing communication were subsequently, on June 12, 1882, finally approved and ordered paid in conformity with Section 93 of the Consolidation Act, and the following resolution adopted:

RESOLUTION NO. 15,770. (New Series.)

WHEREAS, This Board has duly considered the appeal of the San Francisco Gaslight Company from the action of the Auditor in refusing to audit the demands of said company for lighting streets and repairing lamp-posts and lamps during the months of July, August, September, October, November and December, 1881, and January and February, 1882, heretofore allowed and ordered paid on the first day of May, 1882, in accordance with Authorizations Nos. 3,145, 3,146, 3,147, 3,148, 3,149, 3,150, 3,151 and 3,152, duly passed to print and finally passed as required by Section 68 of the Consolidation Act;

WHEREAS, Said appeal has been referred to the District Attorney, as provided in Section 93 of the Consolidation Act, and the opinion of the said District Attorney having been received, read and filed, and duly considered; now, therefore,

Resolved, That this Board finally approves, allows and orders paid said demands of the San Francisco Gaslight Company for lighting streets and repairing lamp-posts and lamps from July, 1881, to February, 1882, both months included, as follows, to-wit: July, 1881, \$22,857.42; August, 1881, \$22,813.05; September, 1881, \$22,053.52; October, 1881, \$22,803.31; November, 1881, \$22,024.51; December, 1881, \$22,805.05; January, 1882, \$22,809.55; February, 1882, \$20,482.60.

In Board of Supervisors, San Francisco, June 12, 1882.

Adopted by the following vote:

Ayes—Supervisors Bodfish, McKew, Shirley, Carmany, Molineux, Torrens, Bradford, Fisher, Merrill, Parrish, Kennedy.

No—Supervisor Russ.

JNO. A. RUSSELL, Clerk.

The following communications from the Central Gas Company were received in the month of April, 1882, on the dates therein named, and were referred to the Committee on Street Lights:

COMMUNICATIONS OF THE CENTRAL GAS COMPANY.

SAN FRANCISCO, April 3, 1882.

To the Honorable Board of Supervisors, San Francisco:

GENTLEMEN—The Central Gas Company is now prepared to tender to you proposals for lighting the streets of the City. We hereby offer to light twelve hundred street lamps on our present line of pipe with best quality of illuminating gas at the rate of \$2 per one thousand cubic feet of gas, and such allowance for repairs and expense lighting as may be agreed upon by your Honorable Body. We suggest that such contract extend to such lamps as the company's mains may reach during the next ninety days, which will be about two thousand. The Central Gas Company will erect lamp-posts, etc., at its own expense.

We are also prepared to erect oil lamps and lamp-posts in that part of the City not reached at present by our street mains, and will guarantee as good and satisfactory a light as that now in use by the City; price to be the same as offered by us for the lamps on our present line of mains.

We suggest to your Honorable Body that this subject receive your immediate and careful attention, as the reduction hereby offered to you on the cost of lighting the streets of San Francisco, together with the reduction on lighting public buildings referred to in our former communication will amount to at least one hundred thousand dollars per annum, bringing the cost of lighting the City to about that paid by other cities of the Union of like population.

THE CENTRAL GAS CO.
CHAS. McLAUGHLIN, President.

*To the Honorable Mayor and Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—In our communication to your Honorable Body of 3d inst., we expressed our readiness to enter into a contract with the City to light the streets at a large reduction from the price now paid. This communication was referred to the Street Light Committee, and after a casual consideration of the same, the offer was declared "*premature*."

The Central Gaslight Company has already secured to the city an immense reduction in the cost of lighting the public buildings, which the tax-payers will not consider "*premature*."

The gas of the Central Gaslight Company, as tested by the City Inspector, was declared to be over 19 candle illuminating power, or more than ten per cent. better than any gas heretofore made in this City. (See his report.)

The Company again respectfully calls the attention of the Board of Supervisors to the fact that it is now ready to make such proposition to the City as will secure the lighting of the streets in a better manner than they are now lighted, and at a saving of thousands of dollars per month. A definite and positive offer will be made when your Body will take such action as to advertise for proposals for street lighting.

In this connection we beg leave to state, that no city in the United States pays so exorbitant a price for the lighting of its streets as does San Francisco. Cincinnati pays \$27.65 per lamp per annum; Chicago, \$24.40; New York, \$17.50; Patterson, N. J., \$22.00; Harlem, N. Y., \$19.50; Detroit, \$18.50; while San Francisco pays \$49.40, and is only lighted on what is known as the "Moonlight Schedule;" in other words, about *half* the night, while all the cities named above are lighted *all* night. There is no tax-payer in this City that would consider the discussion of this question "*premature*," especially in view of the decision of the Supreme Court declaring that no contract now exists between the City and the Old Gas Company.

We again request that your Honorable Body will instruct your Committee to take such steps as may be necessary to secure the receiving of public bids for lighting the streets of the City.

THE CENTRAL GASLIGHT COMPANY,
By CHAS. McLAUGHLIN, President.

San Francisco, Cal., April 24th, 1882.

On May 19, 1882, Authorizations 3,164, 3,165, 3,166, 3,167, passed by the Board of Supervisors May 8, 1882, providing for payment being made to the San Francisco Gaslight Company for lighting public buildings other than engine houses during November and December, 1881, and January and February, 1882, were returned by his Honor the Mayor with his objections thereto, as follows:

MESSAGE OF HIS HONOR THE MAYOR.

MAYOR'S OFFICE,
CITY AND COUNTY OF SAN FRANCISCO, }
State of California, May 19, 1882. }

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—I herewith return, without my approval, four certain authorizations passed by your Honorable Board on the 8th day of May, 1882, and presented to me on the day fol-

lowing, numbered 3,164, 3,165, 3,166 and 3,167 respectively, the same being resolutions for the payment out of the General Fund, to the San Francisco Gaslight Company, for lighting public buildings (other than engine houses) during the months of November and December, 1881, and the months of January and February, 1882.

My objection to the authorizations is that I believe the amount allowed is too great. By an order of this Board, passed July 6th, 1880, the price of gas for the year commencing on the 1st day of August, 1880, was fixed at \$2.70 per 1,000 cubic feet. I am informed that since the latter date the City has paid for gas for the public buildings the price fixed by said order. Since the 1st day of August, 1881, there has been, as I understand, no contract or order, or pretence of a contract or order, fixing the price of gas for the purposes named in the authorizations, and of course the City should only pay what the gas furnished is fairly and reasonably worth. What a reasonable price is, I am not prepared to say, but I am satisfied it is considerably less than that allowed by the authorizations. Your Committee on Street Lights in their report filed April 3d, 1882, use the following language:

"However the question may be, it appeared to your Committee proper to consider in the solution of the question of the payment of these bills" (the bills for lighting the streets) "the rates or compensation upon which they were based; and it is shown by the report made to the Board on establishing the rates during the third and last term of the contract that the price charged per lamp per night and agreed upon at 14½ cents was on a calculation which established the price of the gas furnished to be about \$2.30 per 1,000 cubic feet."

I do not see why a greater price should be paid for gas for lighting public buildings than for gas for lighting the streets. I think there ought to be, at this time, a full, impartial and intelligent investigation, to the end that we may understand how much the City ought, in the absence of a contract or regulation by statute or ordinance, to pay for gas, and with the result of such an investigation everybody should be content. There may have been such an investigation in connection with the claims allowed by the authorizations in question, but as no reference is made to such an investigation in the report of the committee before referred to, nor, so far as I have seen, in the session of the Board at the time of the passage of the authorizations, I conclude there was none. If the price fixed by the order of July 6th, 1880, was a reasonable price, it may not be so now, and it may have been unreasonably high at the time it was fixed, and therefore no safe basis for present action.

All of which is respectfully submitted.

M. C. BLAKE, Mayor.

On May 29, 1882, the Committee on Street Lights presented the following report:

REPORT OF COMMITTEE ON STREET LIGHTS.

To the Honorable the Board of Supervisors

of the City and County of San Francisco.

GENTLEMEN—In the matter of the message from his Honor the Mayor, returning without his approval Authorizations Nos. 3,164, 3,165, 3,166 and 3,167, providing for payment for the gas furnished by the San Francisco Gaslight Company at the rate of \$2.70 per thousand cubic feet, and used by the City and County in lighting public buildings during the months of November and December, 1881, and January and February, 1882, and stating his reasons therefor.

Your Committee on Street Lights would respectfully report, with all due deference, that the reasons given and the assumptions made are, to say the least, peculiar. The message, after quoting from the report of your Committee made April 3d, 1882, as to the price of gas for street lights being at the rate of \$2.30 per thousand cubic feet, recites: "What a reasonable price is, I am not prepared to say, but I am satisfied it is considerably less than that allowed by the authorizations." Further, "I do not see why a greater price should be paid for gas for lighting public buildings than for gas for lighting the streets. I think there ought to be at this time a full, impartial and intelligent investigation, to

the end that we may understand how much the City ought, in the absence of a contract or regulation by statute or ordinance, to pay for gas, and with the result of such an investigation everybody should be content. There may have been such an investigation in connection with the claims allowed by the authorizations in question, but as no reference is made to such an investigation in the report of the committee before referred to, nor, so far as I have seen, in the session of the Board at the time of the passage of the authorizations, I conclude there was none. If the price fixed by the order of July 6th, 1880, was a reasonable price, it may not be so now, and it may have been unreasonably high at the time it was fixed, and therefore no safe basis for present action."

Your Committee beg leave to state, in view of the objections of his Honor the Mayor, that an investigation was had, which disclosed the following facts in connection with the price allowed for gas furnished and used in lighting the public buildings. The last action of the Board under the provisions of an Act of the Legislature, approved March 4th, 1878, was the passage of Order No. 1,585, approved July 6, 1880, establishing the price of gas for one year at the rate of \$2.70 per thousand cubic feet. The only other provision relative was a stipulation filed by the San Francisco Gaslight Company, at the request of the City and County, on a renewal of the so-called contract for lighting the streets, that the price of gas furnished the City and County for lighting its public buildings was to be the rate charged to consumers at large.

The demands of the San Francisco Gaslight Company were presented at the rate of \$3 per thousand cubic feet, and said demands were allowed prior to the organization of the present Board, and up to that time at the rate of \$2.70 per thousand cubic feet, although not accepted by the company until after the question as to the settlement on this basis was agreed upon, and that rate fixed as the price to be allowed up to May 1st, 1882.

In the determination of the rate, the Committee assumed to take Order 1,585 as a guide to prevent any increase being allowed, and disregarded the stipulation which would, if followed, have fixed the rate at \$3, the price charged to consumers at large. As previously reported and stated, the price of street lights was fixed at the rate of \$2.30 per thousand cubic feet, and the Board insisted upon carrying out that principle in the settlement of the claims of the San Francisco Gaslight Company, as expressed in the so-called contract, so as to prevent the company from making any charge in excess or from being able to make any increased charge; and in order to prevent that contingency, the objections of his Honor the Mayor to that rate for street lights were not sustained. The company furnished the gas and the City used it for the purpose named, with a full understanding of the price to be paid, and the company accepted a reduction of thirty cents per thousand cubic feet, in view of the action of the Board looking to a speedy settlement and payment of their claims.

The resolution adopted by the Board, notifying the company that on and from May 1, 1882, the rate or price to be paid for gas furnished to the City and County should be determined by mutual agreement, to be approved by the Board, was the result of the inquiry and indicative of the action and the proposed action of the Board to secure the lowest possible terms on and from that date, based upon a fair and honorable settlement of pending claims and the advantages that competition or the prospect of competition might enable the City to obtain.

In response to the resolution, a communication, received from the San Francisco Gaslight Company, under date of April 28th, 1882, states "that the Board of Directors of the San Francisco Gaslight Company will not entertain any proposition looking to a reduction of the rates now charged for lighting the public streets of the City and County on and from May 1, until the bills now due and owing said company for the gas, etc., heretofore supplied and used, are allowed and ordered paid. The disposition of the Directors is favorable to the conference suggested, and to make such reasonable concessions as might be found necessary to render the relations of the company to the City satisfactory."

It cannot be assumed that the City can take and use the gas furnished, and pay such price as it sees fit, irrespective of the value or a consideration of the rights of the parties interested. The object of your Committee and of the Board was to adjust and act in the

consideration of the claims of said company on a just basis, and obtain by a prompt and honorable settlement of pending demands such a reduction in the rates to be charged on and from May 1, 1882, as would be satisfactory to the Board and to the advantage of the City. If the course taken by the Board is carried out, there can be no doubt of reasonable concessions, but until that is done, with what reason can the Board expect to secure concessions when the demands for service performed and materials furnished are not provided for.

The Board heretofore, on recommendation of your Committee, advertised for and awarded a contract to light most of the public buildings at the rate of \$1.50 per thousand cubic feet, one of the results of competition which was taken advantage of, and secured the lighting of the public buildings therein specified for a period of two years at that rate.

If the solution of the price of gas for lighting the public buildings (allowed at \$2.70) during the last six months was to be, in the opinion of his Honor, regulated by the rate of \$2.30, allowed for street lights as the lowest price for gas furnished, why not at \$1.50, the price or rate to be paid for lighting many of the same buildings on and from May 1st, 1882. The reasons why are obvious that neither of these prices indicate the value of the gas or the proper price to be paid therefor.

On the making of the so-called contract for street lights and its renewals, the City and County got the advantage of securing a low rate at the time, owing to the supposed long duration of the contract, and for lighting the public buildings the City and County received the benefits of competition and secured the lighting at a much lower rate than was even with competition anticipated.

Your Committee regret exceedingly that his Honor the Mayor does not seek to ascertain except through reports made, which show conclusions, or through his own unsupported, and to the Board somewhat unfair opinion, that no full, impartial or intelligent investigation of matters acted upon has been made.

The sessions of the committees of the Board are at all times open to the Mayor, to enable him, if he sees fit, to obtain all information as to the investigation of all public matters, so that he may be enabled to form an opinion, and but for his reluctance and refusal to attend a former meeting of a committee of all the members on an important subject, a special invitation would be sent to him requesting his attendance at every important meeting.

Your Committee further reiterate that in their opinion the price fixed by the Order 1,585 of July 6, 1880, was a reasonable price then, and is now, so far as the settlement of the pending bills is concerned, and was a just and fair price and a safe and proper basis to act upon in settlement of the pending claims of the last six months.

Your Committee therefore recommend the passage of the authorizations, notwithstanding the objections of his Honor the Mayor. They also, in addition, recommend the passage of the authorizations providing for the payment of the gas used in lighting streets and public buildings during the months of March and April, 1882, so that upon their allowance a conference may be had with the Directors of the San Francisco Gaslight Company with a view of obtaining a reduction of the terms for lighting the streets and public buildings not included in the contract, subject to your approval and ratification, and in accordance with the former reports of your Committee on the subject.

C. A. FISHER,
J. F. KENNEDY,
N. C. PARRISH,
GEORGE TORRENS.

At the same meeting, on May 29, 1882, the authorizations referred to were taken up and passed, notwithstanding the objections of his Honor the Mayor, and the demands provided for by said authorizations were also passed by unanimous votes, Supervisor Russ being absent.

On June 23, 1882, his Honor the Mayor returned, without his approval and with his objections, Authorizations 3,177 and 3,178, in favor of the San Francisco Gaslight Company for

lighting public buildings other than engine houses during March and April, 1882; also, Authorizations 3,176 and 3,179, for lighting the public streets during the same periods, accompanied by the following messages :

MESSAGE OF HIS HONOR THE MAYOR.

MAYOR'S OFFICE, CITY AND COUNTY OF SAN FRANCISCO, }
June 23, 1882. }

To the Honorable the Board of Supervisors:

GENTLEMEN—I herewith return to you, without my approval, Authorizations Nos. 3,177 and 3,178, in favor of the San Francisco Gaslight Company for lighting public buildings (other than engine houses) during the months of March and April, 1882, passed by your Honorable Board on the 12th day of June, 1882, and presented to me on the 13th day of the same month.

On the 19th day of May last I sent to your Honorable Board a message giving my reasons for returning, without my approval, certain authorizations of the same character as those now under consideration. I might content myself, at this time, with a reference to that message, if your Committee on Street Lights had not made a report upon it, in which they say "that the reasons given, and assumptions made, are, to say the least, peculiar," and otherwise so criticise the instrument, that it seems to me I ought at least to try to make a better statement.

Now, as before, my objection to the authorizations is that I believe the amount allowed is too great. Since the 1st day of August, 1881, there has been no contract, or order, or statute, fixing the price of gas for the purpose named in the authorizations. It follows that the City may pay what the gas furnished is fairly and reasonably worth, in accordance with the decision of the Supreme Court in the case of the San Francisco Gaslight Company vs. John P. Dunn, Auditor; and, in my judgment, it follows that, before claims of this kind are allowed or approved, there should be a full, impartial, and intelligent investigation to determine the fair and reasonable value of the gas furnished. I supposed, when the former authorizations were before me, that there had been no such investigation, and the report before referred to, if I understand it, makes it clear that my conclusion was correct. In my former message I referred to a statement, which seems to have been founded upon a report made to the Board of Supervisors, that the price of gas for lighting the streets, as agreed upon in 1879, between the City and the Gaslight Company, was \$2.30 per thousand cubic feet, and said that I did not see why a greater price should be paid for gas for lighting public buildings than for gas for lighting the streets. It is true, however, that the price paid for lighting the streets would not, unless it was fair and reasonable, determine the price which should be paid for lighting public buildings, nor would a price which was fair and reasonable in 1879, if the cost of gas had materially changed. In their report, before referred to, your Committee on Street Lights say: "On the making of the so-called contract for street lights, and its renewals, the City and County got the advantage of securing a low rate at the time, owing to the supposed long duration of the contract." If the rate was low, it could hardly have been a losing rate; for, if it had been, the long duration of the contract would not have been an inducement for the company to enter into it. I think, however, that the action of the company about the time the so-called contract was entered into and its subsequent efforts to establish its validity, is very satisfactory evidence that the price was, to say the least, fair and reasonable for the company.

Your Committee seem to think, as I infer from their report, that the City is bound by law or honor to pay the prices allowed by the authorizations, independent of their reasonableness. They say: "The last action of the Board under the provisions of an Act of the Legislature, approved March 4, 1878, was the passage of Order No. 1,585, approved July 6, 1880, establishing the price of gas for one year at the rate of \$2.70 per thousand cubic feet. The only other provision relative was a stipulation filed by the San Francisco Gaslight Company, on the renewal of the so-called contract for lighting the streets, that the

price of gas furnished the City and County in lighting its public buildings was to be the rate charged to consumers at large. * * * The company furnished the gas and the City used it for the purpose named, with a full understanding of the price to be paid." The order expired with the last day of July, 1881. The stipulation referred to, made in 1874, was not made at the request of the City, but at the request of the Mayor; and was to the effect that, in a certain event, the price of gas for public buildings should be reduced to the rates charged to consumers at large. If the order once bound the City, it has not bound it since the 1st day of August last; and the City was not a party to the stipulation, and was never bound by it. In the absence of a legal order or contract, the City can have no understanding except that it is to pay a fair price for articles furnished it; and nobody, man or corporation, has any right to understand anything else. If anything is clear in the law which regulates municipal corporations, this is; but this point will be more fully considered in another message of this date.

Respectfully submitted.

M. C. BLAKE, Mayor.

MESSAGE OF HIS HONOR THE MAYOR.

MAYOR'S OFFICE,
CITY AND COUNTY OF SAN FRANCISCO, }
June 23, 1882.

To the Honorable the Board of Supervisors:

GENTLEMEN—I herewith return to you, without my approval, Authorizations Nos. 3,176 and 3,179, in favor of the San Francisco Gaslight Company, for lighting streets and repairing lamp-posts and lamps during the months of March and April, 1882, passed by your Honorable Board on the 12th day of June, 1882, and presented to me on the 13th day of the same month.

On the 21st day of April last I sent to your Honorable Board a message giving my reasons for returning without my approval eight authorizations of the same character as those returned herewith. The reasons given in that message for not approving the authorizations were briefly as follows:

1. That it seemed to me very clear that the contract under which gas for lighting the streets has been furnished to the City by the San Francisco Gaslight Company since the 19th day of May, 1879, was invalid.

2. That if my opinion as to invalidity of the contract was correct, it followed that for gas furnished by the company for lighting our streets no claim could be made under the contract, but the company could only be allowed and paid what the gas furnished was fairly and reasonably worth.

3. That, if the views submitted by me were correct, when a claim of the character of those set forth in the authorizations was presented to your Honorable Board, an examination should be had for the purpose of ascertaining what was the fair value of the articles for which payment was asked, at the time they were furnished, and that such value should be allowed and paid.

4. That I did not understand that in the presentation of the claims described in the authorizations, any express reference was made to the contract, but my understanding was that virtually the claims were made and allowed under the contract.

The reasons before stated, which, with some modification of the fourth, I still believe are good, are in part my objections to the authorizations returned herewith.

In this connection let me quote from the last opinion of the Supreme Court, delivered by Mr. Justice McKinstry, in the case of the San Francisco Gaslight Company vs. Dunn, Auditor, upon the allowance of just such claims as are embraced in the authorizations: "They" (the Supervisors) "had power to allow a just and reasonable compensation, and they had no right to fix the value by reference to any other standard."

The examination referred to in the third of the foregoing stated reasons ought clearly to be most careful and thorough for the purpose of ascertaining whether the charges are

fair and reasonable. It ought to be such an examination as would be had upon a trial in a court on an action by the company against the City for the value of the gas furnished and work performed. And in cases like these, involving large amounts, I do not think the Mayor ought to be expected to approve authorizations not based upon such an examination. I do not understand, from any report or in any manner, that such an examination has been made in connection with the claims allowed by these authorizations. The report of your Committee on Street Lights does show that an investigation was had, but it was not such an investigation as I have referred to.

I said in my former message that it was my understanding that virtually the claims described in the authorizations were made and allowed under the contract. I thought that the fact that the claims, eight in number, referred to in my former message, were all made for the same amounts that would be due under the contract, and were allowed as rendered, was pretty good evidence of the correctness of this position. I did not at the time see how, otherwise, the company should be allowed just what it would have been allowed had the validity of the contract never been questioned. Upon a further examination I have concluded that there is another, and, so far as proximate causes are concerned, a truer explanation of the matter. It would seem that many of your members, and the members of the Committee on Street Lights in particular, were strongly influenced, if not controlled, by the idea that the company had for a long time furnished gas for, and performed labor in connection with, the lighting of our streets, and make certain regular charges therefor, and this had been done with the knowledge and consent, and at the request of the City, so that in fairness and justice the claims ought to be paid as they were presented. In a report presented on the 3d of April last, your Committee on Street Lights say: "The City and County has had the use and service of the lamps and lamp-posts, been supplied with gas, and the streets have been lighted in accordance with the schedule time fixed, without any objection being raised by the Board to the price of the service rendered, and from time to time the company have, by request of the Board, laid their mains and erected lamps as the same were required. It does seem to your Committee that on an intelligent and unprejudiced consideration the City is bound by principles of common justice to pay the demands as presented. Not a question has been raised on the part of the Board as to the service performed by the company; on the contrary, the rates were agreed upon and the gas and material have been furnished and the labor performed with the full knowledge and at the request of the City, and it must naturally follow that the demands should be allowed and paid. As legislators and business men there does not appear to be any other honest or honorable course to pursue." In a later report of the same committee the same idea is set forth, and it is to be found in the reported speeches of several members of your Board.

Between men having business transactions with each other this view of the case would be honorable, just and legal, but in municipal affairs it is not safe or legal. It is certainly at variance with the opinion of our Supreme Court, before quoted: "The Supervisors had power to allow a just and reasonable compensation, and they had no right to fix the value by reference to any other standard." The knowledge of every officer in the City that articles have been furnished for the City's use, for any length of time, with the expectation that certain prices would be paid therefor, does not make a contract binding the City. Contracts with municipal corporations cannot be made in that way, and it is fortunate that they cannot. No officer of the City has a right, nor have all the officers of the City, to pay away a dollar of the public money upon the sole ground that honor requires it. Law and honor usually go hand in hand, but if they conflict, public officers must regard the law. In the absence of a statute, order or contract no man who furnishes articles to the City has any right to expect any compensation in return, except what is just and reasonable; and, in this case, if there is no valid contract, the San Francisco Gaslight Company is too well advised to expect that it has a right to anything more. The fault, with the view of the case we are considering, is that the City has not consented, the City has had no knowledge. If there was anywhere an embodiment of the City, that could act for it, see for it, consent for it, so that it could be said the City had acted, seen, consented,

it would be quite another case. The officers of the City are not the City, nor can they act for it, consent for it or bind it, except by virtue of some provision of law. And, with all deference, let me ask, if your Honorable Board had been convinced that the contract, so often referred to, was invalid, and had said so to the company, and had further said you were willing to allow a just and reasonable compensation, would the honor of the City have suffered?

I have dwelt longer upon this point than I should, for the reason that long experience has impressed upon my mind that adherence to law is the safest and best and most honorable course under all circumstances.

Respectfully submitted.

M. C. BLAKE, Mayor.

On June 27, 1882, the Committee on Street Lights presented the following report in reference to the bills returned by the Mayor without his approval:

REPORT OF COMMITTEE ON STREET LIGHTS.

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—Your Committee on Street Lights, in the matter of the message from his Honor the Mayor, returning without his approval and with his objections authorizations passed by your Honorable Board, providing for the payment of the bills for lighting streets and public buildings during the months of March and April, 1882, would respectfully state that the whole subject has been investigated, and the reasons fully set forth in reports and communications to the Board, and notwithstanding the objections of his Honor, who simply reiterates his former expressed opinion, no figures and no additional facts are presented upon which to warrant or justify any different action being taken. If the examination was not in the manner that his Honor desired, your Committee cannot but regret that his Honor did not consider it his duty to be present at the sessions of the Committee, for it might be expected from his well-known energy that he might have directed the investigation, and if the conclusions arrived at by the Board were not in his opinion justified by the facts, it would certainly have enabled him to present some basis (except assertion) to sustain the opinion expressed.

Your Committee have no other or further report to make, but simply to reiterate that the claims have been investigated, and that the amounts allowed under the circumstances were just and reasonable, and no good reason exists why the authorizations should not pass, notwithstanding the objections.

This Board, it is understood, is acting for the City, and, in your Committee's opinion, for its best interests, with due regard to equity and fair dealing, and while a contrary course might pander to a morbid public sentiment, which, through prejudice and mis-construction, may be considered popular, yet your Committee prefer to be just, and do, under the circumstances, what intelligence dictates to be just and reasonable in the premises.

C. A. FISHER,
J. F. KENNEDY,
N. C. PARRISH,
GEO. TORRENS.

At the same meeting, the foregoing authorizations were taken up and passed, notwithstanding the objections of his Honor the Mayor, Supervisor Russ voting no, and Supervisor Molineux being absent.

The demands of the San Francisco Gaslight Company provided for by said authorizations were taken up, allowed and ordered paid. This action provided for all demands due the San Francisco Gaslight Company up to May 1, 1882, as contemplated.

On July 10, 1882, the Committee on Street Lights addressed the following communication to the San Francisco Gaslight Company:

COMMUNICATION TO THE SAN FRANCISCO GASLIGHT COMPANY.

CLERK'S OFFICE, BOARD OF SUPERVISORS, }
 San Francisco, July 10, 1882. }

To the San Francisco Gaslight Company:

GENTLEMEN—The Committee on Street Lights of the Board of Supervisors beg leave to call your attention to the fact that the demands for furnishing gas and lighting the streets and public buildings up to May 1st, 1882, have been allowed and ordered paid by the Board of Supervisors; also to state, that, in accordance with a former communication, under date of April 5th, 1882, and the response from you, under date of April 28, 1882, no obstacle now exists to a conference and a concession on your part of a reduction in the rate, on and from May 1st, 1882, for lighting the streets, also those public buildings which are not included in the contract lately made.

The Committee is of opinion that your company, in view of the allowance of your bills in spite of what appeared to be a factious and prejudiced opposition, appreciate the consistent policy adopted, and the Committee trust that your concessions in the proposed contract for two years will demonstrate that the course pursued has been for the best interests of the City. The Committee, therefore, knowing of no obstacles to prevent the conference suggested, call your attention to its instructions in the annexed copy of Resolution No. 15,635 (New Series) and to the facts, so that no unnecessary delay may be had in a determination of the terms to be paid your company hereafter for the service performed.

Very respectfully,

CHAS. A. FISHER,
 Chairman Street Light Committee.

At a meeting of the Board, held July 24, 1882, the Committee on Street Lights presented the following report, stating the result of negotiations with the San Francisco Gaslight Company and the terms agreed upon, accompanied by a communication from said company, accepting the proposed terms:

REPORT OF COMMITTEE ON STREET LIGHTS.

*To the Honorable the Board of Supervisors
 of the City and County of San Francisco:*

GENTLEMEN—Your Committee on Street Lights, who were authorized by resolution of your Honorable Board to confer with the San Francisco Gaslight Company and request the abandonment of the so-called contract for lighting the public streets, there being doubts of its validity, and secure a reduction of the rates charged on a contract for a period of two years; also to notify the company that on and from May 1st, 1882, the rates or price to be paid should be determined by mutual agreement, would respectfully report that, in response to a communication from your Committee requesting such conference, and a reduction of the rates on and from the date named, the Board of Directors of the Gaslight Company, under date of April 28, 1882, declined to entertain any proposition looking to a reduction of the rates charged for lighting the public streets on and from May 1st, 1882, until the bills due and owing said company for the gas supplied and used were allowed and ordered paid; also stating that the disposition of the Directors was favorable to the conference suggested and to making such reasonable concessions as might be found necessary to render the relations of the company to the City satisfactory. Further, that the service rendered by the company in continuing to light the streets by direction of the Board under the contract, and that the company did not desire to assume the responsibility of violating the contract and subject itself to damages for a violation of its terms at the suit of the City.

Upon receiving this refusal on the part of the company, it devolved upon the City either to continue to pay the rates charged, or to notify the company to discontinue lighting the

public streets. In the consideration of the best course to pursue, your Committee had reason to suppose that owing to the excitement prevalent among a large class of our citizens relative to the presence of the Chinese and the large influx of that class of people in our midst, that unlighted streets would afford an opportunity for the commission of such acts as might lead to the destruction of property by ill-advised and violent persons who are always found in times of excitement to instigate such procedure and lead to very serious loss to our citizens and the municipality while the perpetrators could escape without detection.

Your Committee could not recommend the Board to assume the responsibility of notifying the company to discontinue the lighting of the public streets, as such a course would, as stated, have encouraged the lawless in our community under cover of darkness to commit crime, but your Committee hoped by a conscientious and judicious policy to bring about a more favorable disposition on the part of the company.

This course was pursued, and as is well known, the bills of the San Francisco Gaslight Company were allowed and ordered paid by your Honorable Board up to May 1st, 1882, upon the simple principles of justice and fair dealing, and after an examination and investigation which demonstrated that under the circumstances the price allowed was fair and reasonable. Your Committee thereupon addressed the company, calling attention to said action, as one of many reasons that ought to bring about such a reduction as would be satisfactory and reasonable during the term proposed by your Honorable Board. The conference was had, the company being represented by a committee of the Board of Directors, consisting of Messrs. Donahue, Haggin and Murphy, and the City and County by the members of your Committee. After an interchange of views and the presentation, examination and consideration of figures and estimates of the cost of the production and supply of gas, a proposition advanced by the committee of the Board of Directors was objected to and refused. After consultation and consideration, your Committee made the proposition that it would favor a contract wherein the price of gas would not exceed two dollars per thousand cubic feet for lighting the public streets, also the public buildings not heretofore contracted for, and on that basis the rate for each lamp per night to be twelve and one-half cents, this rate to include the cost of lighting, cleaning and extinguishing the lamps, as well as interest on the investment in the lamps, lamp-posts and appurtenances which belong to the company. The schedule time of lighting to be the same as in the former contract. For repairs to lamps, lamp-posts and appurtenances, \$2 per lamp per year, making the rate for each lamp per month 16½ cents as formerly charged.

The gas furnished and supplied to public buildings (not heretofore contracted for) at \$2 per thousand cubic feet, to include school houses, and for all other buildings where gas is used and for which the City and County has to pay.

The Committee on the part of the Board of Directors stated that they could not entertain or agree to that proposition, but on a refusal of your Committee to discuss the question of rates on any other basis, the committee agreed to submit the proposal made to the Board of Directors, and, as soon as practicable, inform your Committee of the result. Accordingly, under date of July 21st, your Committee received from the Secretary of the San Francisco Gaslight Company a communication, hereto attached, stating that the Board of Directors had agreed to enter into a contract for a term of two years on the terms submitted. The reductions effected are from rates previously paid, two cents per lamp per night, and seventy cents per thousand cubic feet for the gas furnished for public buildings. The present number of lamps being 5,427, the reduction will aggregate \$35,700 per annum, while the total reduction, including the public buildings, it is estimated will aggregate about \$45,000 per annum. In addition, it is understood and made a part of the agreement that the bills for gas furnished and supplied during the months of May, June and July are to be presented and settled upon this basis.

Your Committee will submit for your action a resolution in accordance with this report, directing your Committee to enter into a contract on behalf of this City and County with the San Francisco Gaslight Company upon the terms herein stated.

In conclusion, your Committee beg leave to state that, in the efforts to bring about a solution of the relations between the City and County and the San Francisco Gaslight Company, your Honorable Board has adopted a policy as recommended by your Committee, and as suggested by a candid and honest endeavor to secure the best terms possible for the City, and on the principle that he that expects equity must by his own equitable acts have the right to not alone expect but demand it. The action taken by the Board in the settlement of previous demands and the concessions now made by the company, mainly attributable to that action, cannot but be satisfactory to the intelligent and unprejudiced, and such action as would characterize the conduct of and be indorsed by any honorable man in the transaction of his own business affairs.

C. A. FISHER,
J. F. KENNEDY,
H. B. RUSS,
N. C. PARRISH,
GEORGE TORRENS.

COMMUNICATION FROM THE SAN FRANCISCO GASLIGHT COMPANY.

SAN FRANCISCO GASLIGHT COMPANY, }
San Francisco, July 21, 1882. }

C. A. FISHER, Esq., *Chairman Committee on Street Lights:*

DEAR SIR—I am instructed by the Board of Directors of this company to inform you that they are now ready to abandon the old contract for lighting the street lamps, and to enter into a new contract, for two years, for lighting all the street lamps and such public buildings as were not included in the contract made on the 24th day of April last, on the following terms, to-wit:

For lighting the street lamps, twelve and a half cents (12½) per lamp per night; the terms for keeping the same in repair and in other respects to conform to those of the contract heretofore made for lighting the streets of this City, and for supplying gas for lighting such public buildings as are not already contracted for, at the rate of two (\$2) dollars per thousand cubic feet.

Very respectfully, your obedient servant,

WM. G. BARRETT, Secretary.

The following communication from the Central Gas Company, with proposition to light the streets, etc., was received and referred to Committee on Street Lights:

COMMUNICATION OF THE CENTRAL GAS COMPANY.

SAN FRANCISCO, July 31, 1882.

To the Honorable Board of Supervisors

of the City and County of San Francisco:

GENTLEMEN—We hereby make the following offer to light certain street lamps for the City of San Francisco, to take effect within sixty (60) days after your acceptance of our bid, viz: We will erect on the line of our street mains, two thousand (2,000) lamp posts and lamps, or so many as may be required, and will enter into a contract to light and extinguish the same, as follows: First. We offer to furnish gaslight of an illuminating quality of not less than eighteen (18) candle power, to be lighted the same number of hours per night as the City has heretofore been lighted, for the sum of ten (10) cents per night for each lamp. Second. We will light the lamps and furnish the light from sunset to sunrise, regardless of the moonlight schedule, every night during the entire year, for the sum of twelve and one-half (12½) cents per lamp. The entire expense of lighting and extinguishing the lamps, and keeping same in repair, to be borne by this Company. We will furnish gas for all the public buildings on our line of street mains, at the rate of one dollar and eighty cents per one thousand cubic feet. We will furnish bonds to such an amount as you may require for the satisfactory fulfillment of our contract.

THE CENTRAL GASLIGHT COMPANY,

By A. D. SHARON, Vice-President,

James W. Burling, Secretary.

[SEAL.]

At a meeting held July 24th, the Committee on Street Lights presented and the Board passed to print the following resolution, which, at the meeting held on July 31, was finally passed by a unanimous vote, as follows:

RESOLUTION NO. 15,835. (New Series.)

Resolved, That the Committee on Street Lights of this Board be and is hereby authorized and directed to enter into a contract on behalf of the City and County with the San Francisco Gaslight Company (provided the sureties of the San Francisco Gaslight Company on their bond, which is hereby fixed at the sum of twenty thousand dollars, are satisfactory to said Committee) for a term of two years on and from August 1, 1882, to furnish gas of the standard illuminating power of not less than seventeen candles, and all the lamps, lamp-posts and appurtenances required to light the public streets, in accordance with the schedule time and under the same conditions, not in conflict herewith, as expressed in a former contract; also, to furnish gas to light the public buildings other than those previously contracted for at the following prices:

For furnishing gas, lighting, cleaning, etc., each lamp per night..... 12½ cents
 For repairs to lamps, lamp-posts and appurtenances, \$2 per year, or for each lamp per month..... 16½ cents
 For furnishing gas for public buildings not heretofore contracted for, per 1,000 cubic feet..... \$2 00

In Board of Supervisors, San Francisco, July 31, 1882.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Bodfish, McKew, Shirley, Carmany, Molineux, Torrens, Bradford, Fisher, Merrill, Russ, Parrish, Kennedy.

JNO. A. RUSSELL, Clerk.

The above resolution was presented to his Honor the Mayor on August 1st, 1882, who, on August 11th, returned the same without his approval and with objections thereto, as set forth in the following message:

MESSAGE FROM HIS HONOR THE MAYOR.

MAYOR'S OFFICE, CITY AND COUNTY OF SAN FRANCISCO, }
 August 11, 1882. }

To the Honorable the Board of Supervisors:

GENTLEMEN—I herewith return to you, without my approval, Resolution No. 15,835 (New Series), passed by your Honorable Board on the 31st day of July, 1882, and presented to me on the 1st day of August, 1882.

I am not certain as to what is intended by the resolution. If it is intended to give the Committee therein named the absolute power to conclude a contract with the San Francisco Gaslight Company, without further action of the Board, the resolution should, of course be submitted to the Mayor for his consideration and action, as it has been; but this would not, as it seems to me, be necessary, if it is intended to authorize the Committee to make a contract subject to the ratification of the Board.

I think the expense of lighting the streets, as contemplated by the resolution, is considerably greater than it should be. I have arrived at this conclusion in view of the prices paid for lighting the streets of other cities, and of the fact that the Central Gaslight Company has offered to furnish, for a considerable part of the city, "gaslight of an illuminating quality of not less than eighteen (18) candle-power, to be lighted the same number of hours per night as the city has heretofore been lighted, for the sum of ten (10) cents per night for each lamp." The lighting of the entire city must, of course, be proportionately more expensive than the lighting of the territory included in the offer of the Central Gaslight Company; but the difference in expense cannot be equal to the difference between the price named in said offer and the price which must be paid for lighting the streets

under the provisions of the resolution. I believe there is no necessity and no reason of any kind for paying more for gas for public use than its fair and just value; but my principal objection to the resolution is that the contract which it authorizes is to extend through a term of two years. At the end of a year there is likely to be a very lively competition in gas, extending nearly or quite over the entire City. Since the introduction of gas for lighting our houses and streets there has been no competition in connection with it. There is little exaggeration in saying that we have had to pay for it what the power that furnished it said we must pay; and it is certainly in the highest degree just that the City should have the benefit of competition at the earliest day possible.

Respectfully submitted.

M. C. BLAKE, Mayor.

The foregoing message, together with the resolution numbered 15,835 (New Series), was referred by the Board on August 21st, 1882, to the committee, consisting of all the members of the Board.

The following communication from the Central Gas Company, was received on Sept. 4, 1882, and referred to the Committee on Street Lights.

COMMUNICATION FROM THE CENTRAL GAS COMPANY.

SAN FRANCISCO, August 30, 1882.

To the Honorable the Board of Supervisors
of the City and County of San Francisco:

GENTLEMEN—In response to many inquiries, we have the honor to offer the following information regarding the lighting of the street lamps of the City of San Francisco.

The Committee on Street Lights, in their report to your Honorable Body of July 24, 1882, suggest \$2.00 per thousand feet as the price the City should pay for gas. Taking this suggestion as a basis, it would make the value of the gas for each lamp per night about seven cents; to which add three cents for lighting, cleaning, repairs, etc., making a total of ten cents per lamp per night, or about \$32.90 per year.

By the "moonlight schedule" each lamp should be lighted 329 nights of the year, or about 2,300 hours. With an allowance of five feet of gas per hour, each lamp would consume 11,500 cubic feet per annum. You will notice that five feet per hour is the amount of gas allowed for each burner. Many cities require only four feet, and in no instance is a greater amount required than five feet. Any gas company furnishing more than that quantity per hour has not the proper modern appliances for governing its street pressure.

The rate which the committee named, of twelve and one-half cents for each lamp per night, and an allowance of \$2.00 per year for repairs, amounts to \$43.12½ per annum, and is equivalent to paying a fraction over \$3.00 per thousand feet instead of \$2.00, and in this respect their recommendation of twelve and one-half cents for each lamp and \$2.00 per annum for repairs is not in accordance with their first suggestion of \$2.00 per thousand feet. In this connection we give herewith the price paid per annum for lighting street lamps in many cities of the Union:

Boston.....	\$28 89	Cincinnati.....	\$27 65
Chicago.....	24 40	Patterson.....	22 50
New York.....	17 50		

All of these cities have their lamps lighted from sunset to sunrise every night in the year, which is about forty per cent. more time than the lamps are now lighted in San Francisco.

Should your Honorable Body desire to consider the question of lighting the street lamps for the entire night, and for every night during the year, the following information will be of interest: The number of hours for all night lighting for each lamp, per annum, is 4,000; five feet of gas per hour will require 20,000 feet, which at \$2.00 per thousand feet equals \$40. To this add the customary allowance for lighting, extinguishing, repairs, etc., making the aggregate of about \$50 for each lamp per year, or about what the City of San Francisco has heretofore paid for lighting only on the "moonlight schedule."

We would call your attention again to the communication of The Central Gaslight Company of July 31, in which the Company proposes to light the lamps on the "moonlight schedule" at ten cents per night for each lamp, and on an all-night schedule and every night during the year, for

twelve and one-half cents per night for each lamp, which is at the rate of about \$1.80 per thousand feet of gas. Both propositions include the lighting, extinguishing, and keeping the lamps in repair.

THE CENTRAL GASLIGHT COMPANY,

JAMES W. BURLING,
Secretary.

By J. ELLIOT CONDUCT.

On September 11th, 1882, the Committee of the Whole, by Supervisor Molineux, presented the following report:

REPORT OF THE COMMITTEE OF THE WHOLE.

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—Your Committee of the Whole desire to present their views in the matter of the action of your Honorable Board in passing Resolution No. 15,835 (New Series), authorizing and directing the Committee on Street Lights to enter into a contract with the San Francisco Gaslight Company to light the public streets for a period of two years, and of the message of his Honor the Mayor returning said resolution without his approval and with his objection thereto, and would respectfully state, as heretofore reported, that in pursuance of instructions from your Honorable Board the Committee on Street Lights endeavored to obtain a conference with the Directors of the San Francisco Gaslight Company with the object of securing a reduction in the rates charged for lighting the public streets; but said company declined to hold any conference relative to a reduction of the rates until the bills for services previously performed were allowed and ordered paid. For reasons stated by the Committee in former reports, the bills were allowed and ordered paid, and negotiations were at once entered into for a reduction of the rates on a contract for a term of two years. Finally the rate upon which the Committee on Street Lights agreed to offer as against the proposition made by the Committee of the Directors of the company was two dollars (\$2) per thousand cubic feet for all gas furnished of a standard illuminating power of seventeen candles for lighting all the public streets as heretofore, and an abandonment of the so-called contract, which proposition was not acceded to by the Committee, but was laid before the Board of Directors and accepted on those conditions. The proposition made by the Committee on Street Lights is as previously reported to the Board, and the terms, requirements and duty imposed upon the Committee are as contained in the resolution returned by his Honor the Mayor, and are plainly and unmistakably expressed therein.

The existing contract to light the public buildings therein named, include about all the public buildings of which this Board has control, and for which and to whom demands require to be presented and passed upon, and to all of which gas is furnished at the rate of \$1.50 per thousand cubic feet. This low price was secured by competition, and advantage taken of competition to secure that low rate for as long a period as possible, there being no prior or existing contract for that purpose to conflict or interfere with this action.

In order to secure what appeared to the Committee an important concession, it was further agreed that all public buildings, school-houses, etc., which were supplied, or which may hereafter be supplied, by said company, not included in said contract, were to be at the rate of two dollars (\$2) per thousand cubic feet. It is scarcely necessary to state that the rate of two dollars is only binding upon the public buildings of which this Board has control, and does not prevent gas being taken at a less price, if it can be obtained, for other public buildings; but this stipulation limits the price so as not to exceed two dollars per thousand cubic feet.

Your Committee have no hesitation in stating that the price or rate of two dollars per thousand cubic feet is a reasonable price, and while gas and similar service is performed in Eastern cities at apparently lower rates, yet the conditions there and here are somewhat different. In New York, for instance, the lamps and lamp-posts belong to the city; the

burners consume about three cubic feet per hour, while here they average over six cubic feet per hour. Charges other than that for the gas furnished and used in lighting the streets form separate items, such as releading, straightening and other repairs, and your Committee believe, if the recommendation of your Committee is adopted, that the streets of San Francisco will be lighted as cheaply and cheaper on the proposed terms than is comparatively the case in Eastern cities. The schedule time as heretofore fixed and in operation is believed to be sufficient and not requiring any change, provision being made if any exigency should require additional lighting.

On the final passage of Resolution No. 15,835 (New Series), a communication was received from the Central Gaslight Company, with a proposition to furnish lamps and lamp-posts and light the public streets on the line of their pipe at ten cents per night, and every night without reference to the moon for twelve and one-half cents, also to furnish gas for the public buildings on the line of their pipe at the rate of \$1.80 per thousand cubic feet, and stating that bonds would be given to erect lamps within sixty days after a contract was made.

This proposition could not be entertained with any advantage to the City, and would not secure any reduction in the cost of street lighting, unless it can be established that the City and County possesses the power to take such supplies and pay therefor such a price as it sees fit. As a matter of fact, this proposition is not any lower than the terms of the proposed contract, being only apparently so by a comparison of the figures. The result of an unprejudiced examination, which cannot be successfully controverted, demonstrates that lamps within an area of one or two miles can be supplied with gas and lighted at less cost than lamps outside of that distance within an area of seven or eight miles. In lieu, then, of having variable rates according to location and distance, the price in the proposed contract covers all, and taking that into consideration fixes the price as low as that contained in said proposition.

The San Francisco Gaslight Company accepted the terms proposed, waiving and abandoning any rights they might have under the so-called contract, on the condition that it should light all the public streets and furnish all the gas required for that purpose for a term of two years. If, for instance, the Board sees fit to disregard the proceedings had and the policy of settling this whole matter upon a fair and full understanding of the merits of the questions involved and does not finally pass Resolution No. 15,835 (New Series) and thereby ratify their former action, then it follows that proposals must be called for, to furnish lamps and lamp-posts and light the public streets where the mains or pipes of both companies are laid, also proposals to light the remaining portions of the public streets where the mains or pipes of the San Francisco Gaslight Company are laid. Premising that a reduction can be effected in the one case, an increase will follow in the other, and it is safe to predicate that the cost will be greatly enhanced, when it is taken into consideration the extent of the City which is lighted, the suburbs where but little if any revenue is derived except from street lights, and the practical results in Eastern cities as shown by an increase in the price of gas in the suburbs and outlying portions. Such action, in the opinion of your Committee, would not result in any benefit, but, on the contrary, would lead to an increase of the cost and to an interminable prolongation of dispute and litigation in reference to the power of the Board and the rights of the company.

The question of competition does not figure at the present time, as the competitive company have their mains and pipes in but 16 21-100 miles of our streets, there being an average of but 31 lamps erected on each mile of our streets; the total number if said company was prepared to erect lamp-posts and lamps, would be 504. The present number of street-lamps in use, owned by the San Francisco Gaslight Company, amounts to 5,427.

The annexed communication from the Gas Inspector is in answer to a communication from the Committee desiring the information furnished, and shows plainly the status of the proposition.

The principal reason why a contract for two years at the low price secured is in the opinion of your Committee of great advantage is, because it secures gas at the rate of two

dollars per thousand cubic feet for that period. In view of the fact that heretofore in the history of this City, competitive gas companies have organized, erected works, manufactured gas, laid their pipes and mains and supplied gas to consumers with every prospect of an assured future and with all the patronage they desired, still the unfortunate result has always been that eventually the companies, one after another, have been absorbed, and the price of gas increased as a consequence by the surviving company. While your Committee do not for a moment question the permanency of the present competitive company and its intentions, it does appear to be the only prudent course with regard to the City's interests, to make assurance doubly sure by contracting with the only company able to perform the service required, so as to insure a low price for at least that term.

The important concession is secured to our citizens and of consumers of a reduction in the price of gas to not to exceed two dollars per thousand cubic feet all over the city, from the execution of the contract and during its continuance, and is important and of advantage in this, that in fixing the limit of the price of gas it affords no opportunity during the continuance of the contract for the combination of the rival companies and an increase of the price as has heretofore been the case; this stipulation has been made by the company in a communication attached to this report.

In the term of two years it is reasonable to suppose that gas may be effectually supplanted as a means of lighting our streets. It can be expected in the improvements being made, that the electric light will be so perfected, and its cost so much reduced, that it will, by the expiration of that time, be considered as the only illuminating power to be used in lighting our streets; its present use on some of our public streets is self-evident as to its superiority for that purpose, the question of cost at present alone standing in the way.

In addition, a contract for a term of two years, settles the difference existing between the City and County and the San Francisco Gaslight Company, and secures the lighting of the streets beyond peradventure at a low figure for a period of two years, and fixes and limits the price of gas to all consumers during its continuance, at not to exceed two dollars per thousand cubic feet, besides determining the question, and preventing its constant agitation by designing persons whose motives, political or otherwise, your Committee have no disposition to subserve.

In conclusion, your Committee simply desire to state that the Board, in their judgment, have pursued a course pointed out by considerations of policy and justice in the attempted settlement of this whole question, and that it is to the advantage of the City and in its best interests and those of our citizens; and your Committee believe the proper action to be taken by the Board will be to pass the said Resolution No. 15,835 (New Series), notwithstanding the objections of his Honor the Mayor, and they so recommend.

* * * * *
H. MOLINEUX, Chairman.

COMMUNICATION OF THE SAN FRANCISCO GASLIGHT COMPANY.

THE SAN FRANCISCO GASLIGHT CO., }
San Francisco, Sept, 5, 1882. }

HENRY MOLINEUX, Esq., *Chairman of Board of Supervisors:*

DEAR SIR—I am instructed by the Board of Directors of the San Francisco Gaslight Company to inform you that the price of gas to consumers at large will be reduced to two dollars (\$2) per one thousand cubic feet from the execution of and during the existence of the contract now pending before your Board for lighting public streets and buildings of this City.

Very respectfully,

WM. G. BARRETT, Secretary.

COMMUNICATION OF THE GAS INSPECTOR.

OFFICE OF GAS INSPECTOR, }
San Francisco, August 23, 1882. }

HON. C. A. FISHER, *Chairman Street Light Committee.*

DEAR SIR—In response to your communication of August 21st, I will answer the questions in the order enumerated, to the best of my knowledge:

First—The number of miles of pipe laid in the streets by the Central Gas Company is 19 miles.

Second—The number of miles of the public streets in which said company's pipes are laid is 16.21 miles.

Third—The number of street lamps now erected and lighted on the line of said company's pipe is 504 lamps.

Fourth—The number of miles of pipe laid in the streets by the San Francisco Gas Light Company is, as I am informed, about 175 miles.

Fifth—The number of miles of pipe laid in the streets by said company where no other pipe or mains are laid is about 159 miles.

Sixth—The number of street lamps now erected and used on streets where no other pipes are laid except those of the San Francisco Gaslight Company is 4,923 lamps.

Seventh—The average number of street lamps now erected and used, per mile, is 31 lamps.

Eighth—The average candle power of the gas furnished by the San Francisco Gaslight Company, for the past month, is 18.02, and for the past year, 17.152, ending June 30th.

Ninth—The average candle power of the gas furnished by the Central Gas Company I have no means of knowing, having had but one opportunity of testing it, on the 17th of April, when it showed 19.014 candle power.

Respectfully,

R. C. AMES, Gas Inspector.

The Resolution, No. 15,835 (New Series), was then taken up, and Supervisor Fisher moved its passage notwithstanding the objections of His Honor, the Mayor.

On the question being stated by his Honor the Mayor, Supervisor Molineux addressed the Board as follows:

Mr. President—I understand this to be the resolution regarding gaslights, 15,835, and I wish to say, Mr. President, that with the profoundest regard for your Honor personally, that not expecting your Honor to be present this evening, I think nearly all of us, myself certainly, have prepared some remarks on the subject matter before us, and I would say, that I do not wish you to consider that they are directed at you personally. While they may be, and are certainly critical, and possibly may be regarded as being somewhat hostile, I wish in this matter to place myself right before the Board and before the community. I desire to have my own opportunity of making my own personal observations in the matter, and for that reason I have prepared my remarks in writing, and if there be no objection I shall proceed to read them.

Mr. President—The Resolution No. 15,835 (New Series), before this Board for final action to-night, has for its purpose the giving of full authority to the Committee on Street Lights to conclude a contract with the San Francisco Gaslight Company for lighting the streets, the San Francisco Hospital, school-houses, engine houses, and in general, all public buildings lying mainly in distant parts of the city, and not included in the terms of the contract lately entered into with the San Francisco Gaslight Company. The propositions involved were duly considered, and unanimously passed upon in Committee, and in the Board unanimously passed to print, and in the following week unanimously put upon final passage. On the 14th of August the resolution referred to, was returned to this Board, without the approval of his Honor the Mayor. The veto message was at once referred to a committee consisting of all the members of the Board, and held by the Committee until its return to the Board to-night. I do not propose to go into analysis of the veto message, or to examine it,

except in a very general way. The whole subject matter has been amply and most ably set forth in the different reports of the Committee on Street Lights, and I do not expect to add one word to the general enlightenment, but I am impelled to speak for myself and in my own independent way. In returning the resolution to us unapproved his Honor gives as his reasons, first: That he thinks the expense of lighting the streets under the resolution considerably greater than it should be, fortifying his opinion by comparisons with the cost of lighting the streets of other cities. This is vague enough. Many factors enter into careful comparisons of this kind, and the facts and figures upon which his Honor bases his conclusions are not given. For myself, I can only say that this branch of the subject has been most exhaustively examined by the Chairman of the Street Light Committee, Mr. Fisher, and that his conclusions, as placed before this Board, stamp as substantially incorrect the conclusions of his Honor. But admitting the truth of his conclusions, admitting that the city is called upon to pay too much for lighting the streets, why does he not kindly tell us how we can make better terms than those under discussion; why does he not advise us as to the best policy to pursue, having in view the best interests of the city whom we would serve? The fact is that the city has 175 miles of streets to be lighted and to be contracted for. Not a lamp can be dispensed with, and to talk about the ability or possibility of this service being performed at present, or in the reasonable future, in any other way than through the mains of the San Francisco Gaslight Company, is to trifle with intelligence. But his Honor offers as his principal objection the fact that the proposed contract is for two years, instead of one. If his Honor had cared to know the reason why, he could easily have learned that a contract for one year could not be made, the only company competent to enter into such a contract utterly and vehemently refusing to consider the proposition for a moment. But, Mr. President, it is of little use to dwell upon this matter. The reasoning of his Honor is without novelty, and, in my opinion, without merit, and yet I suppose it is sufficient to hang a willing veto upon. In Committee of the Whole, discussion of the proposed contract has taken the widest range, communications and suggestions have had respectful considerations, not excepting the envenomed advice and abuse of two of the principal daily journals of the city, and yet we are not persuaded from our convictions and dare to do our duty. The only invasion in our ranks to-night comes from other than business objections. Mr. President, a pledge or a promise, to me, is not a matter to be lightly considered or dealt with, and I believe I feel the force of a moral obligation as deeply as any one can. In the matter now under discussion, my mind is clear of all forgetfulness. We have been reproached through the press and by those interested in so doing, with being unmindful of the promises of our Republican political platform, which calls upon us in the letting of gas contracts to first invite proposals, and to award to the lowest responsible bidder. To this, I say where practicable and possible, we have complied literally, but as to lighting the streets, the San Francisco Gaslight Company having peremptorily refused to even go through the form of bidding, to advertise for bids when we knew there would be none, would have been an idle farce, and it is a maxim of both civil and moral law, that no one can be expected, under any circumstances, to do a vain or idle thing. Besides, Mr. President, all promises and platforms must be held subordinate to our official oath, and that requires us to perform all the duties of Supervisor to the best of our ability, and for the interests of the municipality. I am led to this line of remark from the fact that my friend from the Tenth, whom I most highly esteem, clinging to the narrow letter of his platform pledges, takes a contrary view of his duty, and allows his interpretation of his promise to control his vote and prevent absolute unanimity while his judgment is entirely with us in our action to-night. But, Mr. President, the principal satisfaction of this vote falls to the lot of the Chairman of the Committee on Street Lights, who sees in it so far as this Board can go, the fulfillment of his labors and hopes of months, and which were outlined to us months ago. His plan necessarily involved the payment of the city's accumulated indebtedness for gas already consumed, the letting of a contract for lighting all public buildings by bids in open Board where competition existed, the gaining of a good and favorable contract for lighting streets where competition does not exist, and finally and

always to accomplish a great reduction in the price of gas to the general consumer. All this has been brought about, and the passage of this resolution saves to the city nearly one hundred thousand dollars, and reduces the price of gas to the consumer at large from three dollars to two dollars per thousand feet. And this, Mr. President, I consider a triumph for which a whole community should be grateful.

Supervisor Bodfish spoke upon the question of the passage of the resolution as follows:

Mr. President: On the coming in of the message of his Honor the Mayor, I made up my mind to examine for myself, in order to determine—

First, as to the matters of law that were imperative and binding on the Board.

Second, as to any new facts that were not presented when the resolution was under consideration.

Third, as to any suggestion whereby the people at large would be benefited by a reconsideration of our proposed action and the adoption of a plan marked out and defined by the Mayor in his message.

I fail to see defined in the first instance any law bearing directly upon this question as set forth in the objections that have been communicated to us by his Honor the Mayor. As to any new facts I am not informed, and that from the observations that have been made and the investigations that he certainly conducted in considering this resolution, that there was anything new—any new facts that were not before us when we were considering this resolution. I fail to find any, consequently I am left to the last; that is, to any suggestions whereby the people at large would be benefited by a reconsideration of our proposed action, and I fail to find anything that convinces me that it would be in the interests of the people of the City and County of San Francisco for us to sustain the message and reconsider our action and adopt another resolution, or offer to take bids, that is, invite proposals for bids, or, in fact, any other disposition of this matter of lighting the public streets and public buildings other than that contemplated by the resolution now under consideration. The honorable member from the Fifth has referred in his remarks to a pledge that was taken. I walked upon the platform and took that pledge. It was prospective in its character. It was not based upon any existing state of facts at that time, but it supposed that in the near future there would be competition in the way of gas. There was a new company talked of or about being organized, or perhaps it had been organized, but it was understood they had commenced laying down their pipes. Now, I can say that so far as the spirit of that pledge is concerned, that we have kept it; that the Republican members of this Board have kept it, because where there was competition we have invited bids and have let a contract and the City is now enjoying the benefit of that contract and of that competition. We have a contract for lighting certain of our public buildings at the rate of \$1.50 per 1,000 feet. Now, we were not to go beyond the real spirit of that pledge. We were not to keep it to the letter unless some good would be derived—some benefit to the people at large. That pledge was not made to the members of the convention; it was not made to any political party. It was made for the purpose of benefiting the entire people in this City and County; and I say that all through that platform, from the beginning to the end, we find economy. And I say further, that it is our duty, if we consider the resolution which we have adopted is in the interests of economy, that the people will be benefited, that there will be a reduction, not only in the public expense, but in private. I say that it is our duty to adhere to this general pledge, running through the entire platform, and not seek to confine ourselves to one particular plank. Looking at it in that light, then, standing here under my oath of office, respecting that and respecting the spirit of the pledge that I took, I propose to cast my vote here to-night as I believe and as I am fully convinced in the interest, not of any convention that put me in nomination, nor of any political party that I have formerly and am now adhering to or belonging to, but in the interests of the entire people of the City and County of San Francisco, irrespective of party platforms or any party affiliations. It was before us that a competing company was here who wished to light some 2,000 lamps. That I think was the extent of the proposition. Now, if we had divided the City and County of San Fran-

cisco up into districts and received bids for lighting portions of the City, what could we say to the other company where there was no competition? Could we dictate to them the terms, and have we any reason to believe that they would have bid for the outside districts the same rate that they would put in and bid, if they had bid, for the inside districts? Most assuredly not, I mention the matter and make the wide assertion that there is no city in the Union, no place where they use gas, where there is not a distinction made with reference to the distance. In other words, that the cost of the outside districts is largely in excess of the inside districts. Then now upon the score of economy, if we have reduced in our district, or one given district, would the excess not have increased the expense? That is a question worthy of consideration, and believing as I do that it would, I am free to say that I propose to sustain this resolution that we may have a uniform rate, believing that it is for the interests of the people that it should be done. There has been some reference made to the time for this contract to run. Now, is it not well known that parties bidding will make a difference—a reduction where the time is extended—and as suggested in the report, what is the coming light? Perhaps if we go into the Pavilion to-night and look at the illuminating power of the gas, that is furnished there by the Central Gaslight Company, we may say that that is the coming light; and on our way home, if we pass down Market street and find that that is not the coming light, we find that the so-called electric light is, so far as our experience goes, on certain blocks upon that street, and also I may say in other parts of the City, that the electric light is the coming light, but it may be said then, why not take, or why not let this contract for one year. I read a short time ago in the *Morning Call*—and I have no doubt that it was true, because it was a quotation from an Eastern paper—I read that the improvements that were being made in the electric light were so rapid that no one could keep the run of them. Now, if these parties are continually making improvements, continually getting out new patents, let them experiment in the Eastern States. Don't bring it out here until it is perfect and complete, and do we not believe and are we not thoroughly convinced as a business proposition that it will take at least two years to go on and make the necessary changes so that this will be the coming light so far as general uses and purposes are concerned. Now, this is a question that is worthy of our consideration, and inasmuch as we are compelled to deal and have been and are compelled to deal with one company, so far as the entire City is concerned, I am satisfied that we have made a good contract or are about to make if this resolution is passed, that we have laid the foundation to make a good contract and that it is perfectly right and proper that we should make it for the period of two years; that it is in the interest of the people that it should be done and that we are carrying out our pledges and are performing our duties as Supervisors and members of this government by entering into a contract of that kind. Then when I find no particular objection in the veto of his Honor the Mayor, although the suggestions may have been convincing to him, but acting in my place as a legislator, they are not convincing to my mind (and I say this with all due respect to him), but then, as I am not convinced that reasoning there is right and proper and that it would be right for us to be governed thereby, as I see no other way of performing my duties than by sustaining this resolution and voting against the message, I shall upon the call of the roll, vote aye upon the question that is now pending, believing that in so doing that I am performing my duty as a member of this Board, and I am performing my duty to this community in every respect and in accordance with my oath of office and any and all pledges that I may have taken.

On the roll being called Supervisors Shirley, Carmany, Russ and Parrish explained their votes as follows:

SUPERVISOR SHIRLEY.

Mr. President—There has been a great deal of time consumed within the last few weeks in city legislation among the Supervisors in determining what is best to be done with the

veto of his Honor the Mayor, and the gas contract with the San Francisco Gaslight Company, and although I voted in favor of it on its passage to print, I had since made up my mind to vote in favor of sustaining the Mayor's veto, because, on reflection and due consideration, the reduction in price contemplated did not secure to the consumers outside of the line of competition an equal reduction with that obtained by the street lights and city property, and therefore did not, in my estimation, fully sustain my pledge on the gaslight question taken before the Democratic Convention on my nomination for Supervisor, which said that no rate for gaslight should exceed two dollars per 1,000 feet, which I understand to include private consumers as well as public buildings. The rate of *street lights* not yet being determined in comparison with Eastern cities, said cities generally owning their own lamps and cleaning and repairing the same. In view of the consideration of the very large extent in space of this sparsely inhabited city, and the long time it would take any opposition company to extend their mains out to South San Francisco, Bernal Heights, the Golden Gate Park, Presidio, Western Addition and other far out places where street lights are most needed, would soon consume the contract time of two years, without affording the parties living far out an adequate relief. I also recognize the justice and good policy of encouraging competition in business, and especially among incorporated companies, and feel grateful towards the Central Gas Company for the services the company have rendered the city in reducing the rates of gas, but am of the opinion that the time has not come for us to allow the opportunity to escape to make a practical working contract for two years with a company that is already in working order all over the city. Therefore, since the San Francisco Gaslight Company have offered to supply the householders and consumers of gas, irrespective of distance, wherever their pipes are laid, at the price of two dollars per 1,000 feet, and further taking into consideration the best interests of the whole city, I shall, therefore, vote "Aye."

SUPERVISOR CARMANY.

Mr. President—In rising to explain my vote, I will simply refer to a few facts that were developed in the course of the discussion on the merits of the resolution now under consideration, after the veto had been received. Points of difference did not arise from any statement of facts that may possibly have been presented in the veto message of His Honor the Mayor, for we searched in vain for assistance from that direction. We were unanimous as to the barrenness of that document in this respect, and could not come to any other conclusion than that the Street Light Committee had fully and ably performed its duty in obtaining such advantageous terms, notwithstanding the negative assertions in the message. From a legal point of view the message is entirely silent, though the member from the First made it his special business to direct the attention of His Honor to an examination of the resolution as to its legal bearings, and in the absence of any comments we must naturally come to the conclusion that our action cannot be questioned on this point. As to the duration of the contract, it is a most reasonable term, under all the circumstances, for the entire area now covered by the pipes of the old company, notwithstanding the advances made in perfecting the various expensive electric lights for street illuminating purposes, which in the course of two years may be brought into successful competition, as well as the advancing work of the Central Gaslight Company; and for the still more satisfactory reason that the President of the San Francisco Gaslight Company personally assured me—which assurance is now ratified by the action of the Board of Directors of said Company, extending over the period of the contract—that the price of gas will be reduced to *two dollars per thousand feet to private consumers over the entire city*, irrespective of where the mains of the new or any other company are now or may hereafter be placed. This is such a great pecuniary concession to the people—being a reduction of *one-third* from the present price—that I am desirous of taking advantage of the opportunity to close a bargain that will result in such a marked benefit to all the consumers throughout the city. In New York City the rate to private consumers is not less than \$2.25 per thousand feet, though the city is supplied by more than half a dozen

different companies. Therefore, looking at the subject in all its bearings, I consider it an exceptionally good management; and if, in the course of two years—certainly not any sooner at the present rate of progress of the Central Gaslight Company—competition may be fairly inaugurated over an equal territory as that covered by the San Francisco Gaslight Company, then the resolution embodied in the platform of the last Republican Municipal Convention may be carried out, for at the present time the conditions therein expressed do not exist, and if they were complied with in the way of asking proposals, it would simply result in delay, and occasion a repetition of the work that has already been so satisfactorily accomplished by the Street Light Committee. Having constantly cast my vote in favor of economical government, I do so now with a greater degree of satisfaction than ever before, for the convincing reason that through its instrumentality I am enabled to bring cheaper gas to every consumer—rich and poor alike—throughout the entire territory of the municipality. Mr. President, I vote “aye.”

SUPERVISOR RUSS.

Mr. President—In recording my vote on this important question, I will state, as a member of the Gaslight Committee, I was consulted and did my portion towards getting the terms offered in this proposed contract; but ascertaining that I was acting contrary to a specific pledge embodied in our platform, explicitly calling for open and public competition on this very gas question, and as no such public competition had been solicited, I did all in my power to arrange this matter in such a shape so as to conform to our pledges; but I am sorry to say all my appeals were in vain. This contract we are voting on now I consider reasonably fair, but at the same time believing as favorable terms, if not better, would have been obtained by carrying out the form and spirit of this platform upon which we were elected. Therefore, Mr. President, I vote to sustain the veto by voting “No.”

SUPERVISOR PARRISH.

Mr. President—Though it has been fashionable to explain your vote. I have got no fine speech written out, but as I unfortunately, or fortunately, was on this Gas Committee, and I have worked, I think, now some sixty days, and certainly we have had time to fix this contract. I took the pledge with the rest of the members of this Board, and I think in voting for this contract—voting aye—that I am sustaining these pledges, every one of them. We certainly took our pledges to run this City Government on an economical basis, and it does not seem to me that any man with a clear head and heart can see any benefit in advertising for bids to light the streets when there is but one company, and they declare right out boldly that they would not put in any bid, and they would entertain no other proposals from us, in any other way. And then, taking into consideration the reduction that we have got, making and amounting in all in two years to \$690,000, I think a little more reduction would confiscate their property. Six hundred and ninety thousand dollars in two years, I think, is a pretty good reduction, and therefore I vote “Aye.”

The question was then taken and the Resolution No. 15,835 was finally passed and approved, notwithstanding the objections of his Honor the Mayor, Supervisor Russ voting no.

RESOLUTION NO. 15,835. (New Series.)

Resolved, That the Committee on Street Lights of this Board be and is hereby authorized and directed to enter into a contract on behalf of the City and County with the San Francisco Gaslight Company (provided the sureties of the San Francisco Gaslight Company on their bond, which is hereby fixed at the sum of twenty thousand dollars, are satisfactory to said Committee) for a term of two years on and from August 1, 1882, to furnish gas of the standard illuminating power of not less than seventeen candles, and all the lamps, lamp-posts and appurtenances required to light the public streets, in accordance with the schedule time and under the same conditions, not in conflict herewith, as expressed in a

former contract; also, to furnish gas to light the public buildings other than those previously contracted for at the following prices:

For furnishing gas, lighting, cleaning, etc., each lamp per night..... 12½ cents
 For repairs to lamps, lamp-posts and appurtenances, \$2 per year, or for each
 lamp per month..... 16½ cents
 For furnishing gas for public buildings not heretofore contracted for, per 1,000
 cubic feet..... \$2 00

In Board of Supervisors, San Francisco, July 31, 1882.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Bodfish, McKew, Shirley, Carmany, Molineux, Torrens, Bradford, Fisher, Merrill, Russ, Parrish, Kennedy.

JNO. A. RUSSELL, Clerk.

The foregoing Resolution No. 15,835 (New Series) finally passed by the Board of Supervisors of the City and County of San Francisco, on the 31st day of July, 1882, having been presented to his Honor the Mayor and ex-officio President of the Board of Supervisors, for his approval, and returned by him with objections thereto, on the 11th day of August, 1882, was taken up and finally approved and passed, notwithstanding said objections, in Board of Supervisors, on the 11th day of September, 1882, by the following vote:

Ayes—Supervisors Bodfish, McKew, Shirley, Carmany, Molineux, Torrens, Bradford, Fisher, Merrill, Parrish, Kennedy.

No—Supervisor Russ.

JNO. A. RUSSELL, Clerk.

CONTRACT BETWEEN THE CITY AND COUNTY OF SAN FRANCISCO AND THE SAN FRANCISCO GASLIGHT COMPANY.

This Agreement, made and entered into this 15th day of September, A. D., 1882, by and between the City and County of San Francisco, by the Committee on Street Lights of the Board of Supervisors thereof, party of the first part, and the San Francisco Gaslight Company (a corporation duly organized under the laws of this State), party of the second part. Whereas, the Board of Supervisors of the said City and County of San Francisco did, on the 11th day of September, A. D., 1882, pass the following resolution:

RESOLUTION NO. 15,835—(New Series.)

Resolved, That the Committee on Street Lights of this Board be, and is hereby authorized and directed, to enter into a contract on behalf of the City and County with the San Francisco Gaslight Company (provided the sureties of the San Francisco Gaslight Company on their bond, which is hereby fixed at the sum of twenty thousand dollars, are satisfactory to said Committee), for a term of two years on and from August 1st, 1882, to furnish gas of the standard illuminating power of not less than seventeen candles, and all the lamps, lamp-posts and appurtenances required to light the public streets, in accordance with the schedule time, and under the same conditions not in conflict herewith as expressed in a former contract, also to furnish gas to light the public buildings other than those previously contracted for, at the following prices:

For furnishing gas, lighting, cleaning, etc., each lamp per night..... 12½ cts.
 For repairs to lamps lamp-posts and appurtenances, \$2.00 per year, or for each
 lamp per month..... 16½ cts.
 For furnishing gas for public buildings not heretofore contracted for, per 1,000
 cubic feet..... \$2 00

In Board of Supervisor, San Francisco, July 31st, 1882.

After having been published five successive days according to law, taken up and passed by the following vote:

Ayes—Supervisors Bodfish, McKew, Shirley, Carmany, Molineux, Torrens, Bradford, Fisher, Merrill, Russ, Parrish, Kennedy.

JOHN A. RUSSELL, Clerk.

The foregoing Resolution No. 15,835 (New Series), finally passed by the Board of Supervisors of the City and County of San Francisco on the 31st day of July, 1882, having been presented to his Honor the Mayor, and ex-officio President of the Board of Supervisors, for his approval, and returned by him with objections thereto, on the 11th day of August, 1882, was taken up and finally approved and passed, notwithstanding said objections, in Board of Supervisors, on the 11th day of September, 1882, by the following vote:

Ayes—Supervisors Bodfish, McKew, Shirley, Carmany, Molineux, Torrens, Bradford, Fisher, Merrill, Parrish, Kennedy.

No—Supervisor Russ.

JOHN A. RUSSELL, Clerk.

Now, therefore, for value received, and in consideration of the premises and the mutual promises and undertakings hereinafter expressed, it is hereby agreed by and between the said parties of the first and second parts respectively (that is to say, the City and County of San Francisco, party of the first part, and the San Francisco Gaslight Company, party of the second part), as follows, to-wit:

First—The said party of the second part is hereby authorized to furnish and light with gas for a term of two years, on and from August 1st, 1882, all the streets of the City and County of San Francisco, in which the mains and pipes of the said party of the second part are now, or shall hereafter be laid, and said party of the second part may at its option, lay its pipes and extend its service of gas throughout the entire limits of said City and County, and no other pipes shall be laid, nor encroachments made in any manner, within two feet from the center of such pipes; provided, however, that this shall not prevent the crossing of the same whenever necessary or convenient, by other pipes or other public works; and provided, also, that the said gas pipes may be taken up whenever it may become necessary or expedient for the construction of street sewers, cisterns, drains, or other public works, by the said party of the first part, and in that case the same are to be relaid by said party of the first part at its own expense. And whenever the said party of the second part shall take up any portion of a street pavement, planking, wharf, bulkhead or other public work, for the purpose of laying, relaying, repairing or tapping any main or gas pipes, said party of the second part shall replace such street pavement, planking, wharf, bulkhead, side-walk, or other public work, in its original condition.

Second—The said party of the first part hereby agrees to purchase and take from the said party of the second part, for a period of two years on and from August 1st, 1882, all the gas which may be used by the City and County corporation to light the streets thereof within the limits of said City and County of San Francisco, and for said term purchase and take said gas at the rate following: Twelve and one-half cents per lamp for each night during any part of which such gas shall be so used; the lamps to be used in lighting said streets as aforesaid to consist of a single burner of the size now used in the main thoroughfares of the City and County of San Francisco, and the gas to be of a standard quality and illuminating power of not less than seventeen candles, said illuminating power to be determined by tests made by the Gas Inspector in his office in said City and County, who shall use for said tests such burner as will obtain from the gas the greatest amount of light and practicable for use by the consumer, and consuming at the rate of five cubic feet of gas per hour—the party of the second part to furnish and supply the lamps, lamp-posts and service pipes required under the contract at its own expense, and street lights once erected under this contract may be discontinued or removed by consent of both parties hereto, and upon such equitable terms as may be agreed upon.

It is further agreed by and between the said parties of the first and second parts hereto respectively, that during the whole period of time for which this contract shall remain in force and the said party of the second part shall supply to the party of the first part gas under this contract, the party of the second part shall keep in proper condition and in repair all the posts, lamps and appurtenances, and shall be allowed and paid therefor by the party of the first part the additional sum of sixteen and two-thirds (16 $\frac{2}{3}$) cents per month

for each street light, provided that for every street light first put in use after the fifteenth (15th) of any month the charge for the same shall commence on the first of the succeeding month. The first lamp upon each lamp-lighter's beat shall be lighted say one-half hour after sunset, or one hour before the moon sets, and shall be extinguished one hour before sunrise or one hour after the moon rises, except during the last quarter and the first three days of the first quarter of the moon's age, when the lamps shall be lighted and extinguished with sole reference to the setting and rising of the sun, and during the nights of full moon and the night preceding and the night following, the lamps shall not be lighted at all. In case any increase over and above the schedule times of lighting be desired by the City authorities, they shall have the power to increase the lighting hours, paying for such increase for each lamp a price per hour equal to one-tenth (1-10) the nightly rate under this contract.

Third—It is further agreed by and between the said parties of the first and second parts hereto respectively, that during the whole period of the term for which this contract shall remain in force, to-wit, for two years on and from the 1st day of August, 1882, the said party of the first part shall purchase and take from the said party of the second part and the said party of the second part shall supply and furnish to the said party of the first part all the gas which shall be required by the said party of the first part for lighting the public buildings, for the expense of which the City and County of San Francisco is liable—other than those provided for and enumerated in a certain contract made between the said City and County of San Francisco and the San Francisco Gaslight Company, under date of April 28th, 1882, and as expressed and enumerated in Resolution of Award No. 15,675 (New Series) of the Board of Supervisors of said City and County, adopted April 24th, 1882.

The price to be paid by said party of the first part to said party of the second part for gas so furnished for the lighting of all the public buildings other than those already provided for as aforesaid, shall be at the rate of two dollars (\$2) for each one thousand (1,000) cubic feet of gas so furnished by said party of the second part; the said gas so furnished to be of the same standard quality and illuminating power as the gas furnished for lighting street lamps under this contract, and to be tested by the Gas Inspector in the same manner as provided for in the second section of this contract.

Fourth—The party of the second part has accepted and does hereby accept the terms hereinbefore mentioned, and has agreed and does hereby agree to furnish gas and light said streets and keep in repair said lamp-posts and lamps; also, to furnish gas for the lighting of all public buildings, for the expense of which the City and County of San Francisco is liable (other than those public buildings and offices provided for in a former contract and resolution of award hereinbefore referred to) for the compensation which the party of the first part hereinbefore has agreed to pay, the said gas to be furnished by the party of the second part, both for the lighting of street lamps and of public buildings, to be of a standard illuminating power of seventeen (17) candles.

And it is mutually understood and agreed by the parties hereto, as follows:

First—All payments shall be made in gold coin of the United States, excepting that the said party of the second part shall receive and accept, without discount, five per cent. of the amount of each monthly bill due from the party of the first part in silver coin of the United States.

Second—All bills of said party of the second part under this agreement shall be presented and paid monthly at the end of each calendar month.

Third—The said party of the second part shall procure and deliver a bond to the said party of the first part, in form and with principals and sureties to be approved by the Committee on Street Lights of the Board of Supervisors, in the penalty of twenty thousand (\$20,000) dollars, conditioned for the faithful performance of this contract by the said party of the second part.

This agreement is executed on behalf of the City and County of San Francisco in pursuance of Resolution No. 15,835 (New Series) of the Board of Supervisors of said City and County, and Chas. A. Fisher, John F. Kennedy, Henry B. Russ, N. C. Parrish and George

Torrens, composing the Committee on Street Lights of said Board of Supervisors, are not to be in any manner, individually or personally, responsible for or on account of any of the stipulations or provisions herein contained.

In witness whereof the said parties have hereunto set their hands this fifteenth day of September, A. D. 1882.

THE CITY AND COUNTY OF SAN FRANCISCO,

Composing the Committee on Street Lights of the Board of Supervisors of said City and County.

[SEAL.]

THE SAN FRANCISCO GASLIGHT COMPANY,

By P. DONAHUE, President,
W. G. Barrett, Secretary.

Signed in duplicate,
JNO. A. RUSSELL, Clerk.

BOND.

Know all men by these presents, that we, The San Francisco Gaslight Company as principal, and James M. Donahue and P. J. Donahue as sureties for and on behalf of the San Francisco Gaslight Company, are held and firmly bound unto the City and County of San Francisco in the penal sum of twenty thousand dollars gold coin of the United States, well and truly to be paid to the said City and County of San Francisco, for which payment well and truly to be made we hereby bind ourselves, our heirs, executors and administrators, jointly and severally firmly by these presents.

Given under our hands and sealed with our seals this fifteenth day of September, A. D. 1882.

The condition of the above obligation is such that whereas the City and County of San Francisco through its Committee on Street Lights of the Board of Supervisors, did, on the 15th day of September, A. D. 1882, enter into a contract or agreement in writing with the San Francisco Gaslight Company, with reference, among other things, to lighting the public streets of San Francisco with gas, also furnishing gas for the lighting of certain of the public buildings of said City and County. And whereas, one of the conditions of said agreement was that the San Francisco Gaslight Company should give a bond in the penal sum of twenty thousand dollars, conditioned for the faithful performance of said contract on the part of said San Francisco Gaslight Company.

Now, therefore, if the said San Francisco Gaslight Company shall faithfully perform all and every the conditions of the said contract, in every respect and particular, then this obligation shall be void, otherwise to be and remain in full force and effect.

THE SAN FRANCISCO GASLIGHT COMPANY.

STATE OF CALIFORNIA, }
City and County of San Francisco, } ss.

James M. Donahue and P. J. Donahue, being each duly sworn, doth each say for himself and not one for the other, that he is a resident and freeholder in the said City and County of San Francisco, and that he is worth the amount for which he becomes liable on the foregoing Bond, over and above all his debts and liabilities, in unencumbered property, situated within this State, which may be levied upon, and is not exempt from execution and forced sale, and above all sums for which he is already liable or in any manner bound, whether as principal, or indorser, or surety, or whether such prior obligation or liability be conditional or absolute liquidated or unliquidated, certain or

contingent, due or to become due, certain or, contingent, in fixed property, including mortgages, situate in said City and County.

JAMES M. DONAHUE,
P. J. DONAHUE.

Subscribed and sworn to before me, this 15th day of September, 1882.

JNO. A. RUSSELL,

Clerk Board of Supervisors of the City and County of San Francisco.

On September 18th, 1882, the Committee on Street Lights presented the following report, informing the Board of the execution of the contract in compliance with instructions which was received, read, and placed on file.

REPORT OF COMMITTEE ON STREET LIGHTS.

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—Your Committee on Street Lights beg respectfully to report that in compliance with the terms of Resolution No. 15,835 (New Series) of your Honorable Board, they have entered into contract on behalf of the City and County of San Francisco, with the San Francisco Gaslight Company, to light the street lamps, and to furnish gas for the lighting of all public buildings within this City and County, other than those already contracted for, and for which this Board has power to contract, for a term of two years from August 1st, 1882.

The said contract is drawn in strict accordance with the conditions of the said Resolution No. 15,835 (New Series), and was executed on the 15th of September, 1882, and a good and sufficient bond given.

In consequence of a stipulation submitted by the San Francisco Gaslight Company under date of September 5th, 1882, to the effect that from the execution of, and during the existence of the said contract (at that time pending), the price of gas to consumers at large would be \$2.00 per one thousand cubic feet. Your Committee deemed it proper to have the contract referred to, executed on the date named, and now respectfully report their action to your Honorable Board in order that you, and the public generally, may be informed of the exact date from which the reduction in the price of gas to the city and to consumers at large has commenced, and a resolution will be presented to your Honorable Board for adoption, approving the action of your Committee in the premises. * *

C. A. FISHER,
H. B. RUSSE,
N. C. PARRISH.

The following resolution, ratifying and approving the contract entered into on behalf of the City and County with the San Francisco Gaslight Company, was adopted at a meeting of the Board held September 18, 1882:

RESOLUTION NO. 15,883. (New Series.)

Whereas, The Committee on Street Lights of this Board have, in accordance with the provisions of Resolution No. 15,835 (New Series) of the Board of Supervisors of the City and County of San Francisco, entered into a contract on September 15, 1882, on behalf of the said City and County, with the San Francisco Gaslight Company, to light the public streets of said City and County for a term of two years on and from August 1st, 1882; also to furnish gas for the lighting of public buildings not previously contracted for; now, therefore,

Resolved, That the action of the Committee on Street Lights aforesaid, in entering into and executing the said contract on the date above named, with the San Francisco Gaslight Company, be and the same is hereby approved and ratified by this Board.

And the Clerk is hereby directed to transmit a copy of this resolution to the San Francisco Gaslight Company.

In Board of Supervisors, San Francisco, September 18, 1882.

Adopted by the following vote:

Ayes—Supervisors Bodfish, McKew, Shirley, Carman, Molineux, Bradford, Fisher, Russ, Parrish.

Absent—Supervisors Torrens, Merrill, Kennedy.

JOHN A. RUSSELL, Clerk.

In accordance with the agreement made as reported by and between the Committee on Street Lights and the San Francisco Gas Light Company, based upon the action of the

Board, Authorizations Nos. 3,228, 3,230 and 3,232, for payment of demands for lighting streets during the months of May, June and July, 1882, at the contract rate of \$2 per thousand cubic feet for the gas furnished, were finally passed by the Board on September 25, 1882, by unanimous votes, Supervisors Torrens, Fisher and Kennedy being absent.

At the same meeting, Authorization No. 3,234, providing for payment of the demand for lighting streets during the month of August, 1882, at the same rate as per contract, was also finally passed.

On October 6, 1882, His Honor Mayor Blake returned the three first named authorizations without his approval, and with his objections thereto, together with the last named authorization duly approved.

The following is the message of His Honor the Mayor, reciting his reasons for said action, which was received, ordered published, and spread upon the minutes, to wit:

MESSAGE OF HIS HONOR THE MAYOR.

MAYOR'S OFFICE,
CITY AND COUNTY OF SAN FRANCISCO,
October 6, 1882. }

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—I herewith return to you, without my approval, three certain authorizations or resolutions, numbered respectively 3,228, 3,230 and 3,232, and being for the payment of certain sums therein set forth, for lighting streets and repairing lamp-posts and lamps during the months of May, June and July, 1882, the same having been passed by your Honorable Board on the 25th day of September, 1882, and received by me on the day next following.

My objection to the resolutions in question is that, in my judgment, they provide for larger payments than the gas furnished and services rendered are reasonably worth. In the absence of a valid contract to control the price, no more than a fair value should be allowed or paid. There is the same reason for returning these resolutions without my approval that there was for returning without my approval Resolution No. 15,835 (New Series), and reference is hereby made to my communication of August 11, 1882, in relation to the resolution last referred to.

I may as well say in this communication as in another, that I have approved Authorization, or Resolution, No. 3234, for the reason that, though the rates charged in it are the same as those charged in the resolutions herewith returned without my approval, they are based upon a contract, the validity of which I see no reason to question.

All of which is respectfully submitted.

M. C. BLAKE, Mayor.

On October 23, 1882, the following report of the Committee on Street Lights, recommending the passage of said authorizations, was presented, read, and placed on file:

REPORT OF COMMITTEE ON STREET LIGHTS.

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN—Your Committee on Street Lights respectfully beg leave to state in relation to the message of His Honor the Mayor, under date of October 6, 1882, returning without his approval and with objections thereto, Authorizations Nos. 3,228, 3,230 and 3,232, providing for payment being made to the San Francisco Gas Light Company, for lighting the streets, etc., during the months of May, June and July, 1882, that the whole question has been so thoroughly investigated, and so fully reported upon heretofore by your Committee, that any further argument or comment in relation thereto is unnecessary, and would be superfluous.

It is simply proper to state in addition to the many reports upon the subject, that not from assertion, but from an investigation (the facts and figures having been heretofore

presented), it is conclusive that the rate or price for the gas during the months of May, June and July, upon the basis of \$2 per 1,000 cubic feet, is not alone reasonable, but a low price, and the result of the policy and action of this Board will be appreciated by every fair, candid and conscientious citizen as the only safe course that could be pursued to insure to the public and our citizens a reduction of the price of gas to \$2 per 1,000 cubic feet during the continuance of the contract—that is, until August 1, 1884.

Your Committee therefore recommend the passage of the authorizations above enumerated, notwithstanding the objections of His Honor the Mayor.

J. F. KENNEDY,
N. C. PARRISH,
GEORGE TORRENS.

At the same meeting, held October 23, 1882, the authorizations so returned were taken up, finally passed and approved, notwithstanding the objections of His Honor the Mayor, by a unanimous vote, Supervisors Fisher and Russ being absent. This action provided for payment of all the demands due the S. F. Gas Light Company up to August 1, 1882, the date wherein the rate or price was fixed and determined by the contract entered into.

REVENUE ORDERS.

In accordance with the usual custom the Auditor, on June 12, 1882, submitted to the Board of Supervisors estimates of expenditure and revenue for the fiscal year ending June 30, 1883. The total expenditures were estimated at \$4,116,589, the revenue from taxes at \$2,919,489, and from other sources \$1,197,100. The amount of personal and real property subject to taxation being estimated at \$210,000,000, the levy for City and County purposes was \$1.3901 on each one hundred dollars valuation.

The estimates were referred to a Special Committee consisting of all the members, who, after consideration, made such alterations as reduced the estimated expenditures to the sum of \$ 3,713,044, the revenue being provided for by a levy of \$1.2063 on each one hundred dollars valuation of property. The levy being on a basis of \$1 for general municipal expenditures, and 20.63-100 cents for the Funded Debt and Interest Accounts.

The Special Committee presented the following report at a meeting held June 19, 1882, and submitted an order fixing the levy at the amount named, which was passed to print, and at the meeting held on June 26, 1882, said Order No. 1681 was finally passed and on the same date approved by his Honor Mayor Blake :

REPORT COMMITTEE OF THE WHOLE.

To the Honorable the Board of Supervisors of the City and County of San Francisco :

GENTLEMEN—Your Special Committee composed of all the members of the Board, of which the undersigned is Chairman, have had under consideration the estimates of the Auditor on which to base the levy for taxes for the fiscal year 1882-83, and would respectfully report as follows :

Assistant City and County Attorney and Messenger—struck out—

The employment of extra assistance for the City and County Attorney is provided for by the Street Act of 1869-70 as amended in 1871, and since that time assistance has been employed in the matter of suits for the recovery of amounts due for street work performed, for which the City and County is liable in the event of non-collection of the amounts due on assessments issued under the provisions of said Act of 1869-70. These suits have been pending and every expedient has been resorted to by the City and County to effect collections; the City and County under the provisions of the Act not being able to collect the amount due, is liable for the amount, which is estimated at about \$180,000. An opportunity is now offered the City and County to compromise and pay these claims, and secure a reduction of said amount in view of a settlement being provided for. To be sure the payment can be delayed and the litigation prolonged by making the parties entitled under the Act obtain a judgment against the City and County before settling, but as all the questions raised and at issue have substantially been determined against the City and County, there is nothing to be gained by such a course.

The expense of the litigation on the part of the city will be large—in the judgment of the City and County Attorney about \$40,000—and if judgment should be recovered, with interest at ten per cent., at some subsequent period judgments will be augmented to a considerable amount. So far as the litigation is concerned in reference to street cases, there appears no reason for the employment of assistant counsel for that purpose, but if occasion should arise, provision can be made from appropriations for special counsel whenever it may over-tax the City and County Attorney to attend to these suits.

Assessor's extra deputies reduced from \$50,000 to \$40,000—

The total amount in the Auditor's estimate for salaries is \$81,900, namely: Assessor, \$4,000; Assessor's Deputies, \$27,900; and extra Deputies, \$50,000. It appears but reasonable to expect that the salaries to be paid in this department should not exceed the sum of \$71,900, and unless there should be some imperative necessity, it is to be expected that all this amount will not be expended.

Tax Collector's extra deputies reduced from \$25,000 to \$15,000.

The total amount in the Auditor's estimates for salaries is \$39,200: Tax Collector, \$4,000; Tax Collector's Deputies, \$10,200; and extra Deputies, \$25,000. This sum is undoubtedly more than

sufficient if competency and attention to the duties of the office are exacted from the persons employed. With the past experience of the present incumbent, and an endeavor on his part to efficiently administer the affairs of that department, there can be no doubt that he will be successful in keeping the expenditures within the amount allowed.

Registration and Election expenses—

The amount of \$75,000 on the Auditor's estimates for those purposes has been reduced to \$60,000, a sum that ought to be sufficient for these oft recurring and expensive events. While the expense of elections is the result of a defect in the law providing for Precinct Boards of Registration, etc., the expenditures ought to be kept within the estimated amount allowed, and this will depend greatly upon the scrutiny and care of the Board of Election Commissioners.

The estimated amounts of \$1,275 and \$900 for rent of rooms for the Superior Court, Departments Nos. 11 and 12, and rent of chambers for Superior Judges will not be required the next fiscal year, as provision will be made for the accommodation of those Courts and the Chambers of the Judges in the Old City Hall building.

For constructing main and intercepting sewers, the sum of \$144,500 has been reduced to \$25,000—

It is estimated that \$25,000 will be required to pay for the work on existing contracts for the Army Street Sewer extension west and for the completion of the existing contract on Brannan street. The further prosecution of the Brannan Street Sewer can, it is believed, be postponed without any serious detriment until the city can afford to provide means for its completion.

Court Reporters' expenses reduced from \$15,000 to \$10,000—

This reduction is made on the presumption that the latter amount ought to be sufficient to pay for all short-hand reporting and transcription of notes for which the city is liable, and no doubt will be, if any care is evinced in the control of this matter and the charges made for this service are regulated with that view by the Honorable the Judges of our Courts.

County Roads reduced from \$10,000 to \$8,000—

In view of the employment of prisoners on this character of work, this is a sum amply sufficient to expend upon the roads, if the prisoners, maintained at the expense of the City and County, are employed and kept at work repairing them; our citizens have a right to expect and secure by that means good roads.

The estimated amount for the prosecution of the construction of the New City Hall building, fixed at \$200,000, has been stricken off, and no amount provided for that purpose.

As is well known, the Board provided for a transfer of \$50,000 from the General Fund to the New City Hall Fund for the purpose of finishing the Larkin street wing for the Superior Court and chambers of the Judges, and in addition allowed, out of the General Fund, the sum of \$45,208.30, being the amount of a judgment recovered by H. W. Seale for material furnished for the New City Hall building. This allowance was made out of funds raised for the present fiscal year, and was considered sufficient to provide all the accommodation at present required for public offices and Courts in the New City Hall building. It is deemed prudent and good policy to postpone the further prosecution of this work until it shall become absolutely necessary to continue it, and until sufficient funds can be provided without overtaxing our citizens, a liberal allowance being now at the disposal of the Commissioners for fitting up such a portion of the building as can be at present utilized. The accommodations at the Old and New City Hall buildings ought to be and are sufficient for the purposes of the Municipal Government, and as a matter of expediency, ought to be used until means can be raised without oppressing our citizens for its completion. In addition, the power of the Board to make a levy for this purpose is a question upon which there may be doubt, which by this action is avoided.

The estimate of the Auditor for the Street Light Fund has been reduced from \$200,000 to \$150,000.

It is expected that on a settlement and allowance of the demands of the San Francisco Gaslight Company for lighting streets, etc., a material reduction will be effected in a future agreement with that corporation for lighting the streets. This estimate is not based upon any reliable data, because as yet no conference has been had with a view of determining the amount required.

The estimate of the Auditor for the Street Department Fund is reduced from \$330,000 to \$200,000, and while it is not conceded that this amount is sufficient for all the varied requirements of making urgent repairs to streets and sewers, in keeping in good condition accepted streets and sewers, and in cleaning and keeping them clean, in addition to expensive repairs required to streets on the water

front, yet it does not appear possible to make any other or further provision for this department for these purposes, except that in case of exigency, the condition of the General Fund permitting, the Board will transfer from said fund a sufficient amount for the purpose of cleaning the public sewers. In addition, the sum of \$95,130 is added to the Street Department Fund for the purpose of paying, in case of a satisfactory arrangement being made, of claims for street work performed under the Act of 1869-70, making a total of \$235,130 raised for the Street Department Fund.

The Auditor's estimate of the requirements of the School Department Fund is \$700,000.

This is a sum, in the judgment of the Board of Education, wholly inadequate for the proper maintenance of the public schools. As represented by said Board, after careful inquiry and investigation, the sum of \$848,060 was necessary.

Although no doubt exists on the part of the Board of the reliability of the statements, supported as they were by a detailed statement and explanation of the expenditures, yet this Board, although willing to encourage education by affording ample means, cannot provide any amount in excess of \$750,000. In increasing the Auditor's estimate \$50,000, it is believed the people of this City and County, proud of their school system, will be heartily in favor of the amount allowed.

The Auditor's estimate for the Library Fund has been reduced from \$25,000 to \$20,000. It is believed that the management of the Library will accommodate itself to this reduction in view of the exigencies requiring a reduction in municipal expenditures.

The estimate of the Auditor for the Park Improvement Fund is 1½ cents on each \$100 valuation. The amount to be realized, on an estimated valuation of \$210,000,000, would raise but \$31,500. This is a sum wholly inadequate for the purpose of maintaining and keeping the improvements now made in a creditable manner.

Unfortunately the Board has no power to increase the levy for this purpose, it being fixed by statute; but recognizing what it is believed the public generally will acknowledge—the necessity of encouraging the preservation of this very desirable improvement—this Board will, from time to time, on or after the third regular meeting, as provided in the Consolidation Act, make a transfer from the General Fund so as to place at the disposal of the Park Commission a sum including the amount to be raised by levy to aggregate \$48,000 for the next fiscal year.

The intention of the Board is to estimate the different municipal expenditures so as to secure economy in the various departments; and, in so far as our little experience has demonstrated, the levy made, as a whole, ought to be sufficient for the purpose contemplated.

With the exceptions before stated, the Auditor's estimate was adopted.

In conclusion, the result is a tax levy of \$1.00 on each \$100 valuation of property, based on a total valuation of \$210,000,000, for the general expenditures of the Municipal Government. In addition, 20.63 cents to provide for the Sinking Fund, interest accounts of Funded Debt and for the Floating Debt, as follows:

For the Sinking Fund there is required.....	\$216,750
For the interest on City and County Bonds there is required.....	206,215
For the Floating Debt, Williams' Claim, there is required.....	10,325
Making a total of.....	\$433,290

The next levy, therefore, for City and County purposes, will be \$1 20.63 on each \$100 valuation of property.

Further, in conformity with the calculations made by the Auditor, the sum of \$14.43 on each \$100 valuation of the enhanced values of the property benefited by the widening of Dupont street is levied on the property liable for the widening of said street, to provide revenue and pay the interest and five per cent. of Dupont Street Bonds for the fiscal year ending June 30, 1883.

H. MOLINEUX, Chairman.

The following is a copy of the Order numbered 1,681 fixing the levy for City and County purposes for the fiscal year 1882 :

ORDER NO. 1,681.

PROVIDING REVENUE FOR MUNICIPAL PURPOSES FOR THE FISCAL YEAR ENDING JUNE 30, 1883.

The People of the City and County of San Francisco do ordain as follows :

SECTION 1. Under and in pursuance of the Acts of the Legislature of the State of California and in conformity thereto, and under and in pursuance of the various municipal orders and ordinances

and in conformity thereto, there is hereby levied a tax for City and County purposes for the fiscal year ending June 30, 1883, on all property, both real and personal, in the City and County of San Francisco, excepting such property as is by law exempt from taxation, the sum of one hundred and twenty cents and sixty-three one-hundredths of a cent on each one hundred (\$100) dollars valuation of said taxable property upon the Assessment Book for said fiscal year, which sum of one hundred and twenty cents and sixty-three one-hundredths of a cent on each one hundred (\$100) dollars valuation as aforesaid, is hereby apportioned to the funds and accounts known and designated as follows:

	Cts.
General Fund.....	\$0 75.64

The following communication, embodying a statement of the amount required to provide revenue to pay the interest and five per cent. of the principal of Dupont Street Bonds for the fiscal year 1882, was received from the Auditor on June 16, 1882, in accordance with which Order No. 1,682 was finally passed and approved on June 26, 1882 :

CITY AND COUNTY OF SAN FRANCISCO, }
AUDITOR'S OFFICE, June 16, 1882. }

To the Honorable the Board of Supervisors :

GENTLEMEN—Below you will please find the estimated expenditure for the payment of interest on the Dupont Street Bonds, and the annual amount to be raised for the Sinking Fund as authorized by the Statutes of 1875 and 1876, Chapter 326, Section 13, page 439.

Tax to be raised for Sinking Fund, one-twentieth part of \$1,000,000 for bonds issued.....	\$50,000
Interest on \$928,000 at 7 % per annum for Bonds outstanding.....	64,960
Total for Interest Account and Sinking Fund.....	\$114,960

Valuation of property assessed towards the payment of above tax is \$796,947, which places the tax levy for the fiscal year 1882 and 1883 at the rate of \$14.43 on each one hundred (\$100) dollars valuation.

Yours very respectfully,

H. BRICKWEDEL,
City and County Auditor.
WM. STELLING, Deputy.

ORDER NO. 1,682.

TO PROVIDE REVENUE TO PAY THE INTEREST AND FIVE PER CENT. OF THE PRINCIPAL OF DUPONT STREET BONDS FOR THE FISCAL YEAR ENDING JUNE 30, 1883.

The People of the City and County of San Francisco do ordain as follows :

SECTION 1. Under and in pursuance of an Act of the Legislature of the State of California entitled "An Act to Authorize the Widening of Dupont Street in the City and County of San Francisco," approved March 23, 1876, there is hereby levied for the purpose of paying the interest and five per cent. of the principal of the Dupont Street Bonds for the fiscal year ending June 30, 1883, on the enhanced values of the lands within the district described in Section Three (3) of said Act, between Bush and Market streets, as fixed in the final report of the Board of Dupont Street Commissioners, the sum of fourteen dollars and forty-three (\$14.43) cents on each one hundred dollars (\$100) valuation of said enhanced values.

In Board of Supervisors, San Francisco, June 26, 1882.

After having been published five successive days, according to law, taken up and passed by the following vote :

Ayes—Supervisors Bodfish, McKew, Shirley, Carmany, Torrens, Bradford, Fisher, Merrill, Russ, Parrish, Kennedy.

Absent—Supervisor Molineux.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, June 26, 1882.

M. C. BLAKE,
Mayor and *ex-officio* President Board of Supervisors.

The following is a copy of the communication from the State Board of Equalization notifying the Board of Supervisors of the amount of tax for State purposes, to wit :

OFFICE OF THE STATE BOARD OF EQUALIZATION, }
Sacramento, September 16, 1882. }

To the Board of Supervisors of the City and County of San Francisco :

The rate of State tax fixed this day by the State Board of Equalization, as the *ad valorem* rate of taxation levied and to be collected upon each one hundred dollars of the assessed valuation of the property of the State, to raise the specific amount of money required to be raised for the thirty-fourth fiscal year, is fifty-nine cents and six mills (59.6), and the said rate was fixed and apportioned as follows :

For the General Fund.....	27.8 cents
For the School Fund.....	24.3 cents
For the Interest and Sinking Fund.....	7.5 cents
Total rate of State tax.....	59.6 cents

You are therefore, as provided by Section 3714 of the Political Code, required on the first Monday in October next to levy the said rate of State taxation upon the taxable property in the County.

WARREN DUTTON, Chairman,
 JAMES L. KING,
 T. D. HEISKELL,
 WILLIAM JOHNSTON,
 D. M. KENFIELD,
 State Board of Equalization.

ATTEST:

E. W. MASLIN,
 Clerk of the State Board of Equalization.

The Board of Supervisors, acting in compliance with Section 3714 of the Political Code, passed the following Order, based upon the action of the State Board of Equalization, fixing the levy for State purposes:

ORDER NO. 1,690.

PROVIDING REVENUE FOR STATE PURPOSES FOR THE FISCAL YEAR ENDING JUNE 30, 1883.

The People of the City and County of San Francisco do ordain as follows:

SECTION 1 Under and in pursuance of the Political Code, and of the Statutes of the State of California, and in conformity thereto; and in pursuance of the action of the State Board of Equalization and in conformity thereto, there is hereby levied a tax for State purposes for the fiscal year ending June 30, 1883, on all property, both real and personal, in the City and County of San Francisco, except such property as is by law exempt from taxation, the sum of fifty-nine (59) cent and six (6) mills on each one hundred (\$100) dollars valuation of said taxable property upon the Assessment Roll for said fiscal year, which sum of fifty-nine (59) cents and six (6) mills on each one hundred (\$100) dollars valuation, as aforesaid, is hereby apportioned to the funds and accounts known and designated as follows:

For the General Fund.....	27.8 cent
For the School Fund.....	24.3 cents
For the Interest and Sinking Fund.....	7.5 cents
Total.....	59.6 cents

In Board of Supervisors, San Francisco, October 2, 1882.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Bodfish, McKew, Shirley, Carmany, Molineux, Torrens, Bradford, Fisher, Merrill, Russ, Parrish, Kennedy.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, October 4, 1882.

M. C. BLAKE,
 Mayor and *ex-officio* President Board of Supervisors.

FINANCIAL CONDITION OF THE CITY AND COUNTY OF SAN FRANCISCO ON THE FIRST DAY OF OCTOBER, 1882.

The following statement was transmitted by direction of the Board of Supervisors. on October 6, 1882, to the State Controller:
